The 2004 *Directory of Services and Programs for Abused Men in Canada* is one of a series of directories prepared for the National Clearinghouse on Family Violence under the Government of Canada Family Violence Initiative.

This directory provides a listing of services for men who are survivors/victims of abuse. Listings are presented by province and territory (east to west) and alphabetically by town and city.*

Each listing identifies the type of service provided (information/referral, shelter, counselling, education, or advocacy), the availability of bilingual services, service fees and whether the services are limited to certain groups (e.g., students). A description of codes for these categories follows the introduction section. In the Index, programs are also categorized by type of service.

Some programs require a referral (for example, from a doctor, local health or community clinic, employee assistance program, social worker or First Nations healing centre). Some service fees may be covered, in whole or in part, by workplace employee assistance plans or doctor-referred medicare.

Some listings include a toll free number, often accessible only within the province or territory. Toll free numbers for the National Clearinghouse on Family Violence, however, can be used across Canada.

* Please note that we have not evaluated the services identified in this directory.

Le *Répertoire national des services et programmes pour hommes violentés au Canada 2004* fait partie d'une série de répertoires préparés par le Centre national d'information sur la violence dans la famille dans le cadre de l'Initiative de lutte contre la violence familiale lancée par le gouvernement du Canada.

Ce répertoire présente une liste à jour des fournisseurs de services qui répondent aux besoins des hommes adultes qui sont ou qui ont été victimes d'abus. Les inscriptions sont énumérées par province et territoire (d'est en ouest) et dans l'ordre alphabétique des municipalités et des villes.*

Chaque inscription indique le type de service offert (renseignement/renvoi, hébergement, counseling, éducation, intervention), et précise si des services bilingues sont disponibles, si des frais sont exigés pour les services ou si les services sont limités à un groupe particulier (p. ex., les services offerts aux étudiants). Les codes désignant ces catégories sont décrits après l'introduction. Les programmes sont également classés par type de service dans l'index.

Certains programmes nécessitent un renvoi (obtenu, par exemple, auprès des médecins, des cliniques sanitaires ou communautaires, des programmes d'aide aux employés, des travailleuses et travailleurs sociaux, et des centres de guérison des Premières nations). Les frais de services pourront être couverts, en tout ou en partie, par les plans d'aide aux employés ou le régime d'assurance-maladie, si la personne est référée par un médecin.

Certaines inscriptions comprennent un numéro de téléphone sans frais, qui n'est habituellement accessible que dans la province ou territoire. Toutefois, les numéros sans frais du Centre national d'information sur la violence dans la famille peuvent être utilisés partout au Canada.

* Veuillez prendre note que nous n'avons pas tenté d'évaluer les services énumérés dans le répertoire.

The first few pages of your local phone book may also identify distress lines or emergency numbers.

Programs or services for men who are victims or survivors of abuse may also be provided by police forces, provincial/territorial governments, community health and social service centres and, for Canadians living abroad, Canadian embassies or consulates.

If you are aware of any changes or additions that should be made to these listings, please contact us at:
