Information Sharing Survey Responses

Canada

Contact Name	Rodney Webber	Contact ID	C-01
Company	ScotiaBank	Phone Number	306-668-1639
Address	Box 1448	Fax Number	306-668-1649
City/Prov/PC	Saskatoon SK S7K 3R1	Email	

2. Please check all information sources you use to find out about technology trends or advancements to manage hog manure

- Industry Publications (please specify)
- Trade Shows (please specify)
- Enviroclubs/producer clubs/producer association (please specify)
- agro consultants/ag extension offices/agricultural engineers/agronomists/suppliers (please specify)
- conferences/workshops/seminars (please specify) Pork Industry Symposium
- websites(please specify)
- technology demonstration/ field days (please specify)
- television/ radio (please specify)
- Other (please specify)

3. What are your primary reasons for wanting to stay abreast of trends on new methods, approaches or technologies to manage hog manure?

- to make a change to current management practices
- to share with others
- for general knowledge
- Other please specify:

4. Actions taken based on specific information (please describe)

None

5. Effective Information Sources (why?)

Conferences/Seminars
Trade Shows

6. Least Effective Information Sources (why?)

Television, Radio - Seldom used

7. Most effective way(s) to receive information on new methods or technologies

Conferences/Seminars
Trade Shows

8. Any Other Comments

Contact Name	John Schutte	Contact ID	C-02
Company	Aurora Farm	Phone Number	604-855-5073
Address	37664 Wells Line Road	Fax Number	604-852-5082
City/Prov/PC	Abbotsford BC V2S 4N4	Email	

2. Please check all information sources you use to find out about technology trends or advancements to manage hog manure

- Industry Publications (please specify)
- Trade Shows (please specify)
- Enviroclubs/producer clubs/producer association (please specify)
- agro consultants/ag extension offices/agricultural engineers/agronomists/suppliers (please specify)
- conferences/workshops/seminars (please specify)
- websites(please specify)
- technology demonstration/ field days (please specify)
- television/ radio (please specify)
- Other (please specify) None

3. What are your primary reasons for wanting to stay abreast of trends on new methods, approaches or technologies to manage hog manure?

- to make a change to current management practices to share with others
- for general knowledge
- Other please specify:

4. Actions taken based on specific information (please describe)

5. Effective Information Sources (why?)

6. Least Effective Information Sources (why?)

7. Most effective way(s) to receive information on new methods or technologies

Through BC Pork

8. Any Other Comments

We built 8' deep pits underneath the whole barn. This gives us lots of storage room. We have pit ventilation also. So we don't need any manure storage information at all.

Contact Name	Cors de Lint	Contact ID	C-03
Company	Down to Earth Eco Farm Products Ltd	Phone Number	604-856-6919
Address	28005 McTavish Road	Fax Number	604-792-8720
City/Prov/PC	Abbotsford BC	Email	

2. Please check all information sources you use to find out about technology trends or advancements to manage hog manure

- Industry Publications (please specify) Bio Cycle, Dutch Agr. Magazine
- Trade Shows (please specify)
- Enviroclubs/producer clubs/producer association (please specify)
- agro consultants/ag extension offices/agricultural engineers/agronomists/suppliers (please specify)
Agriculture engineers specialized in manure management (Rick Van Kleek - BC Ministry of Agr.)
- conferences/workshops/seminars (please specify)
- websites(please specify)
- technology demonstration/ field days (please specify) Most Important
- television/ radio (please specify)
- Other (please specify) Personal contacts with researchers (Europe)

3. What are your primary reasons for wanting to stay abreast of trends on new methods, approaches or technologies to manage hog manure?

- to make a change to current management practices to share with others
- for general knowledge
- Other please specify: Also to look for new ideas to improve existing technologies

4. Actions taken based on specific information (please describe)

Build a system in which pigs are living on bedding/sawdust including an in-vessel composting system

5. Effective Information Sources (why?)

1. Scientific info through publication
2. Direct Contacts with specialists or industry reps.
- *3. Demonstration projects of existing technology

6. Least Effective Information Sources (why?)

Information provided by trade shows, conferences, seminars, websites are confusing if not misleading: don't have much practical value.

7. Most effective way(s) to receive information on new methods or technologies

1. First and forward demonstration projects of proven technology
2. Information from selective researchers, engineers and/or industry

8. Any Other Comments

Much time and energy is wasted by providing producers with unproven technology information. Only when a system has been in operation for at least 2-3 years it may be considered reliable!! Only then producer may consider it implement. It.

