Report your exports electronically

Looking for a fast, easy way to report your exports? There are two options for reporting your exports electronically.

What are they?

Canadian Automated Export Declaration (CAED)

CAED is a Windows based software package downloaded from the Statistics Canada Web site. CAED provides exporters or their agents with the ability to transmit completed Export Declarations directly to the Government of Canada via the Internet.

G7 Electronic Data Interchange (EDI) Export Reporting

G7 EDI Export Reporting is an EDIFACT based protocol that allows exporters to either transmit export declarations directly to the Canada Border Services Agency (CBSA) or through the use of a service provider. Exporters must complete testing with the CBSA prior to being approved for production.

Canada

Where can I find more information?

For CAED related questions, contact:

CAED Helpline
Statistics Canada

Telephone:	(613) 951-6291 or 1-800-257-2434
Facsimile:	(613) 951-6823 or 1-888-269-5305
Email:	export@statcan.ca
Web site:	**www.statcan.ca/english/exports**

For G7 EDI Export Reporting related questions, or to obtain a copy of the *Participant Requirement Document* contact:

EDI Hotline:	1-888-957-7224 (within North America)
	(613) 946-0762 (outside North America)
Web site:	**www.cbsa.gc.ca/eservices**

For other border services information, contact:

Border Information Service (BIS)

| Throughout Canada | 1-800-461-9999 |
| From outside Canada | (204) 983-3500 or (506) 636-5064 |

Long distance charges will apply.
