

Effective Date:

Traffic Control Device: **Work Zone**

Date of Revision: **March 15, 2002**

Division: **Temporary Warning**

Subject: **Protection from Vehicular Traffic – Enhanced Visibility** Page 1 of 1

Purpose

For safety reasons, all workers exposed to vehicular traffic on a project site must be visible to motorists. This includes anyone walking on or adjacent to any roadway that is open to vehicular traffic.

Policy

Every person (whether directly employed by the Department of Transportation and Government Services or by a contractor doing work on behalf of the Department of Transportation) exposed to the hazard of vehicular traffic on a project site on a street, highway, or other roadway, shall:

- wear fluorescent "blaze" outer clothing during daylight, and
- wear suitably reflectorized outer clothing during periods of low visibility and darkness.

RECOMMENDED: _____
Director, Traffic Engineering

APPROVED: _____
Executive Director
Highway Engineering
