TB/CDC COORDINATOR CAMBRIDGE BAY, NUNAVUT

Under the direction of the Director of Community Health Programs, the TB/CDC Coordinator is responsible for the full range of communicable disease/tuberculosis surveillance and controls activities for the region in accordance with established standards of nursing practice and the philosophy and objectives. The position acts as a resource for other health care professionals in the Kitikmeot Region. The incumbent is the primary specialist for the Kitikmeot Region, who provides guidance and support to other health care professionals within the region.

The successful candidate should have a BN, BScN or a Diploma in Nursing with other equivalencies or related experiences such as a certificate in public health nursing and a minimum of two years public health nursing experience. The successful candidate will have excellent interpersonal, organizational and communication skills, and the ability to work in a cross-cultural setting. The ability to use computers for data entry and reporting purposes is also desirable. Current registration or eligibility for registration with the RNANT/NU is required, as are CPR and a valid driver's license.

Salary Range	\$64,896.00 to \$73,671.00 per annum
Northern Allowance	\$16,220.00 per annum
