

Traffic Control Device: **Work Zone**

Date of Revision: **March 15, 2002**

Division:

Subject: **Optional Sign Mounting Locations**

Page **1 of 1**

## Purpose

Occasionally it is desirable to locate signs in other than typical locations.

## Policy

Subject to the approval of the Director of Traffic Engineering sign installations may be located in non-typical locations.

## Standard

For specific operations, certain signs may be effectively mounted on the rear of a vehicle stationed upstream of the work or moving along with the work. This may be the working vehicle itself, or a trailing/buffer vehicle provided expressly for this purpose.

Signs should not normally be mounted on barricades. This does not include the CONSTRUCTION ENDS sign (C-1) which is mounted on gateway assemblies and notes the outer limits of a construction area.

RECOMMENDED: \_\_\_\_\_  
Director, Traffic Engineering

APPROVED: \_\_\_\_\_  
Executive Director  
Highway Engineering
