Foreword

The Canadian Institute for Health Information (CIHI) is one of Canada's leading sources of quality, reliable and timely health information. More and more, Canadians are turning to CIHI for information they can trust. CIHI is a not-for-profit, pan-Canadian organization governed by a strong and active board of directors whose membership strikes a balance among the health sectors and regions of Canada.

The key to CIHI's achievements is partnership. CIHI is a focal point for collaboration among major health players—from provincial and territorial governments, regional health authorities and hospitals to the federal government, researchers and associations representing health care professionals. The result of this cooperative effort is a strong and responsive health information system.

CIHI provides Canadians with essential statistics and analysis about their health and their health care system. CIHI has become an indispensable source of information for those seeking answers to critical questions around the delivery of health care. Is the health system training enough health care professionals and is it making optimal use of their skills? Are Canadians getting reasonable access to the health services they need? Are we investing in the right resources and equipment?

For more information, visit our Web site (www.cihi.ca).

The *National Grouping System Categories Report, Canada, 2003–2004* is produced by Health Human Resources at CIHI to support health human resource planning and utilization analysis. CIHI wishes to acknowledge the support of the provincial and territorial Health Ministries and the CIHI Expert Group on Physician Databases in the development and publication of this report.

Preface

Previously produced reports in the National Grouping System Categories series:

- *National Grouping System Categories Report, Canada, 2002–2003 (2005)*
- *National Grouping System Categories Report, Canada, 2001–2002 (2004)*
- *National Grouping System Categories Report, Canada, 1999–2000 to 2000–2001 (2003)*
- *National Grouping System Categories Report, Canada, 1998–1999 to 1999–2000 (2002)*
- *National Grouping System Categories Report, Canada, 1996/97 and 1998/99 (2001)*
- *National Grouping System Categories Report, Canada, 1994/95 and 1995/96 (1999)*
- *National Grouping System Categories Report, Canada, 1989/90 to 1993/94 (1998)*

Prior to 1995, National Grouping System Categories reports were produced by the Health Information Division at Health Canada. These publications were produced using the Medical Care Database (MCDB), the predecessor of the National Physician Database (NPDB). In August 1995, both databases were transferred to CIHI.

The MCDB was developed following the implementation of the Medical Care Act in 1967 and was used to monitor the services provided and payments made by the provincial and territorial medical insurance plans. The NPDB expanded on the MCDB by including information on physician demographic and practice characteristics, and the age and gender of patients.

Introduction

The National Physician Database (NPDB) has been used by the federal, provincial and territorial governments, medical stakeholder groups, various private organizations and researchers as a national data source for the service utilization patterns of physicians in Canada for program administration, evaluation and policy development.

The National Grouping System (NGS) attempts to provide reasonably comparable and consistent statistics on the utilization, cost and distribution of physicians' services for which payment was made on a fee-for-service basis by provincial and territorial medical care insurance plans.

These tables were prepared using criteria designed to ensure an optimum degree of comparability across jurisdictions. In many cases, these criteria vary from those employed by provinces and territories for their own purposes. Consequently, figures may differ from those reported by data providers.

Any questions regarding the publications or the NPDB should be directed to:

Methodological Notes

Background

The National Physician Database (NPDB) provides information on the demographic characteristics of physicians and their level of activity within the Canadian medical care system and is used by governments, professional associations, consulting firms, pharmaceutical companies, researchers and the media for medical human resource planning and utilization analysis. The establishment of the database was approved in 1987 by the Conference of Deputy Ministers of Health upon the recommendation of the Advisory Committee on Health Human Resources (ACHHR).

On August 1, 1995, the NPDB was transferred to the Canadian Institute for Health Information (CIHI). CIHI assumed the responsibilities of Health Canada in maintaining the database. Previously, the NPDB was under the direction of the Working Group on Medical Care Statistics (WGMCS) which was disbanded when the database was transferred to CIHI. An Expert Group on Physician Databases was convened in April 1996 and advises CIHI on data quality, methodology and product development matters relating to the NPDB and the Scott Medical Database (SMDB).

The NPDB contains data on the demographic characteristics and activity levels of fee-for-service physicians. Information on activity levels includes total payments, total services, average payment per physician and full-time equivalent physician counts. CIHI is working with the provinces, territories and ministries to also include data on clinical activities remunerated under alternative reimbursement plans (such as salaries, contracts and sessional fees).

Data Sources and Collection

NPDB Data

Data are derived from physician fee-for-service claims submitted by provincial and territorial medical insurance programs to CIHI. The claims data and associated physician and patient demographic data are submitted in five files, as listed below. Data files are usually received within six months of the end of the quarter to which the data correspond. Any files that do not meet appropriate layouts, as defined in the NPDB Data Submission Specifications Manual, are returned to the provinces and territories for correction and subsequent re-submission.

Files submitted include:

Title	Description
25 File	Dental services and other non-physician services file (file not submitted by all jurisdictions)
30 File	Reciprocal billing file*
35 File	Physician characteristics file
50 File	Utilization File (by fee-code, UPI, sex and age group of patient)
55 File	Changes to UPI file

* 30 File data is not applicable to the province of Quebec.

In addition to the NPDB data files described above, CIHI gathers annual, aggregate level, alternative payment information through a variety of information sources, including provincial and territorial representatives of CIHI’s Expert Group on Physician Databases. A summary of this information is presented in Table 2 of the Payment Mode: Level of Fee-for-Service Coverage section.

For a complete description of NPDB record layouts, please see the NPDB Data Submission Specifications Manual, available at www.cihi.ca. For further information regarding the NPDB, including alternative payments, please contact the Program Lead, NPDB, CIHI.

National Grouping System Counts

The National Grouping System (NGS) counts and dollar amounts are created using data from the Utilization File (50 File). The Utilization File contains all direct payments for fee-for-service claims by physicians, laboratories and diagnostic facilities as well as services received by medical care plan beneficiaries out-of-province or out-of-territory but not processed through the reciprocal billing system (that is, essentially, services received out-of-Canada and in Quebec as well as services excluded from the reciprocal billing agreement).

Figures are calculated based on the fiscal year (e.g. April 2003 through March 2004). Therefore, figures in this publication may differ from those reported by data providers, possibly based on the calendar year.

Type of Data: Date of Service vs. Date of Payment

Generally, utilization data files are submitted on a date-of-payment basis for Newfoundland and Labrador, Prince Edward Island, New Brunswick, Manitoba and Saskatchewan and on a date-of-service basis for Nova Scotia, Quebec, Ontario, Alberta, British Columbia, and Yukon Territory. Jurisdictions submitting on a date-of-service basis wait six months or until 98 percent of services are captured before submitting data files for processing. Please see Table 1 for a yearly breakdown by province and territory of the type of data file submission.

