SECTION III

I, the undersigned official Veterinarian, duly authorized by the Government of Canada, do hereby certify that:

1. The semen was collected from a bull maintained in an artificial insemination centre which is under official veterinary control.
2. At the time of collection of the semen, the donor bull was healthy and free of evidence of disease.
3. All the animals maintained at the artificial insemination centre, including the donor bull, are recognized to be free of tuberculosis, brucellosis, leptospirosis, paratuberculosis, bluetongue, epizootic hemorrhagic disease, enzootic bovine leucosis, bovine virus diarrhoea, campylobacteriosis and trichomoniasis.
4. The donor bull has been subjected to the following tests with negative results:
 - a) Tuberculosis - intradermal
 - b) Brucellosis - serum agglutination and complement fixation test
 - c) Leptospirosis - microagglutination lysis
 - d) Paratuberculosis - complement fixation or ELISA
 - e) Leucosis - agar gel immunodiffusion or ELISA
 - f) Bluetongue - ELISA
 - g) Epizootic hemorrhagic disease - agar gel immunodiffusion
 - h) Campylobacteriosis - culture
 - i) Trichomoniasis - direct microscopic examination
 - j) Bovine Virus Diarrhoea - immunoperoxidase
