

PRIOR TO THE FINAL AGREEMENT,  
 THE PARTIES WILL NEGOTIATE AND ATTEMPT  
 TO REACH AGREEMENT ON THE PRECISE BOUNDARY  
 OF THE NUU-CHAH-NULTH DOMESTIC FISHING AREA.

APPENDIX C - MAP OF NUU-CHAH-NULTH DOMESTIC FISHING AREA

SCALE 1:2,000,000

**Appendix D**  
Nuu-chah-nulth Fishing Right Allocations

<b>Species</b>	<b>Fishing Right Allocation</b>
Sockeye Salmon	<p><u>Area 23 Somass</u> Formula that, on average, yields 21,000 pieces based on years 1980 to 2000. [Technical committee to work on formula to meet food fish priorities prior to initialing of AIP.]</p> <p><u>Area 24 to 26</u> Allocation to be agreed to prior to Final Agreement, based on share of Terminal TAC. Interim Joint Fisheries Committee to provide advice to parties prior to Final Agreement.</p> <p><u>Fraser River</u> Formula that, on average, yields 25,000 pieces based on share of Fraser Canadian TAC for years 1982 to 1997. [Technical committee to work on formula prior to initialing of AIP.]</p>
Chinook Salmon	<p><u>Somass</u> Formula that, on average, yields 2,911 pieces based on years 1985 to 1999. [Technical committee to work on formula to meet food fish priorities prior to initialing of AIP.]</p> <p><u>Area 23 to 26 other than Somass</u> Allocation to be agreed to prior to Final Agreement, based on share of Terminal TAC. Interim Joint Fisheries Committee to provide advice to parties prior to Final Agreement.</p> <p><u>Ocean Mixed Stock</u> Base of 5,000 pieces plus 4.75% of the Canadian TAC</p>
Herring	<p>325 short tons per year OR Base of 175 short tons plus 2.25% of total <del>WCVI TAC</del> <b>WCVI recommended yield</b></p>
Halibut	Base of 40,000 lbs (dressed, head off) plus 0.6% Canadian TAC
Dungeness Crab	Equivalent to 15% of the estimated commercial harvest in Areas 23 to 26. Parties will develop an allocation delivery approach prior to the Final Agreement which takes into account fluctuations in annual abundance. Set-aside harvest areas may be identified.

## Appendix E

### Nuu-chah-nulth Aboriginal Fisheries Strategy Commercial Fishing Licences

A list of licences issued to the Nuu-chah-nulth or their constituent First Nations as of the signing date of the Agreement-in-Principle.

