## CAUTIONS

The Nova Scotia Securities Commission has not assessed:

- the reasonableness or merit of the Issuer or the Offering;
- whether the Issuer has sufficient financing and managerial expertise to accomplish its stated objectives;
- whether management of the Issuer has the reputation and commitment to conduct the Issuer's business with integrity and in the best interest of the Security holders;
- whether the Promoters and management of the Issuer are receiving unconscionable benefits at the expense of the Security holders; or
- whether any financial forecast or projection contained in this offering document has a reasonable basis;

Investment in small business involves a high degree of risk, and investors should not invest any funds in this Offering unless they can afford to lose a substantial portion of their investment. Potential investors should read all of this offering document, particularly the risk factors on page [insert appropriate page number].

Potential investors should review the information concerning the background of the Issuer's officers, directors and other key personnel and consider whether or not these persons have adequate background and experience to develop and operate the Issuer and to make it successful. In this respect, the experience and ability to manage are often considered among the most significant factors in the success of a business.

After reviewing the "Use of Proceeds" on page [insert appropriate page number] potential investors should consider whether the amounts available for future development of the Issuer's business and operations will be adequate.

A Security holder may have rights of rescission or an action for damages in circumstances which are described in this offering document beginning on page [insert appropriate page number].

THERE IS NO ORGANIZED MARKET THROUGH WHICH THE SHARES MAY BE SOLD. IT MAY BE DIFFICULT OR EVEN IMPOSSIBLE FOR THE INVESTOR TO SELL THEM.

Potential investors should also consult their professional advisors before investing.

This offering document, together with the documents incorporated herein by reference and forming part of this offering document, and the attachments thereto contain all of

the representations by the Issuer concerning this Offering and no person shall make different or broader statements than those contained herein. Investors are cautioned not to rely on any information not expressly set forth in or attached to this offering document.

This offering document, together with financial statements and other attachments, consists of a total of \_\_\_\_ pages.

arbitrarily by the Issuer

otherwise (explain)

4. Total proceeds if maximum sold:

5. Minimum number of Shares offered:

6. Total proceeds if minimum sold:

8. Minimum number of investors required:

[A CEDC is required to indicate how the minimum number of investors required meets the concept of a "community based" project.]

9. Total estimated costs of the Offering:

## **RISK FACTORS**

10. Taking into consideration the factors noted below, list in the order of importance the factors which the Issuer considers to be the most substantial risks to an investor in this Offering in view of all known facts and circumstances (i.e., those factors which constitute the greatest threat that the investment will be lost in whole or in part, or not provide an adequate return).

(a) There is a lack of direct investment experience by the Fund, its promoters and its Board which may result in a "learning curve" respecting the placement of equity investments. This, in turn, may reduce the performance of the Fund, and hence is the primary risk factor identified prior to the Offering.

(b) While it has been assumed that there are more potential investments within the community than the Fund can participate in, there remains a risk that the Fund will not be able to access these deals and/or will not be able to negotiate an agreeable financing arrangement with the partners of the target investment.

(c) The investments made by the Fund will have returns which are directly attributable to the performance of the companies invested in. Therefore, the risk associated with an economic downturn in the local community is real and must be factored into the decision. Therefore, investments which were prudent at the time of investment may not prove profitable over the term they are maintained.

(d) There are limited opportunities available for exiting the Fund, i.e., liquidity risk. The reader is instructed to refer to item 57 for a full disclosure of the limited options for the resale of these securities.

(e) Another risk factor considered to be potentially material to an investor is the opportunity cost of capital should the offer not close. Depending upon the dates involved in the offering, an investor who chooses this investment may lose the opportunity to invest in another tax-assisted investment (e.g., Labour-Sponsored Venture Capital Corporations) due to the limitation on investment (60 days).

(f) The Shares are speculative in nature. An investment is appropriate only for investors who are prepared to have their money invested for a long period of time, and who have the capacity to absorb a loss of some or all of their investment.

(g) There is no organized market through which the Shares may be sold. Therefore, investors may find it difficult or even impossible to sell their Shares.

(h) There are restrictions on the resale of the Shares. See item 57 for details.

(i) The Issuer may not achieve a level of profitability to permit dividends to be paid. Investors should not count on any return from these Shares.

(j) Investors who deposit the Shares in a self-directed RRSP should not depend on selling the Shares or income from the Shares to fund their retirement.

(k) Tax laws frequently change.

**Please add only the applicable risk factors in bold and capital letters and fill in the blanks from the following:**

(L) IF THE OFFERING FAILS TO MEET THE MINIMUM INITIAL CLOSING CONDITIONS AS PER ITEM #16 AND CLOSE BY XXX, AS STATED IN ITEM #17, INVESTORS WILL NOT HAVE TIME TO ARRANGE ALTERNATE RRSP ELIGIBLE CONTRIBUTIONS FOR THE 200\_ TAXATION YEAR.

