2005–2006 Estimates

Part I

The Government Expense Plan

Part I – The Government Expense Plan

Overview:

The Main Estimates present information on both budgetary and non-budgetary spending authorities.

Budgetary Main Estimates:

Budgetary expenditures include the cost of servicing the public debt; operating and capital expenditures; transfer payments to other levels of government, organizations or individuals; and payments to Crown corporations. These Main Estimates support the government's request for Parliament's authority to spend \$66.1 billion under program authorities that require Parliament's annual approval of their spending limits. The remaining \$119.8 billion is statutory and the detailed forecasts are provided for information purposes only.

Non-Budgetary Main Estimates:

Non-budgetary expenditures (loans, investments and advances) are outlays that represent changes in the composition of financial assets of the Government of Canada. The 2005-2006 Main Estimates include a forecast decrease in non-budgetary expenditures of \$1.1 billion over the 2004-2005 Main Estimates. Voted non-budgetary spending authorities set out in these Estimates amount to \$0.1 billion. The remaining \$1.6 billion is pursuant to enabling legislation.

Table 1: Total Main Estimates

2005-2006			
(\$ millions)	Budgetary	Non-budgetary	Total
Voted Appropriations	66,050.0	84.5	66,134.5
Statutory Authorities	119,813.4	1,605.6	121,419.0
Total Main Estimates	185,863.4	1,690.1	187,553.5

In total, the 2005-2006 Main Estimates have increased by \$1.5 billion relative to the 2004-2005 Main Estimates: an increase of \$2.6 billion in budgetary spending and a decrease of \$1.1 billion in non-budgetary spending.

BUDGETARY MAIN ESTIMATES - A net \$2.6 billion increase

As the Budget is being tabled in close proximity to the Main Estimates and, given both production and secrecy constraints, not all new spending plans can be reflected in the Main Estimates. This is the case in 2005-2006. While the 2005-2006 Main Estimates represent the major part of the government's spending plans, additional changes to the amounts will be dealt with in Supplementary Estimates later during the fiscal year.

Accordingly, these Main Estimates represent the Government's expense plan as announced in its March 2004 Budget as well as further updates provided in its November 2004 Fiscal and Economic Update.

The November 2004 Fiscal and Economic Update presents planned budgetary expense of \$194.9 billion for 2005-2006. Of that amount, \$35.9 billion is for public debt charges and \$159 billion is for program spending. Overall, the budgetary expense in the 2005-2006 Main Estimates has increased by \$2.6 billion relative to the 2004-2005 Main Estimates.

¹Includes adjustments for the impact of accrual accounting, expenses charged to prior years and an anticipated lapse. It also includes expenses not yet allocated for initiatives which require further development or legislation

Note: Numbers may not add due to rounding

Part I – The Government Expense Plan

Where the Spending Occurs

In the 2004 Speech from the Throne, the government set out an agenda to improve the standard of living and quality of life of Canadians. Among the major themes advanced were:

1. The economy;
2. The health of Canadians;
3. The environment;
4. The strength and safety of Canadian communities;
5. Canada's role in the world; and
6. Maintaining an effective government.

Prudent fiscal planning and the significant reduction in the federal debt have allowed the Government of Canada to make major investments in the priorities of Canadians. Reflecting the agenda outlined in the Speech from the Throne, both the 2004 Federal Budget and the November 2004 Fiscal and Economic Update centered on:

- Health care;
- Building a more productive and innovative 21st century economy;
- Learning, knowledge, and commercialization;
- Communities;
- Canada's relationship to the world; and
- A more accountable government with prudent financial management practices.

Program Spending by Sector

In this section, program spending is set out by sector and, within each sector, by federal department and agency. While some sectors show a decline in spending in 2005-2006, others are showing increases which, in part, reflect measures announced in the Minister of Finance's 2004 Budget and November 2004 Economic and Fiscal Update.

The table on the next page summarizes program spending by sector. The remainder of this section examines each of the ten sectors in more detail.

Part I – The Government Expense Plan

1 - Social Programs

Social programs aim to promote the health and well-being of Canadians and foster equality of access to the benefits of Canadian society. The federal government attains these objectives through direct program spending, transfers to persons and transfers to other levels of government.

The social programs sector includes:

- Programs focusing on employment, health, and housing;
- Programs benefiting Aboriginal peoples and veterans;
- Major transfers to persons, in particular employment insurance benefits and elderly benefits; and
- The Canada Health Transfer, the Canada Social Transfer and the Health Reform Transfer.

² Major transfers for Social Programs include: Employment Insurance, Elderly Benefits, the Canada Health Transfer, the Canada Social Transfer, and the Health Reform Transfer.

³ Major transfer payments within General Government Services include transfers to territorial governments and equalization payments.

Part I – The Government Expense Plan

The table below breaks down social program spending by department and agency.

Table 4: Social Programs

Part I – The Government Expense Plan

Details

As presented in these Main Estimates, spending in social programs in 2005-2006 is estimated at \$83.2 billion, which represents by far the largest component of total program spending, at 44.8 %. Of the \$83.2 billion, \$17.8 billion, or 21.4 % will be for direct program spending, and \$65.4 billion, or 78.6 %, will be for transfer payments.

Compared to the previous year, social program spending in 2005-2006 is set to increase by \$3.6 billion, or 4.5 %. The largest component of this increase is with health spending, and is fully consistent with the priorities of government as advanced in the 2004 Speech from the Throne and the 2004 Budget.

Health Programs:

Health programs expenditure for the year 2005-2006 amounts to \$20.6 billion, an increase of \$2.5 billion from the year 2004-2005. More specifically, direct program spending for health is forecast to increase by \$137 million to \$4.1 billion, whereas transfer payments are forecast to increase by \$2.4 billion to \$16.5 billion.

Among the significant drivers of the increase in direct program spending for health are:

Aboriginal Health:

- Reflecting pledges made in the Speech from the Throne and the Budget, Health Canada's spending on Aboriginal health-related programs is forecast to increase by \$92 million relative to the 2004-2005 Main Estimates. This is mainly attributable to an increase of \$84 million for the Sustainability of First Nations and Inuit Health System, and an increase of \$5 million related to the implementation of the First Nations Water Management System, aimed at improving the safety of water supplies in First Nations communities. To increase its support for healthy northern communities in 2005-2006, the Department of Indian Affairs and Northern Development will provide grants totalling \$44 million to the Government of the Northwest Territories and the Government of Nunavut.

Health Policy, Promotion and Research:

- The proposed funding for the new Public Health Agency, established in the 2004 Budget as Canada's focal point for disease control and emergency response, reflects the transfer of \$359 million from Health Canada. Correspondingly, Health Canada's 2005-2006 net budget decrease of \$311 million is due primarily to the transfer of some of the Department's activities to the Public Health Agency. The Budget also announced an increase of \$76 million for incremental funding of the Public Health Agency so that it can take immediate steps to improve Canada's readiness to deal with public health emergencies, including: increasing emergency response capacity, enhancing surveillance and strengthening international coordination and collaboration.
- Consistent with the Budget announcement to support new researchers and translate discoveries into commercial and social benefits for Canadians, the Canadian Institutes of Health Research's expenditure for 2005-2006 is forecast to increase by \$25 million, of which \$23 million is to be allocated for grants funding health research.
- Health Canada's funding for the Health Human Resource Strategy, which aims to ensure that Canadians have access to the health providers they need, is set to increase by \$16 million, while the Department's funding for the Canada Drug Strategy Renewal initiative, which takes a balanced approach to reducing both the demand for, and supply of, drugs, is set to increase by \$12 million.

Part I – The Government Expense Plan

Major Transfer Payments — Health:

- In order to ensure that its own contributions to health care are more transparent, the government restructured the Canada Health and Social Transfer (CHST) into two new transfers. On April 1, 2004, the CHST was apportioned between the Canada Health Transfer, supporting provincial and territorial health programs, and the Canada Social Transfer, supporting post-secondary education and social programs. For the year 2005-2006, cash transfer payments for health are forecast to increase by \$2.4 billion, reflecting the government's commitment to strengthen health care. Of the \$2.4 billion in extra funding, \$2 billion is to be transferred under the Health Reform Transfer and \$350 million under the Canada Health Transfer.

Other Social Programs:

The balance of the increase in this sector relates to non-health oriented social programs, whose expenditures for the year 2005-2006 are estimated to grow to \$62.6 billion. This represents an increase of \$1.1 billion from the year 2004-2005, of which \$0.8 billion is in transfer payments.

Among the significant drivers of the increase in direct program spending for other social programs are:

- The proposed \$65 million in increased funding for the Department of Veterans Affairs reflects \$26 million increase to pay for pensions and allowances for disability and death, and economic support of veterans, as well as \$39 million increase for program activities that provide health care benefits to veterans, including extended health care benefits not covered by provincial health programs.
- The proposed funding for the Department of Indian Affairs and Northern Development relates to additional spending of \$86 million to meet increased demand for ongoing Indian and Inuit programs and services and \$43 million for remediating contaminated sites. These increases are partially offset by net decreases in the settlements of specific and comprehensive claims due to anticipated delays in reaching settlements and the sun-setting of funding for the Capital Rust Out initiative.
- The proposed changes in spending for Human Resources and Skills Development Canada (HRSDC) and Human Resources Development (Social Development) are mainly due to the realignment of resources for shared services, to better reflect the costs of operations of the two departments. As well, HRSDC's forecast spending reflects the \$90 million transfer from Transport Canada for the Toronto Waterfront Revitalization project, and \$45 million for the Canada Education Savings Grant, due to increased demand for the grants from one year to the other.

The significant drivers of the increase in transfer payments for other social programs are:

- Consistent with the 2004 Budget announcement, the government plans to increase the Canada Social Transfer by \$400 million in 2005-2006, bringing the total amount to \$8.2 billion. Of the \$400 million, \$225 million is to be allocated toward the Multilateral Framework on Early Learning and Child Care, also as announced in the 2004 Budget. The objective of the Framework is to strengthen early childhood development, learning, and care.
- Changes to both the Alternative Payments for Standing Programs and the Youth Allowance Recovery are due to an increase in the value of personal income tax points, which is a key variable in calculating these recoveries.
- Major transfers to persons are projected to increase by \$659 million, reflecting largely higher elderly benefits due to the growth in the elderly population and average benefits, which are fully indexed to quarterly changes in consumer prices. The decline in EI benefits reflects the projected decrease both in the number of people eligible for benefits and in average benefits.

Part I – The Government Expense Plan

2 - Cultural Programs

Heritage and cultural programs support the growth and development of Canadian cultural life, participation and equity in Canadian society, the nation's linguistic duality and diverse multicultural heritage, and the preservation of its national parks, historic sites and heritage. With a few exceptions, the programs are delivered primarily by the organizations for which the Minister of Canadian Heritage is responsible, such as the Department of Canadian Heritage, as well as certain Crown corporations and departmental agencies.

Table 5 breaks down planned spending on heritage and cultural programs by department, corporation and agency, as follows:

Table 5: Cultural Programs

(\$ thousands)	Main Estimates		Change in Spending	
	2004-2005	2005-2006	\$	%

Part I – The Government Expense Plan

Details

As presented in these Main Estimates, spending in the cultural programs sector in 2005-2006 is estimated at \$3.4 billion, which represents 1.8 % of total program spending.

Compared to the previous year, cultural program spending in 2005-2006 is set to decrease by \$135 million, or 3.9 %. With the exception of Parks Canada Agency, which is requesting an increase in its funding levels, spending in other departments is expected to decline, largely due to decreases of one-time funding or the sunsetting of programs.

The following are some of the major drivers affecting the change in spending levels in the cultural programs sector:

- The Parks Canada Agency's change in expenditure is largely due to an increase of \$17 million to continue the twinning of the Trans-Canada Highway through Banff National Park.
- The forecast reduction to the funding of the Canadian Broadcasting Corporation is due primarily to the non-renewal of the \$60 million in funding provided to strengthen and revitalize English and French television, radio and new media programming.
- The National Capital Commission's decrease of \$43 million is largely due to cancellations and delays in the implementation of its 'capital' projects, such as the cancellation of the Sparks Street revitalization project.
- A net decrease of \$36 million for the Canadian Museum of Civilization is related to one-time funding for the construction of the New Canadian War Museum.

3 – Environment and Resource-based Programs

This sector comprises those departments and agencies that promote the sustainable development of Canada's environment, natural resources and the agriculture industry. These departments include Environment, Natural Resources, Agriculture and Agri-Food, and Fisheries and Oceans.

Part I – The Government Expense Plan

Table 6 breaks down planned spending on natural resource-based programs by department, corporation and agency, as follows:

Table 6: Environment and Resource-based Programs

(\$ thousands)	Main Estimates		Change in Spending	
	2004-2005	2005-2006	\$	%
Agriculture and Agri-Food				
Department	2,110,846	2,153,119	42,273	2.0
Canadian Dairy Commission	3,211	3,202	(9)	-0.3
Canadian Food Inspection Agency	476,880	489,031	12,151	2.5
Canadian Grain Commission	21,293	5,894	(15,399)	-72.3
Environment				
Department	805,234	835,226	29,992	3.7
Canadian Environmental Assessment Agency	17,883	17,570	(313)	-1.8
Fisheries and Oceans				
Department	1,470,799	1,440,052	(30,747)	-2.1
Natural Resources				
Department	1,092,925	1,085,631	(7,294)	-0.7
Atomic Energy of Canada	127,838	98,838	(29,000)	-22.7
Canadian Nuclear Safety Commission	65,375	66,330	955	1.5
National Energy Board	35,535	38,286	2,751	7.7
Northern Pipeline Agency	1,363	1,355	(8)	-0.6
Privy Council				
National Round Table on the Environment and the Economy	5,077	5,051	(26)	-0.5
Total Program Spending	6,234,259	6,239,585	5,326	0.1

Details

As presented in these Main Estimates, spending in the environment and resource-based programs sector in 2005-2006 is estimated at \$6.2 billion, which represents 3.4 % of total program spending. Compared to the previous year, the 2005-2006 spending in this sector is forecast to increase marginally by \$5.3 million, or 0.1 %.

Resource-based programs:

Within the agricultural programs, the primary drivers of the proposed spending increase relate to initiatives seeking to mitigate the impacts of the Bovine Spongiform Encephalopathy (BSE) crisis. For example, the Department of Agriculture and Agri-Food proposes an increase of \$69 million for the BSE Recovery Program to reposition the Canadian beef and cattle industry, including a loan loss reserve to facilitate access to capital to encourage expansion of the domestic slaughter capacity. Similarly, the Canadian Food Inspection Agency is requesting additional funds in support of its BSE Surveillance and Export Certification programs. The Canadian Food Inspection Agency's proposed level of spending is also affected by the transfer of import inspection operations to the Canada Border Services Agency. Lastly, the Canadian Grain Commission's decreased level of spending is mainly due to the completion of the temporary four-year funding to support the Canadian Grain Commission's operations.

Part I – The Government Expense Plan

Within the Fisheries and Oceans programs, the overall reduction reflects the termination of one-time funding of \$42 million in 2004-2005 that was used to refurbish core capital assets such as the Canadian Coast Guard fleet, laboratories, small craft harbors and other facilities. This is offset by increases related to the enhancement of on-water presence and air surveillance capability as part of the National Security Policy announced in March 2004, and by increases in support of Aboriginal groups in the management of fisheries and ocean resources.

Environment and Climate Change Programs:

To meet Kyoto commitments and support implementation of the Climate Change Plan for Canada, the 2003 Budget announced \$1.7 billion over five years for innovation and cost-effective mitigation measures leading to greenhouse gas emission reductions in Canada. For the year 2005-2006, Environment and Natural Resources plan to start or expand a number of initiatives aimed at implementing the Climate Change Plan, including:

- Natural Resources' Emission Reduction Package, which includes funding for energy efficiency and renewable energy programs; the implementation of cost-effective, early action measures targeting transportation and buildings; and funding to improve project-based collaboration and cost-sharing with provinces, territories and other partners.

As well, to address the clean up of contaminated sites for which federal departments are responsible, Environment and the Treasury Board Secretariat are leading the Federal Contaminated Sites Accelerated Action Plan. This initiative accelerates the assessment, management and remediation of those sites having significant human health and environmental risks.

4 - Industrial, Regional and Scientific-technological Support Programs

The general objectives of federal spending in this sector are to foster economic growth and job creation through measures that stimulate private-sector investment across Canada, encourage regional development, improve the country's innovation performance, and promote a stronger science and technology capability in Canada.

Part I – The Government Expense Plan

Table 7 summarizes the year-over-year changes by department and agency.

Table 7: Industrial, Regional and Scientific-technological Support Programs

(\$ thousands)	Main Estimates		Change in Spending	
	2004-2005	2005-2006	\$	%

Standards Council of Canada	6,924	6,924	0	0.0
Office of Infrastructure of Canada	424,105	793,978	369,873	87.2
Natural Resources				
Cape Breton Development Corporation	60,205	56,905	(3,300)	-5.5
Western Economic Diversification	390,806	392,692	1,886	0.5
Total Program Spending	5,707,570	5,926,844	219,274	3.8

Details

As presented in these Main Estimates, spending in this sector in 2005-2006 is estimated at \$5.9 billion, which represents 3.2 % of total program spending. Compared to the previous year, the spending level in 2005-2006 is set to increase by \$219.3 million, or 3.8 %.

Among the significant drivers of the increase in this sector are:

Learning, Research and Innovation Initiatives:

Consistent with the Budget commitment to support research, the funding for the Canada Graduate Scholarship program, offered by the Natural Sciences and Engineering Research Council and the Social Sciences and Humanities Research Council, will increase by \$27 million over 2004-2005 levels. As well, \$20 million in additional funding will be provided to the Social Sciences and Humanities Research Council for indirect costs of

Part I – The Government Expense Plan

research, in recognition of the fact that the rise in direct federal support for research has led to an increase in indirect costs borne by universities.

Industry and Infrastructure Initiatives:

- Funding for the Office of Infrastructure of Canada is forecast to increase by \$370 million and reflects the Budget commitment made to communities, specifically in augmenting contributions to the following funds:
 - An increase of \$184 million for the Canada Strategic Infrastructure Fund;
 - An increase of \$134 million for the Municipal Rural Infrastructure Fund; and
 - An increase of \$47 million for the Border Infrastructure Fund.
- The decrease in Industry's estimated funding levels is due in large part to the termination of \$72 million of funding for the softwood industry's economic adjustment initiative.

Regional Initiatives:

- The majority of the reduction in funding to the Atlantic Canada Opportunity Agency relates to a decrease of \$16 million due to the sunsetting of the cod closure initiative under the Strategic Community Investment Fund and a decrease of \$8 million in requirements under the Saint John Shipyard Adjustment Initiative.
- The increase in spending levels for the Economic Development Agency of Canada for the Regions of Quebec is primarily due to funds carried forward from previous years for the Canada Infrastructures Work Program, to meet the Canada Quebec agreement requirements.
- Finally, the funding for Industry's FedNor initiative is forecast to decrease by \$36 million as a result of the end of additional funding for the Northern Ontario Development Fund.

5 - Transportation Programs

The transportation programs include those administered by Transport; those administered by several agencies, including the Canadian Transportation Agency, the Canadian Transportation Accident Investigation and Safety Board of Canada (which reports through the Privy Council Office) and the Transportation Appeal Tribunal of Canada; and those administered by Crown corporations, including VIA Rail Canada and Marine Atlantic Inc.

Part I – The Government Expense Plan

Table 8 breaks down program spending by department and agency.

Table 8: Transportation Programs

(\$ thousands)	Main Estimates		Change in Spending	
	2004-2005	2005-2006	\$	%
Transport				
Department	929,729	828,457	(101,272)	-10.8
Canadian Transportation Agency	24,711	24,383	(328)	-1.3
Transportation Appeal Tribunal of Canada	1,313	1,303	(10)	-0.8
Jacques Cartier and Champlain Bridges Inc.	32,077	32,188	111	0.3
Marine Atlantic Inc.	27,607	24,533	(3,074)	-11.1
VIA Rail Canada Inc.	191,301	169,001	(22,300)	-11.7
Canadian Air Transport Security Authority	466,499	438,400	(28,099)	-6.0
Privy Council				
Canadian Transportation Accident Investigation and Safety Board	30,055	27,602	(2,453)	-8.2
Total Program Spending	1,703,292	1,545,867	(157,425)	-9.2

Details

As presented in these Main Estimates, spending in the transportation programs sector in 2005-2006 is estimated at \$1.5 billion, which represents 0.8 % of total program spending. Compared to the previous year, this sector's spending in 2005-2006 is set to decrease by \$157.4 million, or 9.2 %.

The following are some of the major drivers affecting the change in spending level for the transportation programs sector:

Transport's funding levels are forecast to decrease by \$101 million in 2005-2006. This is largely due to:

- A decrease of \$111 million for the transfer of the Toronto Waterfront Revitalization Project to Human Resources and Skills Development Canada (HRSDC) as a result of the government's restructuring initiative. Note that there is a corresponding increase in HRSDC's proposed spending.
- A decrease of \$32 million to the highway component of the Strategic Highway Infrastructure Program as most provinces are entering the final phase of the program. Among others, the program's objectives include improving the Canadian surface transportation system in all regions depending on local needs, making Canada a leader in the use of innovative transportation and information technologies, and improving the quality of life by promoting safer and more environmentally sustainable transportation.
- An increase of \$48 million for a new marine security contribution program to enhance the security of the marine transportation system. This amount is in addition to Transport's operating budget increase of \$21 million reflecting the transfer of responsibility of marine safety policy and associated marine operations from the Department of Fisheries and Oceans.

Part I – The Government Expense Plan

The Canadian Air Transport Security Authority (CATSA)'s funding levels are also expected to decrease due primarily to the near completion of the Authority's National Deployment Plan for the installation of explosive detection systems at 89 designated airports. The Plan's schedule requires deployment of the equipment by January 1, 2006. At the same time, there is an increase of \$19 million to CATSA's operating budget due to increased maintenance costs of the Explosive Detection System equipment and baggage screening operations.

The decrease of \$22 million in Via Rail's spending level is related to the completion of its \$401 million capital investment program in 2004-2005.

6 - Justice and Legal Programs

This sector covers the administration of justice and law enforcement activities delivered by the Department of Justice and one component of Finance Canada and the Privy Council Office. The objectives of the programs in this sector include:

- Ensuring that Canadians enjoy a justice system that is fair, accessible and efficient;
- Developing justice policy and making and reforming laws as needed;
- Making payments to the provinces and territories for programs such as criminal legal aid, juvenile justice services and child support;
- Administering the courts and reviewing complaints and grievances impartially; and
- Providing legal services to the Government of Canada.

Table 9, on the following page, breaks down justice and legal program spending by department and agency.

Table 9: Justice and Legal Programs

(\$ thousands)	Main Estimates		Change in Spending	
	2004-2005	2005-2006	\$	%
Justice				
Department	1,004,788	924,865	(79,923)	-8.0
Canadian Human Rights Commission	20,723	22,380	1,657	8.0
Canadian Human Rights Tribunal	4,278	4,698	420	9.8
Commissioner for Federal Judicial Affairs	337,557	351,731	14,174	4.2
Courts Administration Service	54,303	53,536	(767)	-1.4
Law Commission of Canada	3,150	3,142	(8)	-0.3

Supreme Court of Canada	27,151	27,153	2	0.0
Public Safety and Emergency Preparedness Canada				
Office of Indian Residential Schools Resolution	99,817	121,070	21,253	21.3
Total Program Spending	1,561,635	1,518,784	(42,851)	-2.7

Part I – The Government Expense Plan

Details

As presented in these Main Estimates, spending in the justice and legal programs sector in 2005-2006 is estimated at \$1.5 billion, which represents 0.8 % of total program spending. Compared to the previous year, this sector's spending in 2005-2006 is set to decrease by \$43 million, or 2.7 %.

Among the significant drivers of the spending decrease in this sector are:

- A significant portion of the decrease in funding for the Department of Justice relates to the Youth Justice Services Funding Program. The authority the Department received to provide enhanced funding to provinces and territories to support the collaborative implementation of the Youth Justice Renewal Initiative expires in 2004-2005.
- The increase in spending for the Office of Indian Residential Schools Resolution of Canada is due to the operational requirements necessary to support the full implementation of the National Resolution Framework to address the legacy of Indian Residential Schools and to settle claims against the Crown.
- The Office of the Commissioner for Federal Judicial Affairs is also increasing its funding levels due to the increase in the statutory requirement relating to judges' salaries, allowances and annuities. This increase will allow for an increase in the number of judicial appointments, as well as an increase in the overall average pension amount being paid to the pensioners in accordance with the *Judges Act*.

7 - Security and Public Safety Programs

This sector is composed of the Security Intelligence Review Committee of the Privy Council Office, and the portfolio of Solicitor General (Public Safety and Emergency Preparedness Canada (PSEPC)).

Created in December 2003, PSEPC's objective is to further close security gaps and ensure that the country's national interests and citizens are protected. The department is dedicated to minimizing a continuum of risks to Canadians – from risks to personal safety from crime or naturally occurring events such as severe blizzards, floods or forest fires, to threats to national security from terrorist activity. It provides policy leadership and delivers programs and services in the areas of national security and emergency management, policing, law enforcement and borders, and corrections and crime prevention. It also ensures policy cohesion among the six agencies that report to the Minister responsible for PSEPC (Royal Canadian Mounted Police (RCMP); Canadian Security Intelligence Service (CSIS); Canada Border Services Agency (CBSA); Canada Firearms Centre (CFC); Correctional Service of Canada (CSC); and National Parole Board (NPB)).

Part I – The Government Expense Plan

Table 10 breaks down security and public safety program spending by department and agency.

Table 10: Security and Public Safety Programs

(\$ thousands)	Main Estimates		Change in Spending	
	2004-2005	2005-2006	\$	%
Privy Council				
Security Intelligence Review Committee	2,471	2,796	325	13.2
Solicitor General (Public Safety and Emergency Preparedness)				
Department	414,016	430,818	16,802	4.1
Canada Border Services Agency	666,746	1,021,744	354,998	53.2
Canadian Firearms Centre	100,268	82,284	(17,984)	-17.9
Canadian Security Intelligence Service	269,911	292,092	22,181	8.2
Correctional Service	1,571,272	1,597,238	25,966	1.7
National Parole Board	33,848	31,767	(2,081)	-6.1
Office of the Correctional Investigator	2,946	2,919	(27)	-0.9
Royal Canadian Mounted Police	1,841,100	1,863,287	22,187	1.2
Royal Canadian Mounted Police External Review Committee	884	879	(5)	-0.6
Royal Canadian Mounted Police Public Complaints Commission	4,735	4,685	(50)	-1.1
Total Program Spending	4,908,197	5,330,509	422,312	8.6

Details

As presented in these Main Estimates, spending in the security and public safety programs sector in 2005-2006 is estimated at \$5.3 billion, which represents 2.9 % of total program spending. Compared to the previous year, this sector's spending in 2005-2006 has increased by \$422 million, or 8.6 %.

