T3 – 2006

MINIMUM TAX

Page 1 of 6

- Use this schedule to calculate a trust's minimum tax and minimum tax carryover.
- See page 4 for trusts not subject to minimum tax in the tax year.
- For information on how to complete this schedule, see the instructions on pages 4 and 5.
- To calculate provincial or territorial minimum tax, see pages 5 and 6. To calculate the Ontario minimum tax carryover, see Schedule 12A, Chart 2 Ontario Minimum Tax Carryover for 2006 (Trusts) on our Web site at www.cra.gc.ca/forms.

Part 1 – Calculating net adjusted taxable income for minimum tax

Complete sections C, D, and E only if the trust is claiming losses from these sources.

A. Calculating the non-taxable portion of capital gains reported in the year and kept in the trust

Do not include taxable capital gains from mortgage foreclosures or conditional sales repossessions. If the trust is reporting deemed dispositions of capital property on Form T1055, or capital gains from donated property, you will need to make an adjustment for line 3. Use Chart 1 on page 4.

Is the trust subject to minimum tax?

The following trusts are not subject to minimum tax:

- a mutual fund trust;
- a related segregated fund trust;
- a master trust; and

• a spousal or common-law partner trust, a joint spousal or common-law partner trust, or an alter ego trust if it reports in the year its first deemed disposition on Form T1055.

Any other trust is liable to pay minimum tax if the net minimum tax payable on line 45 is more than the regular federal tax payable on line 48. A trust may have to pay minimum tax for the year if it:

- reports taxable capital gains (line 01 of the return);
- reports taxable dividends (line 03 of the return);
- claims a loss resulting from, or increased by, resource expenditures, or claims resource and depletion allowances on resource properties (line 06 or line 19 of the return);
- makes an election on pension benefits under ITAR 40 (line 02 of the return and line 22 of Schedule 11); or
- claims a loss resulting from, or increased by, capital cost allowance (CCA) or carrying charges claimed on:
 – rental or leasing property (line 09 of the return); or
 - certified films or videotapes (line 06 of the return).

Part 1 – Calculating net adjusted taxable income for minimum tax

Use Part 1 to calculate the net adjusted taxable income for minimum tax. Net adjusted taxable income for minimum tax purposes applies to:

- certain losses that limited partners, specified members of a partnership, or partners of a tax shelter deduct for their partnership interest (for this purpose, losses allocated from a partnership are applied against gains from the same partnership source);
- losses from tax shelters; and
- carrying charges for interests in limited partnerships, tax shelters, rental and leasing properties, film and resource properties, that increase or create a loss from these sources.

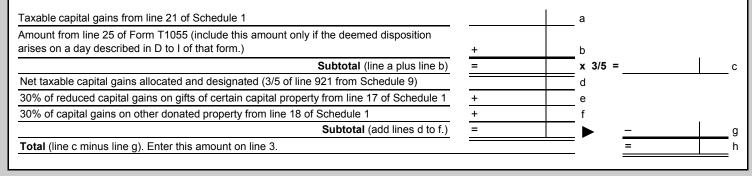

Note

Net income from rental and leasing property, and film property includes income from these investments (before CCA and related carrying charges) **plus** any net taxable capital gains from the disposition of these investments **minus** any losses from these investments (before CCA and related carrying charges). You also have to subtract allocated partnership losses from gains from the same partnership source.

Line 3 – Non-taxable portion of capital gains kept in the trust

This amount usually equals three-fifths of the taxable capital gains retained in the trust after the allocation and designation of net taxable capital gains to beneficiaries. **Do not** include taxable capital gains from mortgage foreclosures and conditional sales repossessions. Only the taxable portion of a capital gain from the donation or gift of property is included in the base for determining minimum tax. If the trust reports a capital gain from donated property, you have to make an adjustment for the non-taxable portion of capital gains as well. To make the adjustment, use the following chart. If you have completed Form T1055, *Summary of Deemed Dispositions*, you should also use the following chart to make the adjustment.

Chart 1 – Adjusted Line 3

Line 24 - Adjusted non-capital losses of other years used in the current year

If the trust claimed non-capital losses of other years, you may have to reduce the non-capital losses for minimum tax purposes. This reduction is any portion of the non-capital losses attributable to:

- capital cost allowance or carrying charges claimed on:
- rental or leasing property; or
- films certified by the Canadian Film and Videotape Certification office;
- resource expenditures; or
- resource and depletion allowances.

Enter the reduction on line 24.

For minimum tax purposes, a non-capital loss that is carried forward is calculated according to the minimum tax rules in effect for the year in which the loss was incurred.

Line 26 - Net capital losses of other years used in the current year

You may have claimed a capital loss from previous years on line 52 of the return. If this is the case, you will have to adjust the trust's income for minimum tax purposes. On line 26A, enter the net capital losses of other tax years that you claimed in the current year on line 52 of the return. **Do not** include capital losses on mortgage foreclosures and conditional sales repossessions.

If the amount on line 52 of the return is less than the capital gains remaining in the trust after allocation to beneficiaries, **and** the trust has additional unapplied losses of other years, you may be able to increase the amount on line 26A. Call us for details.

Line 28 – Basic exemption

We allow a basic exemption of \$40,000 to testamentary and grandfathered inter vivos trusts. Allocate the \$40,000 basic exemption among the trusts if more than one qualifying trust is formed from contributions by the same individual. To allocate the basic exemption, complete Schedule 6, *Trusts' Agreement to Allocate the Basic Exemption From Minimum Tax.* On line 28, enter the basic exemption, or the trust's allocated amount of the exemption from Schedule 6.

Part 5 – Calculating federal tax payable (minimum tax)

Line 56 – Refundable Quebec abatement

For information, see the instructions for line 45 of Schedule 11 in the T3 Trust Guide.

Part 6 – Calculating this year's additional taxes paid for minimum tax carryover

Lines 57 to 67

Use Part 6 to calculate the amount of any additional minimum tax payable by the trust for this year that you can carry over to a future year. You may be able to deduct this amount from the trust's regular tax liability on line 30 of Schedule 11 in future years. You can claim a carryforward for a period of seven years.

Part 7 – Calculating the total minimum tax carryover

Lines 68 to 77

Use Part 7 to calculate the minimum tax carryover from previous years that you can claim on Schedule 11 in this year. You can carry over minimum tax from the seven previous tax years. In the trust's best interests, apply the oldest available carryover first. For example, apply any carryover from 2001 before any carryover from 2002. You also use Part 7 to calculate the total minimum tax carryover, if any, that may be carried forward to later years.

Provincial and territorial minimum tax payable

Use Chart 3 – Calculating Provincial and Territorial Minimum Tax, on the next page, to calculate the trust's provincial and territorial minimum tax payable.

Ontario minimum tax carryover

To calculate your Ontario minimum tax carryover, use Schedule 12A, *Chart 2 – Ontario Minimum Tax Carryover for 2006 (Trusts)*, available on our Web site at **www.cra.gc.ca/forms**. If one of the following situations applies to the trust, call us for information on how to calculate the Ontario minimum tax carryover.

- The trust is resident in Ontario in 2006 and:
 - it is subject to tax in multiple jurisdictions (with taxable income in Ontario); or
 - in a year after 1999, it was not resident in Ontario, and minimum tax was payable in that year.
- The trust is not resident in Ontario in 2006, but has business income in Ontario.
- The trust was subject to tax in multiple jurisdictions in a year after 1999, and it was subject to Ontario minimum tax.

Note: You cannot claim a minimum tax carryover if the trust has to pay minimum tax.