(M) THE OFFERING IS NOT CLOSING BY MARCH X, 200X\_. THEREFORE THE 30% PROVINCIAL EQUITY TAX CREDIT WILL BE APPLICABLE TO THE 200\_ TAXATION YEAR.

(N) THE OFFERING IS NOT CLOSING BY MARCH X, 200\_. THEREFORE INVESTMENTS WILL NOT BE ELIGIBLE RRSP CONTRIBUTIONS FOR THE 200\_ TAXATION YEAR.

(O) IF THE CLOSING DATE FOR THE OFFERING UNDER WHICH A SUBSCRIBER PURCHASES SHARES IS WITHIN 60 CALENDER DAYS AFTER A CALENDER YEAR END, THE SUBSCRIBER HAS THE OPTION TO APPLY THE EQUITY TAX CREDIT FIRST TO EITHER THE PREVIOUS OR CURRENT TAXATION YEAR. UNUSED AMOUNTS MAY BE CARRIED BACK THREE YEARS OR FORWARD SEVEN YEARS. THE EQUITY TAX CREDIT MAY ONLY BE USED AS A CREDIT AGAINST PROVINCIAL NOVA SCOTIA TAXES PAYABLE. THE CREDIT IS NOT REFUNDABLE.

**PLAN OF DISTRIBUTION**

<b>Name</b>	<b>Address</b>	<b>Business Phone #</b>	<b>Fax #</b>

(a) Also indicate whether the Issuer will indemnify the selling agents or Finders against liabilities, if any, under the securities laws.
13. Describe any material relationship between any of the selling agents or Finders and the Issuer or its management.

**NOTE:** After reviewing the amount of compensation to the selling agents or Finders for selling the Shares, and the nature of the relationship between the selling agents or Finders and the Issuer, a potential investor should assess the extent to which it may be appropriate to rely upon any recommendation by the selling agents or Finders to buy the Shares.

Please refer to #51 & #54 for additional information on the relationship between parties.

**NOTE on selling agents and Finders:**

Potential investors should carefully consider the following points when evaluating any recommendation by the selling agents or Finders to buy the Shares:

- (a) Amount of compensation received by the selling agents or Finders to sell the shares;
- (b) The nature of the relationship between the selling agents or Finders and the Issuer; and
- (c) Unlike most securities offerings, the selling agents and Finders are not required to be registered under the Act to trade securities and therefore, when investors purchase the Shares through unregistered selling agents or Finders, they should be aware that:

i) They will not have the protections afforded by certain requirements and standards imposed on “registrants” under the Act, including proficiency standards, reporting requirements, “know your client” requirements and “suitability” requirements; and

ii) Unregistered selling agents and Finders are generally prohibited by the Act from giving investment advice to potential investors unless permitted to do so by an exemption expressly set out in the Act or granted by the Nova Scotia Securities Commission under the Act.

[Unless the Director has granted an extension, this date must be not more than 90 days from the date of issuance of a letter of non-objection in respect of the offering document by the Director of Securities pursuant to the *Community Economic-Development Corporation Regulations*.]
18. If the minimum offering amount and all other conditions of the initial closing are not achieved on or before the time specified in item 17, and no extension has been granted by the Director, the Offering will be withdrawn and all of the proceeds of subscription, without interest, will be returned to the subscriber within 30 days of the date that the Offering was to close.
19. The following are conditions of each subsequent closing of this Offering:
  - (i) there has been no material change in material contracts referred to in item #16(b);

## **CANADIAN INCOME TAX ACT CONSIDERATIONS**

53. This commentary is of a general nature only and is not intended to be tax advice to any particular investor. Prospective investors are urged to consult with their own professional advisors regarding the tax consequences applicable to them.

There may be significant income tax consequences to individuals who are residents of Canada under the *Income Tax Act* and the *Equity Tax Credit Act*.

The following is applicable to any individual (a “Subscriber”) who subscribes for and is issued shares of the Issuer pursuant to the Offering and who is:

- i) an individual over 19 years of age.
- ii) resident in Canada for purposes of the Income Tax Act (Canada); and
- iii) resident in Nova Scotia for purposes of the Equity Tax Credit Act (Nova Scotia).

Subject to the assumptions set out in the paragraph above, a Subscriber will be entitled to a credit against the Subscriber’s Nova Scotia provincial income taxes payable pursuant to the Equity Tax Credit Act. The amount of the credit is equal to 30% of the amount paid for the Shares, provided that each individual is limited to a maximum credit in any year of \$15,000. Shares subscribed and paid for in the first 60 days of any calendar year will be entitled to a credit in either that year or the immediately prior year. If the credit exceeds the Nova Scotia income tax otherwise payable in that year by the Subscriber, the credit may be carried forward 7 years and back 3 years and applied against Nova Scotia taxes otherwise payable in any of those years by the Subscriber.

