**SECTION III**

I, the undersigned Official Veterinarian duly authorized by the Government of Canada, do hereby certify that:

1. Canada is free of Office International des Epizooties (OIE) list A diseases pertaining to bovine species..
2. The semen was collected from the donor bull at an artificial insemination centre which is under official veterinary control of the Canadian Food Inspection Agency (CFIA).
3. At the time of collection of the semen, the donor bull was healthy and not suspected of being affected with any infectious disease transmissible through cattle.
4. The cattle at the artificial insemination centre, including the donor bull, are free from tuberculosis, paratuberculosis, brucellosis, leptospirosis, vibriosis, trichomoniasis, enzootic bovine leucosis (EBL), infectious bovine rhinotracheitis/infectious pustular vulvovaginitis (IBR/IPV) and foot and mouth disease.
5. The animals producing semen for artificial insemination are subjected to routine examinations, clinically and cytologically at regular intervals.
6. The donor bull has been regularly tested for the following diseases, with negative results:
  - a) tuberculosis - intradermal tuberculin test (bovine tuberculin);
  - b) brucellosis - buffered plate agglutination test;
  - c) trichomoniasis - direct microscopic method or culture;
  - d) enzootic bovine leucosis - agar gel immunodiffusion test or ELISA.
7. The donor bull has been tested for IBR/IPV, with negative results:
 

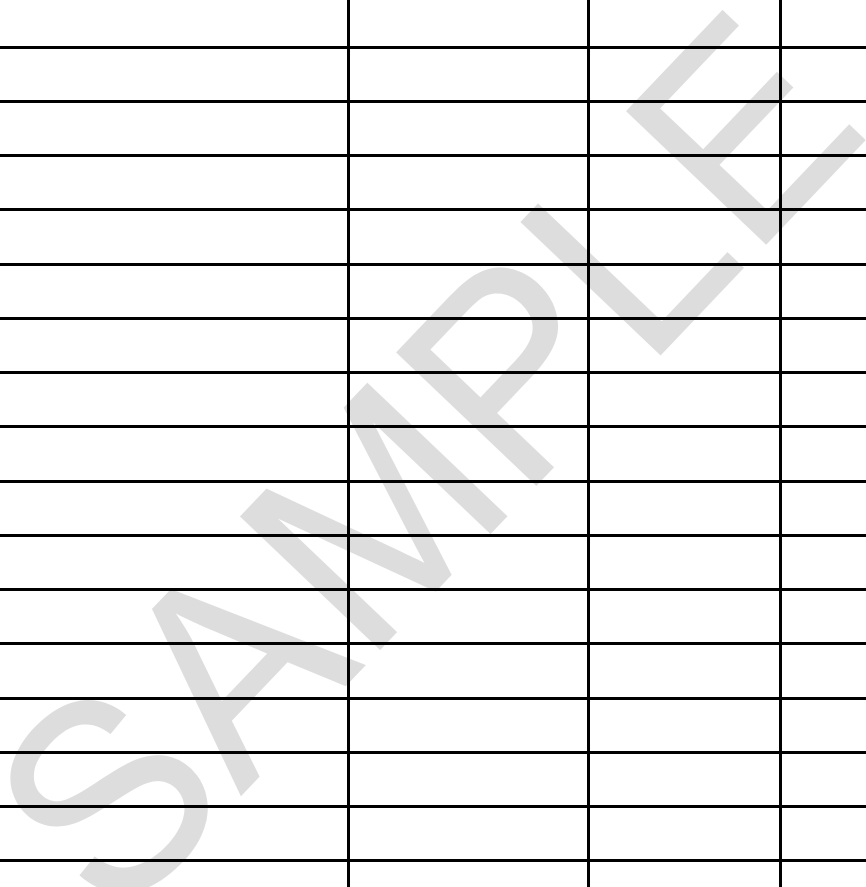

**EITHER** a) seroneutralization test or ELISA test;

**OR** b) virus isolation test of sample of the semen to be exported to the Republic of Macedonia.
8. The semen was stored under official veterinary supervision and was shipped in sealed containers.