Among the major drivers affecting the change in planned spending are:

- The significant increase in the budget of the Canada Border Services Agency is due to the transfer of responsibilities and resources from Citizenship and Immigration, the Canadian Food Inspection Agency and the Canada Customs and Revenue Agency consistent with the machinery of government changes announced on December 12, 2003.
- The Canada Firearms Centre's spending decrease of \$18 million is primarily due to the decreased requirements attributable to Professional Services related to the Canadian Firearms Information System and other efficiency measures.

Part I – The Government Expense Plan

- The Royal Canadian Mounted Police's increased funding level reflects an increase of \$38 million for the Federal government's share of additional resources requested by the contract policing partners under the contract policing agreements. This is in addition to increased funding of \$21 million to support the investigation and prosecution of fraud offences in capital markets, and \$11 million to operate the National DNA Data Bank for serious offenders.
- The proposed funding for Correctional Service reflects an increase of \$15 million for the maintenance and housing of offenders as approved in the National Capital Accommodation and Operations Plan.

8 – International, Immigration and Defence Programs Sector

The programs in this sector ensure the security of Canadians, defend Canadian interests, promote a stable international environment and project Canadian values and culture in world affairs.

In order to contribute to international peace and security and help prevent violent conflict, the government funds a range of initiatives, including collective security and defense arrangements with allies, Canada's Human Security Program, conflict prevention, human rights promotion and peace-building activities.

Programs in this sector also promote prosperity and employment opportunities for Canadians through increased trade and commercial relations, with the lead role played by International Trade.

Through agencies such as the Canadian International Development Agency (CIDA), Canada supports development assistance programs aimed at reducing poverty in other countries and contributing to a more equitable sharing of the world's prosperity.

Part I – The Government Expense Plan

Table 11 breaks down international, immigration and defense program spending by department and agency.

Total Program Spending	20,305,480	20,479,791	174,311	0.9

Details

⁴ International assistance figures for Finance include: grants and contributions to international financial organizations to meet commitments made by Canada under multilateral debt reduction agreements, and transfer payments to international financial organizations (payments to the International Development Association and International Monetary Fund's Poverty Reduction and Growth Facility).

Part I – The Government Expense Plan

As presented in these Main Estimates, spending in this sector for 2005-2006 is estimated at \$20.5 billion, which represents 11 % of total program spending. Compared to the previous year, this sector's spending in 2005-2006 has increased by \$174 million, or 0.9 %.

Among the major drivers affecting the change in planned spending are:

- For the Department of Citizenship and Immigration, a significant part of the decrease in its funding level relates to the transfer of \$209 million to the Canada Border Services Agency.
- The Department of National Defence spending forecast relates to an increase of \$74 million for the Department's security priorities, as announced in the 2004 Budget. As well, the Department is seeking a \$35-million increase to offset the cost increment of Canada's military contribution to the International Security Assistance Force (ISAF) in Afghanistan, and an increase in incremental funding of \$22 million for pay and benefits adjustments approved for military and civilian personnel.
- The increase in spending for Foreign Affairs mainly reflects an increase in contribution payments in support of its international assistance initiatives, such as: \$105 million for new or increased contributions for Canada's membership in international organizations, primarily for the United Nations and its peacekeeping operations; and \$61 million for the G8 Global Partnership Program to cover costs related to, among other things, the destruction of materials of mass destruction in Russia and other countries of the former Soviet Union.
- Consistent with the 2004 Budget commitment, CIDA's funding levels are also expected to increase as a result of the Agency receiving its portion of the \$248 million increase for international assistance. This increase, along with departmental reallocation, will enable CIDA to commence, continue and expand program activities, such as: a \$50 million grant to the World Health Organization's "3 by 5" initiative (an initiative that aims to enable access by 3 million HIV/AIDS patients in developing countries to antiretroviral therapy by the end of 2005); a contribution of \$46 million to the Interim Cooperation Framework for Haiti; and \$40 million to help rebuild the tsunami affected areas of South Asia, as well as to respond to other emerging humanitarian crises.
- Finance plans to increase its payment to the International Development Association by \$53 million, and to provide \$128 million in the form of grants and contributions to the International Financial Organization to meet commitments made by Canada under multilateral debt reduction agreements.

9 - Parliament and the Governor General

Parliamentary spending includes expenditures related to the Senate, the House of Commons and the Library of Parliament, which constitute the Parliamentary Precinct. The requirements of the House of Commons and the Senate are appropriated annually and are managed by the Board of Internal Economy and the Standing Committee of Internal Economy, Budgets and Administration, respectively. The Speakers of both Houses approve the appropriations of the Library of Parliament.

Fiscal year 2005-2006 represents the first year of operations with supporting Main Estimates for the Office of the Ethics Commissioner. The Office was created in 2004 to enhance public confidence and trust in the integrity of Members of the House of Commons and Public Office Holders as well as the respect and confidence that society places in the House of Commons as an institution.

Part I – The Government Expense Plan

Table 12 shows spending by Parliament and by the Office of the Secretary to the Governor General.

Table 12 – Parliament and Governor General Spending

(\$ thousands)	Main Estimates		Change in Spending	
	2004-2005	2005-2006	\$	%
Governor General	19,181	19,060	(121)	-0.6
Parliament				
The Senate	73,552	80,606	7,054	9.6
House of Commons	346,563	383,221	36,658	10.6
Library of Parliament	30,438	32,105	1,667	5.5
Office of the Ethics Commissioner	0	4,675	4,675	100.0
Total Program Spending	469,734	519,667	49,933	10.6

Details

As presented in these Main Estimates, spending in this sector in 2005-2006 is estimated at \$520 million, which represents 0.3 % of total program spending. Compared to the previous year, this sector's spending is set to increase by \$50 million, or 10.6 %.

The following are some of the key drivers affecting the change in this sector's program spending:

- \$18.6 million for Members' and House Officers' budgets, including the related employer's share of contributions to employee benefit plans, and supplementary budgets to support seven additional Members;
- \$14.7 million in salaries for economic and step increases to House of Commons employees, including the related employer's share of contributions to employee benefit plans;
- \$5.4 million to support Members in committees, international and interparliamentary activities, and the Chamber; and
- \$4.7 million to support the activities of the new Office of the Ethics Commissioner.

10 - General Government Services

General Government Services include central services provided by departments and agencies to support the internal operations of government.

It also includes, under the Department of Finance, transfer payments to the provinces and territories. Fiscal equalization payments are unconditional transfer payments to lower-income provinces so that they can provide their residents with public services that are reasonably comparable to those in other provinces, at reasonably comparable levels of taxation. Transfer payments to the Governments of Nunavut, the Northwest Territories, and Yukon are designed to enable the territories to provide the same range of services as the provincial governments provide.

Public Service Human Resources Management Agency of Canada	58,483	86,720	28,237	48.3
<i>Sub-total-Direct Program Spending</i>				
<i>Major Transfer (Finance):</i>	9,485,848	9,581,833	95,985	1.0
Fiscal Equalization	10,884,000	9,510,000	(1,374,000)	-12.6
Transfers to Territorial Governments	1,785,000	1,800,000	15,000	0.8
<i>Sub-total-Major Transfers</i>	12,669,000	11,310,000	(1,359,000)	-10.7
Total Program Spending	22,154,848	20,891,833	(1,263,015)	-5.7

Part I – The Government Expense Plan

Details

As presented in these Main Estimates, spending in the General Government Services sector for 2005-2006 is estimated at \$20.9 billion, which represents 11.2 % of total program spending. Of the \$20.9 billion, \$9.6 billion or 45.9 %, will be for direct program spending and \$11.3 billion, or 54.1 %, will be for transfer payments. Compared to the previous year, this sector's total spending in 2005-2006 has decreased by \$1.3 billion, or 5.7 %.

The following are the major drivers of the change in spending:

- The Canada Customs and Revenue Agency's decrease in spending is due primarily to the transfer of \$145 million in corporate support resources to the Canada Border Services Agency.
- The Public Service Commission's decrease of \$59 million from the 2004-2005 Main Estimates is explained by:
 - A decrease of \$32 million as a result of the transfer of resources to the Canada School of Public Service in line with the implementation of the *Public Service Modernization Act*; and
 - A decrease in the amount of \$22 million due to the transfer of resources to the Public Service Human Resources Management Agency of Canada in line with the implementation of the *Public Service Modernization Act*.
- The Canada School of Public Service's increase in spending reflects the Government's restructuring plan of December 2003. Since April 2004, the Canada School of Public Service brings together three federal organizations: the Canadian Centre for Management Development, and from the Public Service Commission, Training Development Canada and Language Training Canada.
- Public Service Human Resources Management Agency's increase in spending reflects the transfer of \$9 million from Treasury Board Secretariat and a transfer of \$22 million from the Public Service Commission, pursuant to the *Public Service Modernization Act*.
- Finance's spending level is largely related to an increase of \$34 million in the purchase costs of domestic coinage as a result of an increased demand for coinage by financial institutions and the public. The increase in funding is required to cover the additional cost to produce and distribute higher volume of domestic circulating coinage.
- Statistics Canada's increase in spending is mainly linked to activities from the 2001 census of population and preparation for the upcoming 2006 census.
- The budget for the Chief Electoral Officer's increase of \$33.7 million in spending is due to an increase in permanent staff, funding to prepare for the next election and to full-year funding allowances to eligible political parties pursuant to new legislation governing the financing of political parties and candidates.
- Proposed higher spending for Public Works and Government Services is primarily due to an increase of \$46 million for activities transferred to the Department following the dissolution of the former Communications Canada for activities such as 1-800-O-Canada, the Canada Gazette and the Canada Web site.

Part I – The Government Expense Plan

- Treasury Board Secretariat's net increase of \$82 million is mainly due to:
 - An increase of \$58 million for contributions to public service insurance plans, consisting of, a \$48 million increase for Health Care and other insurance plans, and a \$3 million decrease for provincial health premiums; and
 - A net increase of \$32 million under operating expenditures, consisting primarily of a \$38 million increase for the Treasury Board Secretariat's incremental funding requirements and a \$9 million decrease for additional transfers to the Public Service Human Resources Management Agency, related to the government restructuring of December 2003.
- An increase of \$15 million for the appropriated transfer payments to the territorial governments, as a result of revisions to population, provincial-territorial-local expenditures and territorial revenue data. This increase was reported in the November 2004 Economic and Fiscal Update.
- A decrease of \$1.4 billion in fiscal equalization payments to the provinces, as a result of revisions to provincial revenue data and new tax base data. The decline of \$1.4 billion is primarily due to revised data for the personal and corporate income tax bases (decline of \$1.5 billion) and upward revisions to the oil and gas revenues used in the formula (increase of \$207 million). The 2005-2006 amount represents the base cash transfer as shown in the November 2004 Economic and Fiscal Update.

NON-BUDGETARY MAIN ESTIMATES – A net \$1.1 billion decrease

The non-budgetary spending in the 2005-2006 Main Estimates amounts to \$1.7 billion. This represents a decrease of \$1.1 billion compared to the 2004-2005 Main Estimates.

Table 14 indicates a more detailed breakdown of non-budgetary Main Estimates.

Part I – The Government Expense Plan

Table 14 – Non-budgetary Main Estimates

(\$ thousands)	Main Estimates		Change in Spending	
	2004-2005	2005-2006	\$	%
Canadian Heritage				
Department	10	10	0	0
Finance				
Department	132,275	108,923	(23,352)	-17.7
Human Resources and Skills Development				
Department	1,254,700	1,040,800	(213,900)	-17.0
Canada Mortgage and Housing Corporation ⁵	(190,200)	(199,622)	(9,422)	5.0
Indian Affairs and Northern Development				
Department	73,603	79,045	5,442	7.4
Industry				
Department	800	800	0	0.0
Foreign Affairs Canada (International Trade)				
Department	0	653,000	653,000	100.0
Export Development Corporation	1,487,000	0	(1,487,000)	-100.0
Foreign Affairs (Foreign Affairs)				
Canadian International Development Agency	6,931	7,110	179	2.6
Total Non-budgetary Spending	2,765,119	1,690,066	(1,075,053)	-38.9

Details

The following are key drivers of the changes in non-budgetary expenditures for 2005-2006:

- International Trade's change in non-budgetary expenditures is due to non-budgetary statutory payments to the Export Development Canada for the purpose of facilitating and developing trade between Canada and other countries under the terms of the *Export Development Act*. These payments were reflected under Export Development Canada in previous Main Estimates. This amount includes a decrease of \$834 million from the previous year due to lower disbursements.
- The decrease in non-budgetary spending forecast by Human Resources and Skills Development Canada is due to a decrease of loans negotiated under the *Canada Student Financial Assistance Act*, from \$1,255 million to \$1,041 million. The difference is primarily due to the impact of loan reimbursements from borrowers on the loan portfolio.

⁵ In the 2004-2005 Main Estimates, the Canada Mortgage and Housing Corporation was listed under the Department of Environment. The Corporation is now listed under Human Resources and Skills Development.

Part I – The Government Expense Plan

- The decrease of \$23 million in payments by the Department of Finance to various international financial institutions is due mostly to reductions in loans issued to the International Monetary Fund's Poverty Reduction and Growth Facility.
- Finally, the Canada Mortgage and Housing Corporation is forecasting a decrease in the Corporation's loan repayment to the Consolidated Revenue Fund.

Changes in 2005–2006 Main Estimates

- Changes to Government Organization and Structure
- Changes in Authorities (Votes/Statutory Items)
- Changes in Presentation (Strategic Outcomes, Program Activity Descriptions)

Departments, Agencies and Crown Corporations

Introduction to Part II

Structure of the Main Estimates

The purpose of these Estimates is to present to Parliament information in support of budgetary and non-budgetary spending authorities that will be sought through Appropriation bills. These authorities are divided into two categories – Voted and Statutory. Voted authorities are those for which the government must seek Parliament's approval annually through an Appropriation Act. The wording and expenditure authority attributable to each vote appears in a schedule attached to the Appropriation Act. Once approved, the Vote wording and approved amounts become the governing conditions under which these expenditures may be made. Individual expenditure proposals included in Votes seek authority to make expenditures necessary to deliver various mandates that are under the administration of a Minister and are contained in legislation approved by Parliament. Statutory authorities are those that Parliament has approved through other legislation that sets out both the purpose of the expenditures and the terms and conditions under which they may be made. Statutory spending is included in the Estimates for information only.

The basic structural units of **Part II** are the Votes and Statutory items that, in total, comprise the proposed expenditures under each department or agency.

The wording of a Vote and its amount are included in an Appropriation Act that provides the authority and the limit for payments to be charged against the Vote; it does not create a commitment to spend the entire amount. There are, however, certain exceptions to the normal Vote structure and these are discussed below.

The following kinds of Votes appear in the Estimates:

- (a) *Program Expenditures Vote* – This type of Vote is used when there is no requirement for either a separate “capital expenditures” Vote or a “grants and contributions” Vote because neither equals or exceeds \$5 million. In this case, all expenditures are charged to the one Vote.
- (b) *Operating Expenditures Vote* – This type of Vote is used when there is a requirement for either a “capital expenditures” Vote or a “grants and contributions” Vote or both; that is, when expenditures of either type equal or exceed \$5 million.
- (c) *Capital Expenditures Vote* – This type of Vote is used when capital expenditures equal or exceed \$5 million. Expenditure items in a “capital expenditures” Vote would include items expected to exceed \$10,000 for the acquisition of land, buildings and works (Standard Object 08), as well as the acquisition of machinery and equipment (Standard Object 09), or for purposes of constructing or creating assets, where a department expects to draw upon its own labour and materials, or employs consultants or other services or goods (Standard Objects 01 to 09). Different threshold limits may be applied for different capital expenditure classes at the departmental level.
- (d) *Grants and Contributions Vote* – This type of Vote is used when grants and contributions expenditures equal or exceed \$5 million. It should be noted that the inclusion of a grant, contribution or other transfer payment item in the Estimates imposes no requirement to make a payment, nor does it give a prospective recipient any right to the funds. It should also be noted that in the Vote wording, the meaning of the word “contributions” is considered to include “other transfer payments” because of the similar characteristics of each.
- (e) *Non-Budgetary Vote* – This type of Vote, identified by the letter “L”, provides authority for spending in the form of loans or advances to, and investments in, Crown corporations; and loans or advances for specific purposes to other governments, international organizations or persons or corporations in the private sector.

Introduction to Part II

- (f) *Special Votes: Crown Corporation Deficits and Separate Legal Entities* – Where it is necessary to appropriate funds for a payment to a Crown corporation or for the expenditures of a legal entity, a separate Vote is established. Where this is the case, a separate Vote structure is established for each. A legal entity for these purposes is defined as a unit of government operating under an Act of Parliament and responsible directly to a Minister.
- (g) *Special Votes: Treasury Board Centrally Financed Votes* – To support the Treasury Board in performing its statutory responsibilities for managing the government's financial, human and materiel resources, a number of special authorities are required and these are outlined below:
 - (i) Government Contingencies Vote – This Vote serves to supplement other appropriations to provide the Government with sufficient flexibility to meet urgent or unforeseen expenditures where a valid cash requirement exists due to the timing of the payment or where specific authority is required to make the payment, such as for the payment of grants not listed in the Estimates. This authority to supplement other appropriations is provided until Parliamentary approval can be obtained and as long as the expenditures are within the legal mandate of the organization. In addition, this Vote serves to supplement other appropriations to meet additional payroll costs such as severance pay and parental benefits which are not provided for in departmental estimates.
 - (ii) Government-Wide Initiatives Vote – This Vote supplements other appropriations in support of the implementation of strategic management initiatives in the public service of Canada.
 - (iii) Public Service Insurance Vote – This Vote provides for the payment of the employer's share of health, income maintenance and life insurance premiums; for payments to or in respect of provincial health insurance plans; provincial payroll taxes; pension, benefit and insurance plans for employees engaged locally outside Canada; and to return to certain employees their share of the unemployment insurance premium reduction.

Presentation by Ministry, Department and Agency

The activities for the departments and agencies for which a Minister is responsible, or reports to Parliament, are grouped together to provide a total ministry presentation. The ministries are then arranged alphabetically to make up the complete Main Estimates. Ministries of State, which may be formed under authority of the *Government Organization Act, 1970*, involve a more restrictive meaning of the term Ministry than that used here. Ministries of State are treated as departments for presentation purposes in these Estimates.

Each ministry presentation begins with a Ministry Summary table that shows, by Vote or Statutory item, the amount included in the Main Estimates for all organizations comprising that Ministry. Abbreviated wordings are used in this table.

All Estimates data shown for the previous year are taken from the Main Estimates of that year. This ensures that all financial information is displayed on a consistent year over year basis. Where necessary, adjustments are made to the previous year amounts to reflect changes in organizational or structure including changes in ministerial responsibility, to provide a more relevant basis for comparison.

In general, the individual organizational presentation is made up of four sections, as explained below. Where a section is not appropriate, it does not appear in the presentation.

Introduction to Part II

Strategic Outcome

This section provides a statement of the strategic outcome.

Program Activity Description

This section serves to explain the activities by describing how they contribute to the achievement of the strategic outcome(s).

The Program by Activities Table

This table shows the total financial resources proposed by activity. The amounts of the Voted and Statutory authorities are combined and distributed across each activity. Expenditures for each activity are presented under the headings of Operating; Capital; Transfer Payments (Grants, Contributions and other transfer payments); and Loans, Investments and Advances. Revenues credited to the Vote, for those departments and agencies authorized to do so, and revenues associated with revolving funds are also included in this table.

Receipts credited to general non-tax revenue and services provided without charge by other government departments are shown in the **Report on Plans and Priorities**.

Transfer Payments

This table provides additional detail on the transfer payments proposed for each activity. A transfer payment is a grant, contribution or other payment made for the purpose of furthering program objectives but for which no goods or services are received.

Grants, contributions and other transfer payments differ in several respects:

- i) contributions are conditional payments and subject to audit whereas grants are not;
- ii) contributions require an arrangement between the recipient and the donor identifying the terms and conditions governing their payment while grants do not;
- iii) other transfer payments are payments based on legislation or an arrangement which normally includes a formula or schedule of payments as one element used to determine the annual amount; and
- iv) the wording used in the Estimates to describe a grant has a legislative character, while that used for contributions and other transfer payments is informational.

Revolving Funds

A revolving fund is a continuing or non-lapsing authorization by Parliament to make payments out of the consolidated revenue fund up to a stipulated limit. As part of this authorization, expenditure requirements are offset, to the extent possible, by revenues generated.

Revolving funds may be used to finance programs or program activities. The Program by Activities tables have appropriate footnotes which disclose the expected operating income or loss, relate that balance to the Estimates' cash requirement and make reference to the **Report on Plans and Priorities** for further information.

Introduction to Part II

Crown Corporations

The general principle followed in **Part II** of the Estimates is to provide information related to operations being funded through appropriations, rather than on the corporate financial plan in its entirety. The Summaries of corporate plans and budgets, tabled separately, are intended to be the source of more detailed information for the use of parliamentarians in their review of Crown corporations' spending.

All Crown corporations for which appropriations are being requested have a separate presentation consisting of three standard sections:

- (a) *Strategic Outcome* – This section describes the strategic outcomes of the Crown corporation.
- (b) *Program Activity Descriptions* – This section outlines the major activities for which funding through appropriations is requested.
- (c) *Program by Activities table* – This table provides details of financial requirements to be met through appropriations. The presentation separates and identifies:
 - i) budgetary and non-budgetary funding according to the major activities of the corporation;
 - ii) the amount of budgetary funding required for operating purposes, acquisition of fixed assets and other non-current assets; and
 - iii) the planned expenses, revenues and non-cash or other adjustments upon which the funding required for operating purposes is based.

Definitions of Standard Objects of Expenditure

To determine and report more accurately the impact of government revenues and expenditures on the rest of the economy, the net amount of government purchases and sales by Standard Object must be determined. All departments, including those that use revolving funds, must charge their expenditures for purchases to Standard Objects 01 to 12. Standard Objects are the highest level of object classification used for parliamentary and executive purposes, and are reported in the Estimates and the Public Accounts.

Budgetary estimates are distributed across the following Standard Objects of Expenditure:

1. Personnel;
2. Transportation and Communications;
3. Information;
4. Professional and Special Services;
5. Rentals;
6. Purchased Repair and Maintenance;
7. Utilities, Materials and Supplies;
8. Acquisition of Land, Buildings, and Works;
9. Acquisition of Machinery and Equipment;
10. Transfer Payments;
11. Public Debt Charges; and
12. Other Subsidies and Payments.

Information is also provided on revenues credited to the Vote. In certain specific situations, Parliament authorizes departments or agencies to spend revenues generated from their operations in the same manner as any funds appropriated through that Vote. These amounts offset planned expenditures shown in Standard Objects 1 through 12, which are shown on a gross basis.

Introduction to Part II

A brief explanation of each Standard Object follows:

1. *Personnel*

Includes salaries and wages, overtime, severance pay, retroactive pay and other special pay of civilian continuing (full-time) or term (part-time, seasonal and casual) employees except those of agency and proprietary Crown corporations, as well as members of the military and the Royal Canadian Mounted Police. Also included are judges' salaries, those of the Governor General and the Lieutenant-Governors, the indemnities to Members of both Houses of Parliament, and all types of allowances paid to or in respect of continuing and term employees, such as Living, Terminable, Foreign Service, Isolated Post, board and subsistence allowances, shift differential allowances for assistants, and other such allowances. In addition, it includes the Ministers' motor car allowances, and the expense allowances to Senators and Members of the House of Commons.

Also included in this group are the government's contribution to various employee benefit plans (the Public Service Superannuation Account, the Supplementary Retirement Benefits Account, the Canada Pension Plan Account, the Quebec Pension Plan, the Public Service Death Benefit Account and the Employment Insurance Account), the Royal Canadian Mounted Police Superannuation Account, the Canadian Forces Superannuation Account and the Members of Parliament Retiring Allowances Account; and the government's contribution to provincial and other medical and hospital insurance plans. This group also includes supplementary personnel costs for various purposes.

2. *Transportation and Communications*

This Standard Object includes travelling and transportation expenses of government employees, Members of the Defence Forces and the Royal Canadian Mounted Police; removal expenses of those persons and their dependants; living and other expenses of such persons on travel status; judges' travelling expenses, and travelling expenses and allowances payable to Senators and Members of the House of Commons. This group also includes transportation of persons by contract and chartered facilities or by other means, including travelling expenses of persons engaged in field survey work, inspections and investigations. Also included is the travelling and transportation of non-Government employees, such as the travel costs of veterans who are applicants for treatment or pensions.

Includes ordinary postage, airmail, registered mail, parcel post special delivery mail, post office box rentals, and any other postal charges. Also includes the expenditures for the transportation of goods other than the initial delivery cost on a purchase (which is included in the Standard Object covering the cost of the purchase itself), including charges for courier services provided by outside carriers. Includes all costs of telecommunication services by telephone, telegram, cable, teletype, radio and wireless communication (tolls, rates, etc.) and other communication costs such as courier services provided by outside agencies and communication services performed under contract or agreement.

3. *Information*

This Standard Object contains three main categories of expenditures:

Advertising services

Includes advertising services acquired for publicity and general purposes from advertising agencies or directly for time on broadcast media, space in print media or on outdoor posters or billboards. It also includes advertising and creative work services such as graphic artwork.

Introduction to Part II

Publishing, printing and exposition services

Includes publishing services for commissioning, marketing, distribution and sales of publications sponsored by the department, and for the acquisition of related government publications. Also included are services for printing, duplicating, photocopying, text editing, design of graphics, art work, technical and advisory services such as computerized text processing and mass transmission of printed material. In addition, it includes exposition services such as exhibits and associated audio-visual services related to exhibitions and displays.

Public relations and public affairs services

Includes services for attitude surveys, sales promotion, marketing, export marketing, public relations and publicity. Also includes services for speech writing, press releases, briefing, press conferences and special events. Public affairs services for attitude surveys, opinion polls, service assessment surveys, contracts to organize and operate focus groups and media monitoring services are also included here.

4. *Professional and Special Services*

Includes provision for all professional services performed by individuals or organizations such as payments in the nature of fees, commissions etc. for the services of accountants, lawyers, architects, engineers, scientific analysts, reporters, and translators; for teachers at various levels of educational institutions; for doctors, nurses and other medical personnel; for management, data processing and other research consultants; and for other outside technical, professional and other expert assistance.

Includes payments for hospital treatment, care of veterans and welfare services, payments for the provision of services at computer service bureau, payment of tuition for Indians at non-federal schools, the purchase of training services under the *Adult Occupational Training Act*, and payments made to the Public Service Commission for training.