Contact Name	Blair Rausch	Contact ID	C-04
Company	Royal Bank of Canada	Phone Number	306-933-3515
Address	2030 Ave. C North	Fax Number	306-933-3534
City/Prov/PC	Saskatoon SK S7L 1M2	Email	blair.rausch@royalbank.com

2. Please check all information sources you use to find out about technology trends or advancements to manage hog manure

- Industry Publications (please specify) Hog Country
- Trade Shows (please specify) Pork Expo
- Enviroclubs/producer clubs/producer association (please specify)
- agro consultants/ag extension offices/agricultural engineers/agronomists/suppliers (please specify)
- conferences/workshops/seminars (please specify) Swine Symposium
- websites(please specify)
- technology demonstration/ field days (please specify)
- television/ radio (please specify)
- Other (please specify) Clients

3. What are your primary reasons for wanting to stay abreast of trends on new methods, approaches or technologies to manage hog manure?

- to make a change to current management practices
- to share with others
- for general knowledge
- Other please specify: To be a resource for non farming friends

4. Actions taken based on specific information (please describe)

5. Effective Information Sources (why?)

e-mail, newsletters

6. Least Effective Information Sources (why?)

Farm TV shows - on at poor times

7. Most effective way(s) to receive information on new methods or technologies

Direct Mail Bulletins

8. Any Other Comments

Contact Name	Lorence Peterson	Contact ID	C-05
Company	Western Grains Research Foundation	Phone Number	306-975-0060
Address	212-111 Research Drive	Fax Number	306-975-0136
City/Prov/PC	Saskatoon SK S7N 3R2	Email	lpeterson@westerngrains.com

2. Please check all information sources you use to find out about technology trends or advancements to manage hog manure

- Industry Publications (please specify) Western Producer, Grainnews
- Trade Shows (please specify) Agribition - Saskatoon Fall Fair
- Enviroclubs/producer clubs/producer association (please specify)
- agro consultants/ag extension offices/agricultural engineers/agronomists/suppliers (please specify)
- conferences/workshops/seminars (please specify)
- websites(please specify)
- technology demonstration/ field days (please specify)
- television/ radio (please specify) CJWW, CFQC-TV
- Other (please specify)

3. What are your primary reasons for wanting to stay abreast of trends on new methods, approaches or technologies to manage hog manure?

- to make a change to current management practices to share with others
- for general knowledge
- Other please specify:

4. Actions taken based on specific information (please describe)

None

5. Effective Information Sources (why?)

Newspapers, Trade Shows

6. Least Effective Information Sources (why?)

Conferences - since I don't directly work in the swine industry, I am unlikely to attend swine conferences

7. Most effective way(s) to receive information on new methods or technologies

If I was directly involved in swine industry conferences and technology demonstration would work best

8. Any Other Comments

Contact Name	Judie Dyck	Contact ID	C-06
Company	AgMar Inc	Phone Number	306-955-5307
Address	1215 Emerald Crescent	Fax Number	306-955-8151
City/Prov/PC	Saskatoon SK S7J 4S2	Email	Agmar@home.com

2. Please check all information sources you use to find out about technology trends or advancements to manage hog manure

- Industry Publications (please specify)
- Trade Shows (please specify)
- Enviroclubs/producer clubs/producer association (please specify)
- agro consultants/ag extension offices/agricultural engineers/agronomists/suppliers (please specify)
- conferences/workshops/seminars (please specify) Waste reduction in conjunction with SaskPork
- websites(please specify)
- technology demonstration/ field days (please specify)
- television/ radio (please specify)
- Other (please specify)

3. What are your primary reasons for wanting to stay abreast of trends on new methods, approaches or technologies to manage hog manure?

- to make a change to current management practices
- to share with others
- for general knowledge
- Other please specify: composting information

4. Actions taken based on specific information (please describe)

5. Effective Information Sources (why?)

6. Least Effective Information Sources (why?)

7. Most effective way(s) to receive information on new methods or technologies

8. Any Other Comments

Contact Name	John Kleinsasser	Contact ID	C-07
Company	Goldenview Colony	Phone Number	
Address		Fax Number	
City/Prov/PC	Biggar SK	Email	

2. Please check all information sources you use to find out about technology trends or advancements to manage hog manure

- Industry Publications (please specify)
- Trade Shows (please specify) SaskPork, Alberta Pork Congress
- Enviroclubs/producer clubs/producer association (please specify)
- agro consultants/ag extension offices/agricultural engineers/agronomists/suppliers (please specify)
vets/Heard Health Program
- conferences/workshops/seminars (please specify) Video-satellite conferences PSCI
- websites(please specify)
- technology demonstration/ field days (please specify)
- television/ radio (please specify)
- Other (please specify) Prairie Swine Centre

3. What are your primary reasons for wanting to stay abreast of trends on new methods, approaches or technologies to manage hog manure?

