Table of Contents

Introduction	9
Demographics	13
Population Distribution	14
Immigration	17
Life Expectancy	19
Mortality	20
Fertility	22
Population Growth	24
Determinants of Health	25
Self-Perceived Health Status	29
Tobacco Use	31
Cancer Screening	33
Birth Weight	36
Body Weight	39
Nutrition	42
Disability and Functional Limitations	45
Alcohol and Drug Use	47
Physical Activity	49
Mental Health	51
Anxiety/Depression	54
Substance Abuse Disorders	58
Non-Communicable Disease	61
Historical Context	61
Cancer	63
Cervical Cancer	63
Lung Cancer	65
Prostate Cancer	67
Cardiovascular Disease	69
Ischaemic Heart Disease	70
Cerebrovascular Disease	74
Hypertension	78
Chronic Respiratory Disease	81
Asthma	81
Chronic Bronchitis	84
Chronic Obstructive Pulmonary Disease (COPD)	87
Diabetes	91
Chronic Renal Failure	95
Arthritis	99

Injury	103
Unintentional Injury	106
Intentional Injury	107
Suicide and Parasuicidal Behaviour	108
Homicide	111
Communicable Disease	113
Historical Context	113
Communicable Disease Mortality	116
Sexually Transmitted Infections	116
Chlamydia	116
Gonorrhoea	118
Syphilis	121
Hepatitis C	123
HIV/AIDS	124
Food and Waterborne Communicable Diseases	126
Campylobacteriosis	126
Giardiasis	128
Haemorrhagic Colitis (<i>e-coli O157:H7</i>)	129
Salmonellosis	131
Typhoid/Paratyphoid	132
Vaccine-Preventable Communicable Disease	135
Diphtheria	135
Hepatitis A	137
Hepatitis B	139
<i>Haemophilus Influenzae</i> Type b	140
Influenza	143
Rubella	145
Measles	147
Invasive Meningococcal Disease	149
Mumps	150
Pertussis	152
Poliomyelitis	153
Smallpox	157
Tetanus	159
Varicella	160
Tuberculosis	163
Conclusions	165

List of Figures

Demographics

- Figure 1 Alberta population 1901 to 2001
- Figure 2 Population Distribution, 1901
- Figure 3 Population Distribution, 1921
- Figure 4 Population Distribution, 1941
- Figure 5 Population Distribution, 1961
- Figure 6 Population Distribution, 1981
- Figure 7 Population Distribution, 2001
- Figure 8 Net international migration to Alberta, 1970 to 2000
- Figure 9 Net inter-provincial migration to Alberta, 1972 to 2001
- Figure 10 Alberta Immigrants by Year and Origin
- Figure 11 Life expectancy at birth in Alberta, 1931 to 2001
- Figure 12 Age adjusted mortality rates per 1,000 population for all causes of death, Alberta, 1986 to 2003
- Figure 13 Infant mortality rate per 1,000 live births, Alberta, 1983 to 2004
- Figure 14 Total fertility rate for Alberta, 1936 to 2003
- Figure 15 Age-specific fertility rates, Alberta 1986, 2004, and 2003
- Figure 16 Mean age of fertility in Alberta, 1986 to 2003
- Figure 17 Population Distribution, 2004 and projected to 2033

Determinants of Health

- Figure 18 Per cent of the population rated their health as very good or excellent by age of respondent, Alberta 2003
- Figure 19 Per cent of the population reporting their health to be very good or excellent, by year and sex, Alberta
- Figure 20 Per cent of the population reporting their health to be very good or excellent, regional health authority, Alberta 2003
- Figure 21 Self reported percentage of smokers by age, Alberta 2003
- Figure 22 Per cent of the population reporting smoking either occasionally or daily, Alberta 2003
- Figure 23 Per cent of the population reporting smoking either occasionally or daily by regional health authority, Alberta 2003
- Figure 24 Per cent of women aged 50 to 69 years reporting they received a mammogram within the previous two years, Alberta 1996 to 2003
- Figure 25 Per cent of women aged 50 to 69 years reporting they received a mammogram within the previous two years by regional health authority, Alberta 2003
- Figure 26 Per cent of women reporting having had a pap smear within the past three years, Alberta 1994 to 2003
- Figure 27 Per cent of women reporting having had a pap smear within the past three years by age, Alberta 2003
- Figure 28 Per cent of women reporting having had a pap smear within the past three years by regional health authority, Alberta 2003
- Figure 29 Proportion of live births weighing less than 2,500 grams, Alberta 1983 to 2004

