INTRODUCTION

What is the Alberta Health Care Insurance Plan?

The Alberta Health Care Insurance Plan (AHCIP) was established by the Government of Alberta to provide Alberta residents with coverage for medically necessary hospital and physician services. The AHCIP provides coverage for all insured services required by federal legislation. Over time, the AHCIP has expanded its coverage to include additional services provided by other health care practitioners.

The AHCIP offers two categories of coverage:

- basic health services
- Alberta Blue Cross non-group coverage.
- basic health services coverage, available to all Albertans, includes full benefits for medically required services provided by physicians and dental/oral surgeons, and limited coverage for providers such as chiropractors, optometrists and podiatrists. There is a monthly premium for coverage.
- Alberta Blue Cross Non-Group Coverage, available to Albertans, provides supplemental health insurance plans for pharmaceuticals and other selected health services. These supplemental plans are funded by Alberta Health and Wellness and administered by Alberta Blue Cross. Premium-free coverage is offered to seniors and their dependants, to recipients of the Alberta Widows' Pension and their dependants, and to people who have been diagnosed as palliative and receive their treatments at home. A universal plan is available to Albertans under the age of 65 and their dependants, subject to the payment of a quarterly premium.

What is the *Statistical Supplement*?

The *Statistical Supplement* is published by Alberta Health and Wellness every year to provide statistics relating to the AHCIP, primarily the number of people registered and the fee-for-service payments made to Alberta physicians and allied practitioners (namely, dental/oral surgeons, chiropractors, optometrists and podiatrists). A few statistics on payments for out-of-country services provided by physicians and other health care practitioners are also included as well as, statistics on Alberta Blue Cross Group Coverage.

This year, for the first time, data on Alternative Payment Plan (APP) and Alternative Funding Plan (AFP) are included.

How is data reported in the *Statistical Supplement*?

The *Statistical Supplement* is reported on a date-of-service basis (i.e., services provided during the reporting period), with the exception of Section 4. This section (Alberta Blue Cross Non-Group Coverage) of the *Statistical Supplement* incorporates data covering the 2002/2003 fiscal year (April 1, 2002 to March 31, 2003) on a date-of-payment basis (i.e., services paid by the AHCIP during the reporting period). These tables include all payments made to subscribers on a daily basis, to pharmacy providers on a bi-weekly basis and to other providers on a weekly basis.

What information is not included in the *Statistical Supplement*?

AHCIP payments for medical and hospital services provided in other Canadian provinces are not included in the *Statistical Supplement*.

Other expenditures not included in the *Statistical Supplement* are: Regional Health Authorities (RHA) (e.g. hospital costs and home care), Alberta Cancer Board, and other program expenditures which are not directly paid by the AHCIP. Information on these costs can be obtained in the *Alberta Ministry of Health and Wellness Annual Report 2002/2003*.

Subject Headings

The five subject headings found in this publication are:

SECTION 1: REGISTRATION DATA

Provides statistics on the number of people covered under the AHCIP for basic health services. These tables are broken down by premium status and subsidy levels, and by age and gender.

SECTION 2: BASIC HEALTH SERVICES — PHYSICIANS AND ALLIED HEALTH PRACTITIONERS

Provides information on payments for basic health services to Alberta physicians and allied practitioners (dental and oral surgeons, chiropractors, optometrists and podiatrists). The statistics for physician services cover payments by specialty and type of service; by patient age and gender; changes in schedules of benefits (Alberta Health Care Insurance Plan payment rates); and Out-of-Country basic health services. Statistics related to the Out-of-Country Health Services Program are also included.

SECTION 3: REGIONAL DATA

Compiles statistics related to fee-for-service payments within each of Alberta's 17 health regions including distribution of registered population, number of physicians and average payments, and payments by International Classification of Diseases.

SECTION 4: ALBERTA BLUE CROSS NON-GROUP COVERAGE

Offers data on the number of people covered, premium status and payments for pharmaceuticals, ambulance services and other benefits.

SECTION 5: ALTERNATE PAYMENT PLAN (APP) AND ALTERNATE FUNDING PLAN (AFP)

Includes data on the number of plans and the number of physicians providing services.

Longer-Term Comparisons

The *Statistical Supplement* is a five-year statistical report to facilitate long-term comparisons when feasible. However, regional data are provided only for the current year. Because regional boundaries can change and these data are not adjusted, prior year data may not be fully comparable.

Your Input Is Appreciated

Feedback is invaluable in making future statistical supplements as easy to read and use as possible.

SECTION 1: REGISTRATION

Summary

This section provides information on the number of persons covered by the Alberta Health Care Insurance Plan (AHCIP) for basic health services. The tables show registration data broken down by type of premium status and subsidy level, and by age and gender.

