Re: Update of Yukon Utilities Board website

Dear Ms. Lemke

The Yukon Conservation Society would like to draw to your attention that the Yukon Utilities Board website is not being updated on a regular basis.

While the e-mail of correspondence to and from the various parties does seem to be cc'd to all those directly involved with the current hearings, it would be helpful if recent letters and responses could be posted on the YUB website.

This is especially helpful for groups such as the Yukon Conservation Society, where volunteers and interested Society members are keen to keep up-to-date on the current Board hearing.

If you have any questions regarding this letter please contact either myself or Ms. Karen Baltgailis at 867-668-5678.

Yours truly,

Lewis Riskind
Energy Coordinator