Table 1. NPDB File Submission: Date of Service (DOS) vs. Date of Payment (DOP)

Province or Territory	2003–2004	
	DOS	DOP
N.L.		✓

N.B.		✓
Que.	✓	
Ont.	✓	
Man.		✓
Sask.		✓
Alta.	✓	
B.C.	✓	
Y.T.	✓	

Type of Data: Billing vs. Payment Data

All jurisdictions, except Quebec, submit payment data. Billing data reflect the full amount the physician billed the provincial and territorial Medical Services Plan for a particular fee code item. Payment data reflect what was actually paid to the physician. The amount paid would be the billed amount less any adjustments applied due to threshold values being met, income capping or clawbacks.

Payments related to Ontario's fee codes starting with the letter J, X or Y and ending with the letter B, are excluded from this publication because the payments were typically not paid directly to the physician. While claims for these fee codes include an associated physician identifier, they were typically paid directly to Independent Health Facilities or hospital departments. These payments accounted for approximately \$55.3 million (1.1%) of Ontario's publishable total fee for service payments in 2003–2004. These excluded payments significantly affect two National Grouping Categories: Surgical Assistance (\$8.5 million) and Other Diagnostic/Therapeutic Services (\$46.9 million).

Payment Mode: Level of Fee-for-Service Coverage

National Grouping System (NGS) Categories Report results are based on fee-for-service billing and payment information only. A variety of alternative forms of payment, such as salary and sessional payments, are commonly used across jurisdictions. Alternative forms of reimbursement are currently not submitted comprehensively to the NPDB and are, therefore, not included in the statistics presented in this report. Figure 1 gives current estimates of alternative payments as a percentage of total physician payments across jurisdictions.

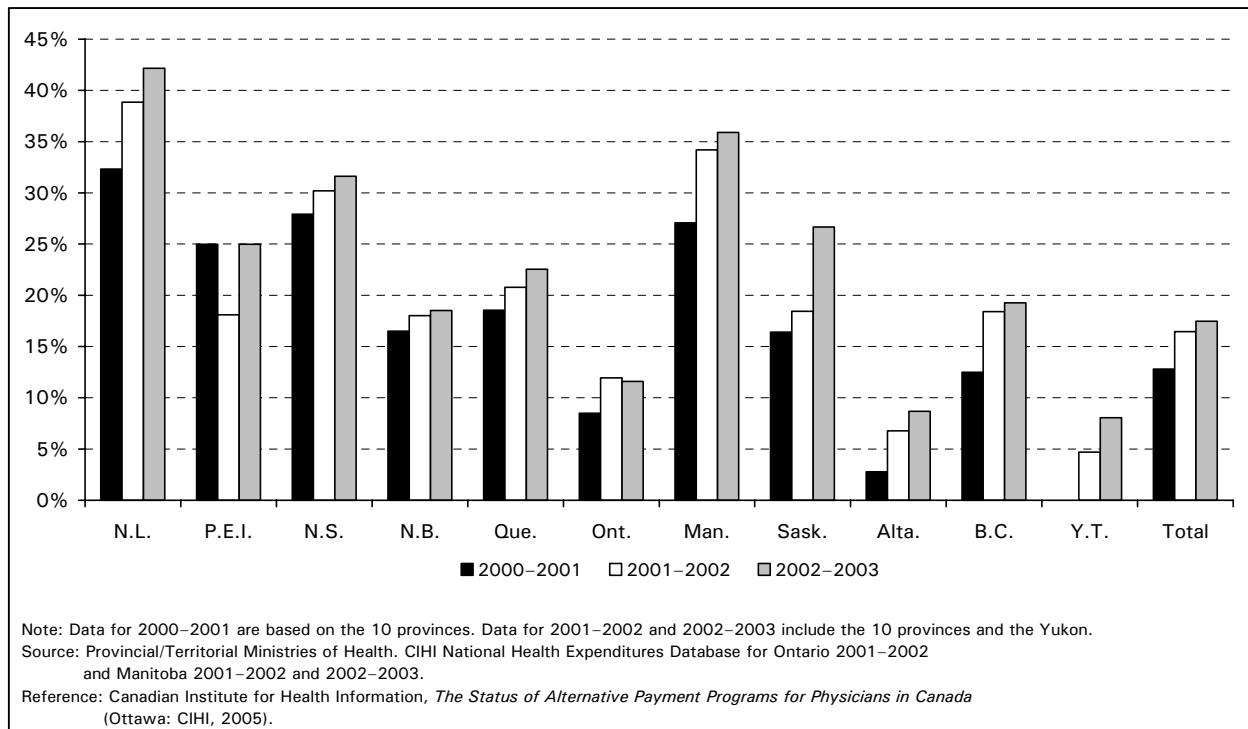

Figure 1. Physicians' Alternative Clinical Payments as a Percentage of Total Clinical Payments, 2000–2001 to 2002–2003

Please note, each jurisdiction defines with its physician group, whether a service should be paid under a fee-for-service plan payment or an alternative plan payment. Thus, one jurisdiction may pay for a service through the fee-for-service plan, whereas, another jurisdiction may pay for the same service within an alternative plan which would not be captured in this report. In addition, jurisdictions may vary with respect to how alternative payments are allocated to physicians. For example, alternative payments may represent a relatively small percentage of income for most physicians in one province, while in another province some physicians might be paid primarily through alternative plans with others paid primarily through fee-for-service arrangements. These variations across jurisdictions can impact national grouping systems (NGS) categories report physician results.

It is important to note that the range of physician payment information submitted to the National Physician Database varies across provinces and territories. Table 2 presents a summary of payment information submitted to the National Physician Database and indicates payment data that are included and excluded from national grouping systems (NGS) categories report payment calculations.

Source: NPDB, CIHI.

* Includes payments made to out of province, territory or country physicians through all remuneration modes and sources of payment.
 ** Excludes salary and sessional payments made to out of province, territory or country physicians.
 *** Includes rural retention premiums made through all sources of payment (e.g. worker's compensation board, insurance corporation).

Note

The figures have been rounded independently to the nearest dollar.
 n/a = Not Applicable

Population Data

Canadian population figures used in this publication are compiled by the Demography Division of Statistics Canada. Statistics Canada prepares by special request, estimates of the “covered population” for use with the NPDB data. The covered population reflects people who received medical services paid for by provincial and territorial medical insurance programs. The covered population is the total population less the members of the Canadian Armed Forces, the Royal Canadian Mounted Police and inmates in federal and provincial penitentiaries. These groups of people have their medical services covered by a federal medical insurance program. Estimates are for October 1 of the given year and are revised annually. See Appendix A for the net population data.

