

Status of the Electronic Submission of Drinking Water Quality Information

This "Status Report" is as of June 27, 2006.

It shows the progress of bringing the regulated facilities on-line.

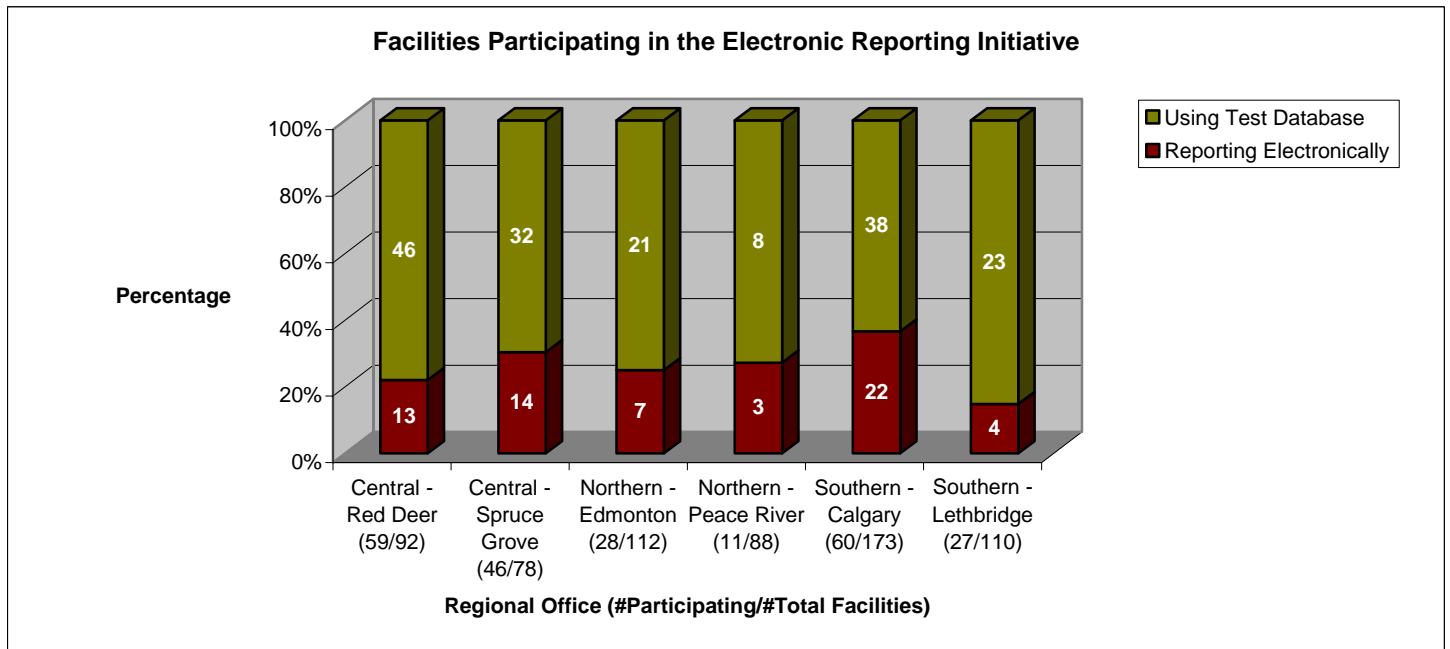

as of June 27, 2006

REGIONAL DISTRIBUTION

Status: June 27, 2006	Complete	Testing	Total Participating	# of Total Not Participating	Total #	% of Total Completed	% of Facility Participation
Central Region - Red Deer	13	46	59	33	92	14	64
Central Region - Spruce Grove	14	32	46	32	78	18	59
Northern Region - Edmonton	7	21	28	84	112	6	25
Northern Region - Peace River	3	8	11	77	88	3	12
Southern Region - Calgary	22	38	60	113	173	13	35
Southern Region - Lethbridge	4	23	27	83	110	4	24

Legend:

- o Alberta Environment is divided into three Regions with two district offices in each; Southern, Central, and Northern.
- o EMSP is the production database. When a regulated facility submits monitoring information to the EMSP database it is in compliance with approval, registration or Code of Practice that governs that facility.

TOTALS as of June 27, 2006

231 facilities are participating in the Electronic Reporting Initiative
63 facilities are reporting to EMSP (production database)
168 facilities in various stages of the testing phase
35% PERCENT PARTICIPATING IN THE ELECTRONIC REPORTING INITIATIVE

653 total facilities to be brought on-line
10% PERCENT OF THE TOTAL REPORTING ELECTRONICALLY

COMMUNITIES ON-LINE
