#### AUDITORS' REPORT

To the Board of Trustees of the Holy Spirit Catholic Separate Regional Division #4

We have audited the statement of financial position of the Holy Spirit Catholic Separate Regional Division #4 as at August 31, 2003 and the statements of revenues and expenses, cash flows, changes in net assets and capital allocations for the year then ended. These financial statements are the responsibility of the school jurisdiction's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these financial statements present fairly, in all material respects, the financial position of the school jurisdiction as at August 31, 2003 and the results of its operations, changes in cash flows, net assets and capital allocations for the year then ended in accordance with Canadian generally accepted accounting principles.

Our audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplementary information included in Schedules A through G is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such supplementary information has been subjected to the auditing procedures applied in the audit of the basic financial statements and in our opinion is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

NOTES TO FINANCIAL STATEMENTS For the Year Ended August 31, 2003

#### 1. Authority and purpose

The School Division delivers education programs under the authority of the School Act, Chapter S-3, Statutes of Alberta, January 1, 2002.

The School Division receives block allocations for instruction and support under Regulation 72/95. The Regulation limits funding and expenses for administration. It permits the School Division, within specified limits, to reallocate funding between the instruction and support blocks.

#### 2. Summary of significant accounting policies

These financial statements are prepared in accordance with Canadian generally accepted accounting principles (GAAP) and accounting policies consistent with those prescribed by Alberta Learning for Alberta school jurisdictions. The precise determination of many assets and liabilities is dependent on future events. As a result, the preparation of financial statements for a period involves the use of estimates and approximations, which have been made using careful judgement. Actual results could differ from those estimates and approximations. The financial statements have, in management=s opinion, been properly prepared within reasonable limits of materiality and within the framework of the accounting policies summarized below:

Revenue recognition Revenue is recognized as follows:

Instruction and support allocations are recognized in the year to which they relate.

Fees for services related to courses and programs are recognized as revenue when such courses and programs are delivered.

Unrestricted contributions are recognized as revenue when received or receivable. Contributions in-kind are recorded at fair market value when reasonably determinable.

Externally restricted contributions are deferred and recognized as revenue in the period in which the restriction is complied with. Endowment funds, which are to be retained as net assets, are recorded as direct increases in trust assets and liabilities.

Investments

Investments are valued at cost.

Inventory

Inventory is recorded at the lower of cost and net realizable value. Cost is determined on the first in, first out basis.

Capital assets

Capital assets are recorded at cost and amortization is provided for on a straight line basis using the following annual rates:

Equipment and furnishings Vehicles and buses Buildings 5 years

10 years

40 years

NOTES TO FINANCIAL STATEMENTS For the Year Ended August 31, 2003

Buildings and additions

25 years

#### 2. Summary of significant accounting policies (continued)

Capital assets (continued)

There is no amortization charged in the year of acquisition.

Only capital assets with costs in excess of \$5,000 are capitalized. Any capital allocations received for asset additions are amortized over the same period as the related asset.

#### School generated funds

These are funds in the community, which come under the control and responsibility of the school principal and are for school activities. These funds are usually collected and retained at the school for expenditures paid at the school level (eg. yearbook sales, graduation fees, field trip fees, etc.).

#### Vacation pay

Vacation pay is accrued in the period in which the employee earns the benefit.

#### Pensions

Pension costs included in these statements comprise the cost of employer contributions for current service of employees during the year.

The current service and past service costs of the Alberta Teacher Retirement Fund are met by contributions by active members and the Government of Alberta. Under the terms of the Teachers Pension Plan Act, the School Division does not make pension contributions for certificated staff.

The School Board participates in the multi-employer pension plan, Local Authorities Pension Plan. The expense for this pension plan is equivalent to the annual contributions of \$236,260 for the year ended August 31, 2003. At December 31, 2002, the Local Authorities Pension Plan reported an actuarial deficiency of \$444,980,000 (2001 surplus of \$634,960,000).

#### Prepaid expenses

Certain expenditures incurred and paid before the close of the school year are for specific school supplies, which will be consumed subsequent to the year-end, and are accordingly recorded as prepaid expenses. Certain insurance expenses fall into this category.

#### Contributed services

Volunteers contribute a considerable number of hours per year to various schools, which are within the school board to ensure that certain programs are delivered, such as kindergarten, lunch services and the raising of school generated funds. Because of the difficulty of compiling these hours and the fact that these services are not otherwise purchased, contributed services are not recognized in the financial statements.

#### Financial instruments

The jurisdiction=s financial instruments consist of cash, accounts

NOTES TO FINANCIAL STATEMENTS For the Year Ended August 31, 2003

receivable, accounts payable, accrued liabilities, and long-term debt. It is management=s opinion that the jurisdiction is not exposed to significant interest, currency or credit risks arising from these financial instruments. Unless otherwise noted, the fair values of these financial instruments approximate their carrying values. The jurisdiction has invested surplus funds in accordance with Section 60 of the School Act and Section 5 of the Trustees Act.

#### 2. Summary of Significant Accounting Policies (continued)

#### Operating and capital reserves

Reserves are established at the discretion of the Board of Trustees of the jurisdiction or externally, to set aside funds for operating and for future capital expenditures. Such reserves are appropriations of accumulated surplus.

#### Employee future benefits

The jurisdiction accounted for the future cost of employee benefits commencing in the 2000-2001 school year using the retroactive approach. There is no financial impact on the jurisdiction at this time.

#### Measurement uncertainty

The financial statements by their nature, contain estimates and are subject to measurement uncertainty. Accounts receivable are stated after evaluation as to their collectibility and an appropriate allowance for doubtful accounts is provided based on management's best information available at the time. The amounts recorded for amortization of capital assets are based on estimates of the useful life of the related assets. Pension plan obligations are based on actuarial valuations extrapolated to the reporting date. The effect on the financial statements of changes in such estimates in future periods could be significant.

The debenture debt is fully supported by Alberta Finance. Principal payments in each of the next five years are estimated as follows:

#### 8. Deferred capital allocations

Capital allocations received for qualifying capital projects initiated by the jurisdiction have been capitalized. These allocations are amortized on a basis consistent with the capital asset that the allocation funded.

#### 9. Unamortized capital allocations

Unamortized capital allocations (UCA) represents the jurisdiction=s net investment in capital assets (other than land and equipment) purchased prior to September 1, 1995. The total debenture payments increase the balance in the UCA account, with the amortization expense on related assets acting as a deduction to the account. Transfers from the deferred capital allocation account also increase the balance in the UCA account.

#### 10. Internally restricted net assets

Net assets may be restricted by authorization of the Board of Trustees for future capital and operating expenditures. The amounts are established and expended in accordance with terms and conditions established by the Board.
