

August 17, 2006

Dear Deana

On our August 9th meeting of our Local Advisory Council (LAC) a motion was passed directing me to apply for intervenor status on behalf of the residents of Marsh Lake on the issue of Yukon Energy's plan to modify their water license for Marsh Lake. Please accept this letter as our request for intervenor status.

The Marsh Lake LAC values an impartial review process that can focus on the issues important to this community. Those issues include the effect of extended water levels on:

- ◆ shoreline erosion
- ◆ fish nurseries
- ◆ swan and other waterfowl habitat
- ◆ drinking water quality
- ◆ property values
- ◆ personal property such as docks
- ◆ septic systems
- ◆ spring thaw and lake ice
- ◆ water channel navigation

Please keep the Marsh Lake LAC and me informed on any additional information as it become available, and any upcoming meetings on this matter.

Thank you very much,

Regards,

Mike Larsen
New Constabulary LAC representative