Note: Readers wishing further information on data provided through the cooperation of Statistics Canada may obtain copies of related publications by mail from:
Publication Sales, Statistics Canada, Ottawa, Ontario, K1A 0K9,
by calling (613) 951-7277 or toll free (800) 267-6677.
Readers may also fax their order to (613) 951-1584.

Data Quality

Error/Validation Routines

The NPDB files are derived from provincial and territorial administrative systems, and edit checks are conducted on the data by the jurisdiction prior to processing the NPDB files. As CIHI has no control over these edit checks, all data files received by CIHI are processed through the NPDB error/validation routines. The error/validation routines are limited in scope because the data cannot be confirmed against the source. Error/validation routines include review of the total record counts, service counts and dollar amounts for each file, checking each value in the fields against acceptable values, checking for invalid fee codes, checking for Unique Physician Identifier (UPI) numbers in illogical formats and logical review of the processed data. Any files that do not pass through the error/validation routines are returned to data providers for correction and subsequent re-submission.

Additional Data Quality Checks

Service counts, dollar amounts and other economic indicators are validated against previous years data and provincial and territorial annual reports.

Data providers are given the opportunity to review their own data for validity and consistency. This publication was reviewed and authorized by the provincial and territorial medical insurance plan authorization officers prior to publication. For a complete list of these authorization officers, please see Appendix B.

Data Definitions

Province or Territory of Practice

“Province or territory of practice” is the jurisdiction where the physician is registered and receives payments from the provincial or territorial medical care plan. Physicians may practise in more than one jurisdiction in a given fiscal year. For example, the physician may move from one province to another during the fiscal year, or may provide services in two provinces on a regular basis (for example, a physician providing services in provincial border areas such as Ottawa–Gatineau). This can result in the double counting of physicians (except at the national level, where physician counts are not based on province or territory of practice).

Specialty

Physician specialty designations on the NPDB are assigned by the provincial and territorial medical care plans and grouped within the NPDB to a national equivalent. Of the two specialties, latest acquired certified specialty and plan payment specialty, the latter is used for the purposes of this report.

In three provinces, Nova Scotia, Quebec, and British Columbia, data for public health specialists are reported in the family medicine figures. For all provinces and territories, uncertified specialist and community medicine are also grouped with family medicine, except in Ontario where community medicine, public health, occupational medicine and pediatric cardiology are received as Internal medicine specialists. Internal medicine includes the sub-specialties such as cardiology, gastroenterology, hematology, rheumatology and medical oncology. Psychiatry includes neuropsychiatry. Neurology includes electro-encephalogram (EEG) specialists, and physical medicine includes specialists in electromyography. Specialists in the double specialty of ophthalmology/otolaryngology are included with the ophthalmologists.

Additionally, the very few Plastic Surgeons and Urologists in Prince Edward Island are grouped into the General Surgery category for privacy and confidentiality reasons.

Physicians in Quebec may have two different statuses which include two different specialties, one for in-province billings and one for billings outside Quebec. These two different statuses appear on the 35 file (Physician Characteristics File) as two different records with the same Unique Physician Identifier which results in duplicate records on the file as far as individual physicians are concerned. Only the second record is retained on the NPDB system. This results in incorrect specialty assignment for some payments. Approximately 100 physicians per year are affected by this incorrect assignment.

In 2001–2002, Saskatchewan changed how it paid foreign-certified specialists. Prior to April 2001, such physicians were grouped and paid in family medicine. Starting in April 2001, Saskatchewan’s foreign-certified specialists are grouped with specialists and receive payments at 90% of specialist fee code rates and at 100% for fee codes with identical specialist/family medicine rates. As a result, some family medicine physicians are now grouped with specialist physicians, thus increasing the specialist physician count and reducing the family medicine physician count.

For a complete listing of the specialty designations and their groupings, please see Appendix C.

Strata

Fee payments by medical care insurance plans to physicians are made in accordance with payment schedules (also known as benefit schedules) in which the amounts payable for particular services are specified. Provincial and territorial payment schedules do not only differ with respect to fee prices, but also with respect to internal organization by type of service, by body system, by specialty, the extent of composite fees (i.e. the fees for certain procedural or diagnostic services may include the fee for associated visits or examinations, or the fees for examinations may include the fee for minor procedural or diagnostic services), general terminology, the definition of certain services, coding systems used, etc. In addition, there are substantial interjurisdictional differences in "assessment rules", i.e. regulations and conventions which govern the application of the payment schedule in particular situations.

Once the data have gone through the various edit and validation checks, they are assigned to one of 120 categories of service and undergo adjustments that allow for comparisons across jurisdictions. This report does not include 16 categories which pertain to radiology and laboratory services. Please see below for a list of the NGS strata and Appendix D for a complete listing of all NGS categories and strata included in this report.

Consultations

Major, initial, ordinary, minor, repeat, regional and operative consultations performed in the office, hospital, chronic care and convalescent hospitals and nursing homes, as well as psychiatric and obstetrical consultations where no *Special Call* is involved.

Major Assessments

General and specific assessments, reassessments, initial visits with a complete exam, new condition seen for first time and including complete history and exam, complete specific exam depending upon the physician specialty, annual exams, newborn/ premature care and special eye exams performed in any location where no *Special Call* is involved.

Other Assessments

Partial or minor assessments, regional exams, first or subsequent or repeat exams, ordinary, pre- and post-natal care, well baby care in any location, chronic and convalescent care, outpatient visits and other visits when physician is in the hospital, intermediate and minor assessments, partial assessments, follow-up exams and regional exams, additional patients seen during a special call and detention.

Hospital Care Days

Regular visits up to 28/30/31 or 35/42 days, over 28/30/31 or 35/42 days, inpatient supportive care, continuing care, concurrent care, directive care, convalescent care, palliative care and daily management.

Special Calls

Visits at night, on Saturdays, Sundays and holidays, requiring travel, to the office, homes, nursing homes, outpatient and emergency departments. Also included are special visits, consultations, specific assessments and reassessments, general reassessments, ordinary home visits, home summary and specific exams.

Psychotherapy/Counselling

Individual psychotherapy, hypnotherapy, narco-analysis, diagnostic/therapeutic interviews, group and family psychotherapy and interviews, and interviews for physical medicine and counselling for drugs, family, genetic, marriage and contraception, and case conferences on behalf of patients with allied workers, teachers, clergy, etc.

Major Surgery

Services were classified as major or minor surgery in 1988 based on a threshold fee of at least \$75 in the Ontario fee schedule that year. In subsequent years, new surgical procedures have been classified as major or minor depending on their classifications in provincial and territorial fee schedules.

