2. The re-investigation is part of the Canada Customs and Revenue Agency's enforcement of the Canadian International Trade Tribunal's (Tribunal) injury finding of July 20, 1994, respecting black granite memorials of all sizes and shapes and black granite slabs in thicknesses equal to or greater than three inches, originating in or exported from India. On July 19, 1999, the Tribunal continued the finding without amendment.
3. The subject goods are normally imported into Canada under the following 10-digit Harmonized System classification numbers:

4. Exporters will be provided the opportunity to submit information for the purpose of updating normal values and amounts of subsidy for the goods in question.
5. The new normal values and amounts of subsidy will be issued on or before January 17, 2003, and will be applicable to those goods released from customs on or after the conclusion date of the re-investigation.
6. Notice of the completion of this re-investigation will be published in a customs notice.
7. Importers are cautioned that the new normal values and amounts of subsidy, when issued, may be higher than those currently in effect.
