

Good Things Happening in Nova Scotia

Your Energy Rebate.

Nova Scotians will get help with home energy costs starting as early as December 1, 2006. Your Energy Rebate removes the provincial portion of the HST from the cost of home energy. The savings will appear automatically on home energy bills for oil, propane, natural gas and electricity customers, says Jamie Muir, Minister of Service Nova Scotia and Municipal Relations. Those who buy wood, wood pellets, coal, cylinder propane or kerosene after November 30 will submit receipts for their rebate.

For information call 1-800-670-4357 or go to www.yourenergyrebate.ns.ca. It's another good thing happening in Nova Scotia.