- to make a change to current management practices to share with others
- for general knowledge
- Other please specify: new ideas

4. Actions taken based on specific information (please describe)

5. Effective Information Sources (why?)
personal-PSCI and Heard Health

6. Least Effective Information Sources (why?)
All electronic media

7. Most effective way(s) to receive information on new methods or technologies
Shows, PSCI

8. Any Other Comments

Contact Name	Jan Bilan	Contact ID	C-08
Company	Elite	Phone Number	
Address		Fax Number	
City/Prov/PC		Email	

2. Please check all information sources you use to find out about technology trends or advancements to manage hog manure

- Industry Publications (please specify)
- Trade Shows (please specify) SaskPork
- Enviroclubs/producer clubs/producer association (please specify)
- agro consultants/ag extension offices/agricultural engineers/agronomists/suppliers (please specify)
- conferences/workshops/seminars (please specify) Satellite Conference
- websites(please specify)
- technology demonstration/ field days (please specify)
- television/ radio (please specify)
- Other (please specify) Pig Champ

3. What are your primary reasons for wanting to stay abreast of trends on new methods, approaches or technologies to manage hog manure?

- to make a change to current management practices
- to share with others
- for general knowledge
- Other please specify: awareness

4. Actions taken based on specific information (please describe)

Don't know

5. Effective Information Sources (why?)

Mail, faxing

6. Least Effective Information Sources (why?)

word of mouth

7. Most effective way(s) to receive information on new methods or technologies

Mail, faxing

8. Any Other Comments

Contact Name	Bruno Schwark	Contact ID	C-09
Company		Phone Number	306-978-0216
Address	258 Konihowski	Fax Number	
City/Prov/PC	Saskatoon SK S7S 1A7	Email	

2. Please check all information sources you use to find out about technology trends or advancements to manage hog manure

- Industry Publications (please specify)
- Trade Shows (please specify) Pork Expo
- Enviroclubs/producer clubs/producer association (please specify)
- agro consultants/ag extension offices/agricultural engineers/agronomists/suppliers (please specify)
Ag extension offices
- conferences/workshops/seminars (please specify) workshops
- websites(please specify)
- technology demonstration/ field days (please specify)
- television/ radio (please specify)
- Other (please specify)

3. What are your primary reasons for wanting to stay abreast of trends on new methods, approaches or technologies to manage hog manure?

- to make a change to current management practices to share with others
- for general knowledge
- Other please specify:

4. Actions taken based on specific information (please describe)

5. Effective Information Sources (why?)

On site tour would be the best

6. Least Effective Information Sources (why?)

7. Most effective way(s) to receive information on new methods or technologies

Trade shows such as the Sask Pork expo, on site tours

8. Any Other Comments

Contact Name	Florian Possberg	Contact ID	C-10
Company	Big Sky Farms Inc.	Phone Number	306-682-5041
Address	PO Box 610	Fax Number	306-682-5042
City/Prov/PC	Humboldt SK SOK 2A0	Email	

2. Please check all information sources you use to find out about technology trends or advancements to manage hog manure

- Industry Publications (please specify) Hog Farming, Pig Farming
- Trade Shows (please specify) World Pork Congress, Sask Pork Expo
- Enviroclubs/producer clubs/producer association (please specify)
- agro consultants/ag extension offices/agricultural engineers/agronomists/suppliers (please specify)
- conferences/workshops/seminars (please specify)
- websites(please specify)
- technology demonstration/ field days (please specify)
- television/ radio (please specify)
- Other (please specify)

3. What are your primary reasons for wanting to stay abreast of trends on new methods, approaches or technologies to manage hog manure?

- to make a change to current management practices to share with others
- for general knowledge
- Other please specify:

4. Actions taken based on specific information (please describe)

Incorporated new technology

5. Effective Information Sources (why?)

Demonstrations, publications, seminars

6. Least Effective Information Sources (why?)

7. Most effective way(s) to receive information on new methods or technologies

Demonstrations, publications, seminars

8. Any Other Comments

Contact Name	Dr. Moir Haug	Contact ID	C-11
Company	M.D. Haug & Assoc. Ltd.	Phone Number	306-934-7527
Address	232-111 Research Drive	Fax Number	306-934-7528
City/Prov/PC	Saskatoon SK S7N 3R2	Email	mhaug@innovationplace.com

2. Please check all information sources you use to find out about technology trends or advancements to manage hog manure

- Industry Publications (please specify)
- Trade Shows (please specify)
- Enviroclubs/producer clubs/producer association (please specify)
- agro consultants/ag extension offices/agricultural engineers/agronomists/suppliers (please specify)
Agriculture Engineers-U of S meeting with Ag-Bio professors
- conferences/workshops/seminars (please specify) Design and construction of reservoir, lagoon, and landfill liners-April 16,17,1997 by MD Haug & Assoc. (Travelodge Hotel-Saskatoon, SK) Canadian Geotechnical Conference
- websites(please specify)
- technology demonstration/ field days (please specify)
- television/ radio (please specify)
- Other (please specify) Referred Journal Publications - Canadian Geotechnical Society

3. What are your primary reasons for wanting to stay abreast of trends on new methods, approaches or technologies to manage hog manure?