BASIC HEALTH COVERAGE

In 2002/2003, 3,124,487 Albertans were entitled to basic health services. This number increased 1.7 per cent from the previous year. The number of persons who received at least one service in Alberta during the year was 2,642,193 (84.6 per cent) of the total number of registered residents.

COVERAGE BY PREMIUM STATUS AND SUBSIDY LEVEL

There are four categories of premium status: individual and group, seniors, widows' pension, and social allowance recipients.

- The individual and group category is the largest with 2,688,693 recipients. This category is comprised of individuals who make premium payments directly to Alberta Health and Wellness, as well as employers (groups) who submit Alberta Health and Wellness premiums on behalf of their employees. 250,961 or 8.7 per cent of people in this category received subsidized premiums, a decrease of 20,250 or 8.1 per cent in comparison to 2001/2002. Full subsidies were received by 215,714 recipients, a decrease of 6.7 per cent and partial subsidies by 35,247, a decrease of 11.7 per cent.

- The number of persons covered in the Seniors category in 2002/2003 increased by 2.0 per cent from 347,497 in the 2001/2002 year to 354,589. In this category, more than half received partial or full subsidies; 19,052 received partial subsidies and 177,165 full subsidies.
- The number of persons with Alberta Widows' Pension coverage decreased by 6.3 per cent from 2,390 in the 2001/2002 year to 2,239. All of these individuals received premium-free coverage.
- The number of social allowance recipients receiving premium-free coverage increased by 4.5 per cent from 75,540 in the 2001/2002 year to 78,966.

Overall, 14.3 per cent of the total population covered by the AHCIP paid reduced premiums or were fully exempt from paying premiums.

COVERAGE BY AGE AND GENDER

Figure 1 shows the distribution of persons covered for basic health services by age and gender.

Figure 1
Distribution of Population Covered for Basic Benefits
By Age and Gender for the Service Year April 1, 2002 to March 31, 2003

Registration data for Alberta Blue Cross
 Non-Group Coverage can be found in section 4.

OPTING OUT

Every year, individuals choose to opt out of the AHCIP. In 2002/2003 this number increased to 329 compared to 316 in 2001/2002. These individuals are responsible for paying for their own health services. People who opt out must do so for a full benefit year, which is July 1 to June 30 yearly.

Explanatory Notes

REGISTRATION

Registration data are based upon actual registrations on the AHCIP files. These differ from Statistics Canada provincial population estimates. The differences are accounted for by the continual updating of AHCIP data, by persons being temporarily absent from the province for educational purposes, and by registrants who have left the province but retain coverage for a period of three months.

The coverage figures do not include members of the Armed Forces, R.C.M.P., or inmates in federal penitentiaries, who are covered by the federal government.

The number of registrations differs from the number of persons covered. There is usually one registration per family household. The number of persons covered under one registration can range from one (as in single coverage) to two or more (as in family coverage). Details regarding the number of registrations can be found in Tables 1.1 and 1.2.

Registration status is determined on the last day of the fiscal year. If someone was registered with the AHCIP for part of the year, but not on March 31, they are not included.

WIDOWS' PENSION PROGRAM

The Alberta Widows' Pension Program was introduced on May 1, 1983, to assist widows and widowers of limited income ages 55 through 64, by providing financial, housing and health care benefits similar to those received by Alberta senior citizens. Under the health care benefits portion of the program, eligible persons and their dependants receive basic health services, dental and eye glasses and Alberta Blue Cross Non-Group Coverage at no cost.

SENIORS' PREMIUM RATES

Seniors are required to pay health care insurance premiums unless they are entitled to a partial or full reduction under the income-tested Alberta Seniors Benefit Program.

PREMIUM ASSISTANCE PROGRAM

Alberta Health and Wellness has two programs to assist lower income Albertans: Premium Subsidy Program and Waiver of Premiums Program.

Eligibility for the *Premium Subsidy Program* is based on taxable income and family category. Family category is based on who is covered on the Alberta Health and Wellness account. If the category is *Single*, the registrant's taxable income is required. If the category is *Family — no children*, or *Family — with children*, both the registrant and spouse, or adult interdependent partner (if applicable) must provide their taxable income. Refer to the table below for the current premium subsidy thresholds.

Family Category	Full Subsidy	Full Premiums
Single	under \$12,450	over \$15,970
Family — no children	under \$21,200	over \$28,240
Family with children	under \$27,210	over \$34,250

Full premium rates are \$1056 per year for family coverage (two or more people) and \$528 per year for single coverage.

