Address: \_\_\_\_\_  
\_\_\_\_\_
- ii) Name of Consignee: \_\_\_\_\_  
\_\_\_\_\_

**SECTION II**

- i) Name of Semen Production Centre(s) where semen collected: \_\_\_\_\_  
Address: \_\_\_\_\_  
\_\_\_\_\_

**SECTION III - Health Information**

I, the undersigned Official Veterinary Officer of the Government of Canada, certify that to the best of my knowledge and belief:

1. The semen was collected from a bull maintained in an artificial insemination centre which is under official veterinary control.
2. At the time of collection of the semen, the donor bull was healthy and free of evidence of disease.
3. The donor bull is free from Bovine Spongiform Encephalopathy (BSE) and is not the progeny of a cow affected with BSE.
4. All the animals maintained at the artificial insemination centre, including the donor bull, are recognized to be free of tuberculosis, brucellosis, leptospirosis, paratuberculosis, bluetongue, epizootic hemorrhagic disease, enzootic bovine leucosis, bovine virus diarrhoea, campylobacteriosis and trichomoniasis.
5. The donor bull has been subjected to the following tests with negative results:
  - a) tuberculosis                                      - intradermal PPD bovine tuberculin
  - b) brucellosis    - tube agglutination test
  - c) leptospirosis    - microagglutination test
  - d) paratuberculosis    - complement fixation test or ELISA
  - e) enzootic bovine leucosis    - agar gel immunodiffusion or ELISA
  - f) bluetongue    - ELISA
  - g) campylobacteriosis    - culture
  - h) epizootic hemorrhagic disease    - agar gel immunodiffusion
  - i) trichomoniasis    - direct microscopic examination and culture
  - j) bovine virus diarrhoea    - immunoperoxidase
