

Ottawa, April 21, 2004

# CUSTOMS NOTICE N-567

---

## **Certain Filter-Tipped Cigarette Tubes, Originating In or Exported From France**

1. This is to advise that on April 8, 2004, the Canada Border Services Agency (CBSA) concluded a review of the undertakings with respect to filter-tipped cigarette tubes, excluding those which bear the trademark or brand name of a finished or ready-made cigarette, originating in or exported from France, pursuant to the *Special Import Measures Act*.

2. The subject goods are normally imported into Canada under the following ten-digit Harmonized System classification number:

4813.10.00.00

3. The information collected in the course of the review was used to determine whether the undertakings continued to serve the purpose for which they were intended.

4. The CBSA concluded that there is a strong likelihood of the continuation or resumption of dumping should the undertakings be allowed to expire and that such a continuation or resumption of dumping would likely cause material injury to Canadian production of like goods. Accordingly, the President has concluded that the undertakings continue to serve their intended purpose. Therefore, the undertakings are being renewed for a further period of five years, that is, until April 7, 2009.

5. Any questions concerning the above should be directed to:

Customs Trade, Anti-dumping and Countervailing,  
and Appeals  
Canada Border Services Agency  
19th floor, 191 Laurier Avenue West  
Ottawa ON K1A 0L5