The Waiver of Premiums Program is designed to assist Albertans experiencing current financial difficulties. Eligibility is based on the average gross monthly income for the three calendar months prior to the date the application is made. Refer to the table below for the qualifying income levels for waiver of premiums.

Family Category	Income Level
Single	\$1,020
Family — no children	\$1,860
Family with children	\$2,260

If eligible, premiums are waived for a six-month period. On average, approximately 10,400 people (6200 accounts) per month receive a waiver of premiums.

SECTION 2: BASIC HEALTH SERVICES — PHYSICIANS AND ALLIED HEALTH PRACTITIONERS

Summary

Basic health services include all medically required services performed by physicians and dental/oral surgeons, which are paid on a fee-for-service basis. Certain podiatry, optometry and chiropractic services are fully or partially covered by the AHCIP. Fee-for-service items and rates payable by the AHCIP are published in individual schedules of benefits.

Figures are given for payments by practitioner specialty and type of service, patient age and gender, and for changes in schedules of benefits (Alberta Health Care Insurance Plan services and benefit rates).

Most tables in this publication include only in-province expenditures. However, for services provided outside Canada tables 2.16 – 2.18 provide selected statistics.

Only practitioner data are provided. Hospital and non-hospital surgical facility costs associated with these services, with the exception of out-of-country hospital services, are not included in the Statistical Supplement.

DATE OF SERVICE DATA

Data in this publication are reported on a date-of-service rather than date-of-payment basis. Practitioners have 180 days from the date of service to submit claims to AHCIP for payment. Most claims are paid within 30 days of the actual date of service.

TOTAL BASIC HEALTH SERVICES — PAYMENTS (INCLUDING FEE-FOR-SERVICE PATHOLOGY)

AHCIP issued \$1.23 billion in fee-for-service payments to Alberta physicians for basic health services in 2002/2003 compared to \$1.06 billion the previous year. This represents a 15.5 per cent increase.

Allied health payments (to dental/oral surgeons, chiropractors, optometrists and podiatrists) decreased 0.28 per cent over in 2001/2002 from \$61.9 million to \$61.7 million.

Practitioner	Overall Payments (\$)	Percentage Change Compared to 2001/2002
Physicians	1,225,626,637	15.50
Dental/Oral Surgeons	2,394,458	10.45
Chiropractors	36,911,951	(4.21)
Optometrists	15,542,303	6.08
Podiatrists	6,865,822	5.12
Total	1,287,341,171	14.63

NUMBER OF PRACTITIONERS WHO BILLED AHCIP (INCLUDING PATHOLOGY)

The number of Alberta practitioners who received payments during 2002/2003 increased by 2.84 per cent over last year. Figure 2 provides a comparison of the number of Alberta practitioners who received payments for basic health services over the past five years.

Practitioner	Number	Percentage Change Compared to 2001/2002
Physicians	5,206	2.50
Dental/Oral Surgeons	234	(6.40)
Chiropractors	801	7.52
Optometrists	340	4.29
Podiatrists	51	4.17
Total	6,631	2.84

**Figure 2
Number of Alberta Practitioners (including Pathology) Who Received Payment For Basic Health Services for the Service Years Ended March 31, 1999 to 2003**

**AVERAGE PAYMENTS
BY PRACTITIONER TYPE
(INCLUDING PATHOLOGY)**

A total of 5,206 Alberta physicians billed the AHCIP in 2002/2003. The average payment per physician was \$235,426 (a 12.68 per cent increase over last year) and the median payment was \$198,493 (a 12.92 per cent increase). Two hundred twenty (220) physicians, an increase of 10 compared to last year, received under \$10,000 in payments and 61, an increase of 12, received over \$1 million in payments.

Practitioner	Number	Percentage Change Compared to 2001/2002
Physicians	235,426	12.68
Dental/Oral Surgeons	10,233	18.00
Chiropractors	46,082	(10.91)
Optometrists	45,713	1.71
Podiatrists	137,316	0.92
Total	194,140	11.46

**PAYMENTS TO GENERAL AND
FAMILY PHYSICIANS**

Alberta Health and Wellness paid 2,841 general and family physicians for basic health services, 3.46 per cent more than the previous year. The average payment was \$191,354 (a 10.84 per cent increase over last year). The annual median payment was \$181,436. Fourteen general/family physicians received over \$500,000 in payments. This was a reduction of 5 compared to last year.

**PAYMENTS TO SPECIALISTS
(EXCLUDING PATHOLOGY)**

A total of 2,346 specialists (all physicians except general/family physicians and pathologists) received payments in 2002/2003, a 1.51 per cent increase over the previous year. The average payment was \$288,969 and the median payment was \$235,256.

