

Résultats du concours: 15/06/2006 200606PPP Programme de démonstration des principes

Mise à jour: 26/10/2006

Nom(s) Établissement Titre	Contribution d'IRSC	Partenaires	Contribution du partenaire(s)	Durée	Status
AMSDEN, Brian G Queen's University (Kingston, Ontario) Treatment For Myocardial Ischemia	\$ 149,150			1 An(s)	
BARRALET, Jake E Université McGill Calcium Pyrophosphate Microspheres for Pulmonary Drug Delivery	\$ 137,604			1 An(s)	
DUMONT, Daniel J Sunnybrook Health Sciences Centre Vasculotide: A novel peptide with proangiogenic activity	\$ 150,000			1 An(s)	
JOHNSTON, Randal N University of Calgary Reoviral optimization for cancer therapy	\$ 150,000			1 An(s)	
KOTRA, Lakshmi P GOLEMI-KOTRA, Dasantila University Health Network (Toronto) Discovery of novel inhibitors of ODCase	\$ 149,940			1 An(s)	
KRYSTAL, Gerald University of British Columbia Down modulation of SHIP to accelerate hemopoietic recovery following chemotherapy or radiotherapy of solid tumours	\$ 150,000			1 An(s)	
LEE, Tim K LUI, Harvey MCLEAN, David I ZENG, Haishan University of British Columbia Development of an integrated laser speckle imaging and reflectance colour imaging device for melanoma detection	\$ 150,000			1 An(s)	
MACAULAY, Calum E University of British Columbia Development of a Quantitative Pathology Workstation to assess the malignant potential of Oral Premalignant Lesions (OPLs)	\$ 149,860			1 An(s)	

Nom(s) Établissement Titre	Contribution d'IRSC	Partenaires	Contribution du partenaire(s)	Durée	Status
RASSART, Eric Université du Québec à Montréal The use of mutagenic ODN targeting proviral sequences as antiviral agents.	\$ 146,000			1 An(s)
