

Labour Support Program

An Exclusive Offer to Labour Training Centers

Comprehensive health, safety and environmental information for the Labour community

The Labour Support Program from CCOHS – providing unlimited training center access to the following four online services and their respective databases:

MSDS

CHEMpendium™
featuring CHEMINFO

RTECS®

OSHLINE™ with NIOSHTIC®

The Labour Support Program from CCOHS brings together four important environmental and occupational health and safety database collections, selected and priced specifically for the Labour community.

It assists labour training centres in their efforts to educate trainees about workplace health and safety and the importance of a safe and healthy working environment.

Online Training Centre-w

What our clients are saying...

"The Labour Support Program is excellent."

LYLE HARGROVE
CAW Training Centre
Port Elgin, ON

The Labour Support Program from CCOHS is an ideal resource for:

Labour training centres

Labour training centre libraries

Labour union members with health and safety responsibilities

Together these databases provide information on a broad range of environmental and occupational health and safety topics including:

Occupational hygiene

Hazardous chemicals

Human health effects of substances

WHMIS

Hazard communication

Toxicology

Case studies

Educating workers about access to chemical information relevant to their workplaces and the environment

The Labour Support Program database collection is designed to assist:

Training centre facilitators in their educational role to develop their member's knowledge and skills regarding environmental and occupational health and safety in all relevant training areas

Labour health and safety representatives in their responsibility to ensure a

safe and healthy working environment for their organizations

Labour representatives and members within the context of their workplace health and safety training courses and their respective work and labour-oriented roles

Unlimited Training Centre-wide access to the following four online services:

Hazardous Substance Information

CHEMpendium™

Complete chemical hazard data

CHEMpendium includes the following databases:

DSL/NDL The Domestic Substances List (DSL) and the Non-Domestic Substances List (NDL) created in accordance with the Canadian Environmental Protection Act (CEPA) by Environment Canada.

NIOSH Pocket Guide A practical source of information for recognizing and controlling workplace chemical hazards.

HSDB The Hazardous Substances Data Bank (HSDB) contains comprehensive data profiles on over 4,500 potentially toxic chemical substances.

CHEMpendium™ covers:

- › Transport of hazardous materials
- › Chemical toxicity
- › Industrial chemicals and environmental contaminants
- › Workplace safety
- › Regulatory compliance
- › WHMIS and Right-to-Know
- › Canada's Domestic and Non-Domestic Substance Lists (DSL/NDL)
- › Emergency response

Also featuring CHEMINFO

Detailed profiles of more than 1,300 common workplace chemicals.

Used by thousands of organizations for over 20 years to help meet their compliance needs for chemical information.

as well as many other useful online services.

Wide Access to Four OSH Databases

Provides essential information on health, fire, and reactivity hazards, safe work practices, first aid and more.

CHEMINFO can help you perform these and many others tasks:

- › Conduct workplace hazard assessments
- › Prepare chemical-specific training tools for your WHMIS training program
- › Verify information in MSDSs you use
- › Develop your chemical emergency preparedness plan
- › Locate WHMIS classifications for chemicals that don't appear on manufacturer's MSDS
- › Create personal protective programs – chemical-specific respiratory protection and others

WHMIS Compliance

MSDS

Material Safety Data Sheets

Manage and comply with hazard communication, WHMIS and other right-to-know requirements quickly and efficiently

Instant access to nearly 300,000 current Material Safety Data Sheets, obtained directly from 2,000 North American manufacturers and suppliers.

RTECS®

Registry of Toxic Effects of Chemical Substances – originally supplied by NIOSH – now licensed through MDL Information Services, Inc.

Critical toxicological information with citations on more than 140,000 common and rare chemical substances. The easiest way to access authoritative toxicological data from more than 2,500 international journals, textbooks, technical reports, scientific proceedings and compendia.

Search detailed toxicity data and reviews easily (including tumorigenic data, carcinogenicity status, reproductive effects and mutagenic effects) using a master index and comprehensive library of toxic effects codes.

Original NIOSH codes and acronyms have been replaced by full-text descriptions and explanations, making the data readable and instantaneously usable.

1,000 new records and 6,000 updates added every quarter.

Health & Safety Reference

OSHLINE™ with NIOSHTIC®

OSHLINE supplied by CCOHS. *NIOSHTIC* supplied by the US National Institute for Occupational Safety and Health (NIOSH)

A powerful resource for searching more than 100 years of OSH related literature.

Packaged together with NIOSHTIC, OSHLINE™ is a trusted source for international OSH references including peer reviewed journal articles and abstracts, research reports, conference proceedings, studies and more.

One-stop access to more than 200,000 health & safety related records.

Provides both current information and a historical perspective, including references to hard-to-obtain toxicology studies from before 1960.

Covers many disciplines, including behavioural science, engineering, toxicology, occupational hygiene, medicine, nursing and safety.

Updated quarterly to include the most recently published references.

CCOHS – a trusted source

The Canadian Centre for Occupational Health and Safety (CCOHS) is a national non-profit organization that collects, evaluates and distributes information on workplace health, safety and the environment from sources around the world. Recognized internationally as an innovative and expert resource, CCOHS is governed by a Council with representatives from employers, labour and government, and as such is committed to providing impartial and accurate information to all its clients.

CCOHS represents Canada in the International Labour Organisation's CIS National Centre Program, and is a World Health Organization (WHO) Collaborating Centre.

The CHEMINFO Search page (above) shown here with a portion of the Potassium Cyanide profile from the CHEMINFO database

Training Centre-wide access to an unlimited number of users delivered via the web!

SECTION 3. CHEMICAL IDENTIFICATION
CHEMINFO Record Number: 341
CCOHS Chemical Name: Potassium cyanide
Synonyms:
 Cyanide of potassium
 Hydrocyanic acid, potassium salt
 KCN
 Potassium cyanide (K(CN))
Number(s): 158750000
Chemical Family: Potassium and compounds / inorganic potassium compound / alkali metal compound / inorganic nitrogen compound / alkali metal cyanide / cyanide salt
Molecular Formula: C-K-N
Structural Formula: K.C#N (# represents a triple bond)
Status of Record:
 The CHEMINFO record for this chemical is complete. The full format provides a description of health, fire and reactivity hazards, as well as information on topics such as handling and storage, personal protective equipment and first aid.

Subscription includes exceptional client service and support from CCOHS' team of OSH, environmental and IT experts

Pricing

\$1,195 annually

All products purchased for use outside Canada are payable in US funds only.

Providing unlimited online access per Training Centre location.

Your annual subscription to the Labour Support Program on the Web includes:

-) FREE technical support
-) LIAISON (quarterly user newsletter)
-) Access to Subscriber Extras!

Ordering