**HIGHEST AVERAGE PAYMENTS
(EXCLUDING LABORATORY
SPECIALISTS)**

Three hundred twenty-three (323) specialists received over \$500,000 in payments, which represents 13.8 per cent of specialists. The percentage change for the average and median payments is 14.31 per cent and 16.38 per cent respectively.

Specialty	Average Payment
Ophthalmology	\$546,680
Cardiovascular and Thoracic Surgery	\$533,865
Otolaryngology	\$498,151
Dermatology	\$480,242
Cardiology	\$465,895

MEDICAL ASSESSMENTS

Assessments (office visits) and consultations accounted for 46.9 per cent of fee-for-service payments to all Alberta physicians in 2002/2003. Assessment services accounted for 70.0 per cent of payments to all general/family physicians.

TOTAL PAYMENT (EXCLUDING PATHOLOGY)

AHCIP issued \$1.28 billion in fee-for-service payments to Alberta practitioners for basic health services in 2002/2003 compared to \$1.12 billion the previous year.

Total payments, excluding pathology, for physician services increased by 15.43 per cent from \$1.06 billion in 2001/2002 to \$1.22 billion in 2002/2003.

Practitioner	Number	Percentage Change Compared to 2001/2002
Physicians*	1,221,557,525	15.43
Dental/Oral Surgeons	2,394,458	10.45
Chiropractors	36,911,951	(4.21)
Optometrists	15,542,303	6.08
Podiatrists	6,865,822	5.12
Total	1,283,272,059	14.56

*excludes pathology

PATHOLOGY

The preceding figures do not include pathology services, which were transferred to the regional health authorities on July 1, 1995⁽¹⁾.

\$4.1 million in payments were made by AHCIP for pathology in 2002/2003⁽¹⁾. Total physician payments for 2002/2003 (including pathology) were \$1,225,626,637. The total expenditure for basic health services (including pathology) was \$1,287,341,171.

PHYSICIAN SERVICES TO PATIENTS

Of the 3,124,487 million people entitled to basic health services in 2002/2003, 84.6 per cent or 2,642,193 million people received at least one medical service in Alberta during the year. Almost 75.9 per cent of these patients received \$500 or less in physician services. Only 10.9 per cent of patients received more than \$1,000 in physician services. Payments for these patients accounted for 51.5 per cent of all physician expenditures.

AVERAGE PATIENT PAYMENTS BY AGE AND GENDER

Figures 3 and 4 provide a summary of the annual average payments to practitioners for all basic health services per person covered by age and gender.

⁽¹⁾ See explanatory notes on page 22 for more details

Figures 3 and 4
Distribution of Average Payment Per Person for Basic Health Services
By Age and Gender for the Fiscal Year April 1, 2002 to March 31, 2003

Average Costs Per Patient

All Physicians

Allied Health

AVERAGE PATIENT COSTS BY PRACTITIONER TYPE

The average cost per patient for basic health services has increased by \$53.75 from last year. The cost was \$471.21 in 2002/2003 as compared to \$417.46 in 2001/2002.

Figure 5 provides a comparison of the average payment per person eligible to receive basic health services over the past five years. All years have been adjusted to exclude pathology services and payments. These numbers differ from average patient costs because per person

payments only include those individuals who actually received a service.

Practitioner	Number	Percentage Change Compared to 2001/2002
Physicians	463.87	13.74
Dental/Oral Surgeons	192.42	0.09
Chiropractors	87.34	0.24
Optometrists	47.09	1.61
Podiatrists	73.94	1.46
Total	471.21	12.87

**Figure 5:
Average Payment Per Person Covered for Basic Health Services (Excluding Pathology)
For the Fiscal Years Ended March 31, 1999 to 2003**

**PHYSICIAN SERVICES AND
PHYSICIAN RATIOS**

The number of physician services per 1,000 persons covered by the AHCIP (excluding pathology) increased by 3.54 per cent this year to 9,312 from 8,994 last year.

The number of physicians per 1,000 patients (excluding pathology) increased to 1.66, a 0.86 per cent increase from 2001/2002.

**PRACTITIONER SERVICES AND
PRACTITIONER RATIOS**

Figure 6 provides a comparison of the average number of services per person covered for basic health services over the past five years. All years have been adjusted to exclude pathologists⁽¹⁾.

