I, the undersigned official veterinarian, duly authorized by the Government of Canada, hereby certify that, after due enquiry and to the best of my knowledge and belief, the day old poults/hatching eggs described below meet the following requirements:

1. The hatching eggs originate from Canada.
2. Avian Influenza is reportable under the Health of Animals Act and Regulations.
3. Canada is officially recognized to be free from velogenic Newcastle disease, fowl typhoid and the hatching eggs originate from a region of Canada recognized to be free from notifiable avian influenza for a period of 21 days before collection of the eggs.
4. The flock of origin participates in the required programs under the legislative authority of the Health of Animals Act.
5. The flock from which the shipment originated has been subject to regular inspection by an official veterinarian of the Canadian Food Inspection Agency and found to be free of evidence of infectious or contagious diseases, and, so far as can be determined, has not been exposed to such diseases.
6. The flock or flocks and the hatchery or hatcheries from which the shipment originated were inspected within the past thirty (30) days and were found to be free from clinical evidence of fowl pox, fowl cholera, infectious coryza, infectious laryngotracheitis, viral arthritis, psittacosis (Ornithosis), avian tuberculosis, avian encephalomyelitis, reticuloendotheliosis, mycoplasmosis (chronic respiratory disease), infectious bronchitis, leucosis including Marek's disease, avian monocyctosis, infectious bursal disease (gumboro disease), inclusion body hepatitis, trichomoniasis, histomoniasis, listeriosis, Arizonosis, coccidiosis, colibacillosis, espiroquetosis, erysipelthrix, spirochetosis and chigger disease.
7. The flock of origin has been confirmed free from Newcastle disease (Velogenic and Mesogenic), mycoplasma (M. gallisepticum and M. synoviae), Salmonella pullorum, Salmonella gallinarum, intestinal Salmonella (S. typhimurium and S. Arizona) as a result of sampling performed under a recognized flock monitoring program.
8. All cages, crates, vehicles and areas in the aircraft used for transportation of the chicks/hatching eggs were cleaned and disinfected in a manner approved by the Canadian Food Inspection Agency.
9. The hatching eggs were properly disinfected immediately after collection in accordance with OIE standards (Appendix 3.4.1.7)
10. The flock origin has not been vaccinated against Avian Influenza **OR**

The flock of origin has been vaccinated for Avian Influenza. **Delete as appropriate**

a) Date of vaccination _____ Dose _____

Type of vaccine _____

Manufacturer _____

11. Identification of Hatching Eggs:
