Safety Services Canada

It's time for safety services to **GO TO** the national level!

Be present for the launch of a new approach to safety that will raise the bar and set the standard for services that stretch from coast-to-coast!

WHO SHOULD ATTEND?

“Building a Safe Manitoba” is the 22nd occupational health and safety conference and trade show sponsored by the Manitoba Safety Council. It is the “must attend” event for anyone interested in a practical approach to workplace health and safety issues. This conference gives useful information to those interested in enhancing their skills, knowledge and professional development. Certificates of attendance will be issued to all registered delegates.

If your job includes responsibility for the health and safety or your workplace, “Building a Safe Manitoba” is targeted at you! If you are in senior management, a supervisor, union safety representative, lead hand, occupational health and safety specialist, a safety engineer or involved in any type of staff training or development you will find topics that will assist you and your workforce. Loss and risk managers, contractors and consultants will also find the presentations valuable.

WHY YOU SHOULD ATTEND!

Each year more than 600 individuals gather to learn from one another through networking with their peers, exchanging ideas and exploring new products and services in the trade show. By attending this conference you will:

- Select from more than 28 presentations;
- Hear our experienced keynote speaker Ken Larson present *“Life is a Pile of SHOULD”*;
- Visit all 42 of our trade show exhibitors showcasing the latest in occupational health and safety products and services;
- Network with your peers at “Casino Royale” on Monday evening as we have a conference fun night with food, games, prizes and entertainment by Dean Jenkinson; and
- Earn a reduced rate for multiple registrations for the 6th, 12th and 18th delegate you register.