Minor Surgery

See major surgery definition above.

Surgical Assistance

All services and payments for surgical assistance.

Anaesthesia

Includes Anaesthesia fees for major surgery, minor surgery and diagnostic and therapeutic procedures.

Obstetrical Services

Includes normal and caesarean deliveries, therapeutic abortions and services to the mother in the hospital at the time of delivery (e.g. induction of labour and repair of lacerations).

Other Diagnostic/Therapeutic Services

Includes procedures of a diagnostic nature, such as allergy testing and electrocardiogram (ECG). Also included are services such as colonoscopy, which are used for treatment as well as diagnosis.

Special Services

Includes services that do not fit into the other strata, such as immunizations and Pap tests.

Miscellaneous Services

Includes all services that are unidentified or are identified but paid for by Social Services, the Attorney General, Workers' Compensation, etc. Examples include services relative to impaired driving, to rape victims and as a result of injuries sustained at work.

Unique Physician Identifier (UPI)

A unique identifier is created by the province or territory using components of the physician's first and last names (scrambled using an algorithm), the physician's date of birth, gender and place of Medical Doctorate (M.D.) graduation.

Computations and Adjustments

Differences between provincial and territorial fee schedules and periodic changes made to fees or assessment rules make it difficult to calculate comparisons between jurisdictions. In general, the comparability of the data tends to be smaller for visit services and minor procedures than for well-established and distinct major surgical procedures. As a result, the NGS adjusts service counts for certain types of services, visit services and diagnostic/therapeutic procedures, to improve the comparability of the data. NPDB fee codes may be adjusted in the following ways.

Adjustment A

To minimize the double counting of services, an Adjustment A is attached to the fee service code (FSC) and the service count is not included. For example, this occurs when two or more surgical procedures are performed at the same time and an additional fee is paid under a separate fee service code.

Example

FSC 1 Pyloroplasty

FSC 2 with suture of bleeding peptic ulcer, additional amount.

The service count and payments for FSC 1 are included, but only the payments for FSC 2 are retained.

Adjustment B

Fees are calculated to provide more comparable service counts for psychotherapy, detention, inhalation and physiotherapy, hospital per diem visits, resuscitation, intensive care services, pre- and post-natal care, stand-by fees and diagnostic/therapeutic tests. The revised service count is calculated by dividing the total payment for the fee service code by the calculated fee for the standardized service.

The following are the criteria used for B adjustments.

- Psychotherapy—It is assumed that the average duration for all psychotherapy services is thirty minutes and that group therapy sessions comprise four persons.
- Allergy Tests—The total price for the number of tests equivalent to the fee for an office visit is used to calculate the service count. This is most often used for patch and hypersensitivity tests.
- Detention—The duration of one detention service is one quarter of an hour. Service counts are adjusted when a fee for one half hour or one hour is indicated. A fee would be calculated based on one fifteen-minute period.
- Intensive Care—The duration of one intensive care service is assumed to be one hour. When an intensive care unit fee is paid on a per diem basis, the visits are considered equivalent to one hour.
- Monthly rates are adjusted to daily rates assuming twenty working days per month.

Adjustment C

This adjustment is used when a fee code is redefined during a year and each definition is applicable to a different category or, for instance, when laboratory surcharges are applicable to different procedures. By applying this adjustment, the services and payments for a specific fee service code are divided between two categories.

Adjustment D

This is the same as Adjustment B except the service counts are revised on the basis of whether they were performed by a General Practitioner or Specialist, with a different fee for each.

Example

Resuscitation

General Practitioner	\$14.00 per ¼ hour
Specialist	\$18.00 per ¼ hour

Calculated Fees

General Practitioner	\$56.00 per hour
Specialist	\$72.00 per hour

Adjustment E

In many jurisdictions, physicians are entitled to premiums or additional fees which are paid on visits or procedures provided outside regular office hours or during off-hours, evenings, nights, Saturdays, Sundays and statutory holidays or if the visit or procedure is provided on an emergency basis. To eliminate the double counting, services for these premium codes are dropped and the payments are reassigned to the appropriate visit or surgical category.

Example

FSC 1 Surcharge for a consultation

The service count for FSC 1 is subtracted from Category 1, Consultations. Payments removed from Category 1 are calculated by multiplying the service count of FSC 1 by the fee for a consultation. Category 20, Out of Hours/Emergency, contains the services and payments for FSC 1 plus the payments removed from Category 1.

Adjustment F

Payment for obstetrical care may be made on the basis of all-inclusive fees (comprising the remuneration for the delivery or Caesarean section and for all pre- and post-natal care) or by fees for the delivery or Caesarean section only and separate fees for associated pre- and post-natal services. Over the last few years, jurisdictions have increasingly, but not exclusively, adopted the latter approach.

To minimize the effect of these changes upon the comparability between jurisdictions and intertemporal comparability of the data, all-inclusive fees are broken down in accordance with the following assumptions, and the estimated number and cost of segregated visit services are included in the categories shown in brackets.

Pre-natal care includes one complete examination (Category 3 or 8) and eight subsequent visits to the office (Category 10 or 14), followed by one hospital post-partum visit (Category 11) and one post-natal office visit (Category 10 or 14). Note, if a consultation was specified in the composite fee description, then a consultation (Category 1) replaces the complete examination.

Service counts for all but subsequent office visits are the same as the count for the composite fee code. Service counts for subsequent office visits are calculated by multiplying the composite fee code count by nine (i.e. the assumed number of pre- and post-natal office visits). Payments for all but pre-natal subsequent office visits are calculated using the fees listed in the payment schedules. Payments for pre-natal subsequent office visits consist of the total payment for the composite fee items minus the amounts calculated as described above.

Note: If only the consultation and procedure are specified, then the payments for the consultation become the residual.

Jurisdiction-Specific Adjustments

There are also several adjustments made, for various reasons, to the data that do not apply consistently to each province or territory. For example, premium fees for off-hour visits and procedures are claimed in several jurisdictions. To maintain consistency, the dollar amounts for such premiums are included, but the service counts are dropped, to eliminate the double counting of services.

Obstetrical Services

A recent review found that fee codes related to obstetrical services were inconsistently grouped among jurisdictions. For example, repair of third degree vaginal/cervical laceration may have been grouped in “services at delivery” in one jurisdiction and “other obstetrical services” in another jurisdiction. In order to improve the comparability across jurisdictions, all obstetrical related services were identified for each jurisdiction and re-grouped to the appropriate NGS category. Consequently, results relative to obstetrical services presented in this publication may reveal trends that are different from similar services prior to 1994–1995. These were produced in the publication entitled *National Grouping System Report, Canada, 1989/90 to 1993/94*.

