

Partner with a winner!

*"As a Team
Canada Inc partner,
I can help my
clients be better
equipped for
export success."*

A Team Canada Inc partner

Do you want to serve your clients more cost effectively?

By partnering with Team Canada Inc, you receive numerous benefits at no cost. Rather than devote your scarce resources to developing your own export information products, your organization will have access to a number of ready-made materials designed to help your clients prepare for global markets.

In addition, you can refer your clients to our toll-free Export Information Service at 1 888 811-1119, and to our web portal, exportsource.ca. We will also send you monthly updates with the latest information on what products and services are available for exporters.

Help your clients achieve export success!

When you join Team Canada Inc your clients have a wealth of products and services available to them. Together, we can provide the assistance they need to expand their business internationally.

The *Step-by-Step Guide to Exporting*, for example, is a must-read for any entrepreneur considering a global venture. And even the most experienced exporter can benefit from the *Roadmap to Exporting*, which includes information about the various products and services available to them from dozens of partner agencies.

You could also offer our Going Global Workshops to your clients. We will provide all the materials you need to deliver the five half-day instructional courses on a cost-recovery basis.
