Canadian Beef

Leadership in animal health and beef safety

Canada's beef value chain provides products that are safe, wholesome and provide the excellent quality eating experience that customers around the world expect from Canada. The Canadian beef industry is one of the most modern and innovative in the world. With cutting edge technology, a tradition of responsible and environmentally friendly production, Canadian growers can produce products to meet the needs of any market.

Industry Information

Canadian Cattlemen's Association

Established in 1932, the Canadian Cattlemen's Association is the only national association representing the interests of Canada's 90,000 beef producers.