Data Limitations

Data Exclusions

Medical services covered by third parties, such as hospital insurance and workers’ compensation plans, are not included in this report. The data also exclude certain categories of persons, among them members of the Armed Forces and of the Royal Canadian Mounted Police and inmates of federal and provincial penitentiaries who are covered under other public programs (these persons account for less than 0.5% of the total population).

Certain payments made directly by patients are also omitted; for example, amounts extra-billed or balance-billed by physicians and the costs of plastic surgery for cosmetic purposes.

The data exclude payments made through the Reciprocal Billing systems as well as payments made to out-of-province or out-of-territory physicians not participating in Reciprocal Billing, e.g. Quebec, United States.

De-Insured and De-Listed Services

Certain services within each province or territory have been de-insured or de-listed. These services may differ across jurisdictions or from year to year. The impact of these services could explain minor fluctuations over years or minor differences between jurisdictions. For further information on de-insured and de-listed services please contact the Program Lead, NPDB, CIHI.

De-Insured Services

Services which, at some point in time, were defined as an insured service (i.e. covered by a provincial or territorial health plan), but are no longer covered.

De-Listed Services

Services which used to have an individual fee code assigned to them and have been included in another fee code.

Negative Numbers

Negative numbers may appear in the data tables as a result of data adjustments applied by CIHI or because data is submitted to CIHI with negative values. CIHI adjustments are applied to improve comparability across jurisdictions, but may also result in negative values. CIHI adjustments are described in further detail in the “Computations and Adjustments” section of this report. Negative value data submitted to CIHI by data providers may reflect retroactive claims adjustments, payment clawbacks or other accounting practices used within administrative payment systems.

Specialty Designations

Provinces and territories are requested to provide two types of specialty information on the NPDB files—latest acquired certified specialty and payment plan specialty. The latest acquired certified specialty is the most recently acquired specialty designation from the Royal College of Physicians and Surgeons of Canada, the Collège des médecins du Québec or the College of Family Physicians of Canada. The payment plan specialty may or may not be different from the latest certified specialty and should reflect the specialty area in which the physician provides the majority of their services. The payment plan specialty is not provided by all provinces and territories.

For the purpose of this report, the payment plan specialty is used. Provinces and territories may provide latest certified specialty instead of plan payment specialty if they do not have that information available. The latest certified specialty may or may not coincide with specialty orientation of the work actually carried out by a physician.

Additionally, any physician who practiced under more than one specialty during the fiscal year was assigned the specialty under which he/she received the majority of his/her payments.

CIHI National Grouping System Categories statistics may vary from provincial and territorial statistics because of differences in the way specialties are grouped. For example, CIHI groups Neuropsychiatry in with Psychiatry whereas Quebec groups it with Neurology. CIHI includes Electromyography with Physical Medicine whereas Quebec does not. The sub-specialties that constitute CIHI's Internal Medicine Specialty are reported on individually in the Régie de l'assurance-maladie du Québec annual statistics report. Please see Appendix C for CIHI specialty categories.

Radiology and Pathology (Laboratory) Physicians

Radiologists, pathologists and laboratory directors are excluded from this report. Payments for radiology and laboratory services performed by a physician, who is neither a radiologist, a pathologist nor a laboratory director, are included. Medical care plan fee payments to radiologists or pathologists are nil or very small in the four Atlantic provinces, relatively small in Quebec, but substantial in the other jurisdictions. Omitting such payments in all jurisdictions improves comparability. See Appendix E for information on the extent of fee-for-service payments for radiology and laboratory services that are included in the NPDB data files, but excluded from this report.

Privacy and Confidentiality

CIHI employs a variety of safeguards to protect the privacy and confidentiality of physician data. These include:

Unique Physician Identifier (UPI)

Physician names are not used on the provincial and territorial files. Instead, a Unique Physician Identifier (UPI) is generated by the province or territory using components of the physician's name, date of birth, gender and place of Medical Doctorate (M.D.) graduation. The name portion of the UPI is scrambled using an algorithm known only to the province or territory. This algorithm is the same across jurisdictions. The UPI helps protect the privacy and confidentiality of physicians and allows for the tracking of physicians throughout their career in Canada.

Data Suppression

CIHI is committed to the privacy protection of the Canadian public's confidential health information. Although the level of aggregation in this report prevents identification of single individuals in jurisdictions with large populations, such as Ontario or British Columbia, the same may not be applicable for less populated jurisdictions, such as the Territories. To ensure anonymity, cell counts containing 1 to 4 services are suppressed in the data tables presented in this publication. Data suppression was carried out by first carefully examining service count summaries produced for the *National Grouping System Categories Report, Canada, 2003–2004*. These services have been excluded from both the provincial and territorial data columns as well as from aggregate level row and column totals in order to avoid re-identification of individuals through subtraction or other methods of imputation.

In total, for all of Canada, 556 services (less than 0.001% of total services) were excluded as a result of cell suppression in 2003–2004. Payment amounts corresponding to suppressed services have also been excluded from this report. In total, for all of Canada, \$109,743 payments (0.001% of total payments) were excluded as a result of cell suppression in 2003–2004. Cost per service information is also not reported for suppressed service count data.

The “*” symbol is used within data tables to identify cells where information has been suppressed as a result of the methodology described above. The following footnote has been added to the data tables:

* Service value was from 1 to 4 for this cell. Data have been suppressed within the cell and are not included in aggregate level row and column totals.

Please note, in some cases the “*” symbol may appear in the “Total” column even though the service count is greater than 4. This occurs when rows contain only zeros and “*” symbols. For example, if in one row, all provinces and territories reported a service count of 3 for a particular type of service, the total service count would be 33 in an unsuppressed table. However, the 33 is changed to “*” in a suppressed table because every value in the row is changed to a “*” symbol.

Disclosure avoidance techniques are also applied to CIHI’s release of data through ad hoc queries and special analytical studies.

NPDB Data Access/Release Policy

The Privacy Secretariat at CIHI has developed a set of guidelines to safeguard the privacy and confidentiality of data received by CIHI. The document *Privacy and Confidentiality of Health Information at CIHI: Principles and Policies for the Protection of Personal Health Information* may be obtained from the CIHI Web site (www.cihi.ca). These policies govern the release of data for all provinces except Quebec and Newfoundland and Labrador in publications, media releases, the CIHI Web site and through ad hoc requests and special studies. In compliance with these guidelines, CIHI prevents residual disclosure by implementing cell suppression for cells with counts from 1 to 4. For further information on data suppression, please see section Data Suppression above. These policies ensure the privacy and confidentiality of all health care providers and recipients.