**Figure 6:
Average Number of Services Per Person for Basic Health Services (Excluding Pathology)
For the Fiscal Years Ended March 31, 1999 to 2003**

⁽¹⁾ See explanatory notes on page 22 for more details

Explanatory Notes

DEFINITION OF PRACTITIONER

The term “practitioner” refers to all physicians and allied health practitioners: dental and oral surgeons, chiropractors, optometrists and podiatrists. The phrase “oral surgery” includes oral surgery services performed by both dentists and oral surgeons.

DISCRETE PATIENTS

Unless otherwise noted, data are based on the number of discrete patients. This is the number of patients receiving AHCIP benefits in a given year being counted once. Individuals who had health care coverage but did not receive any services in the current year are not included in the discrete patient count, but are included in the registration data.

ANNUAL MEDICAL SERVICES BUDGET

An annual budget which is comprised of fee-for-service, benefit and Alternate Payment Plan/Alternate Funding Plan payments of \$1.23 billion for physician services paid through the AHCIP was established through a negotiated agreement between the Minister of Health and Wellness and the Alberta Medical Association in June 1998.

DETERMINING PAYMENT RATES TO PRACTITIONERS

The Alberta Medical Association and the Alberta Association of Optometrists have agreements and negotiate with Alberta Health and Wellness to determine payment rates. Payment rates for all other practitioner services covered under AHCIP are set by Alberta Health and Wellness after consultation with the respective professional association.

EXTRA BILLING

Physicians, dental/oral surgeons, and optometrists are not allowed to bill patients an additional amount for services listed as insured basic health services under the AHCIP.

PAYMENTS DO NOT REFLECT INCOME

Payments to practitioners represent gross fee-for-service payments made by the AHCIP. These statistics cannot be used as an accurate measure of a practitioner’s personal income because:

- some practitioners receive income from other sources (e.g. Workers’ Compensation Board, balance billing, third party medicals and for other services not covered by AHCIP);
- Alternate Payment Plan/Alternate Funding Plan income is not included (for further information turn to section 5);
- both full-time and part-time practitioners are included in the statistics;
- salaried positions and contractual arrangements with regional health authorities or private employers are not included;
- payments for services rendered to non-Albertans are not included;
- the figures quoted are gross payments from which practitioners pay business expenses such as office expenses.

Each practitioner must submit claims for the services he or she provides. Under special circumstances, physicians can claim and are paid for supervising medical residents and nurses and for diagnostic services provided by technicians.

PHYSICIAN DATA SOURCE

Physician data in this section are taken from a list of Alberta physicians who had billings of one dollar or more in the 2002/2003 fiscal year. For the purpose of the *Statistical Supplement* a physician's specialty is determined by the specialty in which he or she has the highest earnings.

Payments include only fee-for-service payments to practitioners for services, which were provided to Alberta residents. Unless otherwise specified, the data are for in-province payments only (i.e. payments made to Alberta physicians providing services to Alberta residents).

Physician services provided to Albertans in other provinces/territories are paid for under the medical reciprocal program. These payments are not included in the *Statistical Supplement*.

PATHOLOGY SERVICES

Pathology is listed as a separate category where feasible to reflect the fact most laboratory services are no longer covered under AHCIP. Virtually all pathology services were transferred to the regional health authorities as of July 1, 1995.

A few select pathology health services, such as minor consultations, electrocardiograms (technical) and skin tests, are still remunerated by the AHCIP. These figures are listed separately whenever possible to assist readers in making year-over-year comparisons.

CHIROPRACTIC, OPTOMETRY AND PODIATRY

The maximum benefit for a **chiropractic** visit is \$12.66, and for an x-ray is \$20.95. The maximum annual patient limit for chiropractic services is \$200.

Children — 18 and under, and residents — 65 and older, are entitled to one complete and one partial exam and one diagnostic test each year plus additional services when specific medical conditions exist, or if referred to an **optometrist** by a physician.

Optometry services for Albertans aged 19 to 64 are not covered by the AHCIP.

Podiatry benefits are subject to set rates per service and a \$250 annual maximum per patient.

OUT-OF-COUNTRY HEALTH COVERAGE

Out-of-country practitioner and hospital services received by Albertans are paid at rates that have been established by the Alberta Legislature.

Under certain circumstances, the Out-of-Country Health Services Committee considers funding, in addition to the benefits paid by the AHCIP, for insured physician, dental/oral surgeon and insured hospital services not available in Canada. The program has specific criteria that must be met for funding to be considered.

Many foreign medical services cost more than the amount paid by Alberta Health and Wellness and any additional cost is the responsibility of the patient. Alberta Health and Wellness strongly encourages Albertans travelling outside Canada to purchase supplementary health insurance

Continued...

