# When you 

go up,
your
blood

## pressure <br> goes down.

# A flight <br> a day may <br> keep <br> chronic <br> disease 

away.

$$
\begin{aligned}
& \text { Physical } \\
& \text { activity will } \\
& \text { add years } \\
& \text { to your life, } \\
& \text { and life to } \\
& \text { your years. }
\end{aligned}
$$

## The first wealth <br> is health.

(Ralph Waldo Emerson)

$$
\begin{aligned}
& \text { Walking } \\
& \text { up stairs } \\
& \text { burns almost } \\
& 5 \text { times more } \\
& \text { calories than } \\
& \text { riding an } \\
& \text { elevator. }
\end{aligned}
$$

In one minute, a 150 pound person burns approximately 10 calories
walking up stairs, and only 1.5 calories riding
an elevator.

## There are

 1440 minutes in every day... schedule 30 of them forphysical activity.

# No waiting one door 

 over.

## Small

 steps make big differences.

# Raise your <br> fitness level, <br> one step <br> at a <br> time. 

# Fight fat... Feel fit... Frequent these flights. 

## Step up <br> to a <br> healthier lifestyle.

## Now <br> that you <br> have <br> refueled...