- to make a change to current management practices
- to share with others
- for general knowledge
- Other please specify: To be able to provide more effective and efficient facility designs

4. Actions taken based on specific information (please describe)

Made improvements in the design of manure storage facilities, liner thickness, drainage layers, etc.

5. Effective Information Sources (why?)

Case history information on the performance of existing facilities, and the results of research on facility performance. This information is useful in assisting us to identify current containment weaknesses, and to improve remediation and future designs.

6. Least Effective Information Sources (why?)

TV and radio programs-they do not have the time or ability to adequately present material of this complex nature.

7. Most effective way(s) to receive information on new methods or technologies

workshops and specialty conferences

8. Any Other Comments

There s a lot of good "new" information on site characterization and facility design which has been developed over the past 5-10 years. More effort is needed to help transfer this technology to the Manure Management area. Workshops and seminars appear be the best way to doing this. However, they need to have industry and governmental(environmental) support!

Contact Name	Greg Johnson	Contact ID	C-12
Company	Stateline Farms Ltd.	Phone Number	604-856-1914
Address	28125 Zero Ave.	Fax Number	
City/Prov/PC	Aldergrove BC	Email	

2. Please check all information sources you use to find out about technology trends or advancements to manage hog manure

- Industry Publications (please specify) Western Hog Journal; Prairie Hog Country; International Pig Topics; Pig International
- Trade Shows (please specify)
- Enviroclubs/producer clubs/producer association (please specify)
- agro consultants/ag extension offices/agricultural engineers/agronomists/suppliers (please specify) BCMAF
- conferences/workshops/seminars (please specify) BCMAF; BC Pork
- websites(please specify)
- technology demonstration/ field days (please specify)
- television/ radio (please specify)
- Other (please specify)

3. What are your primary reasons for wanting to stay abreast of trends on new methods, approaches or technologies to manage hog manure?

- to make a change to current management practices
- to share with others
- for general knowledge
- Other please specify:

4. Actions taken based on specific information (please describe)

Manure sample tests prior to applications

5. Effective Information Sources (why?)

Seminars & Conferences - they are hands on and user friendly.

6. Least Effective Information Sources (why?)

Enviroclubs, etc - No such clubs in BC

7. Most effective way(s) to receive information on new methods or technologies

e-mail or fax

8. Any Other Comments

Contact Name	Jerry Gelderman	Contact ID	C-13
Company	Gelderman Farms Ltd.	Phone Number	604-864-9096
Address	35805 Vye Road	Fax Number	604-864-9096
City/Prov/PC	Abbotsford BC V3G 1Z5	Email	jerryg@uniserve.com

2. Please check all information sources you use to find out about technology trends or advancements to manage hog manure

- Industry Publications (please specify) Western Hog Journal; Country Life; Western Producer; Canadian Environment
- Trade Shows (please specify) Globe 98
- Enviroclubs/producer clubs/producer association (please specify) BC Pork Producers
- agro consultants/ag extension offices/agricultural engineers/agronomists/suppliers (please specify) Ministry of Agriculture - engineering branch
- conferences/workshops/seminars (please specify) different ones being offered in this area
- websites(please specify)
- technology demonstration/ field days (please specify)
- television/ radio (please specify)
- Other (please specify)

3. What are your primary reasons for wanting to stay abreast of trends on new methods, approaches or technologies to manage hog manure?

- to make a change to current management practices
- to share with others
- for general knowledge
- Other please specify:

4. Actions taken based on specific information (please describe)

Put in separator for better flushing - trying aeration and ultra fill

5. Effective Information Sources (why?)

Direct contact with people who have past experience and have proven technology

6. Least Effective Information Sources (why?)

7. Most effective way(s) to receive information on new methods or technologies

From whom?

- seminars
- demonstrations
- fax sheets
- newsletters

8. Any Other Comments

Contact Name	David Rolfe	Contact ID	C-14
Company	Leverton Farms	Phone Number	204-769-2287
Address	PO Box 60	Fax Number	204-769-2031
City/Prov/PC	Elgin MB ROK 0T0	Email	

2. Please check all information sources you use to find out about technology trends or advancements to manage hog manure

- Industry Publications (please specify) Western Hog Journal; Manitoba Pork Press; Western Producer; Manitoba Cooperator; Country Guide (Hogs)
- Trade Shows (please specify) Hog & Poultry Days, MB
- Enviroclubs/producer clubs/producer association (please specify) Manitoba Pork Council; WPC; Canadian Pork Council
- agro consultants/ag extension offices/agricultural engineers/agronomists/suppliers (please specify) Manitoba Agriculture; University of Manitoba; Prairie Swine Centre
- conferences/workshops/seminars (please specify) Manitoba Swine Seminar
- websites(please specify)
- technology demonstration/ field days (please specify)
- television/ radio (please specify) CKLQ Radio - Farmscape
TV - Manitoba Farm Report
- Other (please specify)

3. What are your primary reasons for wanting to stay abreast of trends on new methods, approaches or technologies to manage hog manure?

