2004 Report on Comparable Health Indicators

Yellowknife (November 30, 2004) - The *2004 Report to Residents of the Northwest Territories on Comparable Health and Health System Indicators* has been released.

This statistical publication is the NWT contribution to a set of reports from all provinces and territories, released on November 30, 2004. The information in the reports was collected in the same way across jurisdictions, so it is possible to compare one jurisdiction to another (for example, NWT to Canada).

It is available on the Department's web site: www.hlthss.gov.nt.ca (click on "What's New".)

Senior Health Analyst David MacDonald is available to answer technical questions relating to the report.