Includes payments for Corps of Commissionaires services and for other operational and maintenance services performed under contract, such as armoured cars, laundry and dry cleaning, cleaning of buildings, temporary help, hospitality, storage and warehousing, and other business services, as well as payments made to Public Works and Government Services for contract administration.

5. *Rentals*

Includes provision for rentals of all kinds: rental of properties required for special purposes by the various departments and for the accommodation of government offices and services by the Department of Public Works and Government Services; hire and charter – with or without crew – of vessels, aircraft, motor vehicles and other equipment; and rental of telecommunication and office equipment, including computers. Storage and warehousing services is, however, in Standard Object 4, even though it involves the rental of space.

6. *Purchased Repair and Maintenance*

Provision is made in this Standard Object for the repair and upkeep, under contract, of the durable physical assets provided for in Standard Object 8 and of equipment provided for in Standard Object 9. Also included in this object are payments to the Department of Public Works and Government Services for tenant services. Materials, supplies and other charges entering into the cost of such repairs undertaken by a department directly are coded to other Objects, according to the nature of the purchase.

Introduction to Part II

7. *Utilities, Materials and Supplies*

Included here is the provision for all payments for services of a type normally provided by a municipality, or public utility services such as the supply of water, electricity, gas, etc., and includes water, light, power and gas services, and payment for such services whether obtained from the municipality or elsewhere.

It also includes provision for materials and supplies required for normal operation and maintenance of government services such as gasoline and oil purchased in bulk; fuel for ships, planes, transport, heating, etc.; feed for livestock; food and other supplies for ships and other establishments; livestock purchased for ultimate consumption or resale; seed for farming operations; books and other publications purchased for outside distribution; uniforms and kits; photographs, maps and charts purchased for administrative and operational purposes; laboratory and scientific supplies, including samples for testing; drafting, blueprinting and artists' supplies; supplies for surveys, investigations, etc.; chemicals; hospital, surgical and medical supplies; works of art for exhibits, and historical material for galleries, museums and archives; char service supplies; coal and wood; electrical supplies; repair parts other than parts normally acquired with equipment at the time of purchase for aircraft, ships, road vehicles, and for communication and other equipment; and all other materials and supplies.

8. *Acquisition of Land, Buildings, and Works*

Includes provision for all expenditures for the acquisition of buildings, roads, irrigation works, canals, airports, wharves, bridges and other such types of fixed assets; improvements involving additions or changes of a structural nature, and for installing fixed equipment which is essentially a part of the work or structure, such as elevators, heating and ventilating equipment, etc. It includes all reconstruction of such types of physical assets and such projects performed under contract or agreement. The purchase of land is also included. Expenditures pursuant to contracts for new construction, for casual employees hired or continuing employees assigned to work full or part-time on specified projects, travel, professional services, equipment rentals, equipment maintenance and of materials purchased directly for use on such projects are charged to the relevant Standard Objects (Standard Objects 1 to 9).

9. *Acquisition of Machinery and Equipment*

Includes expenditures for the acquisition of all machinery, equipment, office furniture and furnishings, EDP and electronic or other office equipment; microfilming equipment and supplies, inter-office communication equipment, postal meter machines, machine records and all other office equipment; motor vehicles, aeroplanes, tractors, road equipment; telecommunications and related equipment; laboratory and other scientific equipment; vessels, icebreakers and other aids to navigation and all other types of light and heavy equipment; ammunition and various types of equipment for National Defence, such as ships, aircraft, mechanical equipment, fighting vehicles, weapons, engines and such spare parts and supplies as are normally acquired with that equipment at the time of purchase.

10. *Transfer Payments*

Transfer payments comprise grants, contributions, subsidies and all other transfer payments made by government for which no goods or services are received.

This category includes the major social assistance payments made to persons such as Old Age Security benefits and related allowances; Veterans' pensions and allowances; subsidies and payments to the provinces and territories under the *Constitution Acts*, the *Federal-Provincial Fiscal Arrangements Act*, the Canada Health and Social Transfers and for official languages; payments to Indians and Inuit in support of self-government initiatives, health, educational, social and community development programming and in respect of native claims; payments to the territorial governments pursuant to financing agreements entered into between the Minister of Finance and the respective territorial Minister of Finance; subsidies and capital assistance to industry; research grants and other assistance towards research carried on by non-governmental organizations; scholarships; sustaining grants to many national and

Introduction to Part II

international non-profit organizations; contributions to international organizations and assessments for membership in such organizations, such as the contribution to the International Food Aid Program and Canada's assessment for membership in the United Nations.

Most of the payments in this Object are identified in the Estimates Details as "Grants" or "Contributions". The former are not subject to audit and are therefore restricted by Parliament as to amount and recipient and often as to purpose; the latter are conditional and subject to audit and are not so restricted.

11. *Public Debt Charges*

Includes interest on the unmatured debt of Canada (including Treasury Bills) and on other liabilities such as trust and other special funds. It also includes the cost of issuing new loans, the amortisation of bond discounts, premiums and commissions, and the cost of servicing and administering the Public Debt.

12. *Other Subsidies and Payments*

Includes payments to Crown and some other government corporations or organizations, and to certain non-budgetary accounts, as well as the write-offs of various types of losses, the annual adjustment of reserves for financial claims and some other miscellaneous items referred to as "Sundries". Payments made to Crown corporations include those made to provide for operating deficits as well as other transfers paid to Crown corporations; payments to other government-controlled corporations or organizations, including those made to entities such as the National Arts Centre. Payments made to non-budgetary accounts include government contributions to agricultural commodities stabilization accounts as well as benefits under the *Veterans Land Act*.

Miscellaneous expenditures include licences, permits and payments for dockage, towage, wharfage and mooring privileges; bonding of government employees; loss of personal effects; and expenditures for small miscellaneous articles and services. Also included are many small items and services that do not lend themselves to identification under specific headings detailed in this summary.

Revenues Credited to the Vote

Revenues that are credited to the Vote in accordance with parliamentary authority include a combination of revenues from external and internal sources. Revenues from external sources include: rentals received on government-owned buildings and equipment; receipts from the provision of police services to other levels of government; receipts of revolving funds as a result of transactions with parties outside the government; as well as recoveries of costs from provincial governments and other national governments. Revenues from internal sources include recoveries of costs of goods or services provided by one organization to another and the proceeds of sales by revolving funds to parties internal to government.

Summary Tables

There are four government-wide summary tables.

- (1) *General Summary* – The first table identifies budgetary and non-budgetary Main Estimates by department and agency and by type of Parliamentary authority (annually voted or statutory). Budgetary expenditures encompass the cost of servicing the public debt; operating and capital expenditures; transfer payments and subsidies to other levels of government, organizations and individuals; and payments to Crown corporations and separate legal entities. Non-budgetary expenditures (loans, investments and advances) are outlays that represent changes in the composition of the financial assets of the Government of Canada.

This table also includes the forecast of total expenditures associated with Consolidated Specified Purpose Accounts. The transactions associated with these accounts are reported as part of budgetary expenditures in the Public Accounts of Canada and forecast expenditures are included in the Minister of Finance's November 2004 Economic and Fiscal Update. While there are in excess of 30 Consolidated Specified Purpose Accounts in the Accounts of Canada, the Employment Insurance Account accounts for almost the total value of the consolidation entry. A complete listing of these accounts and a summary of the transactions associated with each may be found in the Public Accounts of Canada.

- (2) *Budgetary Main Estimates by Standard Object of Expenditure* – The second table shows the forecast of total expenditures by Standard Object, which includes the types of goods or services to be acquired, or the transfer payments to be made and the revenues to be credited to the vote. Definitions of Standard Objects can be found in the Introduction to Part II section.
- (3) *Items for inclusion in the Proposed Schedule to the Appropriation Bill* – The third table shows the Vote number, wording and Main Estimates amounts for all Votes that will be proposed to Parliament for approval.
- (4) *Statutory Items in Main Estimates* – The fourth table provides the current expenditure forecast for each statutory authority within a department or agency, for which a financial requirement has been identified.

General Summary

Section	Department or agency	2005–2006 Main Estimates		
		Budgetary		Total
		Under authorities to be voted	Under previous authorities (statutory)	
	(thousands of dollars)			
2	Agriculture and Agri-Food Department	959,715	1,193,404	2,153,119
	Canadian Dairy Commission	3,202	3,202
	Canadian Food Inspection Agency	421,118	67,913	489,031
	Canadian Grain Commission	5,434	460	5,894
3	Atlantic Canada Opportunities Agency Department	428,930	8,982	437,912
	Enterprise Cape Breton Corporation	8,645	8,645
4	Canada Customs and Revenue Agency Department	2,432,891	596,005	3,028,896
	Canada Post Corporation	172,210	172,210
5	Canadian Heritage Department	1,090,426	27,616	1,118,042
	Canada Council for the Arts	150,173	150,173
	Canadian Broadcasting Corporation	982,414	982,414
	Canadian Museum of Civilization	58,698	58,698

Changes in 2005–2006 Main Estimates

The purpose of this section is to provide a reconciliation of the 2005–2006 Main Estimates with the 2004–2005 Main Estimates in the following three areas:

- Changes to government organization and structure;
- Changes in authorities (vote and statutory items); and
- Changes in presentation (strategic outcomes and program activity descriptions).

Changes to Government Organization and Structure:

General – During 2004–2005, pursuant to the *Public Service Rearrangement and Transfer of Duties Act*, the government announced a series of reorganizations to the structure of certain ministries. This reorganization results in the following changes to the 2005–2006 Main Estimates:

Effective November 20, 2003, in accordance with P.C. 2003-1808, certain sections of the *Public Service Modernization Act* came into force. These provisions of the *Public Service Modernization Act* include the establishment of the *Public Service Staffing Tribunal*.

Effective March 29, 2004 in accordance with P.C. 2004-0323, the control and supervision of *Canada Lands Company Limited* and *Queens Quay West Land* was transferred from the Department of the Environment to the Office of Infrastructure of Canada.

Effective April 1, 2004 in accordance with Order-in-Council P.C. 2004-0366, certain sections of the *Public Service Modernization Act* came into force. These provisions of the *Public Service Modernization Act* included the continuation of the Canadian Centre for Management Development as a corporation under the name of the *Canada School of Public Service*. Effective July 20, 2004, Order-in-Council P.C. 2004-0853 the President of the Treasury Board has been designated as the appropriate Minister for the purposes of the *Canada School of Public Service Act*.

Effective May 17, 2004, in accordance with P.C. 2004-0655, *Office of the Ethics Commissioner* was established when sections 4 to 37 of the *Act to amend the Parliament of Canada Act (Ethics Commissioner and Senate Ethics Commissioner) and other Acts in consequence* came into force.

Effective May 21, 2004, in accordance with P.C. 2004-0731, *Library and Archives Canada* was established when certain sections of the *Library and Archives of Canada Act* came into force. P.C. 2004-0732 designated the Minister of Canadian Heritage the appropriate Minister for the purposes of the Act.

Effective July 20, 2004, in accordance with P.C. 2004-0849, the control and supervision of the *Aboriginal Affairs Secretariat within the Intergovernmental Affairs Branch* has been transferred from the Privy Council Office to the Department of Indian Affairs and Northern Development.

Effective July 20, 2004, in accordance with P.C. 2004-0858, the Minister of Indian Affairs and Northern Development has been designated the appropriate Minister with respect to the *Indian Specific Claims Commission*.

Effective July 20, 2004, in accordance with P.C. 2004-0851 and P.C. 2004-0852, the control and supervision of the *Office of Indian Residential Schools Resolution of Canada* was transferred from the President of the Queen's Privy Council for Canada to the Deputy Prime Minister and Minister of Public Safety and Emergency Preparedness.

Effective July 20, 2004, in accordance with P.C. 2004-0854 and P.C. 2004-0855, the control and supervision of the *Public Service Human Resources Management Agency of Canada* was transferred from the President of the Queen's Privy Council for Canada to the President of the Treasury Board and the President of the Treasury Board was designated as the appropriate Minister with respect to the Public Service Human Resources Management Agency of Canada.

Changes in 2005–2006 Main Estimates

Effective July 20, 2004, in accordance with P.C. 2004-0865, the control and supervision of the *Crown Corporations Secretariat relating to the Canada Mortgage and Housing Corporation* was transferred from the Office of Infrastructure of Canada to the Department of Human Resources and Skills Development.

Effective July 20, 2004, in accordance with P.C. 2004-0866 and P.C. 2004-0867, the control and supervision of the *Economic Development Agency of Canada for the Regions of Quebec* was transferred from the Minister of Industry to the Minister of Economic Development Agency of Canada for the Regions of Quebec and the Minister responsible for the Francophonie. As a result, the Economic Development Agency of Canada for the Regions of Quebec has established its own portfolio.

Effective July 20, 2004, in accordance with P.C. 2004-0868 and P.C. 2004-0869, the control and supervision of the *Office of Infrastructure of Canada* was transferred from the Minister of the Environment to the Minister of State (Infrastructure and Communities). As a result, the Office of Infrastructure of Canada was removed from the Environment portfolio and established in its own portfolio.

Effective July 20, 2004, in accordance with P.C. 2004-0875, the Minister of Human Resources and Skills Development was designated the appropriate Minister with respect to the *Canadian Centre for Occupational Health and Safety*.

Effective September 24, 2004, in accordance with P.C. 2004-1069, the control and supervision of the Population and Public Health Branch has been transferred from the Department of Health to the *Public Health Agency of Canada* and the Minister of Health has been directed to preside over the Agency.

Changes in Authorities (Vote and Statutory Items):

The Changes in Authorities sub-section details those Votes that contain specific authority that differ from those included in the previous year's Main Estimates as well as new expenditure authorities appearing for the first time. In light of the House of Commons Speaker's rulings in 1981, the government has made a commitment that the only legislation that will be amended through the Estimates process, other than cases specifically authorized by Statute, will be previous Appropriation Acts.

Agriculture and Agri-Food – Department – Vote 1 wording has been amended to include reference to “collaborative research agreements and research services” and the reference to “Net Income Stabilization Account” has been deleted and replaced with “Canadian Agricultural Income Stabilization Program”. Five new statutory items have been added.

Canadian Heritage – Library and Archives of Canada – As a result of the amalgamation between the National Archives of Canada and the National Library, Vote 50 (“Program expenditures etc.”), was created along with one statutory item: “Contributions to employee benefit plans.”

Canadian Heritage – National Film Board – Vote 75 wording has been modified by deleting reference to “operating loss, capital,” and replacing it with “operating expenses.” The statutory item National Film Board Revolving Fund has become an item not required.

Canadian Heritage – Public Service Commission – The statutory item “Staff Development and Training Revolving Fund” has become an item not required.

Canadian Heritage – Public Service Staffing Tribunal – This newly created organization has one vote, Vote 105 (“Program expenditures”) and one statutory item “Contributions to employee benefit plans.”

Changes in 2005–2006 Main Estimates

Economic Development Agency of Canada for the Regions of Quebec – This newly created Ministry has two votes, Vote 1 (“Operating expenditures”) and Vote 5 (“The grants listed in the Estimates and contributions”) and two statutory items “Minister’s salary and motor car allowance” and “Contributions to the employee benefit plans.”

Finance – Department – Vote L15 wording has been modified to “... issuance and payments of non-interest bearing, non-negotiable demand notes in an amount not to exceed \$318,270,000.”

Foreign Affairs and International Trade (Foreign Affairs) – Department – Vote 1 wording has been modified to include, “... shared services provided to the Department of International Trade.” Vote 10 wording has been modified to include, “... which may include with respect to Canada’s Global Partnership Program (under the *G8 Global Partnership*) cash payments or the provision of goods, equipment and services for the purpose of assistance to countries of the Former Soviet Union, and ...”

Foreign Affairs and International Trade (Foreign Affairs) – Canadian International Development Agency – Vote L30 wording has been modified by increasing the Canadian dollar amount from \$3,865,000 to \$4,600,000 and lowering the issuance and payments of non-interest bearing, non-negotiable demand notes from \$1,491,410 to \$1,000,000. Also a new loan vote (Vote L35) has been added: “Investment contributions pursuant to section 3 of the *Canada Fund for Africa Act*.”

Health – Public Health Agency of Canada – This newly created organization has two votes, Vote 30, “Operating expenditures and, pursuant to Paragraph 29.1(2)(a) of the *Financial Administration Act*, authority to spend revenues to offset expenditures incurred in the fiscal year arising from the sale of products;” Vote 35, “The grants listed in the Estimates and contributions;” and one statutory item, “Contributions to employee benefit plans.”

Human Resources Development (Social Development) – A new statutory item has been added: “Payments to private collection agencies pursuant to Section 17.1 of the *Financial Administration Act*.”

Indian Affairs and Northern Development – Department – Two new votes, Vote 20, “Operating expenditures” and Vote 25, “Contributions” have been added for the Office of the Federal Interlocutor for Métis and non-Status Indians.

Privy Council – Department – Since the grants and contributions Vote no longer meets the \$5 million Vote threshold, Vote 1 wording has been modified to “Program expenditures, including operating expenditures of Commissions of Inquiry not otherwise provided for and the operation of the Prime Minister’s residence; the payment to each member of the Queen’s Privy Council for Canada who is a Minister without Portfolio or a Minister of State who does not preside over a Ministry of State of a salary not to exceed the salary paid to Ministers of State who preside over Ministries of State under the *Salaries Act*, as adjusted pursuant to the *Parliament of Canada Act* and pro rata for any period of less than a year; and the grant listed in the Estimates”. The grants and contributions Vote has become an appropriation not required.

Solicitor General (Public Safety and Emergency Preparedness) – Canadian Firearms Centre – Vote 20 wording has been modified to “Operating expenditures, excluding those for registration activities and functions.” A second vote, Vote 25, “Operating expenditures for registration activities and functions,” has been added.

Solicitor General (Public Safety and Emergency Preparedness) – Canadian Security Intelligence Service – One new Statutory item has been added: “Contributions to employee benefit plans.”

Solicitor General (Public Safety and Emergency Preparedness) – National Parole Board – Vote 45 wording has been modified by deleting reference to “contributions” because the contribution has been discontinued.

Changes in 2005–2006 Main Estimates

Treasury Board – *Canada School of Public Service* – This newly created organization has one new vote, Vote 25, “Program expenditures and contributions,” and one new statutory item, “Contributions to employee benefit plans.”

Treasury Board – *Public Service Human Resources Management Agency of Canada* – This newly created organization has two new votes, Vote 30, “Operating expenditures,” and Vote 35, “Contributions;” and one new statutory item, “Contributions to employee benefit plans.”

Changes to Presentation (Strategic Outcomes and Program Activity Descriptions):

Each organization listed in the Main Estimates is described in terms of its strategic outcomes and respective program activities. This section provides a status on the movement of those outcomes and activities.

In accordance with Management, Resources and Results Structure (MRRS) and Program Activity Architecture (PAA), the Main Estimates display for the Government of Canada has moved from an Objective and Business Line structure to a Strategic Outcome and Program Activity structure. As a result, a summary status on the movement of strategic outcomes and program activities is superfluous for this year.

2 Agriculture and Agri-Food

Department 2-4

Canadian Dairy Commission 2-8

Canadian Food Inspection Agency 2-9

Canadian Grain Commission 2-11

Agriculture and Agri-Food Department

Strategic Outcome

Health of the environment.

Program Activity Descriptions

Environment

Achieving environmental sustainability of the sector and progress in the areas of soil, water, air and biodiversity.

Strategic Outcome

Security of the food system.

Program Activity Descriptions

Food Safety and Food Quality

Minimizing the risk and impact of food-borne hazards on human health, increasing consumer confidence and improving the sector's ability to meet or exceed market requirements for food products.

Business Risk Management

Enhancing the producer's capacity to manage risk, and increasing the sector's viability and profitability.

National Farm Products Council

Advise the Minister on all matters relating to the establishment and operations of agencies established under the *Farm Products Agencies Act* with a view to maintaining and promoting an efficient and competitive industry.

Review the operations of agencies with a view to ensuring that they carry out their objectives in accordance with their mandate.

Work with agencies in promoting more effective marketing of farm products in interprovincial and export trade and in the case of promotion research agencies, in promoting marketing in import trade and connection with research and promotion activities.

International Issues

Expanding international opportunities for the Canadian agri-food sector.

Strategic Outcome

Innovation for growth.

Program Activity Descriptions

Innovation and Renewal

Equipping the sector with new business and management skills, bioproducts, knowledge-based production systems and strategies to capture opportunities and manage change.

Canadian Pari-Mutuel Agency

To regulate and supervise pari-mutuel betting for the protection of the betting public on a full cost recovery basis, in the most effective and efficient manner possible.

Agriculture and Agri-Food Department

Rural and Co-operatives Secretariats

Leads an integrated, government-wide approach, called the Canadian Rural Partnership, through which the government aims to co-ordinate its economic, social, environmental and cultural policies towards the goal of economic and social renewal of rural Canada.

Facilitating relations between cooperatives and federal departments and agencies with legislation or policies affecting cooperatives. As well, the Secretariat provides advice across government on policies affecting cooperatives, coordinates the implementation of such policies, and acts as a centre of expertise on cooperatives within the federal government.

International Issues

Expanding international opportunities for the Canadian agri-food sector.

Agriculture and Agri-Food Canadian Dairy Commission

Strategic Outcome

To enhance the vitality of the Canadian dairy industry for the benefit of all stakeholders.

Program Activity Descriptions

Administer milk supply management system

- Set support prices for butter and skim milk powder.
- Determine and recommend national quota for industrial milk production.
- Facilitate within the dairy industry.
- Administer Domestic Seasonality (supply and demand) Program.

Program by Activities

(thousands of dollars)	2005–2006 Main Estimates		2004–2005
	<u>Budgetary</u>	Total	Main
	Operating		Estimates
Administer milk supply management system	3,202	3,202	3,211
	3,202	3,202	3,211

Agriculture and Agri-Food Canadian Food Inspection Agency

Strategic Outcome

Protection from preventable health risks related to food safety or the transmission of animal diseases to humans.

Program Activity Descriptions

Food Safety and Public Health

The Canadian Food Inspection Agency (CFIA), along with many federal, provincial and municipal organizations, is working to improve the overall health of Canadians. The CFIA's primary contribution to this effort is in helping to ensure that food is safe, consumers have appropriate information on which to base healthy food choices and animals are healthy.

Strategic Outcome

A fair and effective regulatory regime for food, animals and plants.

Program Activity Descriptions

Science and Regulation

Providing a fair and effective regulatory regime for food, animals and plants.

Maintaining the integrity of CFIA's regulatory policy, inspection and certification activities.

Strategic Outcome

A sustainable plant and animal resource base.

Program Activity Descriptions

Animal and Plant Resource Protection

Activities related to controlling invasive species; regulation of agricultural products, including products of biotechnology; and protecting Canada's livestock, crops and forests from regulated pests and disease.

Strategic Outcome

Security from deliberate threats to Canada's food supply and agricultural resource base.

Program Activity Descriptions

Public Security

Activities related to contributing to public security and agri-food security.

Agriculture and Agri-Food Canadian Grain Commission

Strategic Outcome

A grain quality assurance system that addresses the changing requirements of domestic and international grain markets.

Program Activity Descriptions

Deliver inspection and testing services - Appropriations and Canadian Grain Commission (CGC) Revolving Fund

Deliver inspection and testing services utilizing a grain quality assurance system that:

- meets the legislative mandate of the *Canada Grain Act* and the grain industry requirements from producers to customers;
- provides scientific and technical support; and
- deals with both visually distinguishable and indistinguishable varieties and the capacity to segregate grain by specific characteristics.

Strategic Outcome

A grain quantity assurance system that addresses the changing needs of the grain industry.

Program Activity Descriptions

Deliver weighing services - Appropriations and CGC Revolving Fund

Deliver weighing services through the grain quantity assurance system that:

- meets the legislative mandate of the *Canada Grain Act* and the grain industry requirements from producers to customers; and
- provides technical support.

Strategic Outcome

Research and development on grain quality that enhances the marketability of Canadian grain.

Program Activity Descriptions

Conduct research to understand and measure grain quality

Conduct research and development on grain quality that enhances the marketability of Canadian grain through:

- research that supports the grain quality assurance system;
- research that addresses emerging issues; and
- the evolution of grain standards that meet the changing industry needs.

Strategic Outcome

Producers' rights are supported to ensure fair treatment within the grain handling system.

Program Activity Descriptions

Protect producers' rights - Appropriations and CGC Revolving Fund

Protect producers' rights as set out in the *Canada Grain Act* by:

- administering a licensing and security system;
- ensuring fair treatment of producers by licensed grain companies and dealers and providing grain quality information to producers; and
- administering fairly the producer car delivery option.

Agriculture and Agri-Food Canadian Grain Commission

Program by Activities

(thousands of dollars)	2005–2006 Main Estimates			Total	2004–2005 Main Estimates
	Budgetary		Less: Revenues credited to the vote		
	Operating	Capital			
*Deliver inspection and testing services	30,031	1,949	32,077	(97)	10,645
*Deliver weighing services	8,199	532	8,757	(26)	5,324

Total Agency		8,645	12,645	(4,000)

Atlantic Canada Opportunities Agency Department

Strategic Outcome

Enterprise Development – Improved growth and competitiveness of Atlantic small and medium-sized enterprises (SMEs), leading to increased productivity, earned incomes and job creation.

Program Activity Descriptions

Access to Capital

Assistance to improve the climate for business growth and/or to small and medium-sized enterprises to help them start, expand or modernize their business.

Access to Information

Providing counselling, mentoring, and information referrals to Atlantic Canadians.

Strategic Outcome

Community Development – Economic opportunities for Atlantic Canada through community economic development.

Program Activity Descriptions

Community Economic Development

Projects which help communities build their capacity and confidence in order to identify and coordinate the implementation of priorities for economic development in their region. These projects would be supported via community economic development organizations who, in turn, provide financial and technical assistance to businesses and communities; conduct strategic planning; coordinate economic development; and implement a range of self-sustaining development projects under strategic community economic development initiatives. Community economic development organizations can be any organization which supports projects at a local, community and sub-community, or municipality level.

Special Response Measures

Supports short-term adjustment initiatives designed to address the specific economic adjustment needs of Atlantic Canadian communities.

Infrastructure Programming

Programming designed to renew and build infrastructure in rural and urban municipalities in Atlantic Canada.

Strategic Outcome

Policy, Advocacy and Co-ordination – Adequate representation of the interests of Atlantic Canada in national economic policy, program and project development and implementation.

Program Activity Descriptions

Policy and Research

Carrying out policy analysis and research to determine the areas in which ACOA will act to most effectively carry out the Agency's mandate.

Atlantic Canada Opportunities Agency Department

Advocacy

Advocating the interests of Atlantic Canada to make new government initiatives more responsive to the needs of Atlantic Canada.

Coordination

Engaging economic partners in addressing the Atlantic region's strategic economic priorities.

