

7.10.3 ISO Data Collection Sheet (ISO Sampling Plan 2859-1)

Light Fowl: Sample Code J, AQL = 1.5 / Heavy Fowl: Sample Code J, AQL = 2.5
Internal Cavity Defects (Adenocarcinoma, CRD/Peritonitis, Salpingitis,
Internal Tumours/Abscesses, Fecal Contamination)

Establishment no.:		Month/Date/Year:									Shift:							Line No.:						
SEQUENCE	1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17	18	19	20	21	22	23	24
TIME																								
INSPECTOR																								
# OF CARCASSES SAMPLED																								
INSPECTION TYPE																								
Inspection Type: N = Normal, R = Reduced, T = Tightened																								
NUMBER OF CARCASSES WITH ONE OR MORE DEFECTS																								
Adenocarcinoma																								
Contamination																								
Peritonitis																								
Salpingitis																								
Internal Tumours/Abscesses																								
Other (Specify)																								
Total of 1st Sample																								
CUMULATIVE TOTAL																								
Corrective Action Code																								

Corrective Action Codes: c.d. = change detector; a.d. = add detector, r. = reduce line speed, o. = other (specify)
