

Just another day
AT THE OFFICE

TRAVIS RIPLEY, FISHERIES BIOLOGIST

WORKING FOR ALBERTA'S NATURAL RESOURCES

Alberta
SUSTAINABLE RESOURCE
DEVELOPMENT

BIOLOGIST

get hooked on fish!

"Since I really enjoy the outdoors, it was a natural fit. There's never a dull day, and that's the way I like it!"

Alberta
SUSTAINABLE RESOURCE
DEVELOPMENT

Developing and enhancing fisheries for Albertans to enjoy—that's how Travis Ripley makes his living. "Whether it's lake trout, walleye, arctic grayling or bull trout, we're committed to managing all species," says Travis.

Whether he's evaluating trout stocks in rivers or developing management targets for fisheries, it's obvious Travis loves his job. "The variety of my work is what I find most exciting."

Besides working in the field, Travis helps develop fish management strategies and provides advice to industry.