Atlantic Canada Opportunities Agency Enterprise Cape Breton Corporation

Strategic Outcome

Community economic development for Cape Breton and Mulgrave.

Program Activity Descriptions

Delivery Agent

As a Crown corporation, Enterprise Cape Breton Corporation (ECBC) has broad powers and a flexible mandate that make it ideally suited to provide services for the Government of Canada. The flexibility inherent in the Corporation allows it to deliver services and programs more efficiently and provides a greater range of mechanisms to achieve desired ends. ECBC is responsible for the delivery of the programs of the Atlantic Canada Opportunities Agency (ACOA) on Cape Breton Island. In 1995, ECBC and ACOA entered into a Memorandum of Understanding (MOU) under which ECBC delivers ACOA's programs for Cape Breton Island and the Mulgrave area. The MOU was renegotiated with ACOA for an additional five year term effective April 1, 2000. In November 2000, ECBC entered into a MOU with the Cape Breton Growth Fund Corporation (CBGF) to provide administrative and operational support. ECBC assigns staff to support the Board of Directors and the operations of the CBGF.

Support to Business

ECBC's objective for support to business is to grow the economy by encouraging private sector investment in projects that enhance the competitiveness of commercial enterprises and increase trade opportunities to produce long-term, sustainable jobs. Plans and priorities under this initiative include: Access to Capital, Human Resource Initiative and an E-Commerce Initiative for the Tourism Industry.

Support to Communities

The key objective for support to communities is to help communities plan and implement community development projects that have a direct link to long-term, self-sustaining economic activity. The Corporation undertakes a number of initiatives in this area including: community capacity building, festivals and events, convention and sporting events, support for the Congrès mondial acadien de 2004, community revitalization, and the Greater Cape Breton Partnership.

Investment

The key objective for investment is to attract new business investment to Cape Breton Island. Some of the initiatives that will be undertaken will include the production of investment-related promotional material as well as investment-attraction missions.

Advocacy

The key objective for this program activity is to advocate for Cape Breton Island interests, priorities, and concerns in government decisions. The advocacy role is aimed at increasing Cape Breton Island's presence at inter and intra-governmental meetings and is meant to advance the interests, priorities and concerns of Cape Breton Island in government project selection, decisions and actions.

Policy and Research

The key objective for policy and research is to help provide a sound basis for the Corporation's policy priorities and programs. Activities related to policy and research include research that is internally driven, research that is carried out with external partners and attendance at various seminars relating to economic development policy. Research is carried out in a number of areas including economic analysis, sector and issue analysis, and planning and performance management.

Canada Customs and Revenue Agency Department

Strategic Outcome

Taxpayers meet their obligations and Canada's revenue base is protected.

Program Activity Descriptions

Client Assistance

Assist individuals, businesses, charities and registered plans in meeting their obligations under tax legislation by providing information, education and outreach services and by responding to enquiries.

Assessment of Returns and Payment Processing

Provide assistance and information to clients; process client returns for tax programs; register every business in Canada; process, assess and validate information; establish and maintain account status; manage excise programs; receive payments; and re-engineer business process for the Canada Customs and Revenue Agency.

Filing and Remittance Compliance

Identify and address non-compliance with the filing and remitting requirements and keep tax debt within targeted levels.

Reporting Compliance

Ensure complete and accurate disclosure by taxpayers of all required information to establish tax liabilities. Compliance with Canada's tax legislation is required to protect the tax base, and ensure Canadians pay their required share of taxes. Activities for enhancing compliance include increasing taxpayers' understanding of their tax obligations through outreach activities, client service and education; identifying and addressing non-compliance through risk assessment, audit and investigation; and establishing strategic partnerships with stakeholders to leverage compliance efforts. Compliance serves a diverse client base from individual taxpayers to multinational corporations, trusts, et cetera.

Appeals

Provide a timely and impartial dispute resolution process for clients who disagree with decisions taken by the Agency.

Strategic Outcome

Eligible families and individuals receive timely and correct benefit payments contributing to the integrity of Canada's income security system.

Program Activity Descriptions

Benefit Programs

Provide support to families and children and help reduce the depth of child poverty, by providing Canadians with income-based benefits and other services that contribute directly to their economic and social well-being.

Canadian Heritage Department

Strategic Outcome

Canadians express and share their diverse cultural experiences with each other and the world.

Program Activity Descriptions

Creation of Canadian Content and Performance Excellence

Expressions of culture start with the creation of works and performances. Canadian Heritage fosters an environment where such creation happens and where creators are appropriately compensated for their work, reflecting linguistic duality and the diversity and richness of our country while achieving demonstrable levels of excellence. Such an environment is not a given. In particular, the segmentation of the relatively small Canadian cultural market, coupled with its traditional openness to foreign cultural products, imposes significant challenges to our creative output. Although excellence is what professional artists and high-performance athletes strive for, its achievement requires a sufficiently supportive structure, both domestically and internationally, at all levels of cultural and sport development. Canadian Heritage focuses on enabling creators to produce and athletes to perform by supporting the structures and cultural industries needed for high-quality works and performances.

Sustainability of Cultural Expression and Participation

Cultural life rests on the continued existence of an intricate network of institutions, not-for-profit organizations, corporations, volunteers, professionals and audiences. Like any ecosystem, it thrives on a nurturing environment. It must adapt and renew itself. This network is both resilient – it relies on considerable dedication, experience and talent – and fragile – some crucial elements of the chain are vulnerable to investment patterns, market failures, foreign competition, technological changes, labour strains and international trade rules and agreements. As an integral part of the network, Canadian Heritage fosters the sustainability of the many organizations, cultural industries, entrepreneurs, and artistic and athletic performance events comprising this rich ecosystem. It does so by assisting them to increase their capacity to attract investment, achieve adequate copyright protection, develop deeper roots within communities, seize international opportunities, maximize their human resource assets, practise sound business planning and build strong organizational partnerships. The Department supports sustainability by focusing its activities on both domestic and international fronts in the fields of arts, culture, heritage and sport.

Preservation of Canada's Heritage

An integral part of sharing cultural experiences in Canada is the assurance to Canadians that their stories and heritage will be safeguarded for future generations. It is through the preservation and communication of Canada's heritage that the national context is understood, including the myriad stories and peoples' histories that continue to define the country. Heritage resources are also major community assets for connecting residents and for drawing tourists. The Department of Canadian Heritage plays a leading role in facilitating the preservation of and access to cherished cultural works and practices, including film, music, Aboriginal languages, Aboriginal stories and national cultural artifacts and archives.

Access and Participation in Canada's Cultural Life

Cultural experiences depend on participation. In addition to an active involvement in the creative process itself, participation can take a considerable variety of forms: reading, attending exhibitions or performances, learning through the Internet, listening to radio, watching films or television, visiting heritage sites, etc. All forms of participation are essential links in the chain that permits continued production of Canadian works, widespread appreciation of the richness of Canadian culture and sustainable revenues for cultural organizations. Canadian Heritage helps to create the conditions for a wide access to and participation in the various modes of cultural exchange. The Department focuses on exposing individuals and communities to the wide array of cultural experiences in Canada, bridging challenges such as distance, community size, language and ethno-cultural diversity. The primary vehicles for engaging Canadians in cultural participation are arts activities, mass media, and conveyors of heritage – whether virtually, or through objects, events or sites.

Canadian Heritage Department

Strategic Outcome

Canadians live in an inclusive society built on inter-cultural understanding and citizen participation.

Program Activity Descriptions

Promotion of Inter-Cultural Understanding

Seizing the benefits of diversity in Canada means that Canadians can understand and negotiate perspectives across their cultural differences. This requires deliberate efforts, particularly in a country like Canada where multiple lines of diversity risk fragmenting rather than uniting citizens. The result of ongoing efforts is a uniquely Canadian model recognized by many around the world. The Department of Canadian Heritage fosters intercultural understanding by generating opportunities for Canadians to share experiences and learn about each others' cultures. One of the ways this is done is through the promotion of linguistic duality and the learning of Canada's two official languages. The Department also supports multicultural initiatives that raise awareness about diverse cultural considerations in communities and that create spaces for dialogue among various groups. With attention to the unique opportunities generated by sport activities in Canada, the Department promotes diversity as a means of enhancing intercultural experiences and understanding.

Community Development and Capacity-Building

Aboriginal and official languages communities play a uniquely important role in Canada as part of the fabric that has shaped Canadian society since its beginning. These communities face particular challenges, often finding themselves in minority situations with their distinct cultural contributions at risk. The Department of Canadian Heritage supports the development of Aboriginal organizations with programs that build on the cultural strengths of Aboriginal peoples and help Aboriginal communities and networks to thrive. Canadian Heritage also supports the development of official-language minority communities by enhancing their participation in different sectors of society and by working to ensure their vitality in all parts of the country.

Participation in Community and Civic Life

An inclusive society means that all Canadians feel that they have a stake in their communities and their country; that they can participate and feel that their contribution matters. In a country as vast and culturally diverse as Canada, the government has an important role to play in enabling this vitality and providing a fertile ground for all communities to reach their full potential. The Department of Canadian Heritage programs and activities contribute to this goal by helping to address some of the key impediments to community and civic participation. This is done through learning and awareness-building initiatives that educate Canadians about their country and their citizenship, both at home and abroad, while helping to educate the rest of the world about Canada. It is also achieved through the development of sport participation and volunteerism in communities. Youth programs generate opportunities, encourage participation and foster a sense of belonging for young Canadians at a time in their lives when they are first becoming aware of their civic responsibility. Targeted measures for ethno-cultural and ethno-racial communities assist these groups in overcoming their distinct participation challenges. Targeted measures for Aboriginal communities, including Aboriginal youth and women, ensure the participation of Aboriginal peoples and build upon Aboriginal cultures.

Canadian Heritage Canadian Broadcasting Corporation

Strategic Outcome

A national public broadcasting service that is primarily Canadian in content and character.

Program Activity Descriptions

Television Services

National, regional and local television broadcasting services in English and French.

Radio Services

National, regional and local radio broadcasting services in English and French, and an international service, Radio Canada International.

Transmission and distribution of programs

The distribution of the national broadcasting service to virtually all parts of Canada through satellite, microwave and landlines. Included is the provision of the signal that delivers service to the individual radio and television receivers through CBC/SRC transmitters, payments to privately-owned affiliates carrying CBC/SRC programs, and facilities to delay or pre-release broadcasts as required in the different time zones of the country.

Newsworld

CBC Newsworld is an English-language news and information specialty service distributed through satellite and cable delivery. The incremental cost of its operations is funded from its revenues.

Réseau de l'information

Le Réseau de l'information is a French-language news and information specialty service distributed through satellite and cable delivery. The incremental cost of its operations is funded from its revenues.

Galaxie

A continuous music network for the home or business market, Galaxie is available by subscription on digital cable and satellite distribution and currently provides 45 different channels of CD-quality uninterrupted music, 24 hours a day.

Canadian Heritage Canadian Museum of Nature

Strategic Outcome

Interest in, knowledge of and appreciation and respect for the natural world through collections of natural history objects, public education programs and research reflecting a special but not exclusive perspective on Canada.

Program Activity Descriptions

Public education programmes

Develops and maintains exhibitions, programmes, electronic and print publications, the Museum's web site nature.ca and activities to foster an understanding of, and empathy with, nature.

Collections management

Develops, preserves and makes accessible collections of natural history specimens, objects and information materials to meet the growing needs of both the public and private sectors for research, education and informed decision-making about the natural world.

Research

Explores the past and assists Canadians in preparing for the future by conducting both systematics and applied research, as well as by developing and maintaining networks and linkages with Canadian and international scientific communities.

Accommodation

To provide secure and functional facilities that meet all safety and building code requirements.

Canadian Heritage Library and Archives of Canada

Strategic Outcome

Canada's documentary heritage is safeguarded and organized for current and future generations.

Program Activity Descriptions

Development of Collection

The Library and Archives of Canada (LAC) collection is an unparalleled record of the development and achievements of Canadian society and a reflection of the rich intellectual and creative output of its people. Building a national documentary resource for all aspects of the study of Canada provides the foundation for delivery of services and interpretative programs that strengthen Canadians' collective understanding and appreciation of the nation's past, present and future. The collection of the Library and Archives of Canada includes all media of Canadian publishing and archival materials of national significance.

Description of Collection

LAC ensures that the collection it holds is described to allow Canadians from diverse backgrounds and with diverse information needs to be able to search, use and understand the content we hold and the context in which it was created. Description takes many forms to support layered, user-friendly access to the collection. It encompasses describing physical attributes and elements, subject analysis, standard classifications for individual publications and descriptions at a high level of content and provenance for archival collections. Normally, descriptions are governed by nationally and internationally accepted codes of practice such as the Anglo-American Cataloguing Rules (AACR2) and Rules for Archival Description (RAD) and conform to internationally interoperable communications formats such as MARC21.

Care of Collection

Safeguarding Canada's documentary heritage for future generations of Canadians is essential to the mandate of the Library and Archives of Canada. Care of collection consists of the development and implementation of policies, procedures and activities that ensure the current and long-term accessibility of the collection.

Strategic Outcome

Canada's documentary heritage is known, accessible and used.

Program Activity Descriptions

Services

LAC information services, consultation services, rights management (including Access to Information and Privacy, personnel records and rights clearance) and lending services facilitate Canadians' access and use of Canada's documentary heritage. These services are used by the general public, both in Canada and abroad, for research and learning purposes, by government employees in the conduct of their work, and by other libraries and archives to augment the services they offer to their clients. Based on identified client needs and preferences, these services are available through multiple channels including in person, by telephone, regular mail, e-mail and the Internet.

Programs

LAC designs and delivers interpretive programs and public activities through a variety of media to make the documentary heritage of Canada known to Canadians. By promoting and giving meaning and context to the LAC collection, LAC strengthens Canadians' collective understanding and appreciation of the nation's past, present and future. Through programs, Canadians and those interested in Canada gain new knowledge, understanding and appreciation of the Canadian experience as it is reflected in Canada's rich documentary heritage.

Canadian Heritage Library and Archives of Canada

Portrait Gallery of Canada

The Portrait Gallery of Canada will showcase portraiture of contemporary and historical Canadians from all parts of society, and will be a major cultural venue for Canada and for tourists to the National Capital Region. Portrait Gallery of Canada functions include acquisitions and research, strategic initiatives and exhibitions, description and care of portrait collections, public programming, communications and its development and building project.

Strategic Outcome

Information and knowledge are effectively managed within the Government of Canada.

Program Activity Descriptions

Information Management Strategies

Information and knowledge, when effectively managed, enable client-centred government and service delivery transformation, and reduce both cost and risk to the Government of Canada. Effective Information Management (IM) and Knowledge Management (KM) ensures that useful and reliable information is available, interoperable and re-purposed as needed; ensures that policy and decision-making is well informed; and supports transparency and accountability. LAC is one of three lead federal government agencies for IM/KM in federal institutions. It derives its authority from the *Library and Archives Act*, the Management of Government Information Policy, the Communications Policy of the Government of Canada, and the Government Security Policy. LAC ensures that its IM/KM programs and practices are aligned with the legislation and support government and departmental directions, priorities and strategic outcomes.

Information Management Solutions

Under the Management of Government Information Policy, LAC is accountable for the development of operational solutions including standards, guidelines, tools, initiatives, processes, systems and training to support federal departments and agencies in managing their information resources in all media throughout their life cycle, and for providing professional support to government IM communities.

Information Management Services

LAC provides IM services to the Government of Canada through Federal Record Centres and the Council of Federal Libraries.

Canadian Heritage National Battlefields Commission

Strategic Outcome

Prestigious, accessible, safe and educational historic and urban sites.

Program Activity Descriptions

Conservation

As part of this activity, the National Battlefields Commission preserves the legacy of the Battlefields Park for future generations by maintaining infrastructures, the horticultural landscape and a protected site for Canadian and foreign users and visitors.

Development

The purpose of this activity is to showcase the history of the site and its cultural, recreational and natural treasures so as to emphasize its dual role as a historical and a city park. In support of this activity, the National Battlefields Commission carries out improvements, welcomes visitors, puts on exhibits and activities, provides public services and disseminates information to users and visitors from both Canada and abroad.

Canadian Heritage National Capital Commission

Strategic Outcome

Optimum contribution of federal lands and public programs in creating a Capital as a source of pride and of national significance.

Program Activity Descriptions

Animating and Promoting the Capital

Generate pride and promote unity through programming in the Capital. The main products are a series of high-impact events (notably Canada Day and Winterlude), interpretative programs and commemorations. As well, this activity works to increase Canada-wide awareness of the Capital by means of national marketing and communications campaigns that present the Capital as a place where Canadians can experience Canadian heritage, culture and achievements.

Planning, Design and Land Use

Guide the planning and development of federal lands to ensure they are appropriate to the role and significance of the Capital, as well as their natural environment and heritage. Products include long-term visionary plans, prepared in consultation with other planning jurisdictions, to guide the uses and development of Capital lands, as well as identifying the National Interest Land Mass to be held in trust for future generations. The National Capital Commission (NCC) is responsible for reviewing and granting approvals for federal lands uses, designs and transactions in the Capital. The NCC has programs to manage archaeological collections and review heritage building designations in the Capital. The NCC is also responsible for federal involvement with provincial and municipal partners in addressing inter-provincial transportation and urban transit issues in Canada's Capital Region (CCR).

Real Asset Management

The NCC owns over 470 square kilometres or 10% of the CCR, as well as hundreds of roads, pathways, buildings and bridges. It is also responsible for the maintenance, management and rehabilitation of the six Official Residences located in the CCR, as well as the Gatineau Park, the Greenbelt and other parks and green spaces. It manages and protects these physical assets to enhance the rich cultural heritage and natural environment of Canada's Capital and to optimize their contribution in support of corporate programs, while ensuring NCC assets are appropriately accessible to the public. The NCC also manages over 700 leases and the grounds maintenance for most federal organizations in the CCR. Activities also include the acquisition of national interest properties, disposal of surplus properties and land development projects to enhance the Capital for future generations.

Canadian Heritage National Film Board

Strategic Outcome

Canadians have a better understanding of Canada and the world through the production of and accessibility to relevant, challenging and innovative audiovisual works.

Program Activity Descriptions

Production of audiovisual works

The National Film Board (NFB) is a fully integrated organization that combines production, distribution, technical support, research and development, outreach, access, and conservation activities in many, if not most, of its initiatives, that results in a “script to screen and beyond” approach.

The NFB is engaged in the production of socially and culturally relevant films about major issues that are central to the lives of Canadians. Since the 1940s, the NFB has developed and continues to develop an expertise in film production in Canada. Experimentation in form, technological innovation and cinematographic treatment are essential to bold media making and related technical innovation and support.

The production activity includes the conceptualization, research, development, production and social marketing of documentaries, animation film, and new media content, as well as other emerging forms. In fact, this activity is more than mere “production”; it is the “programming” activity by which films are planned, produced and used by the public as social tools of knowledge building, media awareness, social innovation and citizen engagement.

Through this activity, the NFB plays a significant role in the identification, development and mentorship of talent and creative skills; for this, it engages in filmmaker support, making it an incubator of new talent. Furthermore, the NFB delivers on its national and international mandate of “producing, distributing and promoting films designed to interpret Canada to Canadians and to other nations” by the work of its international co-production unit and the coordination of NFB relevant cultural activities.

Distribution of audiovisual works

The NFB’s mandate includes distributing its products as widely as possible to Canadian and foreign audiences. Using the means of the marketplace to reach its audiences, the NFB maximizes its revenues. Distribution activities include: commercializing audiovisual catalogues and well-established stock shot library; developing and diversifying markets for NFB products in Canada and abroad; repackaging for specific markets; offering quality client service delivery; expanding its holdings through acquisitions or partnership agreements; and undertaking market research. Through its distribution activities, the NFB develops strategic cooperation with the public and private sectors in Canada and abroad.

Accessibility and Outreach

Access and outreach activities connect Canadians with relevant media resources to foster citizen engagement through lifelong learning. This is achieved by increasing the presence and use of primary and secondary materials from the extensive NFB collection in various learning channels and creating new networks where none exist; enabling media literacy for all Canadians; and encouraging Canadians to make full use of the collection. Access and outreach activities consist of ensuring the on-going access to the NFB collection through the management of the collection’s conservation, indexing, and cataloguing and restoration, and making it more accessible for future generations through innovative use of new technologies and partnerships, such as on-line film libraries, on-line learning centres for schools and digital consultation centres.

Outreach activities include consultation centres and cinemas in Montreal and in Toronto, collections in partner library systems in all regions of Canada, regular public screenings from coast to coast, a membership program, on-line film libraries, workshops for the public young and old, as well as master classes and a comprehensive web site which integrate interactive productions and provide opportunities for dialogue and knowledge sharing. These activities serve to identify, establish, build and sustain deep and continuing relationships with Canadians in communities across Canada, and secondarily, around the world. They serve to strengthen the NFB brand, and alternatively, Canadians’ knowledge and understanding of Canadians and Canada’s place in the world.

Canadian Heritage National Film Board

Research and Advisory Services

The NFB is mandated to “engage in research in film activity and to make available the results” and “to advise the Governor in Council in connection with film activities”. This activity applies to research connected to filmmaking and the film industry and conducting technical and development projects to advance the art and science of filmmaking. The NFB maintains an environment dedicated to excellence and innovation that is conducive to incubating and prototyping new initiatives, industry collaboration, and nurturing new avenues for creativity in the audiovisual form.

Revolving Fund

The Estimates are based on cash requirements for the NFB over the fiscal year and the Revolving Fund is used to pay for the Board’s expenses calculated on an accrual basis.

Canadian Heritage
National Gallery of Canada

Strategic Outcome

Interest in, knowledge of and appreciation and respect for visual art through collections of historic and contemporary works of art, programs and research that reflect a special but not exclusive perspective on Canada.

Program Activity Descriptions

Collections

To acquire, preserve, research and document historic and contemporary works of art in order to represent and present Canada's visual arts heritage. It includes Curatorial Research, Acquisitions and Preservation.

Outreach

To foster broad access nationally and internationally to the Gallery's collection, research, exhibitions and expertise. It includes exhibitions, both in the National Capital Region and other venues in Canada and abroad, educational programming and publications, communications and marketing activities designed to reach as wide an audience as possible.

Accommodation

To provide secure and suitable facilities, which are readily accessible to the public, for the preservation and exhibition of the national collections.

Program by Activities

Canadian Heritage National Museum of Science and Technology

Strategic Outcome

Interest in, knowledge of and appreciation and respect for science and technology through collections of scientific and technological objects, programs and research reflecting a Canadian perspective.

Program Activity Descriptions

Heritage Preservation

Heritage preservation includes two main components, Collection Management, which includes preservation and conservation, and Research. Research comprises those activities contributing to the building of a knowledge base about the scientific and technological heritage of Canada. The Corporation has identified seven major subject areas on which it will focus its research activities. These are: aviation, communications, manufacturing, natural resources, renewable resources including agriculture, scientific instrumentation and transportation. The Corporation, as the only comprehensive science- and technology-collecting institution in Canada, has a special responsibility for the development of a Canadian national collection. In view of the breadth of the potential subject matter to be covered, critical choices must be made in determining collection content and priorities. Collection development activities assist the Corporation in making informed decisions on collection content, while collection management activities encompass the activities required to manage the objects accessioned into the collection.

Sharing Knowledge

The Corporation seeks to engage Canadians in discovering, considering and questioning past and present developments in science and technology, and their impact on society and individuals. The Corporation fosters a sense of identity and belonging for all Canadians, as well as pride in Canada's scientific and technological history and achievements. It also encourages active and informed participation by Canadians in the future development of our technological society. The primary reason for interpreting Canada's scientific and technological heritage is to provide Canadians with meaningful information about themselves and Canada. Just as the Transformation of Canada theme directs research and collection activities, it likewise guides the Corporation in its knowledge dissemination activities. These typically depict the historical development of science and technology, provide information on the objects in the collection and review the relationships between science, technology and Canadian society. The Corporation disseminates knowledge to its audiences in three primary ways: through its public facilities, its Web sites and its publications.

Accommodation

Facilities are an integral part of museum operations. They do more than house staff; they also provide a venue for the public, and housing for the collection. Facilities have a profound effect on museum visitation. Appropriate museum architecture attracts visitors, contributes to the atmosphere and becomes a symbol of the institution's mandate. A large portion of comments by visitors allude to their satisfaction or dissatisfaction with the quality of the facilities and their related services.

Canadian Heritage Public Service Commission

Strategic Outcome

A highly competent, non-partisan and representative Public Service, able to provide service in both official languages, in which appointments are based on the values of fairness, equity and transparency.

Program Activity Descriptions

Appointment Integrity and Political Neutrality

The appointment integrity and political neutrality activity develops, maintains and monitors the implementation of a policy and regulatory framework for safeguarding the integrity of public service staffing and ensuring political neutrality. This activity includes establishing selection policy and standards, delegation and oversight of appointment authorities to departments and administering non-delegated authorities such as executive appointments and priority administration. This activity also includes conducting audits, investigations and inquiries, as well as administering the appeal process and reporting to Parliament on the integrity of public service staffing.

Recruitment and Assessment Services

The recruitment and assessment services develop and maintain the resourcing systems that link Canadians and public servants seeking employment opportunities in the federal public service with hiring departments and agencies; provide assessment and counselling services and products for use in recruitment, selection and development throughout the federal public service; and deliver the resourcing services, programs and products to departments and agencies and to Canadians and public servants through client service units located across Canada.

Program by Activities

(thousands of dollars)	2005–2006 Main Estimates		2004–2005
	Budgetary	Total	Main
	Operating		Estimates
Appointment Integrity and Political Neutrality	43,499	43,499

Note: As a result of the implementation of the *Public Service Modernization Act* (PSMA), the 2005-2006 Main Estimates, figures have decreased due to the transfer of funds and responsibilities from the Public Service Commission to the Public Service Human Resources Management Agency of Canada and the Canada School of Public Service.

Canadian Heritage Public Service Staff Relations Board

Strategic Outcome

Harmonious labour relations in the Federal Public and Parliamentary Service.

Program Activity Descriptions

Administration of the collective bargaining and grievance adjudication systems in the federal Public and Parliamentary Service, including mediation services

The Public Service Staff Relations Board (PSSRB) administers the collective bargaining and grievance adjudication systems in the federal public and parliamentary service. Board members administer the legislation by holding grievance adjudication and complaint hearings throughout Canada. The Board also provides mediation services to help parties resolve differences without resorting to a formal hearing and conciliation services to assist them in reaching settlement during collective bargaining. The Board provides physical and administrative support services to the National Joint Council, but plays no direct role in the administration and operations of this organization.

