

**BRITISH COLUMBIA MANUFACTURING AND PROCESSING TAX CREDIT
(2000 and later taxation years)**

Corporation's name	Business Number	Taxation year-end		
		Year	Month	Day

- Use this schedule if you are a qualifying corporation that has acquired BC qualified property after March 31, 2000 and before July 31, 2001, for use in British Columbia, and you want to do any of the following:
 - calculate the credit;
 - claim the credit to reduce British Columbia income tax otherwise payable in the current taxation year;
 - request a carryback to reduce British Columbia income tax payable in any of the three preceding taxation years;
 - renounce the current-year credit in whole or in part. The renouncement must be made in the year the credit was earned or acquired, and filed on or before the filing due date of the federal *T2 Corporation Income Tax Return*.
- A corporation is **not** a qualifying corporation and is therefore **not eligible** to claim the credit if any of the following apply:
 - the corporation did not maintain a permanent establishment (as defined in Regulation 400 of the federal *Income Tax Regulations*) in British Columbia at any time in the taxation year.
 - the corporation is:
 - a non-resident-owned investment corporation, or at any time of the year was controlled directly or indirectly in any manner whatever by a non-resident-owned investment corporation;
 - exempt from tax under subsection 149(1) of the federal *Income Tax Act*, or at any time of the year, was controlled directly or indirectly in any manner whatever by one or more persons, all or part of whose income is exempt from tax; or
 - of a type or class of corporation prescribed by regulation.
 - the corporation was at any time in the year:
 - a small business venture capital corporation registered under section 3 of the *Small Business Venture Capital Act*; or
 - an employee venture capital corporation registered under section 8 of the *Employee Investment Act*.
- If the corporation has claimed the two-year income tax holiday for new small businesses under section 17 of the *Income Tax Act (British Columbia)* in the taxation year, it will not be allowed to calculate the credit for the same taxation year.
- BC qualified property consists of buildings, machinery, and equipment that is prescribed for the purposes of the definition of qualified property in subsection 127(9) of the federal Act, that was not acquired for use or lease, for any purpose before it was acquired by the corporation and that is to be used by the corporation in British Columbia primarily for the purpose of manufacturing or processing of goods for sale or lease. Property leased by the corporation to a related qualifying corporation may also qualify for the credit. Manufacturing or processing is defined in subsection 125.1(3) of the federal Act. BC qualified property has to be available for use (as defined in subsections 13(27) and 13(28) of the federal Act) before it is eligible for the credit.
- BC qualified property cannot include excluded property. Excluded property is property acquired by a qualifying corporation in a taxation year in the course of earning income in the taxation year if any of the income is exempt income (as defined in subsection 248(1) of the federal Act), or is exempt from tax under Part I of the federal Act.
- Capital cost of BC qualified property must be identified on this schedule and filed with the Canada Customs and Revenue Agency no later than 18 months after the end of the taxation year in which the property was acquired.
- Capital cost of BC qualified property must be calculated without any amount for cost of borrowing, (section 21 of the federal Act) without applying capital cost of certain property, (subsections 13(7.1) and 13(7.4) of the federal Act) and by subtracting amounts of government assistance and non-government assistance (as defined in subsection 104(1) of the *Income Tax Act (British Columbia)*).
- The credit may be carried forward ten years and carried back three years. You **can** carry the tax credit back to a taxation year ending before April 1, 2000.
- Use this schedule to show the credit allocated from a partnership. You can also use this schedule to show a credit transfer following an amalgamation or windup of a subsidiary as described under subsections 87(1) and 88(1) of the federal Act.
- File one completed copy of this schedule with your *T2 Corporation Income Tax Return*.