-
- Figure 30 Proportion of live births weighing less than 1,500 grams, Alberta 1983 to 2004
- Figure 31 Body mass index for males and females, Alberta 1994 to 2003
- Figure 32 Percentage of the population with and body mass index in the overweight and obese categories by age, Alberta 2003
- Figure 33 Percentage of the population with and body mass index in the overweight and obese categories by regional health authority, Alberta 2003
- Figure 34 Percentage of Albertans reporting consuming five or more servings of fruits and vegetables per day, Alberta 2003
- Figure 35 Percentage of Albertans reporting consuming five or more servings of fruits and vegetables per day by sex, Alberta 2003
- Figure 36 Percentage of Albertans reporting consuming five or more servings of fruits and vegetables per day by regional health authority, Alberta 2003
- Figure 37 Percentage of the population reporting activity limitation by age, Alberta 2003
- Figure 38 Percentage of the population reporting activity limitation by sex, Alberta 1994 to 2003
- Figure 39 Percentage of the population reporting activity limitation by regional health authority, Alberta 2003
- Figure 40 Percentage of individuals reporting consuming five or more drinks on one occasion 12 or more times per year, by age, Alberta 2003
- Figure 41 Percentage of individuals reporting consuming five or more drinks on one occasion 12 or more times per year, by sex, Alberta 1994 to 2003
- Figure 42 Percentage of individuals reporting consuming five or more drinks on one occasion 12 or more times per year, by regional health authority, Alberta 2003
- Figure 43 Per cent reporting being active or moderately active during leisure time, Alberta 1994 to 2003
- Figure 44 Per cent reporting being active or moderately active during leisure time by regional health authority, Alberta 2003

Mental Health

- Figure 45 Age standardized treated prevalence per 100 population for mental health problems, Alberta 1983 to 2003
- Figure 46 Treated prevalence per 100 population for mental health disorders by age and sex, Alberta 1986 and 2003
- Figure 47 Regional differences in the treated prevalence for mental health disorders, Alberta 2003
- Figure 48 Age standardized treated prevalence per 100 for anxiety disorders/depression, Alberta 1983 to 2003
- Figure 49 Age standardized treated prevalence per 100 population for anxiety disorders/depression problems by age and sex, Alberta 1986 and 2003
- Figure 50 Regional differences in the treated prevalence for anxiety disorders/depression, Alberta 2003
- Figure 51 Age standardized hospital separation rates per 100,000 for anxiety disorders/depression, Alberta 1979/1980 to 2002/2003
- Figure 52 Age-standardized treated prevalence per 100 population for substance abuse disorders, Alberta 1983 to 2003

- Figure 53 Age-standardized treated prevalence per 100 population for substance abuse disorders by age and sex, Alberta 1986 and 2003
- Figure 54 Regional differences in the treated prevalence of substance abuse disorders, Alberta 2003
- Figure 55 Age standardized hospital separation rates per 100,000 population for substance abuse disorders, Alberta 1979/1980 to 2002/2003