The release of data from the NPDB for the provinces of Quebec and Newfoundland and Labrador is governed by the NPDB Data Access/Release Policy, which was established by the provincial and territorial ministries of health and is administered by CIHI. Depending on the type of client, the level of data aggregation, the province or territory and indicator of interest, CIHI may not be able to release data to the client without prior approval from the province or territory.

Products and Services

There are three types of products that are generated from the NPDB—ad hoc requests, publications and special projects. Ad hoc requests are generally short queries that do not require major programming resources. Services counts and dollars amounts by specific fee codes or procedures are the most common forms of ad hoc request. Most ad hoc requests can be handled through standard reports that are generated annually. The following series of publications, among others, are currently available:

- *Average Payment per Physician Report, Canada*
- *Full-Time Equivalent Physicians Report, Canada*
- *National Grouping System Categories Report, Canada*
- *Reciprocal Billing Report, Canada*

For details on publication years and reporting periods covered, please refer to the CIHI's Web site (www.cihi.ca).

Special projects require project planning and the commitment of extra resources. Please contact the Program Lead, NPDB at CIHI for costs associated with these products and services.

* Service value was between 1 to 4 for this cell. Data have been suppressed within the cell and are not included in aggregate level row and column totals.

Notes

Based on gross direct payments. Reciprocal Billing payments are not included. Alternative forms of reimbursement, such as salary and sessional, are not included.

* Service value was between 1 to 4 for this cell. Data have been suppressed within the cell and are not included in aggregate level row and column totals. Cell values between 1 and 4 may appear for services per 100,000 population results. However, the total number of services used for these calculations is greater than 4.

Notes
Based on gross direct payments. Reciprocal Billing payments are not included.
Alternative forms of reimbursement, such as salary and sessional, are not included.

n/a = Not Applicable.—There were no physician services for this specialty for this jurisdiction.
 * Service value was between 1 to 4 for this cell. Data have been suppressed within the cell and are not included in aggregate level row and column totals.
 Cell values between 1 and 4 may appear for services per 100,000 population results. However, the total number of services used for these calculations is greater than 4.

Notes
 Based on gross direct payments. Reciprocal Billing payments are not included.
 Alternative forms of reimbursement, such as salary and seasonal, are not included.

n/a = Not Applicable.— There were no physician services for this specialty for this jurisdiction.
 * Service value was between 1 to 4 for this cell. Data have been suppressed within the cell and are not included in aggregate level row and column totals.
 Cell values between 1 and 4 may appear for services per 100,000 population results. However, the total number of services used for these calculations is greater than 4.

Notes
 Based on gross direct payments. Reciprocal Billing payments are not included.
 Alternative forms of reimbursement, such as salary and seasonal, are not included.

n/a = Not Applicable—There were no physician payments for this specialty for this province.
 * Service value was between 1 to 4 for this cell. Data have been suppressed within the cell and are not included in aggregate level row and column totals.
 Cell values between 1 and 4 may appear for services per 100,000 population results. However, the total number of services used for these calculations is greater than 4.

Notes
 Based on gross direct payments. Reciprocal Billing payments are not included.
 Alternative forms of reimbursement, such as salary and seasonal, are not included.

* Service value was between 1 to 4 for this cell. Data have been suppressed within the cell and are not included in aggregate level row and column totals.

Notes
Based on gross direct payments. Reciprocal Billing payments are not included.
Alternative forms of reimbursement, such as salary and sessional, are not included.

* Service value was between 1 to 4 for this cell. Data have been suppressed within the cell and are not included in aggregate level row and column totals.

Notes
Based on gross direct payments. Reciprocal Billing payments are not included.
Alternative forms of reimbursement, such as salary and sessional, are not included.

* Service value was between 1 to 4 for this cell. Data have been suppressed within the cell and are not included in aggregate level row and column totals.

Notes
Based on gross direct payments. Reciprocal Billing payments are not included.
Alternative forms of reimbursement, such as salary and sessional, are not included.

* Service value was between 1 to 4 for this cell. Data have been suppressed within the cell and are not included in aggregate level row and column totals.

Notes
Based on gross direct payments. Reciprocal Billing payments are not included.
Alternative forms of reimbursement, such as salary and seasonal, are not included.

* Service value was between 1 to 4 for this cell. Data have been suppressed within the cell and are not included in aggregate level row and column totals.

Notes

Based on gross direct payments. Reciprocal Billing payments are not included. Physicians paid under alternative forms of reimbursement such as salary and sessional are not included.

* Service value was between 1 to 4 for this cell. Data have been suppressed within the cell and are not included in aggregate level row and column totals.

Notes

Based on gross direct payments. Reciprocal Billing payments are not included.
Physicians paid under alternative forms of reimbursement such as salary and sessional are not included.

* Service value was between 1 to 4 for this cell. Data have been suppressed within the cell and are not included in aggregate level row and column totals.

Notes
Based on gross direct payments. Reciprocal Billing payments are not included.
Physicians paid under alternative forms of reimbursement such as salary and sessional are not included.

* Service value was between 1 to 4 for this cell. Data have been suppressed within the cell and are not included in aggregate level row and column totals.

Notes

Based on gross direct payments. Reciprocal Billing payments are not included. Alternative forms of reimbursement, such as salary and sessional, are not included.

Appendix A

Net Population Estimates

Table A. Statistics Canada Net Population Estimates (in Thousands), 2002–2003 to 2003–2004

Year	N.L.	P.E.I.	N.S.	N.B.	Que.	Ont.	Man.	Sask.	Alta.	B.C.	Y.T.	Total
2002–2003 (PR)	518.6	137.1	925.7	745.0	7,443.1	12,117.9	1,152.9	992.3	3,114.4	4,111.1	30.3	31,288.4
2003–2004 (PR)	519.1	137.8	927.1	744.7	7,489.0	12,253.0	1,159.8	992.4	3,153.4	4,145.8	31.2	31,553.4

Source: Net population estimates, Statistics Canada.

Notes

Net population estimates are produced by excluding from total estimates the members of the Royal Canadian Mounted Police, the Canadian Armed Forces personnel and the number of inmates in Federal and Provincial institutions.

PR = Updated postcensal estimates.

The estimates are based on 2001 census counts, adjusted for net census undercoverage.

These figures have been rounded independently to the nearest hundred.

Note: Although Genetics is no longer a sub-specialty of Internal Medicine it is included in the Internal Medicine category because the number of physician records assigned this specialty is relatively small.

