

Standards Council of Canada
Conseil canadien des normes

**Focus
your
future!**

Discover Measure

Standardization is a part of business and everyday life in Canada and all over the world. The Standards Council of Canada (SCC) and the National Standards System (NSS) have a place for you within their Member Program. Why not focus your future by participating in the NSS?

Measure your opportunities

Canadians are participating with the NSS/SCC for many different reasons. Join them and...

- have more say in how international standards are developed
- network with others in your field
- learn skills that will give you a leg up in the work force
- raise your company's profile
- gain a reputation for being a leader
- develop career and business opportunities
- promote awareness of standardization
- bring Canadian interests to the international stage

Expand your expertise

Just about every aspect of our lives involves some sort of standard, from the size of a bolt on the CanadArm to the level of acceptable car exhaust emissions to the thread count of textiles. Your knowledge and experience are important to the NSS. Discover how you can contribute most, and at the same time, expand your professional opportunities.

Choose your area of expertise from a remarkable array such as:

- engineering
- information technology and e-commerce
- environmental issues
- management systems
- calibration, testing and metrology

And there are hundreds more!

Expand Learn

Discover the SCC and the NSS

The Standards Council of Canada oversees the National Standards System, a network of Canadian people and organizations that develop, promote and implement standards. Through the collaborative effort of the NSS partners, Canada's standards help advance the social and economic well-being of the country and safeguard the health and safety of Canadians. Made up of more than 350 organizations and 15,000 individuals, the NSS includes industry, consumers and non-governmental organizations, governments and organizations involved in standards development, certification, calibration and testing, registration, and auditor training and certifying.

To learn more

- visit our Web site at www.scc.ca
- or contact our Coordinator, Member Program at:

Standards Council of Canada
270 Albert Street, Suite 200
Ottawa, ON K1P 6N7

Telephone: +1 613 238 3222
Fax: +1 613 569 7808

Broaden your perspective

At the SCC, we recognize that our members need support and tools to be effective participants in the NSS. We develop our members' skills and potential through training in a variety of areas.

For more information on training opportunities, visit our Web site at www.scc.ca.
