Dear Sirs:

Re: Application by Yukon Energy Corporation for review of its 20 Year Resource Plan:
2006-2025

Further to Board Order 2006-10, enclosed please find an update on the Marsh Lake Fall/Winter Storage Project along with updates relating to Yukon Energy's other near term project, those being the Mirrlees Life Extension Project and the Carmacks-Stewart Transmission Line Project.

Also enclosed please find the CVs of the panel members who will be called as Yukon Energy's witnesses next week. In addition to the representatives who attended at the workshop organized by the Board in July 2006 (Messrs. Morrison, Campbell, Osler and Bowman), Dr. Roy Billinton, Yukon Energy's advisor on capacity planning criteria will also be a member of the panel.

If you have any questions please do not hesitate to give me a call.

Yours truly,

DAVIS & COMPANY LLP