- (1) "Number of Discrete Physician Patients" contains the actual count of patients receiving at least one service.
- (2) "Number of Discrete Patients Per Physician" in this instance refers to all Physicians, including Pathology.
- (3) "Number of Discrete Allied Patients" represents a discrete count within all Allied Practitioners.

Table 2.1
Medical and Allied Practitioners: Selected Indicators
For the Service Years Ended March 31, 1999 to March 31, 2003

Indicators	Percentage Change			
	2000/1999	2001/2000	2002/2001	2003/2002
REGISTRATIONS				
Population Covered	1.51	1.71	2.15	1.70

Urology	35	33.5	40.0	40.0	394,051	93,324

(1) Laboratory physicians (Pathology and Radiology) are excluded.

(2) FTE methodology is as follows:

Definition of a Full-Time Equivalent Practitioner: The definition is based on the methodology developed in 1984 by Health Canada (Health Information Division).

Step 1: - Within each specialty or group of specialists, rank the amounts paid in ascending order; the lower and upper benchmarks are the payment values which correspond to the 40th and 60th percentile for those practitioners with claims in all four quarters of the fiscal year.

Step 2: - Count all physicians with payments within the lower and upper benchmark as one FTE.

- Count all physicians with payments below the lower benchmark as a fraction of a FTE equal to the ratio of his/her payments to the lower benchmark.

- Count all physicians with payments above the upper benchmark using a log-linear relationship, as 1 FTE plus the natural logarithm of the ratio of his/her payments to the upper benchmark. The reason for attributing diminishing weight to payments above the upper benchmark is to prevent outliers from seriously biasing the measure. This is not necessary on the lower benchmark because payments less than zero are not recorded and, as such, a natural barrier exists to prevent bias at the lower end.

- Since these calculations are not made in direct comparison of other jurisdictions, the benchmarks have not been deflated by fee schedule increases.

(3) New specialty effective January 1, 2001.

SECTION 3: REGIONAL DATA

Summary and Explanatory Notes

SUMMARY

Seventeen regional health authorities were established by the Alberta government in 1994. The statistics in this section provide regional breakdowns for the registered population, physician payments, payments by disease classification, and average payments to physicians. This data has not been included in any of the previous data.

A breakdown of expenditures for allied practitioners is also provided.

EXPLANATORY NOTES

Data methodology in this section differs slightly from that used in other sections. Statistics listed in this section may not exactly correspond with data appearing elsewhere in the Statistical Supplement. The number of practitioners listed is the number of practitioners who have provided services in that particular region; not the number of full-time practitioners. A practitioner may work in several regions.

Data are provided on a “service location” basis, which means the health region where the service was actually provided. “Recipient location” means the region where the person receiving the service lives, according to the AHCIP registration data.

The distribution of physician payments by “service location” rather than “recipient location” affects the data. Large regions often attract patients from smaller, rural areas which affects statistics on health services and payments for both. This point is amply illustrated in Table 3.2 in its breakdown of medical payments to physicians by service location and recipient location.

Data in this section are based on the health region and recipient location as of the day the service was provided. Regional boundaries are subject to change, therefore, year-over-year comparisons by region need to be interpreted with caution. Figure 7 shows the boundaries in place on April 1, 2001, noted on the map of Alberta.

- (1) Physicians providing services in multiple health regions are counted multiple times. This report reflects discrete physician counts within region.
- (2) Excludes laboratory specialists because billings for more than one physician may be included under one physician billing number.
- (3) The totals for payments may not add due to rounding.

SECTION 4: ALBERTA BLUE CROSS NON-GROUP COVERAGE

Summary

Alberta Blue Cross Non-Group Coverage, available to all Albertans, comprises supplemental health insurance plans for pharmaceuticals and other selected health services. These supplemental plans are funded by Alberta Health and Wellness and administered by Alberta Blue Cross. Premium-free coverage is offered to seniors and their dependants, to recipients of the Alberta Widows' Pension and their dependants, and to people who have been diagnosed as palliative and receive their treatments at home. A universal plan is available to all Albertans under the age of 65 and their dependants, subject to a quarterly premium.

These categories are collectively referred to as "non-group" membership since they are not based on "group" or private employer-sponsored drug plans offered by Alberta Blue Cross. "Non-group" membership also excludes individual health plans offered by Alberta Blue Cross.

Non-group coverage includes prescription drugs, ambulance services, clinical psychological services, home nursing care, prosthetic and orthotic benefits, mastectomy prosthesis, and private or semi-private hospital accommodation. The Alberta Health and Wellness Drug Benefit List defines the prescription drugs that are covered by Alberta Blue Cross Non-Group Coverage.

