Updated: 20/09/2006

Name(s) Institution Title	CIHR Contribution	Partner	Partner(s) Contribution	Term	Status
GOBBI, Gabriella McGill University NOVEL MELATONIN RECEPTORS AGONISTS WITH ANTIDEPRESSANT, ANTI-ANXIETY AND SLEEP- INDUCING PROPERTIES	\$ 150,000			1 Yr(s)	
HANRAHAN, John W McGill University Compounds that correct the CFTRDeltaF508 trafficking defect	\$ 149,147			1 Yr(s)	
KRAUSE, Henry M University of Toronto Whole animal screening for human nuclear receptor ligands	\$ 138,000			1 Yr(s)	
PERRIN, David M University of British Columbia PET Imaging Agents for Cancer and Inflammation: Bioconjugates that Incorporate a Novel Method for Labeling Biomolecules with 18F.	\$ 150,000			1 Yr(s)	
SCOTT, Stephen H Queen's University (Kingston, Ontario) Fabrication of a robotic exoskeleton to assist motor rehabilitation	\$ 149,254			1 Yr(s)	
SEKALY, Rafick-Pierre Université de Montréal A simple and innovative tool to assess thymic function in humans	\$ 150,000			1 Yr(s)	
STEFFEN, Thomas B McGill University Safe injection of high viscosity bone cement for pain management and prevention of osteoporotic spine fractures	\$ 149,740			1 Yr(s)	
WHITE, John H GLEASON, James L McGill University Synthesis and testing of bifunctional vitamin D analogues	\$ 149,589			1 Yr(s)	
ZHUO, Min University of Toronto Development of Novel Compounds for Treating Chronic Pain	\$ 150,000			1 Yr(s)