These statements are subject to the following assumptions:

- i) The certificate of registration issued to the Issuer under the Equity Tax Credit Act is not revoked by the Minister of Finance prior to the issue of shares under this Offering;
- ii) The Issuer applies for a tax credit certificate after the Offering within the time limits established under the Equity Tax Credit Act;
- iii) The Minister of Finance concludes that the Issuer and its directors, officers and shareholders are conducting the Issuer’s business and affairs in a manner that is in accordance with the spirit and intent of the Equity Tax Credit Act;

iv) The Minister of Finance concludes that the Issuer and the Subscribers are complying with Equity Tax Credit Act;

v) The Minister of Finance does not form the opinion that the shares are issued as part of a transaction or event or series of transactions or events the main purpose of which is to claim the tax credit pursuant to the Act.

Except as set out herein, if a Subscriber fails to hold the Shares for 5 years after their issue, then all Credits earned in relation to the subscription for such Shares must be repaid. For any shares which subsequent tax credits are issued, the shares must be held for an additional period of time to avoid repaying these tax credits, please see item #14 in the glossary. The requirements to repay the Credits do not apply in cases where the Subscriber has died or in cases where the Subscriber transfers the shares to a trustee under a registered retirement savings plan.

There may be significant income tax consequences to individuals who are residents of Canada under the Income Tax and the Equity Tax Credit Act.

#### **Transfer of Shares to an RRSP:**

Provided that the registration of the Issuer is not revoked under the Equity Tax Credit Act, the Shares will be qualified investments under the Income Tax Act for trusts governed by registered retirement savings plans. The transfer of shares to an RRSP will normally be done at the adjusted carrying value of the securities. This may result in a taxable capital gain or a non-deductible loss. Individuals who plan to purchase shares outside their RRSP, but transfer them later to their self-directed plan should consider the possible tax consequences of such transactions prior to finalizing any agreement.

#### **Taxation of Dividends or Income Received by Security Holders on the Shares:**

Shareholders who hold shares within their RRSP need not be concerned with the manner in which the Fund distributes earnings. However, for individuals who purchase shares outside of the RRSP, consideration must be given to the tax implications of dividends versus interest income versus capital gains. Dividends received or deemed to be received on the Shares will be included in computing the Subscriber's income and will be subject to the gross-up and dividend tax credit rules normally applicable to taxable dividends received from taxable Canadian corporations.

### **Treatment of Capital Gains or Losses Realized by Security Holders on Disposition:**

Persons holding shares within their RRSP need not concern themselves with the form returns are paid. For individuals who choose to hold these shares outside of their registered holdings, 50% of any capital gain (the “taxable capital gain”) realized on a sale or other disposition of the Shares will be included in the Subscriber’s income for the year of disposition. 50% of any capital loss so realized (the “allowable capital loss”) may be deducted by the holder against taxable capital gains for the year of disposition. Any excess of allowable capital losses over taxable capital gains of the Subscriber for the year of disposition may be carried back up to three taxation years or forward indefinitely and deducted against net taxable capital gains in those other years.

### **Applicability of Alternative Minimum Tax to Security Holders:**

Investors are advised to seek professional advice from a qualified individual should they be in a position which may expose them to alternative minimum tax treatment. Capital gains realized by the Subscriber may give rise to alternative minimum tax under the Income Tax Act (Canada).

### **Deductibility of Interest Expense on Money Borrowed to Purchase Shares:**

Interest incurred to earn income on investments held outside of ones RRSP is deductible against the income earned thereon; interest incurred on loans to purchase RRSP assets is not deductible.

### **Availability of Tax Credits:**

Purchase of eligible shares entitles the investor to a provincial tax credit in the amount of 30% of the funds invested.

### **Repayment of Tax Credits:**

The shares purchased under this program must be held by the purchaser for a period of not less than 5 years. If they are not held for this period the individual will have to repay the tax credits previously claimed. For any shares which subsequent tax credits are issued, the shares must be held for an additional period of time to avoid repaying these tax credits, please see item #14 in the glossary.

Under the terms of the *Community Economic-Development Corporations Regulations*, trades by a Security holder of Shares of the Issuer purchased under this Offering will be restricted and, pursuant to subsection 80(5) of the Act, each first trade and each subsequent trade will be a distribution unless such trade is made in accordance with subsection 77(5) of the Act as if the Shares were acquired under clause 77(1)(p) of the Act unless the trade is made:

- i to the Issuer;
- ii to a self-directed registered retirement savings plan of the Security holder or the Security holder's spouse or to the spouse of the Security holder;
- iii from a self-directed registered retirement savings plan of the Security holder or the Security holder's spouse to the Security holder;
- iv to a purchaser who owns shares of the Issuer and who is advised in writing by or on behalf of the vendor prior to entering into an agreement of purchase and sale that the purchaser shall not accrue any advantage under the *Equity Tax Credit Act* as a result of such purchase; or