Mediation Services in Relation to Collective Bargaining Negotiations and Grievances and Complaints

The Board provides mediation and conciliation services to help parties resolve differences (grievances, complaints) without resorting to a formal hearing. The Board also helps parties reach collective agreements, thus avoiding potential labour disruptions that could ultimately affect government services to the Canadian public. In addition, the Board, through its mediation program, allows parties to resolve workplace disputes with the assistance of an impartial third party; this often results in the crafting of creative solutions acceptable to both parties, which are not always available at adjudication. Mediation leads to a decrease in the number of matters actually heard at adjudication, and, more importantly, to improved long-lasting relations between the parties.

National Joint Council

The National Joint Council (NJC) was originally established in 1944 to promote the efficiency of the public service and the well being of its employees. Today, the NJC is recognized as the “Forum of Choice” for information-sharing, consultation and co-development between the central administration of the government as the employer and bargaining agents. The NJC complements collective bargaining between individual unions and employers by offering an alternate and innovative way to address labour relations and HR issues on a public service-wide basis, and to co-develop public service-wide terms and conditions of employment. The NJC is governed by a Council consisting of senior representatives of Treasury Board, three separate employers (National Research Council, Office of the Auditor General, and the Canadian Food Inspection Agency) and seventeen bargaining agents. The NJC Secretariat supports the activities of Council by providing administrative, logistical and facilitation support for approximately 200 NJC meetings annually, supplying professional and procedural advice to NJC members, coordinating dispute resolution procedures (grievances and appeals), sponsoring relationship-building activities and maintaining NJC records. The NJC Secretariat also provides similar support services to the Public Service Commission Advisory Council (PSCAC), which is a tripartite consultation mechanism (the PSC, government departments and public service bargaining agents) established in December 1998 for purposes of providing advice to the PSC on matters within its mandate, and assists in supporting the *Public Service Modernization Act* (PSMA) Union Management Advisory Committee, the senior forum established in 2003 for union-management discussion on implementation of the PSMA.

Canadian Heritage Public Service Staffing Tribunal

Strategic Outcome

Adjudicate complaints against internal appointments; establish regulations regarding complaint procedures.

Program Activity Descriptions

Administrative tribunal

The mandate of the Public Service Staffing Tribunal (PSST) is to consider and dispose of complaints under the revised *Public Service Employment Act* regarding internal appointments, complaints regarding internal appointments revoked by the Deputy Head or the Public Service Commission (PSC) following a departmental or PSC investigation made at the request of a department or agency, and complaints from employees who have been notified that they will be laid off. The PSST also promotes a non-adversarial resolution of disputes by providing mediation services.

The Tribunal will render fair and timely decisions with respect to complaints within its mandate and will provide to all parties the opportunity for non-adversarial dispute resolution through mediation, thereby contributing, within its mandate, to the following goals:

- fostering a workplace environment of fairness and non-adversarial resolution of staffing and related issues;
- developing a body of jurisprudence, precedent and experience to help ensure a consistent and fair understanding and interpretation of the Act and regulations amongst all parties.

Canadian Heritage

Status of Women – Office of the Co-ordinator

Strategic Outcome

Gender equality and the full participation of women in the economic, social, cultural and political life of Canada.

Program Activity Descriptions

Promote Equitable Public Policy

This program activity focuses on horizontal work across government, as well as with other levels of government, to influence the development of policies, research, programs and services that take into account the diversity of women's perspectives and realities.

Build Knowledge and Organizational Capacity on Gender Equality

This program activity focuses on developing the capacity of a number of stakeholders so that they are better informed and able to address gender-based issues of significance to Canadian society in a coordinated manner.

Canadian Heritage Telefilm Canada

Strategic Outcome

Canadians have access to high-quality popular Canadian audiovisual productions.

Program Activity Descriptions

Canada Feature Film Fund

The Canada Feature Film Fund (CFFF) is the primary instrument of the federal government's Canadian Feature Film Policy, entitled "From Script to Screen". The objective of the policy, and of the CFFF, is to capture 5% of the domestic box office by the end of fiscal year 2005-2006. The Fund provides assistance for screenwriting, project development, production, marketing and versions of Canadian feature films that have high box office potential in Canada. In administering the CFFF, Telefilm seeks to support the development, production and marketing of compelling, distinctively Canadian feature films that reflect Canadian society, including its cultural diversity.

The financial assistance provided by Telefilm Canada is intended to contribute to the overall growth, and professional and economic development of the Canadian film industry. Telefilm's financial participation may be provided in various forms: investments, conditionally repayable advances, loans, loan guarantees, grants or corporate envelopes. The majority of Telefilm Canada's activity centres on investments in individual projects based on a rigorous project selection process. As an investor, Telefilm Canada shares the risks and eventual revenues of the productions it participates in financially.

The CFFF is the subject of a Memorandum of Understanding between Telefilm Canada and the Department of Canadian Heritage. Under the terms of the Memorandum of Understanding, a minimum of one-third of funds are reserved for French-language projects.

Canadian Television Fund

This program activity relates to the portion of the Equity Investment Program (EIP) that is funded through Telefilm Canada's parliamentary appropriation and administered as part of the Canadian Television Fund (CTF). Overall, the fund supports a high volume of distinctively and identifiably Canadian broadcast programming, reflecting Canadian culture, stories and themes. These productions speak to Canadians about themselves, their culture, their issues, their concerns and their stories. They reflect the lives of Canadians across the country and reveal Canadians and their society to the viewer.

The EIP is guided by additional goals in keeping with Telefilm Canada's overall mandate as a cultural investor in high-quality Canadian films, television programs and new media works in order to foster a diversity of voices that reach Canadian audiences in Canada and abroad. One of Telefilm Canada's key goals is to support and encourage Canada's cultural diversity, linguistic duality and regional expression.

Through the EIP, Telefilm Canada provides support to develop and produce high quality, distinctively Canadian television programs that will strike a chord with Canadian audiences. Support is provided to develop and produce French-language projects originating outside Quebec, Aboriginal-language projects, and English-language drama. Telefilm's financial participation is provided either as equity investments or conditionally repayable advances. The majority of Telefilm Canada's activity centers on investments in individual projects based on a rigorous project selection process. As an investor, Telefilm Canada shares the risks and eventual revenues of the productions it participates in financially.

Professional Development and Complementary Activities

This program activity is intended to complement Telefilm Canada's support to feature film and television production-related activity, by supporting activities that enhance the overall environment and conditions in which Canadian feature films and television programs are produced, promoted, sold and distributed.

Support in the form of grants is provided to Canadian feature film and television festivals and to Canadian film and television awards shows, to raise the profile of Canadian productions with Canadian audiences. In addition, support in the form of grants is extended to industry professionals to attend international festivals and markets, and for professional development initiatives.

Canadian Heritage Telefilm Canada

Other Activities

This program activity refers to all programs administered by Telefilm Canada pursuant to contribution agreements or other agreements with the Department of Canadian Heritage. They support Telefilm Canada's audience-and-building-capacity objectives.

Telefilm Canada has four contribution agreements with the Department. They provide Telefilm Canada with approximately \$100 million to administer the following four funds: The Canadian Television Fund, The Music Entrepreneur Program, The Canada New Media Fund and the National Training Schools Program. In addition, Telefilm Canada administers Canada's international co-production agreements and recommends certification of international co-productions.

Citizenship and Immigration Department

Strategic Outcome

Maximum contribution to Canada's economic, social and cultural development from migration.

Program Activity Descriptions

Immigration program

Design, develop and implement policies and programs to facilitate the entry of permanent residents in a way which maximizes their economic, social and cultural contribution to Canada while protecting the health, safety and security of Canadians.

Temporary resident program

Design, develop and implement policies and programs to facilitate the entry of temporary workers, students and visitors in a way which maximizes their contribution to Canada's economic, social and cultural development while protecting the health, safety and security of Canadians.

Strategic Outcome

Reflection of Canadian values in the management of international migration, including refugee protection.

Program Activity Descriptions

Canada's role in international migration and protection

Assert Canada's position in the context of international migration to influence the international agenda on migration and protection.

Refugee program

Maintaining Canada's humanitarian tradition by protecting refugees and persons in need of protection in Canada and abroad.

Strategic Outcome

Successful integration of newcomers and promotion of Canadian citizenship.

Program Activity Descriptions

Integration program

Develop policies and programs to support the settlement, resettlement, adaptation and integration of newcomers into Canadian society by delivering the orientation, adaptation and language programs for newcomers.

Citizenship program

Design, develop and implement policies and programs to administer the acquisition of Canadian citizenship and to enhance the values and promote the rights and responsibilities of Canadian citizenship.

Citizenship and Immigration Immigration and Refugee Board of Canada

Strategic Outcome

Well-reasoned decisions on immigration and refugee matters rendered fairly, efficiently and in accordance with the law.

Program Activity Descriptions

Refugee Protection

The refugee protection tribunal has the responsibility to render decisions regarding claims for refugee protection made by persons in Canada. Decisions are made with respect to whether a person has a well-founded fear of persecution by reason of race, religion, nationality, membership in a particular social group or political opinion. Decisions are rendered also on the basis of whether a person faces a danger of torture or risk to life or risk of cruel and unusual treatment or punishment if returned.

Immigration Appeals

The Immigration Appeals program activity/tribunal makes available to Canadian citizens and permanent residents whose family members have been refused permanent residence in Canada and to persons who have been denied admission to, or ordered removed from, Canada, a quasi-judicial tribunal to which they may appeal. This is done by hearing appeals of refusals of sponsored applications for permanent residence, appeals against removal orders issued against permanent residents, appeals by protected persons such as Convention refugees or persons holding a permanent resident visa, and appeals by the Minister from a decision by a member of the Immigration Division to grant admission or not to order removal.

Admissibility Hearings and Detention Reviews

The Admissibility Hearings and Detention Reviews program activity/tribunal is responsible for conducting:

- admissibility hearings for people who are seeking entry into Canada, or who are already in Canada and are considered to be inadmissible; and
- detention reviews for persons who have been detained for immigration reasons during the examination, inadmissibility hearing or removal process.

	Total Agency	484,508	456,538	27,970

Environment Department

Strategic Outcome

Protection from domestic and global sources of pollution.

Program Activity Descriptions

Reduced Greenhouse Gas emissions

Reduction in the production of greenhouse gases that primarily cause damage to the atmosphere itself, with Canada contributing to and sharing the environmental impact of climate change. Sustainable approach, taken domestically and internationally, in both the short and long term, to address Canada's influences on climate change and to understand and minimize the negative effects of climate change on Canadians. Includes activities that span all activities.

Improved air quality

This key result reflects efforts aimed at preventing air emissions and resulting environmental and human health consequences.

Reduced risk from toxics and other substances of concern

The environmental and human health threats posed by toxic substances and other substances of concern are understood, and prevented or reduced. This key result is aimed at preventing pollution, including effluents, from harming the environment and human health. In general, these substances exert a direct toxic effect on animals, plants or humans, or the volume, nature and manner of release to the environment of these substances poses a longer term risk to the environment and human health.

Strategic Outcome

Conservation of biodiversity in healthy ecosystems.

Program Activity Descriptions

Biological diversity is conserved

This long-term result anticipates the protection of species at risk; conservation, protection and rehabilitation of habitat; and conservation of migratory birds. A primary vehicle for the achievement of this key result is the formation of strategic partnerships with governments, communities and others.

Clean, safe and secure water for people and ecosystems

Provide leadership on the development and implementation of a Federal Water Framework in partnership with other government departments consistent with the pillars of sustainable development; conduct monitoring and research to understand what is changing in aquatic ecosystems and why and provide science-based tools and management actions to empower Canadians to take action; identify economic, social and environmental benefits for the sustainable and efficient use of water resources and develop and implement environmental incentives for key water use sectors; ensure that Canadian water-related interests are protected and promoted globally and commitments are met; ensure Environment Canada's science and technology is excellent, aligned with government goals and supports sustainable development needs.

Priority ecosystems are conserved and restored

Contribute to healthier ecosystems by advancing scientific understanding, improving public awareness, building partnerships and promoting behavioural changes. Additionally, conduct multidisciplinary studies to assess the state of a priority ecosystem and to establish the required actions for its restoration and conservation.

Environment Department

Strategic Outcome

Canadians adapt to their environment in ways that safeguard their security, health and safety, support economic performance and enhance environmental quality.

Program Activity Descriptions

Reduced Impact of Weather and Related Hazards

Monitor the state of the atmosphere (weather, climate, air quality and ultraviolet radiation), hydrosphere (water) and cryosphere (ice and snow); provide information on the present and future states of the physical environment; issue warnings of severe weather and environmental hazards; engage in scientific research on the causes of severe weather, the mechanisms which transport chemicals and weather through the atmosphere and around the world, and the impacts of human activity on the atmospheric environment; and provide advice on adaptation to changing weather and climate.

Adaptation to Environmental Changes

The provision of advice on adaptation to changing weather and climate, building on all the activities related to reducing the impact of weather and related hazards.

Environment Canadian Environmental Assessment Agency

Strategic Outcome

Environmental assessment is an integral part of program and policy decision-making.

Program Activity Descriptions

Effective and Efficient Environmental Assessment

Program costs, including program support overhead for environmental assessment activities. This includes costs incurred in the performance of functions that are not directly involved with service delivery but support service delivery activities. This includes all supervisory, management and policy resources within a program area. These costs may be incurred within the program area at headquarters as well as the regions, but are separate and distinct from corporate and administrative services costs.

Environment Parks Canada Agency

Strategic Outcome

Protect and present nationally significant examples of Canada's natural and cultural heritage, and foster public understanding, appreciation and enjoyment in ways that ensure the ecological and commemorative integrity of these places for the present and future generations.

Program Activity Descriptions

Establish Heritage Places

Program for planning, identification, negotiation, and bringing heritage places to an operational state, and for expanding existing heritage places.

Conserve Heritage Resources

Program to ensure maintenance and protection of ecological and commemorative integrity and management of natural and cultural resources in heritage places managed by Parks Canada, and to influence conservation of heritage resources managed by others.

Promote Public Appreciation and Understanding

Program to increase the awareness and understanding of the cultural and natural heritage of Canada and enhance appreciation and support of the national park, national marine conservation area and national historic site systems.

Quality Visitor Experience

Program to provide access, recreational opportunities and reception, orientation, information and public safety at heritage places managed by Parks Canada.

Townsite Management

Program for provision of all services in the five townsites within national parks (e.g., water, sewer, garbage collection, road works, bylaw enforcement, fire and emergency services, business licence administration, development proposal review and planning, identification and mitigation of environmental incidents).

Throughway Management

Program for all work on the Trans-Canada Highway system or provincial numbered transportation routes that pass through protected heritage areas (e.g., avalanche control, maintenance), and for the management of water levels in historic canals.

Finance Department

Strategic Outcome

To create a fiscal, economic, social and global advantage for Canada by providing appropriate policies and sound advice with respect to economic, social and financial conditions and to the government's overall agenda.

Program Activity Descriptions

Tax Policy

Develops and evaluates federal taxation policies and legislation in the following areas: personal income tax, business income tax, and sales and excise tax.

Economic and Fiscal Policy

Analyzes Canada's economic and fiscal situation; advises on fiscal matters; and provides analytical support on a wide range of economic and financial issues related to the government's macroeconomic policies.

Financial Sector Policy

Provides policy analysis on Canada's financial sector and on the regulation of federally chartered financial institutions; manages the federal government's borrowing program; and provides support regarding Crown corporation borrowing and financial market and exchange rate policy.

Economic Development and Corporate Finance

Provides policy and advice regarding financial implications of government's microeconomic policies and programs; proposals for funding of programs; sectoral policy analysis; and corporate restructuring regarding Crown corporations and other corporate holdings.

Federal-Provincial Relations and Social Policy

Provides policy and advice on federal-provincial-territorial relations and social policy issues and their economic and fiscal implications.

International Trade and Finance

Manages the Department's participation in international financial institutions (including the International Monetary Fund, the World Bank Group, the Organisation for Economic Co-operation and Development and the European Bank for Reconstruction and Development, international groups such as the G-7, G-20 and the Asia-Pacific Economic Cooperation forum, as well as trade and investment policy issues.

Public Debt

Manages the funding of interest and service costs of the public debt and the issuing costs of new borrowing.

Domestic Coinage

Responsible for the payment of the production and distribution costs for domestic circulating coinage.

Transfer Payments to Provinces/Territories

Administers the transfer payments pursuant to statutes and agreements with provinces and territories.

International Financial Organizations

Administers international financial obligations and subscriptions.

Canadian International Trade Tribunal

Strategic Outcome

Fair, timely and effective disposition of international trade cases and government mandate inquiries in various areas of the Tribunal's jurisdiction.

Program Activity Descriptions

Adjudication of trade cases (quasi-judicial role)

The Tribunal acts as an administrative court when carrying out its quasi-judicial functions. It conducts inquiries that are open to the public. It has rules and procedures similar to those of a court of law, but not quite as formal. The Tribunal is a superior court of record and can subpoena witnesses, hear evidence and hold public hearings. Transparency and fairness are key pillars of the Tribunal's inquiry process. The Tribunal's decisions may be appealed to, as appropriate, the Federal Court of Canada or the Federal Court of Appeal or reviewed by the Federal Court of Appeal or by a bi-national panel under the North American Free Trade Agreement (NAFTA). Governments that are members of the World Trade Organization (WTO) may challenge some of the Tribunal's decisions before a dispute settlement panel under the WTO Understanding on Rules and Procedures Governing the Settlement of Disputes.

General economic inquiries and references (advisory role)

The *Canadian International Trade Tribunal Act* contains broad provisions under which the government or the Minister of Finance may ask the Tribunal to conduct an inquiry on any economic, trade, tariff or commercial matter. In such an inquiry, the Tribunal acts in an advisory capacity, with powers to conduct research, receive submissions, hold hearings and report with recommendations, as required, to the government or the Minister of Finance. The Tribunal may also conduct inquiries (safeguard inquiries) to determine if Canadian producers are being seriously injured by increased imports of goods and report with recommendations, as required, to the government.

Finance
 Financial Transactions and Reports Analysis Centre of Canada

Strategic Outcome

Financial intelligence that contributes to the detection and deterrence of money laundering and terrorist financing in Canada and abroad.

Program Activity Descriptions

Collection, Analysis and Dissemination of Financial Information

Technology-driven financial intelligence analysis and case disclosures that are widely used and accepted by law enforcement and intelligence agencies with a program that fosters compliance by the reporting entities.

Program by Activities

Finance

Office of the Superintendent of Financial Institutions

Strategic Outcome

Regulate and supervise to contribute to public confidence in Canada's financial system and safeguard from undue loss.

Program Activity Descriptions

Regulation and Supervision of Federally Regulated Financial Institutions

This is the largest program activity within the Office of the Superintendent of Financial Institutions (OSFI), representing over 85% of costs. Costs for this program are recovered through assessments, service charges and user fees paid by the federally regulated financial institutions. Costs are also recovered via Memoranda of Understanding; financial statements indicate this third revenue stream as "cost-recovered services."

Regulation and Supervision of Federally Regulated Private Pension Plans

This program activity incorporates risk assessment and intervention and rule-making and approvals related to federally regulated private pension plans under the *Pension Benefits Standards Act*. The costs for this program are recovered from pension plan fees based on the number of members in each federally regulated pension plan.

International Assistance

This program activity incorporates activities related to providing help to other countries that are building their supervisory and regulatory capacity. The costs for this program are recovered via Memoranda of Understanding between OSFI and organizations such as the Canadian International Development Agency and the International Monetary Fund.

Strategic Outcome

Contribute to public confidence in the Canadian retirement income system.

Program Activity Descriptions

Office of the Chief Actuary

This office provides a range of actuarial services, under legislation, to the Canada Pension Plan and some federal government departments.

Program by Activities

Total Department		1,440,052	1,470,799	(30,747)

Fisheries and Oceans

Strategic Outcome

Provision of services to Canadians to ensure the sustainable development and safe use of Canadian waters through the development and implementation of policies and programs in support of Canada's scientific, ecological, social and economic interests in oceans and fresh waters. Delivery of results and services in these horizontal policy and program areas requires collaboration with stakeholders, other levels of government and international organizations.

Program Activity Descriptions

Canadian Coast Guard

Provision of maritime services that contribute to the enhancement and maintenance of maritime safety and commerce; protection of marine and freshwater environment; oceans and fisheries resource management; security; and other government maritime priorities via maritime expertise, Canada's civilian fleet, a broadly distributed shore infrastructure, and collaboration with various stakeholders.

Small Craft Harbours

Operation and maintenance of a national system of harbours critical to Canada's commercial fishing industry.

Science (Safe and Accessible Waterways)

Provision of scientific research, monitoring, advice, products and services and data management in support of safe and accessible waterways. These functions are provided through a network of research facilities in collaboration with other government departments, private sector, academia and international organizations.

Fisheries Management

Conservation of Canada's fisheries resources to assure sustainable resource utilization through close collaboration with resource users and stakeholders.

Aquaculture

Creation of conditions for a vibrant and innovative aquaculture industry that is environmentally and socially responsible, economically viable and internationally competitive.

Science (Sustainable Fisheries and Aquaculture)

Provision of scientific research, monitoring, advice, products and services and data management in support of sustainable fisheries and aquaculture. These functions are provided through a network of research facilities in collaboration with other government departments, private sector, academia and international organizations.

Oceans Management

Conservation and sustainable use of Canada's oceans, in collaboration with others, through integrated oceans management plans which include marine protected areas and marine environmental quality objectives.

Habitat Management

Protection and conservation of freshwater and marine fish habitat, in collaboration with others, through a balanced application of regulatory and non-regulatory activities including reviewing development proposals, conducting environmental assessments and monitoring compliance and effectiveness.

Science (Healthy and Productive Aquatic Ecosystem)

Provision of scientific research, monitoring, advice, products and services and data management in support of healthy and productive aquatic ecosystems. These functions are provided through a network of research facilities in collaboration with other government departments, private sector, academia and international organizations.

*As of 2005-2006, the amount calculated for contributions to employee benefit plans is based on the personnel costs included in Department of Foreign Affairs and International Trade (Foreign Affairs) Vote 1 for public service employees only, since the cost of pension, benefit and insurance plans for employees of the Department of Foreign Affairs engaged locally outside Canada is provided for within Treasury Board Secretariat Vote 20 – Public Service Insurance.

Foreign Affairs and International Trade (Foreign Affairs) Department

Strategic Outcome

Canada's interests are analyzed, identified, understood and defended. Working in partnership with Canadians, these interests are advocated and advanced internationally – both with other States and with international organizations.

Program Activity Descriptions

Global and Security Policy

Advocating for strengthened multilateral institutions, human security interests, national and international security interests, and support abroad for democracy, human rights, the rule of law and good government.

Bilateral Relations

Conducting and promoting Canada's bilateral diplomatic relations in Canada and abroad.

Strategic Policy

Coordinating, with partner departments, the development of international policy.

Strategic Outcome

Canada's international network and its operations are satisfactorily enabled through the management and delivery of common services and infrastructure to government programs in Canadian missions abroad.

Program Activity Descriptions

Common Services and Infrastructure – Support from headquarters

Managing and delivering headquarters-provided common services to government programs and partners operating abroad.

Common Services and Infrastructure – Missions Abroad

Managing and delivering mission-provided common services to government programs and partners operating abroad.

Strategic Outcome

Canadians travelling, working and living abroad are provided with effective assistance, guidance, advice and services related to their travel documents and consular needs.

Program Activity Descriptions

Consular Affairs

Managing and delivering consular services to Canadians.

Foreign Affairs and International Trade (Foreign Affairs) Department

Passport Services (Revolving Fund) Special Operating Agency

Managing and delivering passport services to Canadians (through the use of the Passport Revolving Fund).

Parliament has previously authorized a total drawdown of \$4,000,000 for the Passport Office Revolving Fund. The projected use of this authority as related to these Estimates is as follows:

	(thousands of dollars)
Anticipated unused authority as of April 1, 2005	11,994
Less:	
2005–2006 Main Estimates – net cash provided	<u> </u>
Anticipated unused authority as of April 1, 2006	11,994

*This represents the grants and contribution programs that cannot be attributed to any one activity.

**This program activity is funded through the use of a revolving fund. The Estimates shown on this table refer to the cash requirements for the fund over the fiscal year. These do not directly reflect the operating profit or loss that the Fund will realize since the latter is calculated on an accrual accounting basis. Therefore, some cash disbursements included in the Estimates do not impact upon the operating balance and certain other items that must be taken into consideration in calculating the profit or loss do not require a direct cash expenditure. The two can be reconciled as follows:

	(thousands of dollars)
Expected operating profit/loss	(368)
Plus:	
Non-cash items included in the calculation of the operating profit	28,571
Less:	
Cash expenditures not included in the calculation of the operating profit:	
New capital acquisitions	18,426
Change in working capital	9,777
Total Estimates – net cash provided

For further information on the Passport Office Revolving Fund, refer to the Departmental Report on Plans and Priorities.

Foreign Affairs and International Trade (Foreign Affairs) Canadian International Development Agency

Strategic Outcome

Sustainable development to reduce poverty in the poorest countries, measured through making progress on the development goals of economic well-being, social development, environmental sustainability and governance.

Program Activity Descriptions

Geographic Programs

Responsible for country-to-country programs in Africa and the Middle East, Asia, Americas and Central and Eastern Europe respectively; enables the Government of Canada to plan and execute international cooperation activities through direct links with governments and organizations in developing countries.

Canadian Partnership

The Canadian Partnership Program is a responsive program that is aligned with CIDA's mandate and strategic objectives, through its cost-sharing partnerships with civil-society and private-sector organizations in Canada and developing countries. Multi-year funding is provided on a basis of merit to Canadian and international non-governmental organizations and volunteer-sending organizations. Project funding is also provided through competitive mechanisms within the context of either time-bound or open-ended competitions. In addition, a conference secretariat supports the participation of developing-country delegates at international conferences.

Multilateral Programs

Responsible for managing Canada's global development programs through substantial core contributions to high-level participation in multilateral development institutions. It also undertakes targeted programming through multilateral, international and local organizations responsible for managing the International Humanitarian Assistance Program.

Policy Coherence

Leads policy research, analysis and development to support and guide the Agency's plans and priorities and Canada's broader international assistance objectives and commitments. Ensures coherence and alignment between corporate and program priorities and policy coherence between CIDA and Other Government Department partners who manage non-aid policies that could include, but are not limited to, international trade, investment, technology transfer and immigration.

Engaging Canadians

Improve public awareness, education and engagement of Canadians in supporting Canada's involvement in international cooperation and development.

Foreign Affairs and International Trade (Foreign Affairs) International Development Research Centre

Strategic Outcome

Stronger science and technology research capacity in developing countries to address their social, economic and environmental challenges.

Program Activity Descriptions

Environment and Natural Resources Management

The work on Environment and Natural Resource Management supports practical approaches to enhancing food and water security, human health, the quality of natural resources, democratic participation, governance and equity.