- to make a change to current management practices
- to share with others
- for general knowledge
- Other please specify:

4. Actions taken based on specific information (please describe)

Modified Feed Rations using Hull-less Barley

5. Effective Information Sources (why?)

Publications - fax communications

Hard Copy - verified information

6. Least Effective Information Sources (why?)

7. Most effective way(s) to receive information on new methods or technologies

Web sites on the internet when we get connected

8. Any Other Comments

Contact Name	Frank Novak	Contact ID	C-15
Company	Alberta Pig Company	Phone Number	780-922-0032
Address	22059 Twp. Road 520	Fax Number	780-922-0028
City/Prov/PC	Sherwood Park AB	Email	

2. Please check all information sources you use to find out about technology trends or advancements to manage hog manure

- Industry Publications (please specify) Western Producer
- Trade Shows (please specify)
- Enviroclubs/producer clubs/producer association (please specify)
- agro consultants/ag extension offices/agricultural engineers/agronomists/suppliers (please specify)
Agriculture Engineers -government, Manure application suppliers
- conferences/workshops/seminars (please specify) Banff Pork Seminar, Allen Lehman Conference
- websites(please specify)
- technology demonstration/ field days (please specify)
- television/ radio (please specify)
- Other (please specify)

3. What are your primary reasons for wanting to stay abreast of trends on new methods, approaches or technologies to manage hog manure?

- to make a change to current management practices to share with others
- for general knowledge
- Other please specify: Planning Future Changes

4. Actions taken based on specific information (please describe)

Nutrient testing of manure

5. Effective Information Sources (why?)

Those that provide a direct opportunity to ask for more information-i.e.. Provide contact names/locations

6. Least Effective Information Sources (why?)

Farm Press -i.e. papers, TV insufficient detail

7. Most effective way(s) to receive information on new methods or technologies

technical bulletin via e-mail, website, mail

8. Any Other Comments

Contact Name	Raymond D'Amours	Contact ID	EA-01
Company	Porcherie R. G. D'Amours	Phone Number	9-849-7476

2. Please check all information sources you use to find out about technology trends or advancements to manage hog manure

- Industry Publications (please specify)
- Trade Shows (please specify) Expo
- Enviroclubs/producer clubs/producer association (please specify)
- agro consultants/ag extension offices/agricultural engineers/agronomists/suppliers (please specify)
- conferences/workshops/seminars (please specify)
- websites(please specify)
- technology demonstration/ field days (please specify)
- television/ radio (please specify)
- Other (please specify)

3. What are your primary reasons for wanting to stay abreast of trends on new methods, approaches or technologies to manage hog manure?

- to make a change to current management practices to share with others
- for general knowledge
- Other please specify:

4. Actions taken based on specific information (please describe)

5. Effective Information Sources (why?)
demonstration

6. Least Effective Information Sources (why?)

7. Most effective way(s) to receive information on new methods or technologies
demonstration

8. Any Other Comments

Contact Name	Bert Vorstenbosch	Contact ID	O-01
Company	B&D Fullarton Farms LTD	Phone Number	519-348-8269
Address	RR #2	Fax Number	519-348-9251
City/Prov/PC	Mitchell ON NOK 1N0	Email	

2. Please check all information sources you use to find out about technology trends or advancements to manage hog manure

- Industry Publications (please specify) R.O.M.A. newsletters, Ontario Farmer county papers, farm Financial by CBIC
- Trade Shows (please specify) R.O.M.A Conference, Niagara Conference
- Enviroclubs/producer clubs/producer association (please specify) OFA, CFFA
- agro consultants/ag extension offices/agricultural engineers/agronomists/suppliers (please specify) Perth County Co op agronomists
- conferences/workshops/seminars (please specify) workshops sponsored by municipalities
- websites(please specify)
- technology demonstration/ field days (please specify) Manure test pilots on our own farm
- television/ radio (please specify) Channel 10, - This Business of Farming - Ross Daily
- Other (please specify)

3. What are your primary reasons for wanting to stay abreast of trends on new methods, approaches or technologies to manage hog manure?

- to make a change to current management practices
- to share with others
- for general knowledge
- Other please specify:

4. Actions taken based on specific information (please describe)

We add SHAC to manure. It reduce odors and gases.

5. Effective Information Sources (why?)

Written information is the most effective. You can always look back

6. Least Effective Information Sources (why?)

Verbal, because you usually forget.

7. Most effective way(s) to receive information on new methods or technologies

fax, mail

8. Any Other Comments

I'm interested in all new information. Education is the best policy.