This section provides data on Alberta Blue Cross Non-Group Coverage: the number of persons covered by level of premium payment by age and gender, and by type of services (ambulance, drugs, hospital, or other). Information is also provided on drug prescriptions: the number, types and costs of prescriptions, and the 10 leading prescription drugs.

NUMBER OF PEOPLE COVERED

In 2002/2003, 485,803 Albertans received coverage under Alberta Blue Cross Non-Group coverage.

The number of persons who paid regular premiums increased by 4.9 per cent in 2002/2003 to 92,027. Out of the total non-group membership, only 18.9 per cent paid full premiums. 36,948 people received coverage at reduced premium rates in 2002/2003, a 0.23 per cent decrease over the previous year. This represents 7.6 per cent of the total non-group membership. Premium-free coverage under the Seniors, Widows' Pension or Palliative Care categories totalled 356,828 people, 73.5 per cent of all people covered by non-group membership coverage.

BENEFIT PAYMENTS

More than \$415 million in benefits was paid by Alberta Blue Cross Non-Group Coverage in 2002/2003. Drugs accounted for \$395,579,327 or 95.2 per cent of these expenditures. Ambulance services accounted for \$14,961,579 or 3.6 per cent of the total. These two benefits accounted for 98.8 per cent of all Alberta Blue Cross Non-Group expenditures.

Out of the 10 leading prescription drugs, Losec 20mg, an ulcer treatment drug was prescribed most with a total of 177,972 prescriptions and a net payment of \$23,822,007 in 2002/2003.

DRUG PAYMENTS BY PREMIUM LEVEL

Figure 8 provides a comparison of the Alberta Blue Cross Non-Group Membership net payment of drugs per registration for 2002/2003. A registration may be for a single person or can include a spouse and/or dependants.

Figure 8
Alberta Blue Cross Non-Group Membership Net Payment for Drugs
Per Registration by Premium Level for the Service Year April 1, 2002 - March 31, 2003

Explanatory Notes

The new additional inventory allowance pricing component was implemented for all pharmacy claims paid by Alberta Blue Cross July 1, 2000. A portion of the dispensing fee is separated into another category of additional inventory allowance. The total cost of a prescription is based on three pricing components: drug material cost, dispensing fee and additional inventory allowance.

SOURCE OF DATA

Data in this section are provided directly by Alberta Blue Cross except for Table 5.6, which is provided by the Alberta College of Pharmacists.

Widows' Pension	39,579	1,598,405	342,872	27,705	15	1,968,996	407,405	11,812	1,549,779
Palliative Care	15,967	894,670	180,002	8,449	30	1,083,151	118,642	82,139	882,370

(1) Dispensing fee is based on all eligible drug claims including claims for oral contraceptives, insulin and injectables.

(2) The totals may not add due to rounding.

(3) Additional Inventory Allowance may include upcharge amounts for pharmacies in the Northwest Territories.

(4) Coordination of Benefits would apply in situations where a person can submit a claim to more than one supplementary health plan. Coordination of Benefits represents amounts paid by other payers

(5) Gross Payment [E] = [A] + [B] + [C] + [D]

SECTION 5: ALTERNATIVE PAYMENT PLAN (APP) AND ALTERNATIVE FUNDING PLAN (AFP)

Alternative Payment Plans

Together, Alberta Health and Wellness (AHW) and the Alberta Medical Association (AMA) have developed a programmatic approach to compensation for physicians, including a number of APP models. AHW and the AMA believe that by providing physicians with options in how they are paid, a number of goals can be achieved that could not be otherwise. The goals of this program are essentially to:

- provide quality care, better outcomes and better care for patients;
- facilitate comprehensive primary care (including health promotion) and disease management approaches;
- provide flexibility for physicians; and
- reflect evidence and experience about which approaches work best to achieve better outcomes for patients and physicians.

The three main APP models are capitation, sessional, and contractual. APPs provide income stability and have an impact on the delivery of services by providing an alternative to fee-for-service. Physicians wanting to participate in any one of the models are required to submit a proposal jointly to AHW and the AMA in the form of the proposal template.

An APP is intended to provide an innovative funding mechanism for physicians, in the provision of medical services.

Alternative Funding Plans

An AFP provides a means of amalgamating and integrating the various sources of funding that are used to compensate physicians within an academic department for the variety of services that they provide. These services may include teaching, research, clinical services and administration. The physicians who participate in an AFP arrangement provide defined services (deliverables) in four major activity areas:

- Medical Education
- Research
- Clinical Service
- Administration

AFPs were developed in an effort by the Government of Alberta to find a more appropriate and equitable way of funding Academic Health Centres (AHCs) while addressing their educational, research and recruitment needs. Most AHCs receive funding from multiple sources, which include the following:

- clinical services funded via fee-for-service billing to the Alberta Health Care Insurance Plan,
- education funded through provincial grants to the university, and
- research funding through government grants, non-profit organizations or corporations.