Non-Communicable Disease

- Figure 56 Age-standardized hospital separation rates for cervical cancer, Alberta 1979/1980 to 2002/2003
- Figure 57 Age standardized mortality rate for cervical cancer, Alberta 1960 to 2003
- Figure 58 Age standardized hospital separation rates per 100,000 for lung cancer, Alberta 1979/1980 to 2002/2003
- Figure 59 Age-standardized lung cancer mortality rates, Alberta 1961 to 2003
- Figure 60 Age-standardized hospital separation rates for prostate cancer, Alberta 1979/1980 to 2002/2003
- Figure 61 Age-standardized mortality rates attributed to prostate cancer, Alberta 1961 to 2003
- Figure 62 Age-standardized treated prevalence per 100 population for cardiovascular disease, Alberta 1983 to 2003
- Figure 63 Age-specific treated prevalence per 100 population for cardiovascular disease, Alberta 1986 and 2003
- Figure 64 Age-standardized treated prevalence per 100 population for ischaemic heart disease, Alberta 1983 to 2003
- Figure 65 Age-specific treated prevalence per 100 population for ischaemic heart disease, Alberta 1983 to 2003
- Figure 66 Regional differences in the treated prevalence of ischaemic heart disease, Alberta 2003
- Figure 67 Age-standardized hospital separation rates per 100,000 population for ischaemic heart disease, Alberta 1979/1980 to 2002/2003
- Figure 68 Age-standardized mortality rate per 100,000 population for ischaemic heart disease, Alberta 1961 to 2003
- Figure 69 Age-standardized treated prevalence per 100 population for cerebrovascular disease, Alberta 1983 to 2003
- Figure 70 Age-specific treated prevalence per 100 for cerebrovascular disease, Alberta 1986 and 2003
- Figure 71 Regional differences in the treated prevalence of cerebrovascular disease, Alberta 2003
- Figure 72 Age-standardized hospital separation rate per 100,000 population for cerebrovascular disease, Alberta 1979/1980 to 2002/2003
- Figure 73 Age-standardized mortality rates per 100,000 for cerebrovascular disease, Alberta 1961 to 2003
- Figure 74 Age-standardized treated prevalence per 100 population for hypertension, Alberta 1983 to 2003

Figure 75	Age-specific treated prevalence per 100 for hypertension, Alberta 1986 and 2003
Figure 76	Regional differences in the treated prevalence of hypertension, Alberta 2003
Figure 77	Age-standardized asthma treated prevalence per 100, Alberta 1983 to 2003
Figure 78	Age-specific treated prevalence of asthma per 100 population, Alberta 1986 and 2003
Figure 79	Regional differences in the treated prevalence of asthma, Alberta 2003
Figure 80	Age-standardized hospital separation rates per 100,000 population attributed to asthma, Alberta 1979/1980 to 2002/2003
Figure 81	Age-standardized treated prevalence for chronic bronchitis per 100 population, Alberta 1983 to 2003
Figure 82	Age-specific treated prevalence for chronic bronchitis, Alberta 1986 and 2003
Figure 83	Regional differences in the treated prevalence of chronic bronchitis, Alberta 2003
Figure 84	Age-standardized hospital separation rates per 100,000 population for chronic bronchitis, 1979/1980 to 2002/2003
Figure 85	Age-standardized treated prevalence of COPD per 100, Alberta 1983 to 2003
Figure 86	Age-specific treated prevalence per 100 for COPD, Alberta 1986 and 2003
Figure 87	Regional differences in the treated prevalence of COPD, Alberta 2003
Figure 88	Age-standardized treated prevalence per 100 for diabetes, Alberta 1986 to 2003
Figure 89	Age-specific treated prevalence per 100 population for diabetes, Alberta 1986 and 2003
Figure 90	Regional differences in the treated prevalence of diabetes, Alberta 2003
Figure 91	Age-standardized hospital separation rates per 100,000 population for diabetes, Alberta 1979/1980 to 2002/2003
Figure 92	Age-standardized mortality rate per 100,000 population for diabetes, Alberta 1960 to 2003
Figure 93	Age-standardized treated prevalence per 100 population for chronic renal failure, Alberta 1983 to 2003
Figure 94	Age-specific treated prevalence per 100 population for chronic renal failure, Alberta 1986 and 2003
Figure 95	Regional differences in the treated prevalence of chronic renal failure, Alberta 2003
Figure 96	Age-standardized hospital separation rates per 100,000 population for chronic renal failure, Alberta 1979/1980 and 2002/2003
Figure 97	Age standardized treated prevalence per 100 for arthritis in Alberta, 1983 to 2003
Figure 98	Age-specific treated prevalence per 100 population for arthritis, Alberta 1986 and 2003
Figure 99	Regional differences in the treated prevalence of arthritis, Alberta 2003
Figure 100	Age standardized hospital separation rates per 100,000 population for arthritis, Alberta 1979/1980 to 2002/2003

