## PHYSIOTHERAPY AND OCCUPATIONAL THERAPY

## **Treatment Terms**

A worker's treating physician may refer him/her directly to an approved physiotherapy or occupational therapy program or department for up to six weeks of treatment. Requests from the treating physician, physiotherapist or occupational therapist for extensions of treatment require prior WCB approval.

Prior WCB approval is also required when:

- treatment is being recommended in a clinic other than a centre recognized by the WCB;
- treatment is being provided in a worker's residence; and/or
- more than one treatment is being provided per day.

Physiotherapy or occupational therapy may be recommended for maintenance reasons even after a worker's medical condition has stabilized and an assessment for permanent disability completed. WCB may approve up to six weeks of treatment on a yearly basis when recommended by a treating physician.
