

## Road Test

You must wait at least 180 days from the date of issue of your Instruction Permit before taking a road test.

You are required to provide a vehicle in **good mechanical condition**, with valid registration, insurance and your Instruction Permit. Before the road test, your vehicle will be subject to an examination. It must meet the minimum safety standards required by law. Failure to meet the above requirements will result in the road test being deferred to another date.

If you are unable to attend your appointment, you must let the Access PEI centre know at least 24 hours in advance. Failure to cancel on time will result in the applicant having to pay for a new appointment.

Appointments for driving and written tests may be made by visiting the office nearest you and paying the appropriate fee:

# Introducing the Novice Driver Course

Transportation  
and Public Works

**Congratulations** upon achieving your Instruction Permit for the Province of Prince Edward Island.

You are now beginning the most important stage of the driving experience – learning how to operate a motor vehicle properly and safely. The province requires individuals with Instruction Permits to attend a **Novice Driver Course** before taking their first road test.

The **Novice Driver Course** provides you with information you may not receive outside of formal driving. The course explains the Newly Licensed Driver Process; the Demerit Point System; the aspects of the Criminal Code related to Impaired Driving; Alcohol and Drug Education; and handling certain driving conditions.

The course lasts approximately five hours and is usually taught on two separate evenings, (or in one after-school session – Elmsdale location only), and you must **register in advance and pay a fee.**

**Be prepared to quote the ID Number from your Instruction Permit.**

To inquire about a course location, and to register, call the nearest Access PEI centre.
