

# C<sup>F</sup>oster Care

## Specialized Foster Care Home Needed

A skilled and loving family is needed to provide a safe and nurturing home for a 14 year old boy from Cape Breton. This personable youth enjoys sports, the outdoors and has tremendous potential and desire to set goals for himself.

Specialized foster families work as part of a professional team with Family and Children's Services and community professionals to ensure the child's needs are met.

This specialized foster family will be required to:

- have training and experience with youths/adolescents
- implement appropriate care giving techniques to meet the needs common for a youth with Post Traumatic Stress Disorder
- be certified or willing to become certified in Crises Intervention, First Aid and CPR
- be willing to attend training and open to working with a support team in the home
- have no other children in the home
- preferably have one stay-at-home parent.

Compensation for specialized foster families is determined by qualifications, experience and the ability to provide 24 hour care.
