**Bulletin 1-04**

**December 21, 2004**

**To: All Automobile Insurers Licensed in Alberta**

**Subject: Filing Requirements for Physical Damage**

Every insurer that offers additional coverage under private passenger rating programs is obliged under Part 2, Section 9(1) of the Automobile Insurance Premiums Regulation to file with the Board by February 1, 2005 (a) its rating program for additional coverage, and (b) the rates under the rating program applicable to each type of additional coverage.

This initial filing establishes a baseline for each insurer from which to measure future changes. As these rating programs are those in place as of October 30, 2003, an actuarial analysis is not required for this initial submission. The filing package must include:

- Automobile manual pages that relate to the premiums for all additional or optional coverage and the rules that govern the application of those premiums.
- The base premiums for collision, comprehensive and specified perils for each rating territory and applicable differentials for class, driving record, deductibles and vehicle rate groups.
- The 2004 average premiums for collision, comprehensive and specified perils for each rating territory and average differentials for class, driving record, deductibles and vehicle rate groups.
- Company experience for 2004 for collision, comprehensive and specified perils for each rating territory and in total displaying written and earned vehicles, written and earned premium, number of claims incurred, incurred claims and adjustment expenses and loss ratio. The Board will exercise flexibility on the receipt date for this portion of the filing. Please indicate what date you expect to forward this exhibit if it does not accompany the balance of the submission.

Please contact the Board with any questions. The telephone number is 780/427-5428. You can also me at [Peter.Thomas@gov.ab.ca](mailto:Peter.Thomas@gov.ab.ca) or [Susan.Steeves@gov.ab.ca](mailto:Susan.Steeves@gov.ab.ca).

Further information will follow at a later date on the requirements for filing changes to existing rating programs for additional coverage and for other notices and applications under the regulation that are available as of October 1, 2005.

Attached are guidelines for the data format that you must file with your submission.
