Social Impact Workshop

YELLOWKNIFE (September 28, 2005) – The Department of Health and Social Service would like to invite members of the media to Norman Wells for a Social Impact Workshop.

The workshop will provide a forum for representatives from communities in the Sahtu to identify and discuss social issues and concerns related to pipeline construction and operation. The workshop will also serve as a first step in collaborative planning to monitor and manage negative social impacts from the project.

This is the third and final workshop in response to requests from community leaders made during the “Preparing for the Pipeline Conference”, in Inuvik in December 2004. The previous two regional workshops were held in Fort Simpson and Inuvik.

Where: Norman Wells Community Center

When: Friday September 30, 2005. Registration 8am-9am. Opening prayer 9am