It is important to note that an AFP is not the same as an APP. These payments are not included in data reported in the Statistical Supplement.

**Table 5.1
Alternative Payment and Funding Plan (APP/AFP) Summary
For the Service Year April 1, 2002 to March 31, 2003**

Model Type	Number	Region	GPs*	Specialists*	Physician Subtotal
AFPs	3	R3 and R6	--	226	226
Capitation - APP	3	R1 and R2 and R6	19	16	35
Contract - APP	2	R3 and R6	103	4	107
Sessional - APP	5	R3 and R6	18	--	18
Total Expenditures	Model Total	Region Total	GP Subtotal	SP Subtotal	Physician Total¹
\$27,500,000	13	4	140	246	386

Note: The data presented in this table can be variable and is only accurate for the end of the fiscal year 2002/2003.

*The general practitioner and specialist counts may include part-time physicians who may or may not bill FFS in addition to the APP/AFP program they are participating in.

¹The physician total can fluctuate month-to-month and should be considered approximate.

Model Type Definitions:

AFP - Model which merges funding for medical education, clinical services, and research, into one main funding grant based on an agreement between the academic department of an Academic Health Centre, the Government, and any other major funder(s).

Capitation - This model is used for the provision of family medicine or primary health care with a predetermined annual amount for each of its patients within a defined population and basket of services.

Contract - Contractual funding is based on a pre-negotiated amount, for a pre-determined level of services, over a specified period of time (e.g. one year).

Sessional - Under this model the physician is paid an hourly rate for work during a set period of time for the provision of insured medical services within an organised program.

G L O S S A R Y / D E F I N I T I O N S

Alberta Blue Cross Group Plan — Group coverage available through employers. Data on this coverage is not included in the *Statistical Supplement*.

Alberta Blue Cross Non-Group Plan — Provides supplemental health insurance coverage for pharmaceuticals and other selected health services. These supplemental plans are funded by Alberta Health and Wellness and administered by Alberta Blue Cross. Premium-free coverage is offered to seniors and their dependants, to recipients of the Alberta Widows' Pension and their dependants, and to people who have been diagnosed as being palliative and receive their treatments at home. A universal plan is available to all Albertans under the age of 65 and their dependants, subject to a quarterly premium.

Alberta Health Care Insurance Plan (AHCIP) — Non-profit plan administered and operated under the *Alberta Health Care Insurance Act* and regulations to pay for insured physician, dental/oral surgical and hospitalisation services, and allied health services to eligible residents of Alberta.

Alternative Payment Plan — a contractual payment method used to replace fee-for-service.

Basic Health Services — Services of physicians, osteopaths, dental/oral surgeons deemed medically required according to the *Canada Health Act*. Also includes some services provided by optometrists, chiropractors, and podiatrists.

Blank Cell — represents a zero value.

Discrete Patients — The actual number of people who receive an insured service; not the number of times a patient accesses health services.

Discrete Service Providers — The actual number of practitioners who provide a service payable under the AHCIP; not the number of services provided by practitioners.

Fee-for-Service — A dollar amount agreed upon for the provision of health services.

Fiscal Year — April 1 to March 31.

Health Regions — Geographic areas where health services are delivered. Data relate to the health region where the service was provided.

Medical Assessments — Primarily office visits and consultations.

Medical Services — Services provided by a physician.

N/A — Not available.

n.a. — Not applicable.

— — Non-zero value; actual value was too small to be shown.

Nil — No change.

Payments — Gross fee-for-service payments made by the AHCIP. Represents neither the total income nor the net income of a practitioner. Payment data is reported on a date-of-service basis and includes only fee-for-service payments to Alberta practitioners for services which were provided to Alberta residents, unless stated otherwise.

Practitioner — Licensed individual who is registered with the AHCIP and provides basic health services.

Registrations — The actual number of contracts with the AHCIP. A registration may include one person (as in single coverage) or two or more people (as in family coverage).

Registered/Insured Persons — The number of Alberta residents insured under a program and therefore entitled to receive services.

Schedule of Benefits — List of practitioner services and rates paid by the AHCIP. Includes the governing rules, procedure list, fee modifier definitions and price list. The Statistical Supplement includes data on five distinct benefit schedules (medical, oral maxillofacial dental surgery, chiropractic, optometry and podiatry).

Subscriber — An individual who has applied for coverage, been accepted for coverage, and in whose name the coverage has been granted.