Appendix D

NPDB National Grouping System Categories and Strata

NPDB National Grouping System Categories and Strata

1. Consultations

Major, initial, ordinary, minor, repeat, regional and operative consultations performed in the office, hospital, chronic care and convalescent hospitals and nursing homes, as well as psychiatric and obstetrical consultations where no *Special Call* is involved.

- Major Consultations
- Other Consultations

2. Major Assessments

General and specific assessments, reassessments, initial visits with a complete exam, new condition seen for first time and including complete history and exam, complete specific exam depending upon the physician specialty, annual exams, newborn/premature care and special eye exams performed in any location where no *Special Call* is involved.

- Office
- Hospital Inpatient: Newborn
- Hospital Inpatient: Other
- Hospital Outpatient
- Hospital Unspecified
- Unspecified
- Special Eye

3. Other Assessments

Partial or minor assessments, regional exams, first or subsequent or repeat exams, ordinary, pre- and post-natal care, well baby care in any location, chronic and convalescent care, outpatient visits and other visits when physician is in the hospital, intermediate and minor assessments, partial assessments, follow-up exams and regional exams, additional patients seen during a special call and detention.

- Office
- Hospital Inpatient
- Hospital Outpatient
- Hospital Unspecified
- Unspecified Location
- Special Calls—Add
- Detention

4. Hospital Care Days

Regular visits up to 28/30/31 or 35/42 days, over 28/30/31 or 35/42 days, inpatient supportive care, continuing care, concurrent care, directive care, convalescent care, palliative care and daily management.

- Up to 28/30/31/35/42 Days
- Over 28/30/31/35/42 Days
- Other

5. Special Calls

Visits at night, on Saturdays, Sundays and holidays, requiring travel, to the office, homes, nursing homes, outpatient and emergency departments. Also including special visits, consultations, specific assessments and reassessments, general reassessments, ordinary home visits, home summary and specific exams.

Out-of-hours/Emergency

Other Regular Hours

6. Psychotherapy/Counselling

Individual psychotherapy, hypnotherapy, narco-analysis, diagnostic/therapeutic interviews, group and family psychotherapy and interviews, and interviews for physical medicine and counselling for drugs, family, genetic, marriage and contraception, and case conferences on behalf of patients with allied workers, teachers, clergy, etc.

Individual Psychiatry

Group/Family Psychiatry

Counselling

7. Major Surgery

Based on the 1988 Ontario Schedule of Benefits, these procedures have a fee of more than \$75.

Mastectomy

Simple, radical or modified radical; unilateral or bilateral; female or male.

Breast Tumor Excision/Biopsy

Tumour or tissue for biopsy and/or treatment; partial mastectomy or wedge resection.

Other Integumentary System

All other major surgery procedures performed on the integumentary system not listed above, e.g. excisions, lesions, tumours, cysts, burn and skin grafts, pedicle and free island flaps, plastic planing, plastic surgery procedures, breast reconstruction, mammoplasties, surgical debridement.

Fractures

Bone and joint fractures.

Disc Surgery

Procedures for disc removal and fusion.

Arthroplasty – Hip

Total hip replacement, unipolar and bipolar arthroplasty and revisions.

Arthroplasty – Knee

Knee arthroplasty and revisions.

Other Musculo-Skeletal System

Including all other major surgery performed on the musculo-skeletal system not listed above, including bone grafts, arthrodesis, amputation, arthrotomy, bone, joint, muscle and tendon excision, reconstruction, orbito-cranial surgery, instrumentation and dislocations.

Sub-Mucous Resection

Septoplasty and resection.

Rhinoplasty

Correction of nasal deformity.

Other Respiratory System

All other major surgery performed on the respiratory system not listed above, including excisions and repairs.

Coronary Artery Bypass

Coronary artery repair single, double, triple or more.

Coronary Angioplasty

Percutaneous transluminal coronary angioplasty.

Insertion of Pacemaker

Insertion or permanent endocardial electrode and implantation of pack, replacement and repair.

Other Heart/Pericardium

All other major surgery procedures performed on the heart and pericardium system not listed above.

Varicose Veins

Ligation and stripping of varicose veins but excluding injection of varicose veins.

Carotid Endarterectomy

Endarterectomy, body tumour and bypass graft of the carotid artery.

Other Cardiovascular

All other major surgery performed on the cardiovascular system not listed above.

Appendectomy

Excision of the appendix.

Laparotomy

Any laparotomy performed as a surgical procedure.

Cholecystectomy

All cholecystectomies and any additional payments made for other procedures performed at the same time e.g. choledochotomy, sphincterotomy, vagotomy.

Tonsillectomy

Both adult and child tonsillectomies and payments for adenoidectomies performed at the same time.

Inguinal/Femoral Hernia

Inguinal and/or femoral hernias performed on infants, children, adolescents and adults.

Colectomy

Total and hemi-colectomies and payments for other procedures performed at the same time.

Haemorrhoidectomy

The surgical procedure only. Haemorrhoidectomies by cryotherapy or banding are excluded.

Other Digestive

All other major surgery performed on the digestive system not listed above.

Prostatectomy

All forms of prostate surgery e.g. perineal, suprapubic, retropublic, transpubic and transurethral resection.

Vasectomy

Unilateral or bilateral ligation.

Other Urinary/Male

All other major surgery performed on the male genital and urinary systems.

Prolapse

All forms of prolapse repair surgery.

Hysterectomy

Total, subtotal, abdominal or vaginal or radical hysterectomies.

Sterilization

Tubal occlusion/interruption/removal by any method or approach.

Other Female

All other major surgery performed on the female genital system not listed above.

Cataract Surgery

All forms of cataract surgery, dislocated lens extraction and insertion of intra ocular lens when paid in addition to the above.

Light Coagulation

Photocoagulation and cryoplexy.

Tympanoplasty

Tympanoplasty, myringoplasty, mastotympanoplasty and payments for other procedures performed at the same time.

Other Eye/Ear

All other major surgery performed on the organs of special senses not listed above.

Other Major Surgery

All other major surgery not listed above e.g. operations on the nervous system, on the haemic and lymphatic systems and on the endocrine system.

8. Minor Surgery

Incision, Abscess, etc.

Incision of abscesses or haematomas under local or general anaesthesia.

Removal of Foreign Body

Foreign body removal under local or general anaesthesia.

Excision Tumour, etc.

Excision of verruca, papilloma, keratosis, pyogenic granuloma, moles, etc.

Suture Wound

Repair, debridement and dressing.

Excision of Nail

Excision and/or destruction of finger or toenail.

Chalazion

Single or multiple under local or general anaesthesia.

Myringotomy

Unilateral myringotomy with insertion of ventilation tubes.

Minor Fractures

Fractures with a fee less than \$75.

