SECTION II

- i) **Name of A.I. Centre (where semen collected):** _____
Address: _____

SECTION III

I, the undersigned official Veterinarian, duly authorized by the Government of Canada, do hereby certify that:

1. The semen was collected from a bull maintained in an artificial insemination centre which is under official veterinary control.
2. At the time of the collection of the semen, the donor bull was healthy and free of evidence of disease.
3. All the animals maintained at the artificial insemination centre, including the donor bull, are recognized to be free of tuberculosis, brucellosis, leptospirosis, paratuberculosis, bluetongue, epizootic hemorrhagic disease, enzootic bovine leucosis, bovine virus diarrhoea, campylobacteriosis and trichomoniasis.
4. The donor bull has been subjected to the following tests with negative results:
 - a) Tuberculosis - intradermal
 - b) Brucellosis - serum agglutination and complement fixation test
 - c) Leptospirosis - microagglutination lysis
 - d) Paratuberculosis - complement fixation or ELISA
 - e) Leucosis - agar gel immunodiffusion or ELISA
 - f) Bluetongue - complement fixation or agar gel immunodiffusion or ELISA
 - g) Epizootic Hemorrhagic disease - agar gel immunodiffusion
 - h) Campylobacteriosis - culture
 - l) Trichomoniasis - direct microscopic examination or culture
5. The donor animal was tested for bovine viral diarrhoea by virus isolation with negative results prior to entering the artificial insemination centre and as a resident animal has been tested according to the Canadian Artificial Insemination Program which is in compliance with the Office International des Epizooties, Terrestrial Animal Health Code, Article 3.2.1.5.
