FORECAST PEAK LEVELS FOR LAKES--- SPRING OF 2006
 February 23, 2006 Forecast

Table 3

	(All Levels are Wind Eliminated and in Feet Above Sea Level)							
	RECENT LEVEL	SUMMER TARGET LEVEL	FORECASTED SPRING CREST			Previous Peak Levels (feet)		
			Favourable	Weather Average	Unfavourable	2003	2004	2005
Big Whiteshell	1017.9	1019.0	1018.2	1018.5	1019.0	1018.5	1020.6	1020.3
Brereton Lake	1036.60	1036.8	1036.8	1037.0	1037.3	1037.2	1037.7	1037.6
Cedar Lake	837.40	831.7-841.8	^839.0	^840.0	^841.0	838.9	841.6	841.9
Clearwater Lake	853.70	852.0-853.0	854.0	854.3	854.6	853.4	853.8	854.2
Dauphin Lake	854.00	854.8	854.0	854.4	855.0	854.3	855.8	857.2
Falcon Lake	1065.30	1065.2	1065.5	1065.8	1066.1	1066.3	1067.1	1066.5
Jessica Lake	1017.70	1017.5	1017.8	1018.0	1018.2	1018.0	1018.6	1017.9
Lake Winnipeg	714.30	711.0-715.0	^714.3	^714.8	^715.5	712.2	714.8	716.55
Lake Manitoba	811.90	810.5-812.5	812.0	812.3	812.8	811.1	811.4	813.35
Lake Winnipegosis	831.40	829.2	831.8	832.2	832.5	829.3	830.4	831.7
Lake St. Martin	801.20	799.0-800.0	*801.3	*801.4	801.5	797.9	797.5	801.6
Lake Of The Woods	1058.20	1060.0	1059.0	1059.5	1060.0	1058.1	1060.8	1061.4
Lake Of The Prairies	1397.70	1403.5	1401.5	1403.5	1407.5	1405.6	1406.7	1406.2
Nutimik Lake	903.10	901.5	903.3	904.3	905.5	901.2	906.2	907.4
Oak Lake	1409.5	1410.0	1409.6	1409.8	1410.2	1410.3	1409.3	1410.4
Pelican Lake	1351.50	1351.5	1351.6	1351.7	1351.9	1350.3	1351.7	1352.5
Reindeer Lake	1104.10	1098-1104.6	1099.8	1100.1	1100.6	1104.2	1104.6	1104.6
Rock Lake	1329.70	1329.0	1330.5	1332.5	1334.5	1330.0	1333.9	1338.5
Southern Indian Lake	846.10	843.0-847.5	^846.5	^847.0	^847.5	845.6	847.4	847.7
Split Lake	551.6	547.5	^548.0	^550.0	^552.5	546.3	551.3	555.2
West Hawk Lake	1091.20	1091.0	1091.4	1091.7	1092.2	1091.4	1093.2	1092.7
North Shoal Lake	856.80	854.5	857.0	857.3	857.8	854.4	855.1	857.3

Notes: Spring levels may be temporarily higher than predicted if strong winds occur.
 Predicted levels include anticipated operation of control works such as dams and diversions
 * Peak level while outlet restricted by ice. Level would be 1.5 and 1.0 feet lower by mid June
 ^ Manitoba Hydro forecasted June crest.