Injury

- Figure 101 Age-standardized treated prevalence per 100 population for injuries, Alberta 1983 to 2003
- Figure 102 Age-specific treated prevalence per 100 population for injuries, Alberta 1986 and 2003
- Figure 103 Regional differences in the treated prevalence of injury, Alberta 2003
- Figure 104 Age standardized hospital separation rates for unintentional injury, Alberta 1979/1980 to 2002/2003
- Figure 105 Age-standardized mortality per 100,000 population attributed to unintentional injury in Alberta, 1960 to 2003
- Figure 106 Age standardized hospital separation rates for intentional injury, Alberta 1979/1980 to 2002/2003
- Figure 107 Age-standardized hospital separation rate per 100,000 for suicide, Alberta 1979/1980 to 2002/2003
- Figure 108 Age-standardized mortality rate per 100,000 due to suicide, Alberta 1960 to 2003
- Figure 109 Age-specific mortality rate per 100,000 due to suicide, Alberta 1986 and 2003
- Figure 110 Regional differences in the age-standardized suicide mortality rate per 100,000 population, Alberta 2001-2003 combined
- Figure 111 Age standardized homicide mortality rate per 100,000 population, Alberta 1960 to 2003
- Figure 112 Age-specific mortality rate per 100,000 due to homicide, Alberta 1986 and 2003
- Figure 113 Regional differences in the age-standardized homicide mortality rate per 100,000 population, Alberta 2001-2003 combined

Communicable Disease

- Figure 114 Communicable disease mortality rates per 100,000 population, Alberta 1961 to 2003
- Figure 115 Chlamydia incidence per 100,000, Alberta 1989 to 2002
- Figure 116 Gonorrhoea incidence per 100,000, Alberta 1941 to 2003
- Figure 117 Infectious Syphilis incidence per 100,000 population, Alberta 1944 to 2003
- Figure 118 Age-standardized hepatitis C incidence, Alberta 1984 to 2003
- Figure 119 HIV incidence per 100,000 population, Alberta 1998 to 2003
- Figure 120 Campylobacteriosis incidence per 100,000 population, Alberta 1983 to 2003
- Figure 121 Giardiasis incidence per 100,000 population, Alberta 1983 to 2002
- Figure 122 Haemorrhagic colitis incidence per 100,000 population, Alberta 1983 to 2003
- Figure 123 Salmonella incidence per 100,000 population, Alberta 1960 to 2003
- Figure 124 Typhoid incidence per 100,000 population, Alberta 1919 to 2003
- Figure 125 Diphtheria incidence per 100,000 population, Alberta, 1920 to 2003
- Figure 126 Hepatitis A incidence per 100,000 population, Alberta 1945 to 2003
- Figure 127 Hepatitis B incidence per 100,000 population, Alberta 1969 to 2003
- Figure 128 *Haemophilus influenzae* type B incidence per 100,000 population, Alberta, 1978 to 2003

-
- Figure 129 Age Standardized influenza incidence per 100, Alberta 1986 to 2003
 - Figure 130 Age standardized mortality attributable to influenza per 100 population, Alberta 1986 to 2003
 - Figure 131 Incidence of reported rubella cases, Alberta 1928 to 2003
 - Figure 132 Measles incidence per 100,000 population, Alberta 1919 to 2003
 - Figure 133 Invasive meningococcal disease incidence per 100,000 population, Alberta, 1924 to 2003
 - Figure 134 Mumps incidence per 100,000 population, Alberta 1979 to 2003
 - Figure 135 Pertussis incidence per 100,000 population, Alberta, 1919 to 2003
 - Figure 136 Poliomyelitis incidence per 100,000 population, Alberta, 1919 to 2003
 - Figure 137 Smallpox incidence per 100,000 population, Alberta, 1919 to 2003
 - Figure 138 Varicella (chickenpox) incidence rate per 100,000 population under age five, Alberta, 1986 to 2004
 - Figure 139 Varicella (chickenpox) incidence rate per 100,000 population age ten years and younger, Alberta 1986 and 2003
 - Figure 140 Tuberculosis incidence per 100,000 population, Alberta 1919 to 2003
