***Issues Affecting Supply**

Interrupted transportation lines — Canadian supplies travel long distances by truck train and aircraft. Supplies are often obtained from the U.S. and other nations. Difficulties at border crossings may substantially affect supply lines. In addition, a loss of up to 30% of workers, drivers, and other transportation staff may affect supplies.

Special storage or transportation requirements (e.g., Cold Chain).

Just-in-time Inventory — Supplies can be obtained but may take some time.

Embargo — If the item is not produced in Canada is it an item which is likely to be embargoed.

Single supplier or limited number of suppliers — if there are a limited number of suppliers or sources of the essential ingredient or component, note that there are no alternate suppliers.