Contact Name	Richard Smelski	Contact ID	O-02
Company	Agribands Purina	Phone Number	519-625-8811
Address	R1	Fax Number	519-625-8878
City/Prov/PC	Shakespeare ON NOB 2P6	Email	rsmelski@orc.ca

2. Please check all information sources you use to find out about technology trends or advancements to manage hog manure

- Industry Publications (please specify) Ontario Pork, National, Pork County
- Trade Shows (please specify) Ontario Pork Congress, World Pork Expo
- Enviroclubs/producer clubs/producer association (please specify)
- agro consultants/ag extension offices/agricultural engineers/agronomists/suppliers (please specify) Kains/Hillborn/Huffman, especially Sam Bradshaw
- conferences/workshops/seminars (please specify) Nutrient Management
- websites(please specify) Ontario Pork, PSCI
- technology demonstration/ field days (please specify) few
- television/ radio (please specify) rare
- Other (please specify) focus as need to situation

3. What are your primary reasons for wanting to stay abreast of trends on new methods, approaches or technologies to manage hog manure?

- to make a change to current management practices
- to share with others
- for general knowledge
- Other please specify:

4. Actions taken based on specific information (please describe)
program with Agribands, inform visit suggestions

5. Effective Information Sources (why?)

6. Least Effective Information Sources (why?)

7. Most effective way(s) to receive information on new methods or technologies
A place to ask for specific problem solving

8. Any Other Comments

Need a team to address very specific-deep problems

Contact Name	Clare Schlegel	Contact ID	O-03
Company	Blind Acres Inc.	Phone Number	519-655-2750
Address	RR #1	Fax Number	519-655-9921
City/Prov/PC	Taurastodl ON NOB 2R0	Email	cschlegl@orc.ca

2. Please check all information sources you use to find out about technology trends or advancements to manage hog manure

- Industry Publications (please specify) receive numerous
- Trade Shows (please specify)
- Enviroclubs/producer clubs/producer association (please specify)
- agro consultants/ag extension offices/agricultural engineers/agronomists/suppliers (please specify)
crop consultant, I use site specific soil testing
- conferences/workshops/seminars (please specify) Attend seminars periodically
- websites(please specify) Ontario Pork
- technology demonstration/ field days (please specify)
- television/ radio (please specify)
- Other (please specify)

3. What are your primary reasons for wanting to stay abreast of trends on new methods, approaches or technologies to manage hog manure?

- to make a change to current management practices to share with others
- for general knowledge
- Other please specify: To be environmentally responsible

4. Actions taken based on specific information (please describe)

Changed gallons/acre and time of spreading

5. Effective Information Sources (why?)

Internet- always accessible

Some seminars or demonstration-get to meet with others

6. Least Effective Information Sources (why?)

7. Most effective way(s) to receive information on new methods or technologies

An e-mail bulletin, perhaps with an outline with what is suggested

8. Any Other Comments

Contact Name	Earl or Laura Bowman	Contact ID	O-04
Company		Phone Number	519-848-2945
Address	RR #2	Fax Number	519-848-3709

2. Please check all information sources you use to find out about technology trends or advancements to manage hog manure

- Industry Publications (please specify)
- Trade Shows (please specify) Drayton Arena
- Enviroclubs/producer clubs/producer association (please specify)
- agro consultants/ag extension offices/agricultural engineers/agronomists/suppliers (please specify)
- conferences/workshops/seminars (please specify)
- websites(please specify)
- technology demonstration/ field days (please specify) Farm Show
- television/ radio (please specify)
- Other (please specify)

3. What are your primary reasons for wanting to stay abreast of trends on new methods, approaches or technologies to manage hog manure?

- to make a change to current management practices to share with others
- for general knowledge
- Other please specify: To protect land and use full value of manure

4. Actions taken based on specific information (please describe)

Farm for Profit program -519-669-2107

5. Effective Information Sources (why?)

6. Least Effective Information Sources (why?)

7. Most effective way(s) to receive information on new methods or technologies

Fax

2. Please check all information sources you use to find out about technology trends or advancements to manage hog manure

- Industry Publications (please specify) Farm & Country, Hog Producer, Ontario Farmer, many other seed dealer publications
- Trade Shows (please specify) Pork Congress, London Farm Show, Plowing Match
- Enviroclubs/producer clubs/producer association (please specify) OPPMB
- agro consultants/ag extension offices/agricultural engineers/agronomists/suppliers (please specify) OMAFRA Fact Sheets
- conferences/workshops/seminars (please specify) Soil & Crop Association Seminars, Dealer-sponsored workshops
- websites(please specify)
- technology demonstration/ field days (please specify) Equipment Days sponsored by Farm Equipment dealers, Plowing Match
- television/ radio (please specify)
- Other (please specify)

3. What are your primary reasons for wanting to stay abreast of trends on new methods, approaches or technologies to manage hog manure?