Information and Communication Technologies for Development

The Information and Communication Technologies for Development program activity focuses on enhancing connectivity in developing regions, particularly for universities, research institutions and civic organizations, and helping developing country partners participate in the information economy.

Social and Economic Equity

The work of Social and Economic Policy deals with public policy that can lead to poverty reduction and enhanced social equity in developing countries, including countries in conflict.

Special Program Initiatives

Special Program Initiatives (SPI) has three distinct but related objectives: to promote and sustain linkages with Canadian institutions and organizations; to manage the Centre's Training and Awards Program; and to administer special initiatives.

SPI's support to the Canadian development constituency focuses on organizations and activities that espouse knowledge-led outlooks to strengthen a commitment to knowledge-based international cooperation. The Centre's Training and Awards Program provides a service to the Centre as a whole, ensuring the widest possible dissemination of information about awards available through the International Development Research Centre (IDRC), as well as an effective and transparent mechanism for the selection of awardees and the administration of their grants. SPI administers special initiatives on behalf of the Centre. They are undertaken on an as needs basis with Centre and non-Centre funding.

Corporate Research Activities

Corporate research activities take advantage of unexpected opportunities, support additional activities bringing research results to the attention of decision-makers, and provide some flexibility to respond to a constantly changing environment and to reinforce partnerships with other donors by collaborating on small activities.

Supporting Southern Partners

Supporting Southern Partners covers the following kinds of activities: augmentation of ongoing research projects; dissemination of IDRC work; exploration of partnerships and new program possibilities; promoting the Centre and its programming; strategic intelligence activities; and capacity-building of Southern research partners.

Development Research Support

Development Research Support includes technical support personnel who assist in the development of new projects, monitoring ongoing research projects, and provide specialized scientific support to recipients such as guidance on methodology, facilitating the creation and maintenance of networks and the synthesis of results across a range of activities. As well, this includes the range of services in direct support of program delivery including program evaluation, dissemination of research results and program management, which provides strategic direction and support to IDRC's programming framework.

Strategic Outcome

Prompt and effective prevention and/or resolution of potential disputes under the Boundary Water Treaty and Great Lakes Water Quality Agreement to ensure they have no negative impact on Canada-US relations.

Program Activity Descriptions

Boundary Waters Treaty

The issuing of Orders of Approval in response to applications for the use, obstruction or diversion of waters that flow along and/or across the boundary if such uses affect the natural water levels or flows on the other side; undertaking investigations of specific issues (References) when requested by governments; and the provision to make binding decisions on matters referred to it by the governments.

Great Lakes Water Quality Agreement

To evaluate progress toward restoring and maintaining the chemical, physical and biological integrity of the waters of the Great Lakes basin ecosystem.

Foreign Affairs and International Trade (International Trade) Department

Strategic Outcome

Increased prosperity for Canada and Canadian businesses through a strengthened and more open international economic order.

Program Activity Descriptions

Trade and Economic Policy

Analysing, negotiating, advocating and representing Canada's international trade and economic interests in Canada and abroad, in consultation with stakeholders.

Bilateral Relations

Promoting Canada's trade, investment, and science and technology investment interests at the regional and bilateral level.

Strategic Outcome

Increased competitiveness of Canadian companies based on enhanced productivity achieved through increased international sales and investments and a continuing high level of foreign direct investment in Canada.

Program Activity Descriptions

International Business Development

Managing and delivering international business services to Canadians.

Promotion of Foreign Direct Investment

Attracting, retaining and expanding foreign direct investment in Canada.

Foreign Affairs and International Trade (International Trade) Canadian Commercial Corporation

Strategic Outcome

An increasing and diversified export contract portfolio.

Program Activity Descriptions

Canada/U.S. Defence Production Sharing Agreement

Under the terms of the 1956 Defence Production Sharing Agreement (DPSA), Canadian exporters have been allowed to sell to the U.S. Department of Defense and National Aeronautics and Space Administration (NASA). All defence contracts above a \$100,000 U.S. threshold must be transacted through Canadian Commercial Corporation (CCC). Public Works and Government Services Canada provides an assessment and certification to CCC of the supplier's price and delivery and administers the domestic contract; the Department of National Defence provides inspection and quality control services. The DPSA does not allow CCC to charge fees and the cost of providing this service must be offset by annual appropriations.

Aerospace and Defence

These are non-DPSA global sales in the aerospace and defence industries and can include sales to all levels of government: federal, state and municipal.

International Commercial Business

This is non-DPSA business consisting of supply and construction projects in a variety of other sectors and can include sales to all levels of government: federal, state and municipal.

Health Department

Strategic Outcome

Strengthened knowledge base to address health and health care priorities.

Program Activity Descriptions

Health Policy, Planning and Information

The Health Policy, Planning and Information program activity provides advice and support to the Minister, the Departmental executives and to program branches in the areas of policy development, intergovernmental and international affairs, strategic planning, program delivery and review and the administration of the *Canada Health Act*. It also contributes to improved health outcomes for Canadians by promoting the increased and more effective use of information and communications technologies; by improving access to reliable health information; by providing policy research and analysis to support evidence-based decision-making; by working with official language minority communities and others to improve access to health services in the official language of choice; and by taking into account Canadians' privacy expectations with respect to health information.

Strategic Outcome

Access to safe and effective health products and food and information for healthy choices.

Program Activity Descriptions

Health Products and Food

Health Canada is responsible for a broad range of health protection and promotion activities that affect the everyday lives of Canadians. As the federal authority responsible for the regulation of health products and food, Health Products and Food Branch (HPFB) evaluates and monitors the safety, quality and effectiveness of thousands of drugs (human and veterinary), vaccines, blood and blood products, biologics and genetic therapies, medical devices and natural health products, as well as the safety of the foods we eat. We also provide useful information about risks and benefits related to health products and food so that Canadians can make informed decisions about their health and well-being.

Our ongoing regulatory responsibilities span the life cycle of health products and food, from clinical trials to surveillance, compliance and enforcement. We also face challenges associated with rapid advances in technology and scientific breakthroughs that have resulted in the growth of an unprecedented number of biologics, genetic therapies and vaccines and genetically modified and other novel foods. We are meeting these challenges by drawing on sound science and effective risk management in evidence-based decision-making. These disciplines are integrated into our daily operations, and together with our health promotion activities, they enable timely access to safe and effective health products and food for Canadians.

Health Department

Strategic Outcome

Reduced health and environmental risks from products and substances, and safer living and working environments.

Program Activity Descriptions

Healthy Environments and Consumer Safety

Under this Program Activity, Health Canada has a mandate to address many elements of day-to-day living that have an impact on the health of Canadians. These include drinking water safety, air quality, radiation exposure, substance use and abuse (including alcohol), consumer product safety, tobacco and second hand smoke, workplace health, and chemicals in the workplace and in the environment. Health Canada is also engaged in other health and safety related activities, including the Government's public safety and anti-terrorism initiatives, inspection of food and potable water for the travelling public, and health contingency planning for visiting foreign dignitaries. The broad national mandate flows from legislation including the *Food and Drugs Act*, the *Controlled Drugs and Substances Act*, the *Hazardous Products Act*, the *Radiation Emitting Devices Act*, the *Canadian Environmental Protection Act*, the *Tobacco Act* and others. Results are delivered through partnerships and by an active presence throughout every region of the country.

Pest Control Product Regulation

To help prevent unacceptable risks to people and the environment, Health Canada regulates the importation, sale and use of pesticides under the federal authority of the *Pest Control Products Act (PCPA)* and Regulations. The scope of work is extensive with more than 5,000 registered pesticides – including herbicides, insecticides, fungicides, antimicrobial agents, pool chemicals, microbials, material and wood preservatives, animal and insect repellents, and insect- and rodent-controlling devices.

Ongoing regulatory responsibilities constitute the majority of the work under this program activity. Using internationally accepted approaches and protocols; Health Canada conducts science-based health, environmental and value assessments. Pesticides are registered only if the health and environmental risks are considered acceptable, and if the product is effective. Health Canada sets maximum pesticide residue limits for food commodities under the *Food and Drugs Act*. Older pesticides are re-evaluated to determine if their use continues to be acceptable under current scientific approaches. Health Canada facilitates, encourages and maximizes compliance with the PCPA and the conditions of registration and also develops and promotes the use of sustainable pest management practices and products in cooperation with stakeholders.

Strategic Outcome

Better health outcomes and reduction of health inequalities between First Nations and Inuit and other Canadians.

Program Activity Descriptions

First Nations and Inuit Health

The objectives of the First Nations and Inuit Health program activity include improving health outcomes; ensuring availability of, and access to, quality health services; and supporting greater control of the health system by First Nations and Inuit. Together with First Nations and Inuit, the First Nations and Inuit Health Branch through its regional offices, delivers public health and community health programs on-reserve, these include environmental health and communicable and non-communicable disease prevention, and provision of primary health care services through nursing stations and community health centres in remote and/or isolated communities to supplement and support the services that provincial, territorial and regional health authorities provide.

Health Department

The First Nations and Inuit Health program activity also supports targeted health promotion programs for Aboriginal people, regardless of residency (e.g. Aboriginal Diabetes Initiative) as well as counselling, addictions and mental wellness services. The Non-Insured Health Benefits coverage of drug, dental care, vision care, medical supplies and equipment, short-term crisis intervention mental health services, and medical transportation is available to all registered Indians and recognized Inuit in Canada, regardless of residency.

*These transfer payments are now included in the Estimates of the Public Health Agency of Canada.

Health

Canadian Institutes of Health Research

Strategic Outcome

Outstanding Research - Best health research supported to create health knowledge responding to opportunities and priorities.

Program Activity Descriptions

Fund health research

Plan, launch and manage competitions and programs for grant funds to facilitate and enable the conduct of outstanding health research, including collaborative programs in investigator-framed and Institute-framed initiatives.

Strategic Outcome

Outstanding Researchers in innovative environments - Strong health research community able to undertake outstanding research.

Program Activity Descriptions

Fund health researchers and trainees

Plan, launch and manage competitions and programs for both salary awards to enable health researchers to devote more time to their research, as well as competitions for training awards to develop future health researchers.

Fund research resources, collaboration and other grants to strengthen the health research community

Plan, launch and manage competitions and programs for grant funds for research-enabling activities, such as networking, provision of new equipment, databases and/or specialized resources. Encourage participation and involvement of stakeholders in the public and private sectors through collaborative enabling programs and competitions.

Develop and support strong health research community through national and international alliances and priority-setting

Plan, launch and manage both Institute support grants that enable Institute activities such as the development of strategic health research priorities and development of alliances, as well as competitions and programs for grant funds for both national and international partnered programs.

Inform research, clinical practice and public policy on ethical, legal and social issues related to health and health research

Undertake consultations to enable inclusive dialogue across sectors, disciplines and communities to lead to greater public engagement, improved knowledge and understanding of the ethical, legal and social issues in the context of health and health research. As well, plan, launch and manage competitions and programs for grant funds to create new knowledge and provide grant funds that enable effective insights pertaining to the ethical, legal and social issues in the context of health and health research.

Strategic Outcome

Transforming health research into action - Health research adopted into practice, programs and policies for a productive health system; and stimulation of economic development through discovery and innovation.

Program Activity Descriptions

Support activities on knowledge translation, exchange, use and strategies to strengthen the health system

Implement strategies to enable the effective dissemination, exchange, synthesis and application of health research results that will lead to improvements in the Canadian health system. As well, plan, launch and manage competitions and programs for grant funds designed to create new knowledge, strengthen Canadian capacity and networks and together with our partners, undertake effective research and knowledge translation of health research.

Health

Canadian Institutes of Health Research

Support national efforts to capture the economic value for Canada of health research advances made at Canadian institutions

Implement strategies to enable the effective development and commercialization of health research that will lead to a better quality of life for Canadians through improvements in the Canadian health system, products and economy. As well, plan, launch and manage competitions and programs for grant funds to create and transfer new knowledge, strengthen Canadian capacity and networks and undertake effective commercialization of health research.

Patented Medicine Prices Review Board

Strategic Outcome

Price charged by manufacturers for patented medicines sold in Canada are not excessive.

Program Activity Descriptions

Patented Medicine Prices Review

The Patented Medicine Prices Review Board (PMPRB) is responsible for regulating the prices that patentees charge, the “factory-gate” price, for prescription and non-prescription patented drugs sold in Canada to wholesalers, hospitals or pharmacies for human and veterinary use to ensure that they are not excessive. The PMPRB reports annually to Parliament through the Minister of Health on its major activities, analyses of the prices of patented medicines and of the price trends of all drugs, and reports on the research and development expenditures as reported by the patent-holding drug manufacturers.

Health Public Health Agency of Canada

Strategic Outcome

Healthier population by promoting health and preventing disease and injury.

Program Activity Descriptions

Population and Public Health

In collaboration with partners, the Agency leads federal efforts and mobilizes pan-Canadian actions to promote and protect national and international public health. These actions include anticipating, preparing for, responding to and recovering from threats to public health; monitoring, researching and reporting on diseases, injuries, other preventable health risks and their determinants, and the general state of public health in Canada and internationally to support effective actions in prevention and health promotion; and building and sustaining a public health network with stakeholders. The Agency uses the best available knowledge and evidence to inform, advise and engage Canadian and international public health stakeholders on goals, policies, strategies for action, tools, practices and community-based capacity; and to provide public health information, advice and leadership to Canadians and stakeholders.

Human Resources and Skills Development Department

Strategic Outcome

Effective and efficient income support and labour market transitions.

Program Activity Descriptions

Employment Insurance

Employment Insurance provides temporary financial assistance for unemployed Canadians, including self-employed fishers while they look for work, as well as to Canadians who need to take a temporary absence from work due to sickness, pregnancy and childbirth, to care for a newborn or adopted child, or to provide care or support to a gravely ill family member with a significant risk of death. Employment Insurance also provides benefits to participants of work-sharing agreements.

Employment Programs

Employment programs provide programs and services that enable Canadians, including unemployed adult individuals and targeted groups such as youth and Aboriginal people, to develop their skills and encourage them to become self-reliant, invest in themselves and become more adaptable to labour market changes.

Strategic Outcome

Enhanced competitiveness of Canadian workplaces by supporting investment in, and recognition and utilization of skills.

Program Activity Descriptions

Workplace

Workplace supports the collaboration of industry partners and stakeholders in identifying, addressing and promoting workplace skills development and recognition issues that reflect the realities of Canadian workplaces in our rapidly evolving labour market. Workplace also develops and disseminates knowledge and information from a national, regional and local perspective, which is vital in supporting and contributing to a well-functioning labour market.

Strategic Outcome

Through access to learning, Canadians can participate fully in a knowledge-based economy and society.

Program Activity Descriptions

Learning

In order to assist Canadians to develop the education and skills necessary to enable them to participate more fully in a knowledge-based economy and society, Learning works to foster a culture of lifelong learning and increase access to learning opportunities. This is accomplished by:

- facilitating access to post-secondary education and other adult learning opportunities;
- strengthening the capacity of key stakeholders to deliver learning programs and services; and
- promoting awareness of the importance of lifelong learning and related issues.

In collaboration with provinces, territories, learning institutions, community-based organizations and other key stakeholders, the following programs are delivered: Canada Student Loans; Canada Study Grants; Canada Education Savings Grant; Canada Learning Bond; National Literacy Secretariat; Learning Initiatives Program; International Academic Mobility; and Office of Learning Technologies.

Human Resources and Skills Development Department

Strategic Outcome

Safe, healthy, fair, stable, cooperative and productive workplaces.

Program Activity Descriptions

Labour

The Labour Program has a “federal jurisdiction” mandate, which is legislative in nature, limited to the industries that fall under the jurisdiction of Parliament for labour matters. The program also has a national mandate, which is non-legislative in nature and is responsible for leadership in the coordination of federal-provincial labour jurisdictions, the identification of workplace issues affecting all workers and jurisdictions, and for the provision of a national labour information base. In addition, the Labour Program has an international mandate, and is responsible for Canada’s international labour affairs, a field of rapidly growing significance in the age of globalization and trade negotiations. Under the federal jurisdiction mandate, the program is responsible for the regulatory structure governing the employment relationship within the federal labour jurisdiction. The federal jurisdiction is comprised of industries of critical importance to the Canadian economic infrastructure, including transportation, communication and banking.

Strategic Outcome

Enhanced community capacity to contribute to the reduction of homelessness.

Program Activity Descriptions

Homelessness

The National Homelessness Initiative assists communities, through partnerships, in implementing measures that help homeless individuals and families to move toward self-sufficiency, to become active in society and contribute to the economy.

Strategic Outcome

Seamless, integrated and multi-channel service delivery that ensures client satisfaction.

Program Activity Descriptions

Service and Benefits Delivery Support

The in-person regional service delivery network provides direct service to clients for both the departments of Human Resources and Skills Development and Social Development. It also includes policy and communications support.

Human Resources and Skills Development Canada Industrial Relations Board

Strategic Outcome

Harmonious industrial relations climate in the federally regulated sector through the effective and appropriate resolution of labour issues and/or disputes.

Program Activity Descriptions

Administration and interpretation of Part 1 (Industrial Relations) and certain provisions of Part II (Occupational Health and Safety) of the Canada Labour Code

Exercise of statutory powers relating to: bargaining rights and their structuring; the investigation, mediation and adjudication of complaints alleging contraventions of provisions of the Canada Labour Code; the interpretation of technological change provisions affecting the terms, conditions and security of employees and the exercise of ancillary remedial authority; the exercise of cease-and-desist powers in cases of unlawful strikes or lockouts; reviewing decisions relating to safety that are referred to the Board; settling the terms of a first collective agreement; the provision of advice and recommendations relative to the statutory powers of the Board; the provision of administrative services to these ends.

Communication/Information

All activities related to the preparation and dissemination of information for internal and public use, as well as activities relating to consultations with the Canada Industrial Relations Board's stakeholders.

Program by Activities

*Funding for Communication/Information is included under Administration and interpretation of Part 1 (Industrial Relations) and certain provisions of Part II (Occupational Health and Safety) of the Canada Labour Code.

Human Resources and Skills Development Canada Mortgage and Housing Corporation

Strategic Outcome

Housing choice and affordability for Canadians.

Program Activity Descriptions

Assisted Housing Programs

Financial assistance is provided to individuals and groups under long-term agreements, which helps to provide suitable, adequate and affordable housing to low- and moderate-income Canadians both on and off reserve.

This program activity also includes funding provided to provinces/territories under social housing transfer agreements. Provinces and territories signing Social Housing Agreements with the Government of Canada are subject to national principles and an accountability framework that ensures targeted federal funding is used for housing low-income households.

In addition, this program activity includes funding provided under the Affordable Housing Initiative. This initiative is aimed at increasing the supply of affordable housing for low-to-moderate-income households. The provinces and territories administer the programs financed by this initiative.

Research and Information Dissemination to promote housing affordability and choice

Within the Canadian population, there are specific groups with distinct housing needs, including Aboriginal people, homeless people, low-income people, newcomers, people with disabilities, people living alone and seniors. Work under this theme focuses on investigating issues regarding specific populations with distinct housing needs, and exploring options, solutions and strategies to improve living conditions and housing affordability and choice. It also addresses issues and solutions associated with the current social housing stock and housing alternatives for all Canadians.

Strategic Outcome

Quality housing and living conditions for Canadians.

Program Activity Descriptions

Housing Repair and Improvement Programs

Canada Mortgage and Housing Corporation's (CMHC) Residential Rehabilitation Assistance Program helps to bring housing occupied by low-income homeowners, renters and persons with disabilities up to basic health, safety and mobility standards, and facilitates the conversion of non-residential buildings to residential use. Housing repair and improvement programs also include the Emergency Repair Program, which offers financial assistance to low-income Canadians in rural areas to undertake emergency repairs to their homes, and the Home Adaptations for Seniors Independence Program, which provides low-income seniors with financial assistance to carry out minor home adaptations. The Shelter Enhancement Program provides financial assistance to rehabilitate, repair, improve or build emergency shelters for victims of family violence.

Aboriginal Capacity Programs

Aboriginal capacity development facilitates the acquisition of knowledge, skills, training and resources that will allow aboriginal people to work toward self-sufficiency in housing and take on more responsibility for the functioning of housing within their community. Assistance is provided to Aboriginal people, housing institutions and individual housing providers to acquire skills and knowledge to design, build, inspect, finance and manage housing, both on and off reserve.

Human Resources and Skills Development Canada Mortgage and Housing Corporation

Research and Information Dissemination to improve housing and living conditions

There are many factors that contribute to the development of community, including the physical form of the environment, the social interaction of citizens within their community and the economic activity centred in the community. Research on this theme investigates the role of housing as a contributor to community well-being, identifies innovative approaches and solutions, which leads to more sustainable and healthy communities and assists in the demonstration of these approaches in communities across Canada.

Quality in the housing stock is reflected in its durability, in the provision of safe and healthy shelter and in the satisfaction of the occupant. Research on this theme develops energy and environmental solutions for residential buildings, explores ways to control moisture and improve the indoor environment and addresses the durability performance of residential buildings. Research is undertaken to reduce residential water use and ensure water quality, and reduce the impact of disasters. The unique technical problems of remote and northern housing are also addressed.

Strategic Outcome

A competitive housing market and strong housing sector.

Program Activity Descriptions

Canadian Housing Market Research and Analysis

CMHC collects, analyzes and disseminates housing market information that facilitates informed housing-related decisions by those in the industry, the public at large and CMHC. This includes the provision of housing market data, analysis and forecasts through publications, conferences, seminars, industry roundtables and custom data services. To meet client information needs, CMHC undertakes various surveys of: starts and completions; market absorption; rental market; mortgage approvals; and consumer intentions to buy or renovate a home.

International Activities

Housing sector well-being is further promoted through support to the industry, which enables Canadian companies to secure international business opportunities and diversify their share of housing export markets. CMHC will seek to increase Canadian housing exports by helping companies expand into promising markets, bring together key Canadian clients with pre-selected prospective buyers abroad, promote awareness and recognition of Canadian housing approaches, support foreign delegations seeking information on Canada's housing system and provide assistance to emerging economies to assess and improve their housing environment.

Research and Information Dissemination to promote housing market competitiveness and housing sector well being

A well-functioning housing sector enables the marketplace to be the primary vehicle to meet the shelter needs of society. Research on this theme is aimed at providing industry, government and social housing stakeholders with timely and relevant trend and issue analysis related to households, housing and market conditions, as well as related monitoring indicators. This information is needed for informed and proactive decision-making in a time of evolving household and housing market circumstances. The work entails: the exploration of the impact of socio-economic and demographic trends on consumers and housing markets; assessment of their impact on affordability; housing quality and choice; identification and acquisition of data from a range of sources; and the development of carefully selected indicators and measures to interpret the data obtained.

Emergency planning

CMHC ensures that Business Resumption Plans are in place and tested to ensure effective and timely resumption of normal business operations following a business interruption impacting the Corporation's business operations and commitments to stakeholders, with particular emphasis on restoring mission-critical business functions first.

Human Resources and Skills Development Canadian Centre for Occupational Health and Safety

Strategic Outcome

Canadians will be provided with unbiased occupational health and safety information and services for the prevention of work-related illnesses and injuries.

Program Activity Descriptions

Occupational health and safety information development, delivery services and tripartite collaboration

The goal of this program is to provide free information on occupational health and safety to support Canadians in their efforts to improve workplace safety and health. Citizens are provided information through a free and impartial personalized service via telephone, e-mail, person-to-person, fax or mail. Alternatively, they can independently access a broad range of electronic and print resources developed to support safety and health information needs of Canadians. This may include cost recovery products and services and is supported financially by contributions from various stakeholders.

Health and safety information development

Through this program, the Canadian Centre for Occupational Health and Safety (CCOHS) collects, processes, analyzes, evaluates, creates and publishes authoritative information resources on occupational health and safety for the benefit of all working Canadians. This information is used for education and training, research, policy development, development of best practices, improvement of health and safety programs, achieving compliance and for personal use. Various levels of service are available – from free to purchase of products and services. When the product or service provided by CCOHS is provided to identified external recipients with benefits beyond those enjoyed by the general taxpayer, a user fee is charged.

Intergovernmental and Labour-Management consultation and cooperation

CCOHS promotes and facilitates consultation and cooperation among federal, provincial and territorial jurisdictions and participation by labour, management and other stakeholders in the establishment and maintenance of high standards and occupational health and safety initiatives for the Canadian context. The sharing of resources results in the coordinated and mutually beneficial development of unique programs, products and services. Collaborative projects are usually supported with a combination of financial and non-financial contributions to the programs by stakeholders, and result in advancement of the health and safety initiatives.

Human Resources Development (Social Development)

Strategic Outcome

A Canada where the quality of life and inclusion for seniors is enhanced and poverty alleviated through sustainable public pensions, benefits and supports.

Program Activity Descriptions

Income Support

To provide a basic income for eligible seniors, and the survivors and children of deceased contributors through sustainable public pensions, benefits and supports; develop policies and programs; and undertake evidence-based research and disseminate knowledge to further advance this strategic outcome.

Strategic Outcome

A Canada where the social and economic participation of persons with disabilities is enhanced.

Program Activity Descriptions

Inclusion and Participation

To promote the participation of persons with disabilities in work, learning and their community by providing income security, targeting disability policy and programming and knowledge development and bringing together key partners, stakeholders and other levels of governments to achieve shared program and policy goals.

Strategic Outcome

A Canada where vibrant and inclusive communities meet the social development needs of Canadians.

Program Activity Descriptions

Vibrant Communities

To support capacity needs and non-profit and voluntary organizations across Canada that help people in their communities (seniors, persons with disabilities, children and their families and other vulnerable or excluded populations) to participate in social activities, pursue an active life and contribute to their communities, through the Department's grants, contributions and funding.

Strategic Outcome

A Canada where the capacities of individuals, children, families and communities are strengthened in order to promote social inclusion, participation and well-being.

Program Activity Descriptions

Investments in Children and Families

To provide leadership and income support for early learning, child care and low-income families with children, by working with the provinces/territories, other federal departments, and community experts through negotiating and implementing FPT agreements, sharing information on best practices, research, knowledge development and evaluation.

Human Resources Development (Social Development)

Strategic Outcome

A Canada where service delivery is focused on citizen needs.

Program Activity Descriptions

Service Innovation

Deliver seamless citizen-centred service that is integrated, easy to access, simple to use, tailored for the individual circumstance, efficient and sustainable. This will enhance the integrity of programs by building public trust and confidence and ensuring that the right client receives the right service or benefit at the right time and for the intended purpose.

Enterprise-wide management

Funding for enterprise-wide management is included under Service Innovation. Enterprise-wide management will be not reflected separately in future Main Estimates.

Indian Affairs and Northern Development Department

Strategic Outcome

The Government – Good governance and effective institutions for First Nations, Inuit and Northerners, built on co-operative relationships.

