

All water levels must be measured at least to the nearest 0.01 metres.

Discharge Measurements

Type of water meter used. This could include such things as a turbine or positive displacement meter. How were the readings obtained from the meter? Were the readings visually noted and recorded or were they recorded using a data logger?

Water Samples

A water sample must be collected between the 4- and 6-minute water-level measurements, whenever there is an observed physical change in the groundwater being pumped, and 10 minutes before the end of the planned pumping interval. Additional water samples must be collected if it is expected that pumping will be terminated before the planned pumping interval.

Environmental Protection and Enhancement Act

Water Well Regulation

Alberta Regulation 123/93

Environmental Protection and Enhancement Act

WATER WELL REGULATION

Filed: April 22, 1993

Made by the Minister of Environmental Protection pursuant to sections 81(1)(a) and (f),
138(a)-(c), (g), (h), (j)-(n) of the Environmental Protection and Enhancement Act.

Table of Contents

Definitions	1
Approvals required	2
Duty to comply with Regulation	3
Application for approval	4
Requirements for Class A approval	5
Refusal of approval	6
Notification of change in information	7
Fees for approval holder	8
Problems well	9
Driller's report	10
Records during drilling	11
Certificate of variance	12
Reporting mineralized water or gas	13
Well site specifications	14
Perchance	15
Distance from sources of contamination	16
Construction requirements	17
Covering of well	18
Specifications for materials	19
Fluids and substances	20