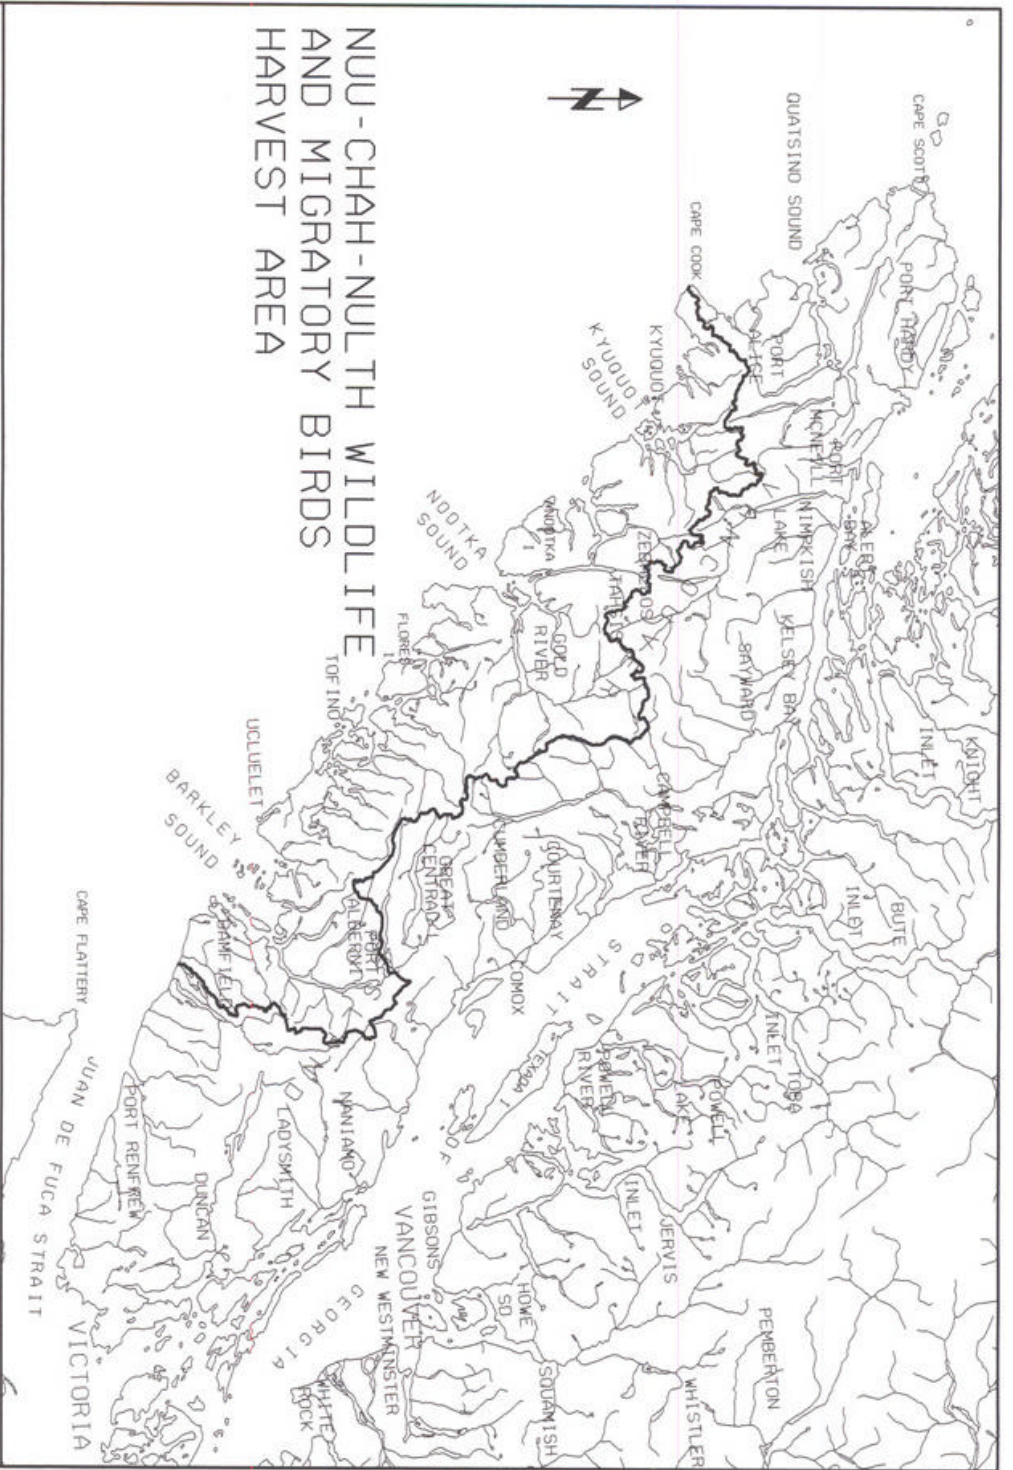

1. Four Category “A” Gillnet Licences Area D
2. One Category “A” Gillnet Licence No Area Selected
3. Four Category “A” Troll Licences “G” West Coast
4. One Category “A” Troll Licence No Area Selected
5. Four Category “H” Herring Gillnet Licences
6. Three Category “L” Halibut Licences and associated quota
7. ~~Three Two~~ Category “ZN (o)” Rockfish Outside Licences
8. One Category “W” Crab by Trap Licence
9. ~~Two One~~ Category Prawn by Trap Licences

Any other licences agreed to by the Parties between the Agreement in Principle and the Final Agreement.

## Appendix F

### Commercial Fishing Capacity in Nuu-chah-nulth Harvest Agreements

Species/Fishery	Maximum Share	Compensable Share	Time Period to Acquire
Somass Sockeye Area 23	20% of Somass Area 23 terminal commercial TAC. [Formula to be determined prior to initialing of AIP.]	20% of Somass Area 23 terminal commercial TAC. [Formula to be determined prior to initialing of AIP.]	
Non-Somass Sockeye Area 23 (Henderson)	Equivalent to 20% of non-Somass, Area 23 terminal commercial TAC.	Equivalent to 20% of non-Somass, Area 23 terminal commercial TAC	
Sockeye Areas 24 to 26	25% of identified terminal commercial TAC	25% of identified terminal commercial TAC	
Chinook Area 23	Equivalent of 20.8% of Total TAC minus FSC, subject to allocation policy. [Technical committee to review method of delivery prior to initialing of Agreement in Principle]	Equivalent of 20.8% of Total TAC minus FSC, subject to allocation policy. [Technical committee to review method of delivery prior to initialing of Agreement in Principle]	
Herring	4 existing J licences (unencumbered) Plus 100 gillnet equivalents	4 existing J licences (unencumbered) Plus 60 gillnet equivalents	
Halibut	8% of Canadian Commercial TAC	4% of Canadian Commercial TAC	
Dungeness Crab	8 licence equivalents	4 licence equivalents