- to make a change to current management practices to share with others
- for general knowledge
- Other please specify: Keep up to date

4. Actions taken based on specific information (please describe)
Rate of application trials, Design of barn and storage facility

5. Effective Information Sources (why?)

6. Least Effective Information Sources (why?)

7. Most effective way(s) to receive information on new methods or technologies
Farmer Organizations-ie soil and crop, Hog Producers, etc. Pork Congress, Env Farm Plan Publication/Newsletters

8. Any Other Comments

Contact Name	Donald R. Kember	Contact ID	O-09

2. Please check all information sources you use to find out about technology trends or advancements to manage hog manure

- Industry Publications (please specify) Hog Farmer, Hog Quarterly, Western Ontario Farmer Paper
- Trade Shows (please specify) London Farm Show, Pork Congress
- Enviroclubs/producer clubs/producer association (please specify)
- agro consultants/ag extension offices/agricultural engineers/agronomists/suppliers (please specify)
- conferences/workshops/seminars (please specify)
- websites(please specify)
- technology demonstration/ field days (please specify)
- television/ radio (please specify)
- Other (please specify)

3. What are your primary reasons for wanting to stay abreast of trends on new methods, approaches or technologies to manage hog manure?

- to make a change to current management practices to share with others
- for general knowledge
- Other please specify:

4. Actions taken based on specific information (please describe)

feed additives for manure flow ability and break down

5. Effective Information Sources (why?)

Seminars and printed matter

6. Least Effective Information Sources (why?)

radio, TV-is rarely advertised

7. Most effective way(s) to receive information on new methods or technologies

Hog magazines, feed salesmen

8. Any Other Comments

Contact Name	Greg McDonald	Contact ID	O-10
Company	Wilrie Farms	Phone Number	519-822-0050

2. Please check all information sources you use to find out about technology trends or advancements to manage hog manure

- Industry Publications (please specify) Ridgetown College has sent around publications on research they have done
- Trade Shows (please specify) London Farm Show, outdoor farm show
- Enviroclubs/producer clubs/producer association (please specify)
- agro consultants/ag extension offices/agricultural engineers/agronomists/suppliers (please specify)
- conferences/workshops/seminars (please specify)
- websites(please specify)
- technology demonstration/ field days (please specify) Outdoor farm show, manure injection
- television/ radio (please specify) TV-This Business of farming
- Other (please specify) Our custom applicator keeps us informed on changes to spreading laws and changes to them

3. What are your primary reasons for wanting to stay abreast of trends on new methods, approaches or technologies to manage hog manure?

- to make a change to current management practices
- to share with others
- for general knowledge
- Other please specify: 1. To help get best quality for cropping purposes
2. To keep smell down so as to get along with residential neighbors

4. Actions taken based on specific information (please describe)

We have started working manure in immediately after application

5. Effective Information Sources (why?)

Magazine article are the best because the reporters have researched most of my interests and concerns very thoroughly.

6. Least Effective Information Sources (why?)

There are no poor sources for this information, all of it is very helpful to me

7. Most effective way(s) to receive information on new methods or technologies

The most effective way is for there to be a magazine or publication mailed out on a regular basis. To help keep us informed on the new practices and or changes to industry.

2. Please check all information sources you use to find out about technology trends or advancements to manage hog manure

- Industry Publications (please specify) OMAF, Pork News and Views
- Trade Shows (please specify) Farm Show and plowing match
- Enviroclubs/producer clubs/producer association (please specify) Huron County Pork Producers
- agro consultants/ag extension offices/agricultural engineers/agronomists/suppliers (please specify) Nuhn
- conferences/workshops/seminars (please specify)
- websites(please specify)
- technology demonstration/ field days (please specify)
- television/ radio (please specify)
- Other (please specify)

3. What are your primary reasons for wanting to stay abreast of trends on new methods, approaches or technologies to manage hog manure?

- to make a change to current management practices to share with others
- for general knowledge
- Other please specify:

4. Actions taken based on specific information (please describe)

Changes in feed-phosphorus, changes in fertility practices

5. Effective Information Sources (why?)

Magazines, newspapers (Ont. Farmer), Pork News and Views

6. Least Effective Information Sources (why?)

Websites - must look for info

7. Most effective way(s) to receive information on new methods or technologies

Those mentioned before or direct mailing from Pork Board

8. Any Other Comments

Contact Name	Norm Bird	Contact ID	O-12
Company	Argue & Associated Consulting Engineers	Phone Number	519-836-0040
Address	130 Malcolm Road	Fax Number	519-836-5477

2. Please check all information sources you use to find out about technology trends or advancements to manage hog manure

- Industry Publications (please specify) Feedtech, resource (ASAE), World Poultry, Canadian Agriculture Engineering, ASAE Publications (proceedings, poultry waste conference etc.)
- Trade Shows (please specify) Pork Congress - Stratford, Poultry Conference-London, ON
- Enviroclubs/producer clubs/producer association (please specify)
- agro consultants/ag extension offices/agricultural engineers/agronomists/suppliers (please specify)
This is the most important source for me. It includes all of the above, plus farmers. In the geographic area where I work, all of these people work together without a formal organization to create new solutions to Hog Manure Environmental problems. I have a list of people in each category that I can call for information
- conferences/workshops/seminars (please specify)
- websites(please specify) OMAFRA, What not, Albert Agriculture, PSCI, www.ontraiopork.on.ca
- technology demonstration/ field days (please specify)
- television/ radio (please specify)
- Other (please specify) press-news reporting of manure spills, country an provincial bylaws, legislation policy

3. What are your primary reasons for wanting to stay abreast of trends on new methods, approaches or technologies to manage hog manure?