Other Minor Surgery

All other minor surgery not listed above.

9. Surgical Assistance

All services and payments for surgical assistance.

10. Anaesthesia

Nerve Blocks

All forms of nerve blocks.

Other Anaesthesia

All services and payments for anaesthesia, excluding nerve blocks.

11. Obstetrical Services

Services at Time of Delivery

Attendance at delivery or caesarean section, repair of third degree/vaginal/cervical laceration, removal of retained placenta, scalp sampling, foetal monitoring and induction of labour.

Delivery (excluding Caesarean Sections)

Delivery and multiple births, and excluding Caesarean sections.

Caesarean Section

The procedure only.

Therapeutic Abortions

Therapeutic abortions only.

Other Obstetrical Services

Foetoscopy, stress test, hypertension, foetal transfusion, toxemia of pregnancy, oxytocin challenge test, abortions (missed, threatened, without dilatation and curettage, incomplete, menstrual extraction and spontaneous), amniocentesis, ectopic pregnancy, suture for incomplete cervix during pregnancy, uterine inversion and emergency removal of sutures.

12. Other Diagnostic/Therapeutic Services

I.C./Resuscitation

Intensive care and resuscitation services.

Allergy/Hyposensitization

Tests for allergies and hyposensitization.

Injection/Aspiration of Joint

Injection and/or aspiration of joints.

Electrocardiogram

Services and payments for the professional component of electrocardiograms and the payments for the technical component.

Oesophagoscopy/Gastrosocopy

Services and payments for both these endoscopies as well as payments for procedures performed at the same time as the endoscopy.

Laryngoscopy/Bronchoscopy

Services and payments for both these endoscopies as well as payments for procedures performed at the same time as the endoscopy.

Colonoscopy

Services and payments for these endoscopies as well as payments for procedures performed at the same time as the endoscopy.

Cystoscopy

Services and payments for these endoscopies as well as payments for procedures performed at the same time as the cystoscopy.

Sigmoidoscopy

Services and payments for these endoscopies as well as payments for procedures performed at the same time as the sigmoidoscopy.

Other Endoscopy

All other endoscopies not listed above.

Coronary Angiography

Coronary angiography only.

Procedures Associated with Radiology

Therapeutic radiology and radioisotopes.

Dilatation and Curettage

Dilatation and curettage and payments for procedures performed at the same time.

Electroencephalography

Services and payments for the professional component of electrocardiograms and payments for the technical component.

Cryotherapy

Any cryotherapy identified in the payment schedules.

Cardiac Catheterization

Left heart, right heart and selective coronary catheterization.

Biopsy

All non-surgical biopsies.

Other Diagnostic/Therapeutic Services

All other diagnostic/therapeutic services not listed above.

13. Special Services

Injections and Immunizations

Injections (subcutaneous, intramuscular and for varicose veins) and immunizations regularly performed by nursing personnel. In some jurisdictions, these are treated as separate services while in others, they are included in visit fees. Not included are intra-vascular injections performed by physicians and lumbar myelograms which are included in diagnostic/therapeutic services.

Papanicolaou Smear

As with injections, this procedure is not always considered to be a separate service and is sometimes included in a visit fee.

Insertion of Intrauterine Device

As with injections, this procedure is not always considered to be a separate service and is sometimes included in a visit fee.

14. Miscellaneous Services

Other Identified

These are services that are not listed as fee items by a majority of the provinces and territories. For example, sessional and standby fees (where identified by a fee code), mileage, telephone consultations, sexual assault exam for investigation and/or confirmation of alleged sexual assault and other services.

Unidentified

Most provinces and territories have coding errors or list codes that are unidentifiable. These include all services that are unidentified or are identified but paid for by Social Services, the Attorney General, Workers' Compensation, etc. Examples include services relative to impaired driving, to rape victims and as a result of injuries sustained at work.

Appendix E

Fee-for-Service Radiology and Laboratory Coverage in NPDB

Fee-for-Service Radiology and Laboratory Coverage in NPDB

Radiology and laboratory services supplied to CIHI for use in NPDB are not uniform or complete. For this reason the data are not routinely used in the NPDB publications. The following notes were provided by the provincial medical insurance plans regarding the radiology and laboratory services included on the NPDB file submissions.

Newfoundland and Labrador

- No laboratory services data are supplied to NPDB as these services are paid through the hospital funding.
- Physicians can be paid on a fee-for-service basis for interpretation services on certain diagnostic services such as EEG, ECGs, etc. These services would be included in the NPDB file submissions.

Prince Edward Island

- No laboratory services data are supplied to NPDB as these services are paid through the hospital funding.
- Radiologists' interpretation fees are included in the NPDB file submissions.

Nova Scotia

- No laboratory services data are supplied to NPDB as these services are paid through the hospital funding.
- The majority of radiology billings are not included in NPDB file submissions. For Nova Scotia, the majority of radiology billings are not included in fee-for-service earnings.

New Brunswick

- No laboratory services data are supplied to NPDB as these services are paid through the hospital funding.
- All radiology services are excluded in the NPDB file submissions.

Quebec

- No laboratory services are included.
- Radiology services provided by physicians in private practice are included in the NPDB file submissions.

Ontario

- Approximately 50 percent of all laboratory services are funded through OHIP and therefore are included in the NPDB file submissions. The remaining 50 percent are funded via Public Health (1 percent) and Hospital global budgets (49 percent).
- Information on Radiology services was not available.

Manitoba

- Laboratory services provided in the NPDB file submissions are those provided by privately owned fee-for-service laboratories. Laboratory services provided in urban/rural facilities are not included in the NPDB file submissions.
- Radiology services submitted include all private radiology services and all urban facility radiology services. Rural facility radiology services, approximately 11 percent of the total dollar value for radiology services, are not included in NPDB file submissions.

Saskatchewan

- Since 1993–1994, the only laboratory services included in the NPDB file submissions are common in-office laboratory services provided by physicians other than pathologists. Responsibility for private laboratory services provided by specialists in pathology was transferred to District Health Boards in October 1993 and no longer funded on a fee-for-service basis.
- Facility-based radiology services which are funded through District Health Boards are excluded from the NPDB file submissions, as well as radiology services provided through the Screening Program for Breast Cancer.

Alberta

- Up to July 1, 1995 only non-hospital based laboratory services were included.
- Only non-facility based radiology services are included in NPDB file submissions.

British Columbia

- Laboratory and radiology services when performed on a fee-for-service outpatient basis are included in NPDB file submissions, but inpatient services are not included.

Yukon

- Only non-hospital based laboratory services were included in the NPDB file submissions.
- Only non-hospital based X-ray services were included in the NPDB file submissions.