Program Activity Descriptions

Governance

Fostering stronger governance through supporting legislative initiatives, programs and policies and administrative mechanisms that foster stable, legitimate and effective First Nations' governments and Inuit communities that are culturally relevant and accountable to their citizens.

Institutions

Assists First Nations to meet the costs of local and self-government and the administration of departmentally funded services. This support is intended to provide a stable funding base for institutions that are well-populated by First Nations and Inuit, to facilitate effective community governance and the efficient delivery of services.

Co-operative Relationships

Building co-operative and productive intergovernmental and treaty relationships with First Nations and Inuit to optimize the pursuit and attainment of shared objectives; the reconciliation of Aboriginal and other interests through researching, assessing, negotiating and implementing claims and self-government agreements; the furthering of common understanding regarding the historic treaty relationship; and developing legislative and administrative arrangements that reflect evolving governance capacities and relations.

Northern Governance

Supports strengthening northern governments through devolution of province-like responsibilities, effective intergovernmental mechanisms and management of strategic issues, as well as strengthened intergovernmental cooperation internationally on circumpolar issues.

Strategic Outcome

The People – Strengthened individual and family well-being for First Nations, Inuit and Northerners.

Program Activity Descriptions

Managing Individual Affairs

Professionally managing individual First Nations' affairs to ensure that the Minister's responsibilities under the *Indian Act* for trust funds, membership and estates are properly exercised.

Education

Supports the provision of: elementary/secondary education services consistent with provincial programs and standards, contributing to increased levels of educational attainment and improved employability for First Nations and Inuit students; special education directed to improve the quality of education and level of support services for eligible students with special needs that are reasonably comparable with provincial levels of support services; and financial support for status Indians to participate in post-secondary education studies to increase levels of participation, achievements and employability.

Indian Affairs and Northern Development Department

Social Development

Supports the provision of: income assistance to meet basic needs for food, clothing and shelter to ensure the safety and well-being of individuals and families consistent with provincial programs and standards; First Nations' child and family services to improve their well-being and security; assisted living for social support services of a non-medical nature such as in-home care, short term respite care, foster care and institutional care to improve their well-being and security; Family Violence Program to improve safety and security, particularly of women and children at-risk; National Child Benefit Re-investment to support low-income families with children to help prevent or reduce the depth of child poverty; and, other social services to build capacity for First Nations to assume responsibility for, and jurisdiction over social development through policy development, program design and service delivery, to build self-reliant, sustainable, healthy and stable First Nation communities.

Healthy Northern Communities

Supports improvements in the health and well-being of Northerners through grants for hospital and physician services for Indian and Inuit residents in the Northwest Territories and Nunavut, the transportation of nutritious perishable foods and other essential items to isolated northern communities at reduced rates, the conduct of research into the sources and effects of contaminants on the Arctic food chain and initiatives to assist Northerners deal with broad issues such as the impacts of climate change.

Strategic Outcome

The Land – Transferred land title and sustainable use of lands and management of resources by First Nations, Inuit and Northerners.

Program Activity Descriptions

Certainty of Title and Access to Land and Resources

This activity includes: additions to reserve; ensuring clarity of title to facilitate future land transactions through surveys and negotiated agreements; and implementing land transfers under specific and comprehensive claims.

Responsible Federal Stewardship

This activity includes: discharging federal responsibilities to First Nations, such as under the *Indian Act* and the *Indian Oil and Gas Act* and associated regulations; discharging responsibilities and coordinating with other government departments with similar responsibilities, such as Environment Canada; remediating contaminated sites under federal jurisdiction; and collecting and managing Indian monies from land and resources activities.

First Nations Governance over Land, Resources and the Environment

This activity includes: supporting First Nations' in the development of professional and institutional capacity, including working with emerging First Nations' institutions and professional associations; supporting the development of sectoral self-government options and agreements; and working with First Nations to implement such agreements, for instance working jointly with the Lands Advisory Board to implement the *First Nations Land Management Act*.

Northern Land and Resources

Supports the sustainable development of the North's natural resources, emphasizing improved environmental management and stewardship, including the clean-up of contaminated sites, expanding the knowledge base for sound decision-making and improving the effectiveness of the northern regulatory environment.

Indian Affairs and Northern Development Department

Strategic Outcome

The Economy – Increased participation by Aboriginal people and Northerners in the economy.

Program Activity Descriptions

Economic and Employment Opportunities for Aboriginal People

Supports the expansion of existing businesses and employment opportunities and the creation of new economic development activities leading to greater employment opportunities.

Access to Capital and Economic Development

Supports the provision of funding for: comprehensive, specific and special claims settlements or resolution of claims, including statutory payments arising from legislated settlements against the Crown respecting lands and resources; and economic development programs to facilitate access to resources, capital and expertise, and development and implementation of economic development strategies.

Community Infrastructure

Supports the provision of funding for the acquisition, construction, operation and maintenance of: community facilities such as roads, bridges, water and sewer, and administration offices; education facilities, such as schools and teacherages; remediation of contaminated sites on reserve; and on-reserve housing.

Northern Economy

Supports sustainable economic growth of the territorial economies through investments in innovation and knowledge and regional development programming, advocacy and activities, which lead to Northerners participating and benefiting from resource development.

Strategic Outcome

The Office of the Federal Interlocutor.

Program Activity Descriptions

Office of the Federal Interlocutor

Provides capacity support to Métis, non-status Indians and urban Aboriginal Canadians at the national, provincial, regional and urban level to help develop organizational capacity and accountability to their memberships, as well as to build the capacity to form effective partnerships with federal and provincial governments and the private sector in order to participate effectively in Federal Interlocutor-led interdepartmental and intergovernmental initiatives.

Industry Department

Strategic Outcome

A fair, efficient and competitive marketplace.

Program Activity Descriptions

Policy Sector – Marketplace

Development of marketplace framework policy.

Operations Sector – Marketplace

Development of instruments and compliance with the marketplace framework.

Spectrum, Information Technologies and Telecommunications Sector – Marketplace

Development of regulations, policies, procedures and standards governing Canada's spectrum and telecommunications industries and the digital economy.

Chief Information Office – Marketplace

Improve access and strengthen the integrity of the name search system used in corporate and trademark registration by providing Canadians and Canadian businesses with direct on-line access to a Web-based tool for conducting searches.

Office of Consumer Affairs

Promotion and protection of consumer interests.

Competition Bureau

Development of and compliance with marketplace frameworks with respect to competition.

Canadian Intellectual Property Office – Revolving Fund – Special Operating Agency

Granting of intellectual property rights and the dissemination of intellectual property information in order to accelerate Canada's economic development.

Strategic Outcome

An innovative economy.

Program Activity Descriptions

Policy Sector – Science and Technology and Innovation

Development of economic and scientific policy.

Industry Sector – Science and Technology and Innovation

Development of policies and programs that stimulate research and development in order to accelerate commercialization in emerging technologies and priority sectors.

Spectrum, Information Technologies and Telecommunications Sector – Science and Technology and Innovation

Support advanced and applied research within the Canadian information and communications technologies sector for the development of innovative technologies.

Industry Department

Communications Research Centre Canada

To be the centre of excellence for research and development in advanced telecommunications and information technologies, ensuring an independent source of advice for public policy.

Technology Partnerships Canada – Special Operating Agency

Commercialization encouraged through strategic investments in innovative research and development.

Strategic Outcome

Competitive industry and sustainable communities.

Program Activity Descriptions

Policy Sector – Economic Development

Development of industry and international business policy.

Operations Sector – Economic Development

Delivery of programs, information and intelligence on investment and technology opportunities to the business community.

Industry Sector – Economic Development

Development of policies and programs that support global competitiveness and sustainable economic growth in priority sectors and emerging technologies by promoting trade, investment and efficient regulation.

Spectrum, Information Technologies and Telecommunications Sector – Economic Development

Promotes economic development by ensuring that Canadians, communities and businesses have access to reliable modern information and communications technologies infrastructure and the skills needed to fully participate in the digital economy. Enhances entrepreneurship and lifelong learning by fostering the creation of advanced, enabling applications and technologies. Supports the development of a competitive information and communications technologies industry in Canada.

Chief Information Office – Economic Development

Improved on-line service to business and consumer information on behalf of Industry Canada and multi-channel service to businesses on behalf of the Government of Canada.

Industry

Canadian Space Agency

Strategic Outcome

Knowledge, innovation, and economy.

Program Activity Descriptions

Space Based Earth Observation

The program activity objective is to develop and operationalize the use of space Earth observation for the benefit of Canadians, especially in the fields of environment, resource and land use management, as well as security and foreign policy.

Space Science and Exploration

The program activity objective is to better understand the Solar System and the Universe; to seek extraterrestrial habitats for life; and to prepare for permanent human presence on other planets.

Satellite Communications

The program activity objective is to provide all Canadians with the means to participate in and fully benefit from the global information age.

Space Awareness and Learning

The program activity objective is to further public understanding and engagement with regards to space related issues, ultimately leading to improving the scientific literacy of Canadians.

Strategic Outcome

Sovereignty and Security.

Industry

Canadian Tourism Commission

Strategic Outcome

Maximize the contribution to the economy of Canada from the tourism sector by increasing tourism activities in Canada and contributing to the world competitiveness of the Canadian tourism industry.

Program Activity Descriptions

Information

The information program is fundamental to the success of the Canadian Tourism Commission. From a macro perspective, the program is responsible for measuring the importance and the economic value of the amalgam of tourism-related industries that make up the Canadian tourism sector. The program also assesses the performance of the tourism sector and its impact on the Canadian economy in terms of growth in employment, flow of tourists, foreign exchange earnings, tax revenues generated and gross domestic output. This information has proved invaluable in helping the industry increase its status and credibility. The Commission also monitors worldwide developments and trends, determines if they might present challenges or opportunities, and provides advice to industry stakeholders.

From a micro perspective, the information program helps the Canadian Tourism Commission develop and promote innovative tourism products through the identification of new market opportunities and niche-product demands. Information also enables the Canadian Tourism Commission to improve the distribution channels through which travel products reach the consumers.

Marketing and Sales

The marketing and sales program focuses on four major geographical market segments – Canada, the United States, Europe/Latin America and Asia/Pacific - in addition to targeting tourism activities associated with meetings, conventions, and incentive travel. Marketing and sales efforts are based on four pillars: consumer; trade; media and public relations; and the Internet.

The role of marketing and sales at the Canadian Tourism Commission is to increase the awareness and interest in Canada as a four-season destination for each of these markets by: developing competitive strategic programs; building traditional and non-traditional marketing partnerships; working with industry partners to make potential tourists aware of the possibilities for travel in or to Canada; ensuring small operators gain buying power through group marketing activities; and facilitating collaboration between smaller businesses to develop coordinated marketing strategies.

Product Development

The product development program at the Canadian Tourism Commission influences the quality and quantity of diverse and competitive tourism experiences in Canada. Working directly with various stakeholders in the tourism industry, the product development program acts as a catalyst to influence the competitiveness of market-ready product by: obtaining research on product demand and positioning; providing information to make the Canadian tourism product more competitive; encouraging small businesses to develop new products by building partnerships; and providing the venue or vehicle through which market-ready products can be developed.

Industry Copyright Board

Strategic Outcome

Fair decision-making to provide proper incentives for the creation and use of copyrighted works.

Program Activity Descriptions

Hold pre-hearing conferences and conduct hearings

The Board receives tariff applications from collective societies on or before March 31 of the year before the year the tariff is to take effect. When there are objections to a tariff, the Board schedules a hearing and initiates the procedure leading to it. Each procedure involves different degrees of complexity, different number of participants and different requirements for new and original research and data. Procedures will sometimes necessitate holding a pre-hearing conference in order to manage the process or to deal with preliminary procedural issues.

Render decisions

The impact of the decisions of the Board is estimated to be over \$300 million annually. The stakes are considerable both for copyright holders and for users of copyright. Consequently, interventions before the Board are thorough and sophisticated, involving expert witnesses, litigation specialists and detailed econometric, business and financial studies, surveys and evidence. In rendering its decisions, the Board must consider the underlying technologies (such as the Internet, digital radio, satellite communications), the economic issues and the interests of owners and users in order to contribute, with fair and equitable decisions, to the continued growth of this component of Canada's knowledge industries. Sound tariff decisions avoid serious disruption in affected sectors of the national economy and costly and time-consuming court challenges.

Improving the efficiency of the regulatory process

The Board has powers of a substantive and procedural nature. Some powers are granted to the Board expressly in the Act, and some are implicitly recognized by the courts. As a rule, the Board holds hearings. The regulatory process leading to the hearings and ultimately to the decision is always the same. First, the Board publishes in the Canada Gazette the statement of proposed royalties filed by a collective society. The users targeted by the proposal may object to the statement within sixty days of its publication. The collective society and the users have further opportunities to argue their case. After hearing the case, and considering all of the evidence, the Board certifies the tariff and explains the reasons for its decision in writing.

Consultations with key stakeholders

The Board is continuously looking for ways to improve the efficiency of the hearing process by minimizing the overall participants' expenses while ensuring that the process and the tariffs remain fair and equitable. The key partners in this endeavour are the private interest parties who appear before the Board. They are the various collective societies that represent rights owners such as the Society of Composers, Authors and Music Publishers of Canada, the Neighbouring Rights Collective of Canada, the Canadian Private Copying Collective and associations and organizations representing users of works such as the Canadian Association of Broadcasters, hotel and restaurant associations.

Issue licences

Pursuant to section 77 of the *Copyright Board Act*, the Board may grant licences authorizing the use of published works, fixed performances, published sound recordings and fixed communication signals, if the copyright owner cannot be located. The Act requires licence applicants to make reasonable efforts to find the copyright owner. Licences granted by the Board are non-exclusive and valid only in Canada. Since its inception in 1989, the Board has issued 140 licences.

National Research Council of Canada

Strategic Outcome

An innovative, knowledge-based economy for Canada through research and development, technology commercialization and industry support.

Program Activity Descriptions

Research and Development

Research and Development encompasses the department's responsibilities for performing research and development in strategic fields of science and engineering leading to the application of innovative technologies through commercialization and technology transfer in key economic areas.

Technology and Industry Support

Technology and Industry Support encompasses the provision of technology assistance, financial support and commercialization assistance to small and medium-sized enterprises; and the dissemination of scientific, technical and medical information to industry, government and universities.

Industry Natural Sciences and Engineering Research Council

Strategic Outcome

People: Highly skilled science and engineering professionals in Canada.

Program Activity Descriptions

Promote Science and Engineering

This program activity encourages popular interest in science, math and engineering and aims to develop science, math and engineering abilities in Canadian youth.

Support Students and Fellows

This program activity supports training of highly qualified personnel through scholarship and fellowship programs.

Attract and Retain Faculty

This program activity aims to attract and retain faculty.

Strategic Outcome

Discovery: High quality Canadian-based competitive research in the natural sciences and engineering.

Program Activity Descriptions

Fund Basic Research

This program activity invests in discovery through grants focusing on basic research activities.

Fund Research in Strategic Areas

This program activity funds project research of national importance and in emerging areas that are of potential significance to Canada.

Strategic Outcome

Innovation: Productive use of new knowledge in the natural sciences and engineering.

Program Activity Descriptions

Fund University-Industry-Government Partnerships

This program activity fosters collaborations between university researchers and other sectors, including government and industry, in order to develop new knowledge and expertise, and to transfer this knowledge and expertise to Canadian-based organizations.

Support Commercialization

This program activity supports innovation and promotes the transfer of knowledge and technology to Canadian companies.

Industry

Social Sciences and Humanities Research Council

Strategic Outcome

People: A first-class research capacity in the human sciences.

Program Activity Descriptions

Fellowships, Scholarships and Prizes

Social Sciences and Humanities Research Council (SSHRC) offers several award programs for advanced study and research in the social sciences and humanities at the master's, doctoral and post-doctoral level. These programs help train Canada's researchers and the leaders of tomorrow. In addition, SSHRC offers special fellowships to experienced researchers and supplementary awards to outstanding doctoral and post-doctoral fellowship recipients. Finally, two commemorative prizes recognize the extraordinary dedication and creativity of Canada's best researchers.

Canada Research Chairs

In 2000, the Government of Canada allocated \$900 million to establish 2,000 research professorships – Canada Research Chairs – in universities across the country. Chair holders advance the frontiers of knowledge in their fields, not only through their own work, but also by teaching and supervising students and coordinating the work of other researchers. By helping Canadian universities and their affiliated research institutes and hospitals become world-class centres of research and research training, the Canada Research Chairs Program contributes to enhancing Canada's competitiveness in the global, knowledge-based economy, improving Canadians' health, and enriching our social and cultural life. Specifically, the program also seeks to: strengthen research excellence in Canada and increase Canada's research capacity by attracting and retaining the best researchers; improve the training of highly qualified personnel through research; improve universities' capacity to generate and apply new knowledge; and promote the best possible use of research resources through strategic institutional planning, and through collaboration among institutions and between sectors.

Strategic Outcome

Research: New knowledge based on excellent research in the human sciences.

Program Activity Descriptions

Investigator-framed Research (theme area and subject defined by researcher(s))

SSHRC research grants support individual and team projects and programs of research for which the applicant(s) proposes/propose the research topic and methodology. These range from individuals or small groups working in libraries and archives to large, multidisciplinary, collaborative projects with researchers, partners and assistants conducting fieldwork across the country.

Targeted Research and Training Initiatives

SSHRC develops and funds programs to support strategic research programs, both on its own and in partnership with other fund providers, including government, private and community organizations. These programs generate new knowledge on pressing social, economic and cultural issues of particular importance to Canadians. One particular stream of strategic programs supports research that will contribute to the better understanding of the impacts of the "knowledge-based economy" on Canada's economic, social, political and cultural life, and will help to improve Canadians' ability to influence the future for the common good.

Strategic Research Development

Strategic grants through programs in this program activity are available to faculty, post-secondary institutions, scholarly associations and non-profit organizations to explore, develop and define new perspectives, challenges, and priorities in conducting research, disseminating research results, and training new researchers. Strategic research development programs also help develop related research capacity through the promotion of new modes of research collaboration and partnerships.

Industry

Social Sciences and Humanities Research Council

Strategic Outcome

Knowledge mobilization: The transfer, dissemination and use of human sciences knowledge.

Program Activity Descriptions

Research Communication and Interaction

Programs in this program activity support the communication and dissemination of research results to both academic and broader audiences through both traditional and innovative mechanisms.

Strategic Outcome

Institutional environment: A strong canadian science and research environment.

Program Activity Descriptions

Indirect Costs of Research

In Canada, the provincial and federal governments jointly support academic research. The provinces provide the basic physical infrastructure and, supported in part by the Canada Health and Social Transfer, the direct and indirect operating costs. The federal government funds the direct costs of research, mainly through the three national research granting agencies – the Canadian Institutes of Health Research, the Natural Sciences and Engineering Research Council, and the Social Sciences and Humanities Research Council. The term “indirect costs” refers to the central and departmental administrative costs that institutions incur to support research, but that are not attributable to specific research projects.

In its 2003 budget, the Government of Canada announced a new program to support the indirect costs associated with the conduct of academic research in institutions that receive research grant funds from any of the three federal granting agencies. This grant program recognizes the growing indirect costs of conducting publicly funded academic research. The program was created to help post-secondary institutions maximize the investments in research in one of two ways: secure additional support for the indirect costs of conducting research or support their mandates to teach and provide community services. By financing a portion of the indirect costs incurred by post-secondary institutions and their affiliated research hospitals and institutes, the federal government both supports world-class research facilities and addresses the needs of smaller Canadian post-secondary institutions. The Indirect Costs program is administered by the SSHRC-hosted Canada Research Chairs secretariat on behalf of the three national research granting agencies.

Industry Standards Council of Canada

Strategic Outcome

Efficient and effective voluntary standardization.

Program Activity Descriptions

Accreditation

Conformity assessment is the practice of determining whether a product, service or system meets the requirements of a particular standard. The Standards Council accredits six types of conformity assessment organizations: product certification bodies; testing and calibration laboratories; management systems registration bodies; inspection bodies; auditor course providers; and personnel certification bodies.

The Standards Council accredits organizations that develop standards in Canada. Accredited standards development organizations may submit their standards for approval as National Standards of Canada.

Information

The Standards Council advises federal, provincial and territorial governments, industry organizations and non-governmental bodies on standards and conformity assessment related aspects of trade and regulatory policy. A major focus is to encourage governments and industries to make greater use of the National Standards System in regulatory activities and trade agreements.

The Standards Council offers Canadians the latest and most comprehensive information on standards, technical regulations and conformity assessment in Canada and around the world through its web site, Information and Research Service and On-site Technical Library. The Standards Council also serves as Canada's World Trade Organization and North America Free Trade Agreement Enquiry Point.

Representation

The Standards Council manages Canada's participation in the International Organization for Standardization and the International Electrotechnical Commission, two of the world's most important voluntary standardization bodies, and in regional standards organizations. It also encourages the adoption and application of international standards in Canada.

The Standards Council is also a member of a number of regional and international organizations that are developing agreements to ensure the international acceptance of conformity assessment results.

Industry Statistics Canada

Strategic Outcome

Provide Canadians with objective and non-partisan statistics and statistical products, services and analyses on Canada's economy and society which are relevant, responsive to emerging issues, fulfill legal requirements and are of high quality.

Program Activity Descriptions

Economics Statistics

The Economic Statistics program activity comprises the Business and Trade Statistics Program and the National Accounts and Analytical Studies. Business and Trade Statistics provides information and analysis on the entire spectrum of Canadian economic activity, both domestic and international, through a set of macro-economic statistics and focuses on the business and trade sectors of the Canadian economy. Information includes measures of the value of production, cost structures, commodities produced and consumed, the activities of the various service industries (including financial, insurance, accommodation among others), the flows and stocks of fixed capital assets employed in the economy, the degree of capacity utilization, estimates of planned annual capital expenditure of businesses and governments, and measures of price changes for industrial goods, capital expenditures and construction. In addition, information is provided on measures of change in retail prices, on the science and technology activities of the federal and provincial governments, and on research and development (R&D) in government and other sectors of the economy. The organisation of economic statistics is guided, in a large measure, by frameworks which constitute the Canadian System of National Accounts. The system makes it possible to measure both the current performance and the structural make-up of the Canadian economy by type of economic transaction and by sector. This set of accounts is designed to provide structural and current information on the Canadian economy in direct support of fiscal, monetary, human resource, industrial and international economic policy formulation and adjustment. The System of National Accounts also serves as a framework within which individual statistical series are compared to assess their reliability and as an analytic tool to identify shifts in the economic importance of various sectors.

Social Statistics

The Social Statistics program activity comprises the Social, Institutions and Labour Statistics Program. The Social, Institutions and Labour Statistics Program provides information on the economic and social characteristics of individuals, families and households in Canada, and on the major factors which can contribute to their well-being. It includes measures of household income and expenditure; of employment, unemployment, their associated costs and benefits, labour income and factors affecting labour supply, health and factors influencing it; and information on topics of specific social policy concern. This program also provides information and analysis on the facilities, agencies and systems which are publicly funded to meet the socio-economic and physical needs of Canadians, and on the outcomes of the services which they provide. It encompasses the justice, health care, and education systems as well as cultural institutions and industries, in terms of the nature and extent of their services, and operations, the characteristics of the individual Canadians and families whom they serve, and their impacts on Canadian society. Increasingly, the Agency is attempting to go beyond the institutional orientation of this component, and to try to portray the impacts on Canadians of the activities of the health, education and justice systems.

Industry

Statistics Canada

Census Statistics

The Census Statistics program activity comprises the Census and Demographic Statistics Program. The objective of this activity is to provide statistical information on the Canadian population, its demographic characteristics and conditions, and their changes over time. This activity also provides statistical information from the quinquennial Census of Population. The Census provides benchmark information on the structure of the Canadian population and its demographic, social and economic conditions. It provides the detailed information needed on subgroups of the population and for small geographic areas, which cannot be generated through sample surveys. Estimates of the size of the population and its demographic structure between Censuses, as well as population projections, are dependent on Census information. Population counts and estimates are required to determine electoral boundaries, the distribution of federal transfer payments, and the transfer and allocation of funds among regional and municipal governments, school boards and other local agencies within provinces. Also, every five years, a Census of Agriculture provides data on: number and type of farms; farm operators; business operating arrangements; land and land management practices; capital investments; farm vehicles, machinery and equipment; and hired agricultural labour. Census data serves as a benchmark to agricultural series and also provides the base for the entire Agriculture Survey Program. This activity also provides information on Aboriginal Peoples.

Justice Department

Strategic Outcome

A fair, relevant and accessible justice system that reflects Canadian values.

Program Activity Descriptions

Developing policies and laws

The planning and development of government justice policy dealing with matters within the mandate of the Minister of Justice.

Delivering programs

The design, development and implementation of cost-shared programs and grants and contributions.

Managing and coordinating the strategic policies/priorities function

The coordination and management of the Department's substantive policy agenda and the management of key relationships with policy partners in the federal government, the provinces and territories, and non-government organizations.

Strategic Outcome

A federal government that is supported by effective and responsive legal services.

Program Activity Descriptions

Providing legal advisory and litigation services to government

The provision of legal advisory services to departments and agencies and the supervision, coordination and/or conduct of civil litigation on their behalf.

Providing legislative services to government

The drafting of all government bills and motions to amend; the drafting and examination of most proposed regulations; the official publishing of Acts of Parliament following Royal Assent and related tables; and the updating and consolidation of federal statutes and regulations.

Providing prosecution services

The conduct of criminal prosecution, including money laundering and drug prosecutions, and regulatory prosecutions such as those related to income tax, the competition law provisions on telemarketing, customs and immigration. Responding to international requests and trans-national crime and working to combat organized crime and terrorism.

Justice

Canadian Human Rights Commission

Strategic Outcome

Equality, respect for human rights and protection from discrimination by fostering understanding of, and compliance with, the Canadian Human Rights Act and the Employment Equity Act.

Program Activity Descriptions

Foster understanding of and compliance with the Canadian Human Rights Act

Integrated processing of individual human rights complaints filed against federally-regulated employers and service providers. Preventive initiatives and collaborative arrangements within the federal system to promote sound human rights practices in the work-place. Stakeholder outreach, policy research and development, public inquiries, national human rights institution-building and human rights impact assessments of government initiatives.

Employment Equity Audits in federal and federally regulated work places

Ensuring employer compliance with employment equity statutory requirements in the form of an Employment Equity Plan. Ensuring that reasonable efforts and reasonable progress are made towards full representation in accordance with labour market availability. Stakeholder outreach, policy research and development, public inquiries, and employment equity impact assessments of government initiatives.

Program by Activities

Justice

Canadian Human Rights Tribunal

Strategic Outcome

Canadians have equal access to the opportunities that exist in our society through the fair and equitable adjudication of human rights cases that are brought before the Canadian Human Rights Tribunal.