- to make a change to current management practices
- to share with others
- for general knowledge
- Other please specify: To do consulting serve to farmer clients on manure management. Most requests I receive are for building design rather than environmental

4. Actions taken based on specific information (please describe)

In the past, (with OMAFRA) I have advised hog farmers on manure management planning and assisted farmers in their planning of manure management

5. Effective Information Sources (why?)

website -can quickly make contact with individuals and SHARE information, problems and solutions

6. Least Effective Information Sources (why?)

Farm Shows. They are a good source contacts to update my short list of contacts, but the show is generally geared to sell equipment to farmers.

7. Most effective way(s) to receive information on new methods or technologies

This often in the form of research papers and reports or talk presented by specialists. Proceedings of national and international symposiums are very useful

8. Any Other Comments

2. Please check all information sources you use to find out about technology trends or advancements to manage hog manure

- Industry Publications (please specify) Pork News, Farmer Country, Western Ontario Farmer, Hog Farmer, Pig Progress, Pig Pens, Earth Keeping Ontario, LH Resource Newsletter
- Trade Shows (please specify) Ontario Pork Congress, London Farm Show
- Enviroclubs/producer clubs/producer association (please specify)
- agro consultants/ag extension offices/agricultural engineers/agronomists/suppliers (please specify) LH Resource
- conferences/workshops/seminars (please specify)
- websites(please specify)
- technology demonstration/ field days (please specify)
- television/ radio (please specify)
- Other (please specify)

3. What are your primary reasons for wanting to stay abreast of trends on new methods, approaches or technologies to manage hog manure?

- to make a change to current management practices
- to share with others
- for general knowledge
- Other please specify:

4. Actions taken based on specific information (please describe)

5. Effective Information Sources (why?)

General and specific weekly or monthly magazines or papers- neutral and unbiased

6. Least Effective Information Sources (why?)

Retailers-Biased opinions

7. Most effective way(s) to receive information on new methods or technologies

Through OPPMB newsletter and Hog Farmer magazine

8. Any Other Comments

- Other (please specify)

3. What are your primary reasons for wanting to stay abreast of trends on new methods, approaches or technologies to manage hog manure?

- to make a change to current management practices to share with others
- for general knowledge
- Other please specify:

4. Actions taken based on specific information (please describe)

Custom Spreading of Liquids -allows for quicker time between spreading & tillage to avoid neighborhood complaints.

5. Effective Information Sources (why?)

6. Least Effective Information Sources (why?)

Radio & television-do not have time to watch
Net- not connected

7. Most effective way(s) to receive information on new methods or technologies

By mail

8. Any Other Comments

Fortunately, there is not a problem on this farm and the chance of expansion thereby needing new systems, is NIL.

2. Please check all information sources you use to find out about technology trends or advancements to manage hog manure

- Industry Publications (please specify) Ontario Farmer, Ontario Hog Farmer, National Hog Farmer, Pork News and Views (OMAFRA), Pig Letter, Pig Farming(Britain), Canadian society of Agriculture Engineers Newsletter
- Trade Shows (please specify) Ontario Pork Congress, Farm machinery Show (Toronto), London Farm Show
- Enviroclubs/producer clubs/producer association (please specify)
- agro consultants/ag extension offices/agricultural engineers/agronomists/suppliers (please specify) Agviro Consultants-Guelph, OMAFRA, extension engineers, manure equipment suppliers (ie-Husky, Nuhn, Spanjer)
- conferences/workshops/seminars (please specify) OMAFRA Nutrient Management Plan seminars and workshops
- websites(please specify) omafra.gov.on.ca
- technology demonstration/ field days (please specify) OMAFRA sponsored field days, industry sponsored demonstration of manure equipment or management technique
- television/ radio (please specify)
- Other (please specify)

3. What are your primary reasons for wanting to stay abreast of trends on new methods, approaches or technologies to manage hog manure?

- to make a change to current management practices
- to share with others
- for general knowledge
- Other please specify:

4. Actions taken based on specific information (please describe)

Modified advice given to farmers particularly in the area of manure storage-under barn storage, manure transfer systems in the barn, gas hazards, etc. My specialty was swine housing with OMAFRA.

5. Effective Information Sources (why?)

Company literature which can be back up with research, Information which at least attempts to be objective.

6. Least Effective Information Sources (why?)

Company literature with claims which can not be backup with research.

7. Most effective way(s) to receive information on new methods or technologies

E-mail or an internet website, demonstration days.

8. Any Other Comments
