

COMMUNITY TRANSPORTATION ASSISTANCE PROGRAM (CTAP)

Program Guidelines and Application

The Community Transportation Assistance Program (CTAP)
is Administered through Service Nova Scotia and Municipal Relations

PROGRAM GUIDELINES

INTRODUCTION

Objective

The Community Transportation Assistance Program (CTAP) is intended to promote the delivery and provide operating support for cost effective and sustainable community-based inclusive transportation services in low population density communities in Nova Scotia.

Community-based inclusive transportation is defined as: services that respond to the unmet needs of all persons who have a transportation disadvantage. Priorities and needs are determined by the community. Services are developed and provided by non-profit organizations through partnerships by coordinating public, private, non-profit, and volunteer resources and services.

Applications will be considered annually for funding within a fiscal year beginning April 1st and ending March 31st, subject to funding availability.

GUIDELINES

Eligibility

The basis for Program Grants includes the following criteria:

- *funding for the Community Transportation Assistance Program (CTAP) is available to municipalities and non-profit community-based organizations (incorporated groups) involved in the delivery of inclusive transportation services in low-population density areas of the Province.*
- *the grant will only apply to rural and semi-rural service regions with a population density at or below 0.15 persons per acre*
- *service must have at least \$1 million liability insurance and \$2 million passenger hazard on vehicle(s) and meet Nova Scotia Utility and Review Board requirement to have vehicle(s) inspected every 6 months.*
- *Board of Directors and Volunteers must have appropriate liability insurance coverage*
- *grants are not to be used for capital leasing or debt service expenses*
- *grants are to be capped at a minimum service level of 0.2 rides/capita/annum, discounted for levels below this point and will be discounted for any excess surplus*
- *only one service per region will be eligible with no service overlaps*
- *all services must currently be, or intend to be (as demonstrated in the service plan), accessible and inclusive, subject to priorities being established at community level and within license and capacity of local service.*

Funding

The Community Transportation Assistance Program (CTAP) provides financial support to cover a portion of the operating costs of a community-based transportation service. Also, eligible organizations interested in developing new community-based transportation services are eligible for the grant upon approval by SNSMR of a summary business plan.

Province will provide grants at a maximum **\$1.60 per capita** for a population in a service area to eligible organizations subject to funding availability. Grants will be discounted proportionally for service levels below 0.2 rides per capita/annum (Application Form Attached).

CTAP also provides for 'one time' research grants to a maximum of **\$5,000**, based on budget availability, to organizations interested in developing new services in regions to undertake start-up work, including: needs assessments, business and financial planning, organizational development, etc (Application Form Attached).

Applicants eligible for the Support Program may apply for capital funding under the Accessible Transportation Assistance Plan (ATAP), which provides funding of up to **\$20,000** for the purchase of a 'new' accessible vehicle or the modification of an existing vehicle. Applicants are eligible to apply for a maximum of **\$10,000** for a 'used' accessible vehicle (Refer to ATAP application).

Cash Flow of Grant Payments

For each Fiscal year, the grant payment will be paid out in four quarterly payments (with 10% holdbacks) upon approval of application and subject to the applicant meeting the eligibility requirements in the program guidelines. The first grant payment will be retroactive to April 1 for the current fiscal year. Funding may be adjusted based on the applicant meeting target service levels and submitting required documentation. Applications and proposals may be submitted at any time, in any fiscal year for annual funding, based on budget availability, and may be pro-rated depending on the length of time the organization is in service.

Application, Review, and Response Process

Service Nova Scotia and Municipal Relations will conduct reviews and assessments of applications. Applicants will be notified at the earliest possible opportunity when the review is complete. Reviews and awarding of grants cannot be completed until all required information is provided. Grants will be conditional upon the applicants entering into a contractual agreement with the Province containing service performance requirements and reporting.

Checklist of Required Documentation

Please check off each item that you have inclosed. Applications should include the following information/documents.

-
- completed program application form
 - letter of support from Municipalities
 - proof of incorporation and/or charitable status
 - income/expense statements
 - promotional material (brochures, newsletters, recent media releases)
 - map of service area
 - vehicle(s) liability insurance documentation
 - Board of Directors and volunteers liability insurance documentation
 - identify all partner organizations, including details concerning nature of partnerships or collaborations
-

INFORMATION REQUIRED

Applications must contain the following information as well as any required supporting documentation (please attach any additional sheets if space provided is insufficient)

Provide a brief description of your organization (mission, objectives, goals, vision)

Description of need for community-based inclusive transportation services in your community (e.g., estimate current and future number of disabled, senior or disadvantaged persons requiring community-based services, population/demographic forecasting, and identify target service population)

Provide a description of existing service and/or details of your planned service and explain how you intend to provide inclusive and accessible community-based transportation in your service area (include timelines).

Identify all existing inclusive or non-inclusive community-based transportation services in your service area (name, location, type of service, contact number)

If your service requires licensing, what types of services does your license permit you to operate? (i.e., fixed-route, scheduled, unscheduled, accessible, charter, courier, etc.) and identify any licensing restrictions?

GENERAL INFORMATION

Question	Yes	No	Explain
Are you a new service? (If yes, refer to attached application requirements for new services)			
Have you conducted a comprehensive needs assessment of your service area?			
Do you provide service to all persons in your service area? (If no please explain)			
Do you require your passengers to be registered users?			
Is your service incorporated?- if yes, please explain structure: (i.e., society, corporation, or charitable organization)			
Are there restrictions on the public using your service?			
Are you licenced to carry public passengers with the Nova Scotia Utility and Review Board?			
Are you a member of the Nova Scotia Community-based Transportation Association?			
Are you willing to join the Nova Scotia Community-based Transportation Association? (If yes, see attachment)			
Are you willing to join the Dial-a-Ride Nova Scotia Network? (If yes, see attachment)			
Do you require computer-aided dispatching software? (if no, please explain)

CTAP- RESEARCH GRANT

PROGRAM APPLICATION FOR NEW COMMUNITY-BASED INCLUSIVE TRANSPORTATION SERVICES

CTAP will provide for a 'one time' research grant of a maximum \$5,000, based on budget availability, to organizations interested in developing new services in regions to undertake start-up work, including: needs assessments, business and financial planning, organizational development, etc.

Applications for this \$5,000 advance will be considered if the following information is provided:

- Description of organization
- Identify all key contacts/partnership arrangements
- Identify goals of organization and service goals
- Describe approach/methodology to developing business plan and implementing new services
- Describe area to be serviced/targeted service population
- Identify information and resources acquired and required (financial and non-financial)
- Proposed timings of service commencement and completion
- Identify sources of funding
- Include study budget

The completed business plan outline must be submitted to:
