EXPLORATION - WORK AND SAFETY PROGRAM SUBMISSION

Date: \_\_\_\_\_

**Please note as per Section 15.02.4 of the Mine Health and Safety Regulations  
No work shall commence until the safety program is accepted by the chief inspector.**

In Compliance with Mine Health and Safety Regulation Section	Details
<p>Accommodation - is there a fully equipped emergency shelter with communication at the camp</p> <p>Carrier providing air support for supply runs to/from camp - office location - contact - person's telephone number - trip frequency ie once a week on Fridays...</p>	
<p>(b) a safety program concerning the health and safety of persons employed in the exploration activities that includes</p> <p>(i) particulars of work practices and employee protection,</p> <p>- will there be safety meetings and how frequently will they be conducted - what procedure must be followed by the drill crew if bad weather or mechanical problems prevents access to drill site</p> <p>(ii) procedures for first aid and prevention of hypothermia,</p> <p>- drill crew - field crew</p> <p>(iii) procedures for dealing with fire hazards,</p> <p>(iv) procedures for explosives handling and use,</p> <p>- are there explosives on site</p> <p>(v) procedures for handling equipment and materials when using aircraft,</p> <p>(vi) particulars of survival techniques and survival equipment, and</p> <p>(vii) procedures for diamond drilling, surface trenching and underground exploration.</p>	
<p>15.02.2 The owner shall ensure that all employees are trained in the elements of the safety program by a qualified person appointed by the owner and a record of the training shall be maintained at the exploration site and made available to an inspector on request.</p> <p>- name of qualified person appointed to do the training</p>	
<p>15.02.3 Where a Committee is in place, the Committee shall review the safety program and make recommendations to the person in charge of the exploration site</p>	
<p>15.02.4 No work shall commence until the safety program is accepted by the chief inspector.</p>	
<p>15.03.1 Before an isolated camp is set up, the owner of the camp shall establish means by which emergency assistance and transportation can be obtained at all times.</p> <p>Carrier contracted to perform emergency medical evacuation - office location - contact - person's telephone number</p> <p>is/are the helicopter(s) on site equipped for a medical evacuation using a stretcher</p> <p>how would a broken neck/back type medical evacuations from the field be handled</p>	
<p>15.03.2 The owner shall ensure that means of communication with all worksites operated from an isolated camp are available at all times.</p>	

EXPLORATION - WORK AND SAFETY PROGRAM SUBMISSION

Date: \_\_\_\_\_

**Please note as per Section 15.02.4 of the Mine Health and Safety Regulations  
No work shall commence until the safety program is accepted by the chief inspector.**

In Compliance with Mine Health and Safety Regulation Section	Details
<p>Communications                      - camp site to outside world                      - camp to worksite(s)                      - worksite(s) to camp                      - field crew to camp - helicopter                      other</p>	
<p>15.04 At exploration drill sites, the manager shall ensure that each member of the drill crew has a valid first aid certificate acceptable to the chief inspector</p>	
<p>15.05.1 The person in charge of an exploration site shall ensure that all persons employed at the site are instructed in any potential hazards in the area and are trained in procedures to safeguard themselves against those hazards</p>	
<p>15.05.2 The instruction and training referred to in subsection (1) shall include                      (a) instruction on                      (i) protection from attack by animals,                      (ii) the wearing of appropriate clothing,                      (iii) the use of protective equipment, and                      (iv) the need for navigational or directional equipment to avoid becoming lost; and                      (b) training in                      (i) the use of the equipment referred to in subparagraphs (a)(iii) and (iv),                      (ii) the handling of boats, where necessary, and                      (iii) use of communications equipment in an emergency.</p>	
<p>8.38 To provide for the proper treatment and transportation of persons who may be injured at work, the owner shall supply and make readily accessible to employees, as a minimum, the first aid equipment, supplies, facilities and services specified by this Division                       briefly explain what will be done as a First Aid facility on site</p>	
<p>8.39 First aid equipment, supplies and facilities shall be kept clean, dry and ready for use.</p>	
<p>8.40 First aid equipment shall meet the requirements of Schedules 1, 2 and 3 unless these regulations specify otherwise or unless the chief inspector orders otherwise.</p>	
<p>8.41 Each employee shall be made aware of the location of first aid for his or her worksite and how to call for first aid</p>	
<p>8.42 Signs clearly indicating the location of, and how to call for, first aid shall be posted conspicuously throughout the mine.</p>	
<p>8.43 The manager shall ensure that a first aid facility is in the charge of a person who                      (a) holds a valid St. John Ambulance Advanced First Aid, Level I qualification, or an equivalent or greater qualification;                       note - more then 20 minute from a hospital clause 8.48 applies; it requires St. John Ambulance Advanced First Aid, Level II qualification - (the 80 hour course)                      (b) shall only perform duties which allow the prompt response to a request for first aid and the rendering of first aid in a clean and sanitary condition; and                      (c) is suitably trained to administer first aid in any area of a mine or exploration site.</p>	
<p>8.44 There shall be an effective means of communication between the person in charge of the first aid facility and all worksites to be served.                       how will the first aid person be summoned in an emergency</p>	
<p>8.45 There shall be effective means of communication for the person in charge of the first aid</p>
