## Database Update Request

FBC has been developing trade opportunities and facilitating export readiness progress for the agri-food sector since 1995.

We work closely with Agriculture and Agri-Food Canada regional offices and provincial partners to provide a growing range of programs and services to help you reach your goals.

**Whether you're just starting out or are an experienced exporter - our programs can help you enter the export arena for the first time, expand your export markets or to solidify your presence in a current market.**

Export programs offered by FBC are cost shared through funding received from the CAFI Program administered by Agriculture and Agri-Food Canada.
