

Lesser Slave Basin Water Management Planning - Phase 1

Watershed Committee and Government Co-ordinating Committee Directory

Government Coordinating Committee	
<p>This committee consists of senior government managers who are responsible for overall leadership, development of the terms of reference and the water management plan. In co-operation with the Watershed Committee (stakeholders reps), this committee will provide liaison and advice to the government throughout the process. The committee will also give direction to the Technical Committees.</p>