Program Activity Descriptions

Public hearings of cases referred by the Canadian Human Rights Commission (CHRC) relating to complaints of discrimination under the Canadian Human Rights Act

To inquire into complaints of discrimination to decide if particular practices contravened the *Canadian Human Rights Act*.

Review direction given by the CHRC to employers pursuant to the Employment Equity Act

Conduct hearings into requests from employers to review decisions issued to them by the Canadian Human Rights Commission (CHRC) or into applications from the CHRC to confirm directions given to employers.

Program by Activities

(thousands of dollars)	2005–2006 Main Estimates		2004–2005
	Budgetary Operating	Total	Main Estimates
Public hearings of cases referred by the Canadian Human Rights Commission (CHRC) relating to complaints of discrimination under the <i>Canadian Human Rights Act</i>	4,698	4,698	4,278

	4,698	4,698	4,278

*Based on prior year trends, it is not anticipated that any cases under the *Employment Equity Act* will be referred to the Canadian Human Rights Tribunal by the Canadian Human Rights Commission (CHRC). Therefore no funds have been allocated in the 2005-2006 Main Estimates under the program activity called "Review direction given by the CHRC to employers pursuant to the *Employment Equity Act*."

Justice

Commissioner for Federal Judicial Affairs

Strategic Outcome

An independent and efficient Federal Judiciary.

Program Activity Descriptions

Payments Pursuant to the Judges Act

Payments of salaries, allowance and annuities to federally appointed judges, and their survivors, in the superior courts and courts of appeal in Canada.

Canadian Judicial Council

Administrative support to the various committees established by the Council which is made up of all of the Chief and Associate Chief Justices in Canada as well as the senior judges from the superior courts in Nunavut, Yukon and the Northwest Territories.

Federal Judicial Affairs

Provides other services to federally appointed judges including language training, editing of the federal courts reports, and services to the Minister of Justice through the Judicial Appointments Secretariat.

Justice Law Commission of Canada

Strategic Outcome

Canadian law that reflects the needs and values of Canadians and is responsive, effective, equally accessible to all and just.

Program Activity Descriptions

Recommendations on Law Reform

The law is often outdated in its assumptions, policies and prescriptions. Some legal institutions, as well as some legal procedures and practices, have become obsolete or ineffective. Governments require independent, strategic and timely advice on legal policy to assist them in recognizing these deficiencies and finding appropriate remedies. The Law Commission of Canada aims to provide such advice, informed by broad consultation, multidisciplinary expertise and innovative thinking. It offers Canadians a forum in which to present their concerns on issues of law and justice. With insight gained from public consultations, the Commission intends to develop a distinctive perspective from which to cast a critical eye on the law. Its ambition is to make recommendations to orient the law so that it contributes effectively to the collective and individual well-being of Canadians.

Justice

Offices of the Information and Privacy Commissioners of Canada

Strategic Outcome

The protection of the privacy rights of Canadians.

Program Activity Descriptions

Assess and investigate compliance with privacy obligations

The Office of the Privacy Commissioner (OPC) is responsible for investigating complaints and responding to inquiries received from individuals and organizations who contact the Office for advice and assistance on a wide range of privacy-related issues. The OPC also assesses how well organizations are complying with requirements set out in the two federal laws and provides recommendations on Privacy Impact Assessments (PIAs) pursuant to the Treasury Board of Canada policy. This activity is supported by a legal team that provides specialized legal advice and litigation support.

Privacy Issues – Research and Policy

The OPC serves as a centre of expertise on emerging privacy issues in Canada and abroad by researching trends, monitoring legislative and regulatory initiatives, providing analysis on key issues, and developing policy positions that advance the protection of privacy rights. An important part of the work done involves supporting the Commissioner and Assistant Commissioners in providing advice to Parliament on legislation and on government program initiatives that may impact on privacy.

Privacy Education – Promotion and protection of privacy

The OPC plans and implements a number of public education and communications activities, including speaking engagements and special events, media relations, advertising, and the production and dissemination of promotional and educational material.

Strategic Outcome

Individual's rights under the Access to Information Act are safeguarded.

Program Activity Descriptions

Assess, investigate, review, pursue judicial enforcement, and provide advice

The *Access to Information Act* is the legislative authority for the activities of the Information Commissioner and his office. The objectives of the activity are:

- To ensure that the rights and obligations of complainants under the *Access to Information Act* are respected; complainants, heads of federal government institutions and all third parties affected by complaints are given a reasonable opportunity to make representations to the Information Commissioner; and investigations are thorough and timely;
- To persuade federal government institutions to adopt information practices in keeping with the *Access to Information Act*; and
- To bring appropriate issues of interpretation of the *Access to Information Act* before the Federal Court.

National Defence Department

Strategic Outcome

Defend Canada and Canadian interests and values while contributing to international peace and security.

Program Activity Descriptions

Maritime Command

Maritime Command generates and maintains combat-capable, multi-purpose maritime forces to meet Canada's defence capability requirements. Maritime Command will develop, generate and sustain world-class maritime forces while continuing to show leadership and excellence in the defence of Canada and Canadian interests.

Land Forces Command

Land Forces Command generates and maintains combat capable, multi-purpose land forces to meet Canada's defence objectives. Trained and ready for combat, the Army's primary mandate is the defence of Canada and North America. The Army has the skills and capability necessary to respond to a wide variety of potential threats to Canadian security, and is ready to respond to conflict across the globe. The Army is also prepared to assist provincial and territorial authorities with natural disasters in Canadian communities, including earthquakes, floods, storms and forest fires.

Air Command

Air Command generates and maintains combat-capable, multi-purpose air forces to meet Canada's defence capability requirements, including: fighter, long-range patrol, maritime aviation, land aviation, air transport, search and rescue, air demonstration, aerospace support, and contributions to the NATO Airborne Early Warning Force.

Operations

The Deputy Chief of the Defence Staff (DCDS) is the focus for integrated military planning and operations. DCDS exercises command and control of non-routine and contingency operations on behalf of the Chief of the Defence Staff (CDS); ensures the effective production and dissemination of defence intelligence including imagery, geomatics, and meteorological and oceanographic services; maintains operational nuclear, biological and chemical response capabilities; oversees joint responsibilities, such as activities outside Canada, joint capabilities development, joint programs and common doctrine; and provides joint force elements to joint and combined operations.

Communications Security

The Communications Security Establishment provides advice, guidance and services to help ensure the protection of Government of Canada electronic information and information infrastructures. The Communications Security Establishment provides technical and operational assistance to federal law enforcement and security agencies and acquires and provides foreign signals intelligence.

Research and Development

Defence Research and Development Canada facilitates and enhances the ability of decision makers to make informed decisions on defence policy, force generation, and procurement by providing expert scientific and technological knowledge. The Agency contributes to the success of military operations by pursuing Research and Development activities that provide improved support, knowledge, protection, and response to potential threats. It enhances the preparedness of the Canadian Forces by assessing technology trends, threats and opportunities, and by exploiting emerging technologies.

Defence Research and Development Canada contributes to the creation and maintenance of a Canadian defence science and technology industrial capability that is internationally competitive, by contracting out to industry, by transferring technology to industry and by entering into partnerships in which cost and risk are shared. Also, it conducts science and technology projects for clients external to the Department of National Defence (DND), in order to assist the Agency in developing and maintaining its defence-related technological capabilities.

National Defence Department

Information Management

The Information Management Group provides leadership, strategic direction, products and services needed to manage information as a mission critical corporate resource and contributes to the success of Canadian Forces (CF) operations by ensuring commanders and staffs have global access to the knowledge needed to achieve information superiority and to operate the defence organization as one high performing team. The Information Management Group is a support organization whose deliverables support assigned Defence tasks and corporate change initiatives. The Information Management Group strives to balance the continued provision of common and corporate IM/IT services, manages and responds to the risks that threaten the delivery of those services, and advances strategic Information Management Review initiatives.

Human Resources

To provide military and civilian human resource management through the development and implementation of human resource plans, policies and programs to recruit, develop, and retain military and civilian personnel to effectively support the Canadian Forces in operations and meet the defence mission.

Infrastructure and Environment Programs

The Infrastructure and Environment activity is responsible for providing DND/CF with leadership, policy, planning, advice, oversight, support to operations and services in matters of military engineering, realty assets, architecture and engineering, environment, nuclear safety and fire service. This involves advising, developing, setting and implementing policies for the support, delivery, maintenance and management of realty assets, environmental, nuclear safety, fire protection and military engineering matters as well as providing oversight and ensuring fire protection and nuclear safety compliance. Furthermore, this activity is responsible for developing and implementing functional performance measures, and for reporting on how effectively and efficiently realty assets, environmental programs, nuclear safety, fire protection and military engineering matters are being managed across DND/CF, and whether these initiatives meet DND/CF requirements.

This activity is also responsible for developing and facilitating arrangements that enhance the independent arms-length regulation of nuclear activities by the Director General Nuclear Safety (DGNS) as well as providing administrative corporate support for DGNS. DGNS is responsible to the DM and CDS for the regulatory oversight and guidance on all matters related to nuclear activities within DND/CF.

Material Acquisition and Support

The Materiel Group serves the Department of National Defence and the Canadian Forces as a central service provider and authority for all defence materiel and equipment programs. The Group manages equipment through its entire life cycle, which begins with initial concept, moves through procurement, maintenance and support, and ends with disposal. In addition, the Materiel Group provides logistic planning for military operations including transporting troops and equipment, housing them and meeting their needs.

National Defence Canadian Forces Grievance Board

Strategic Outcome

The findings and recommendations of the Canadian Forces Grievance Board are implemented in the Canadian Forces and lead to improvements in the conditions of work.

Program Activity Descriptions

Review Canadian Forces grievances referred by the Chief of the Defence Staff

The Board conducts objective and transparent reviews of grievances with due respect to fairness and equity for each member of the Canadian Forces, regardless of rank or position. It ensures that the rights of military personnel are considered fairly throughout the process and that its Board Members act in the best interest of the parties concerned. The findings and recommendations it issues are not only based in law but form precedents that may facilitate change within the Canadian Forces. Administrative tribunals, such as the Board, provide a mechanism outside the courts for the expeditious resolution of complex and particular matters. Acting independently of the government, tribunals have the power to make decisions through enabling statutes of Parliament. Such powers permit the tribunal to determine the existence and scope of rights and obligations in a particular field of expertise and these are to be exercised in accordance with the public interest and the specific circumstances prevailing in the tribunal's area of activity. As an administrative tribunal designed to review grievances, the Board must ensure that its recommendations comply with the law and can be implemented in accordance with its enabling legislation, relevant human rights legislation and the *Canadian Charter of Rights and Freedoms*. Canadian courts have also rendered several decisions on a wide range of subjects and Board Members must keep abreast of these, as well as the current Queen's Regulations and Orders for the Canadian Forces (QR&O), the Canadian Forces Administrative Orders (CFAO) and Treasury Board policies, all of which are used in the course of analyzing grievances and developing findings and recommendations.

National Defence Military Police Complaints Commission

Strategic Outcome

Independent civilian oversight of Military Police activities to promote the highest standards of conduct as well as the integrity of their investigations.

Program Activity Descriptions

Operations

Monitors and reviews complaints on the conduct of military police members and investigates interference with military police investigation complaints.

Legal Services

Provides legal opinions on any matters of interest to the Commission, legal analysis of reports, advises and represents the Commission on public interest investigations and hearings as well as on five-year legislative review issues.

Natural Resources Department

Strategic Outcome

Canadians derive sustainable social and economic benefits from the assessment, development and use of energy, forest and mineral resources, and have the knowledge to mitigate environmental impacts and respond effectively to natural and man-made hazards.

Program Activity Descriptions

Earth Sciences

The Earth Sciences program activity is an essential component of the science and technology Canadians need to make informed economic, social and environmental decisions. Geomatics Canada, Canada's national mapping agency, provides geographic information of Canada's landmass and offshore including topographic maps and aeronautical charts, legal surveys of Canada Lands, geodesy for accurate positioning, and the archiving and application of earth observation data. The Geological Survey of Canada, Canada's national geoscience agency, works with the provinces and territories to provide the geological information that ensures a competitive investment climate for mineral and petroleum exploration, elucidates groundwater resources, maps the geology of the seafloor, helps reduce the risk posed by natural hazards such as earthquakes, magnetic storms, landslides, and naturally-occurring toxic substances. Earth Sciences also manages horizontal programs in Climate Change Impacts and Adaptation, and GeoConnections; delivers Canada's commitment to monitoring nuclear explosions under the Comprehensive Test Ban Treaty; responds to nuclear emergencies, and provides logistics support to Arctic science through the Polar Continental Shelf Project.

Earth Sciences – Geomatics Canada Revolving Fund

The Geomatics Canada Revolving Fund was established under *Appropriation Act No. 3* in 1993-94. The fund allows Geomatics Canada to shift the costs of offering goods and services from taxpayers at large to specific users who benefit directly from them. This revenue retention mechanism gives Geomatics Canada the ability to recover full costs from Canadian customers and the freedom to charge market prices for international clients. It presents the opportunity to provide an increasing volume of products and services in response to the needs of Canadian clients as well as supporting the Canadian geomatics industry through the knowledge and expertise necessary to be competitive in the international market.

Parliament authorized a total drawdown of \$5,000,000 for the Geomatics Canada Revolving Fund effective March 31, 2002. The projected use of this authority as related to these Estimates is as follows:

	(thousands of dollars)
Anticipated unused authority as of April 1, 2005	8,977
Plus: 2005–2006 Main Estimates – net cash provided	2,356
Anticipated unused authority as of March 31, 2006	11,333

Energy

The Energy program activity fosters the sustainable development and responsible use of Canada's energy resources to meet the present and future needs of Canadians. It focuses on science and technology, policies, programs, knowledge and international activities in the areas of energy efficiency (residential, commercial, industrial, transportation), renewable energy, alternative transportation fuels, and the production of conventional and unconventional fossil fuels to further sustainable development. Through its work, the program activity helps address the climate change challenge; promotes better environmental and consumer choices; works with key industry sectors to establish reduction targets for greenhouse gas emissions; facilitates North American and international trade in energy; contributes to technical innovation, job creation and economic growth; facilitates environmental protection and increased public safety and security; and helps ensure competitively priced, reliable and secure energy supplies for Canadians.

Natural Resources Department

Forest

Through the Forest program activity, Natural Resources promotes the sustainable development of Canada's forests for the social, environmental and economic well-being of present and future generations of Canadians. As the national forest policy coordination and science and technology research agency in Canada, Natural Resources' Canadian Forest Service plays a pivotal role in building consensus on key forest issues; shaping national and international forest policy agendas; enhancing the competitiveness of Canada's forest sector; generating, assembling and disseminating forest information; and developing and transferring knowledge and technologies.

Minerals and Metals

The Minerals and Metals Sector (MMS) has the government lead in promoting the sustainable development and responsible use of Canada's mineral and metal resources. The Sector is a leader in the generation and dissemination of knowledge about the Canadian minerals and metals industries. MMS interacts with a wide range of stakeholders, including its industrial and academic partners, environmental groups, Aboriginal peoples, provincial and territorial governments, other federal departments and agencies, and international organizations. It also collaborates with and provides research services to governmental, institutional and industrial clients (from mining to manufacturing) for the development of innovative technologies with economic, environmental and social benefits to Canadians.

Natural Resources Atomic Energy of Canada Limited

Strategic Outcome

Be the top worldwide nuclear products and services company. Protect the health and safety of the public, our employees and the environment. Minimize nuclear legacy obligations for future generations.

Program Activity Descriptions

Research and Development

Atomic Energy of Canada Limited (AECL)'s nuclear platform research and development program maintains and enhances the CANDU safety, licensing and design basis. In addition, it supports public policy for nuclear technology, develops pre-commercial CANDU technology and preserves the capability and expertise required to address future issues.

Facilities and Nuclear Operations

This program activity supports AECL's operations and requires major facilities such as reactors, experimental loops, hot cells and waste management plants.

Waste Management and Decommissioning

AECL's decommissioning program has the primary long-term focus of addressing historic liabilities, which includes liabilities that were incurred prior to the creation of AECL in 1952. Activities include the stabilization of shutdown facilities, dismantling, decontamination, residual waste storage and disposal. The program is designed to achieve health, safety and environmental protection objectives that are in accordance with Canadian Nuclear Safety Commission regulations.

Commercial Business

AECL, working as a partner with customers, provides value-added products and services in a timely and effective manner. AECL works with utilities to assist with provision of reactor services, technical support and the refurbishment of existing and construction of new plants. This includes design, engineering, special equipment manufacturing and project management.

Program by Activities

(thousands of dollars)	2005–2006 Main Estimates		2004–2005
	Budgetary Operating	Total	Main Estimates
Research and Development	34,480	34,480	34,480

*Waste Management and Decommissioning	29,000
**Commercial Business
	98,838	98,838	127,838

* Waste Management and Decommissioning is funded from the net proceeds of government-funded heavy water sales.

** No funding is provided to the Commercial Business program activity as this activity is self-sustaining.

Natural Resources Canadian Nuclear Safety Commission

Strategic Outcome

Safe and secure nuclear installations and processes used solely for peaceful purposes and public confidence in the nuclear regulatory regime's effectiveness.

Program Activity Descriptions

Nuclear Regulation

Activities at the Canadian Nuclear Safety Commission (CNSC) are undertaken in its role as an independent regulator, to ensure that Canada has safe and secure nuclear installations and processes that are used solely for peaceful purposes. This involves using the powers and tools that are available to the regulator to ensure:

- (a) a low frequency of incidents, accidents and precursors in the use of nuclear substances and processes;
- (b) low levels of exposure, to humans and to the environment, to any harmful substances as a result of nuclear installations and processes;
- (c) a commitment and full engagement of the regulated community to sustain a strong culture of safety and security in the use of nuclear installations and processes; and
- (d) that transfers of nuclear goods and technology in Canada and from Canada are solely for peaceful purposes.

CNSC also must undertake activities that Canadians have knowledge of and confidence in the CNSC as a strong, independent regulator. Canadians will only accept the use of nuclear installations and processes in Canada if they are confident that there are no undue risks to them and to their environment.

Natural Resources Cape Breton Development Corporation

Strategic Outcome

The mandate of the Cape Breton Development Corporation is to conduct the activities necessary for wind-up of the Corporation, fulfilling all remaining obligations, while protecting the owner's interests.

Program Activity Descriptions

Human Resource Obligations

The programs included under Human Resource Obligations are non-discretionary items that the Corporation is required to deliver to former employees. They are ongoing liabilities totalling more than \$350 million in present day value, many of which will continue beyond 20 years. They are a result of Post Employment Benefits and various Human Resource Strategies (operation closure).

Real Property

This activity is divided into sub-activities that deal with the obligations and responsibilities of the Corporation as they relate to Real Property. Programs to manage and satisfy these obligations are in place now, and options are being considered to deal with the best way to take care of ongoing liabilities.

Program by Activities

Natural Resources National Energy Board

Strategic Outcome

Safety, security, environmental protection and economic benefits through regulation of pipelines, power lines, trade and energy development within the National Energy Board's jurisdiction.

Program Activity Descriptions

Energy Regulation and Advice

The companies that are regulated by the Board create wealth for Canadians through the transport of oil, natural gas and natural gas liquids, and through the export of hydrocarbons and electricity. As a regulatory agency, the Board's role is to help create a framework that allows these economic activities to occur when they are in the public interest.

Parliament

The Senate

Strategic Outcome

To enable the Senate to carry out its constitutional role and to administer the affairs of the Senate.

Program Activity Descriptions

Senators and their Offices

Provide Senators with the statutory services set out in the *Parliament of Canada Act* and the *Members of Parliament Retiring Allowances Act*. Operating costs of Senators' offices are provided in accordance with established policies and guidelines.

Costs included under these two categories are: Senators' sessional indemnities and allowances as well as contributions to the Senators' pension plan; retiring allowances; travel and communication expenses; Senators' research and office expenses, including staff costs and the cost of goods and services incurred for the operations of Senators' offices; and Caucus research funds.

Chamber Operations

Provide the support and services Senators require for their work in the Senate Chamber, which includes debate and approval of legislation, presentation of petitions, discussion of Committee reports and ceremonial events. These functions are carried out in accordance with the Rules of the Senate, parliamentary procedure and precedents and the Speaker's rulings.

Costs included under this program activity are: salaries for additional duties of the Officers of the Senate; staff costs and the costs of operating the offices of Officers of the Senate; salaries and other operating expenses of the Clerk of the Senate, Deputy Clerk, Parliamentary Counsel and Usher of the Black Rod; journals, reporting of debates and publications service in both official languages; Senate Pages; and parliamentary exchanges.

Committees and Associations

Provide support for the work of Senators on standing, special and joint committees. Committees are delegated the task of conducting in-depth studies of bills and approving or amending legislation based on testimony from expert witnesses and advice and counsel from legal experts. They investigate policy matters and make recommendations as well as examine the Government's spending proposals.

Senators also participate in parliamentary associations and friendship groups, representing Canada in international forums where issues of importance to Canadians are discussed.

Costs included under this program activity are: committees and parliamentary associations; reporting of debates and publications service; and broadcasting committee proceedings

Administrative Support

Provide the on-going support services required for the effective, efficient and economical delivery of operating programs outlined under the other three business lines of the Senate. Administrative Support provides accommodation and other facilities and tools, information, goods and services, and expert advice on all aspects of operations.

Costs included in this program activity are: financial services and materiel management; human resources; protective services; communications and information services; information technology management; accommodation planning, maintenance and upkeep of premises; postal, messenger and printing services; and repairs, trades and transportation services.

Parliament

House of Commons

Strategic Outcome

Effective administrative and professional support of Members, both individually and collectively, in their roles as legislators and representatives of 308 constituencies, in the Chamber, in committee and in Caucus.

Program Activity Descriptions

Members and House Officers

Members assume the roles of legislators and elected representatives of their constituency. In their constituencies, Members participate in events and activities and discuss with constituents about their concerns. In the Chamber, Members participate in debates, study and vote on legislation. Members sit on standing committees and special or joint committees, since the House of Commons delegates in-depth consideration of bills and the thorough scrutiny of the government's programs and policies to its committees. Members also participate in parliamentary associations and friendship groups, and are members of delegations in parliamentary exchanges. Finally, in caucus, Members develop strategy, discuss policy and examine important issues with fellow party members, and direct the work of party research offices. In addition, some Members assume the functions of House Officers such as: the Speaker, Deputy Speaker, House Leaders, the Whips, and their respective assistants.

House Administration

House employees are responsible for providing services to the Members elected during a Parliament, and in addition, serve the House as an institution on a permanent basis by providing: continuity from one Parliament to another; access to parliamentary records; and a stable infrastructure to support Members in the democratic process. Advice and support are provided in a wide variety of services such as: procedural, legislative, legal, information technology and management, building management, security, food, finances, human resources, health and safety. The staff of the House of Commons strives to represent the institution well and to support the members in their roles as legislators and representatives of 308 constituencies, in the Chamber, in committee and in Caucus.

Parliament Library of Parliament

Strategic Outcome

Parliamentarians make informed decisions on issues of concern to Canadians.

Program Activity

Information, Research and Analysis

To provide parliamentarians with information, research and analysis services that will help them fulfil their roles as members of one or other House, committees and parliamentary associations, and as the representatives of a region or riding. Information is also made available to authorized clients.

Strategic Outcome

Institutional memory of Parliament is preserved for future generations.

Program Activity

Information Resource Management

To design, develop, maintain and promote a varied collection of sources of knowledge, thereby enabling parliamentarians and those who assist them in their work to obtain the information they need.

Strategic Outcome

Canadians gain a better understanding of Parliament.

Program Activity

Public Outreach

To support parliamentarians in their efforts to make Parliament accessible to the public. To provide the public with information about Parliament.

Parliament

Office of the Ethics Commissioner

Strategic Outcome

Enhance public confidence and trust in the integrity of Members of the House of Commons and Public Office Holders as well as the respect and confidence that society places in the House of Commons as an institution.

Program Activity Descriptions

Commission Administration

The Office of the Ethics Commissioner's business is defined through three activities: communications, operations and policy development.

Communications define the strategic direction for the Office of the Ethics Commissioner's liaison with the House of Commons, Parliamentary Committees, members of Parliament and public office holders, as well as external stakeholders.

Operations provides three functions: compliance, provision of confidential advice or opinions and investigation. Compliance encompasses a number of activities such as the confidential disclosure of private interests, the provision of advice, the public disclosure of certain assets, liabilities, activities and gifts, hospitality and benefits, the establishment of blind trusts or blind management agreements and annual reviews. Provision of confidential advice or opinions refers to a formal request from a member of Parliament, public office holder or the Prime Minister with respect to the application of the Conflict of Interest Code for members of the House of Commons or the ethical principles, rules or obligations established by the Prime Minister for public office holders. Investigations may be carried out for members of the House of Commons and for those public office holders who are Ministers, Ministers of State and Parliamentary Secretaries.

The objective of developing appropriate policies and practices is to provide sound and consistent advice to clients with respect to the application of the Conflict of Interest Code for Members of the House of Commons and the Conflict of Interest and Post-employment Code for Public Office Holders.

Privy Council Department

Strategic Outcome

The policy and program agenda of the Government of Canada are well coordinated and the Government is well structured to respond efficiently to the needs of Canadians.

Program Activity Descriptions

Office of the Prime Minister

To provide political advice, information and special services to support the Prime Minister as Head of Government and Chair of Cabinet. This includes liaison with Ministers; issues management; communications; planning and operations related to the international community; and support for certain political responsibilities, including relations with the Government caucus. This activity also includes the costs of operating the Official Residences of the Prime Minister. However, the National Capital Commission is responsible for furnishing, maintaining, heating and repairing the Prime Minister's Official Residences.

Ministers' Offices

Ministers' Offices provide political advice, information and support services to the Leader of the Government in the Senate, the President of the Queen's Privy Council for Canada, the Leader of the Government in the House of Commons, the Deputy Leader of the Government in the House of Commons and the Deputy Leader of the Government in the Senate. This activity includes the Office of the Leader of the Government in the Senate, which manages the Government's legislative program in the Senate and includes the activities of the Deputy Leader of the Government in the Senate; the Office of the President of the Queen's Privy Council for Canada, which supports the President of the Queen's Privy Council in the tasks assigned to him or her by the Prime Minister; the Office of the Leader of the Government in the House of Commons, which is accountable for the management of the Government's legislative agenda and for ensuring the representation of parliamentary concerns in government decision-making; and the Office of the Deputy Leader of the Government in the House of Commons, which supports the management of the Government's legislative agenda and helps to ensure the representation of parliamentary concerns in government decision-making. From time to time, the above Ministers are assigned additional responsibilities, which then become an integrated part of the Ministers' Offices activity. This activity is also responsible for the payment of the salaries and allowances of Ministers of State. The operating budgets for these Ministers of State are reported by their respective departments.

Secretariats and Advisors

Secretariats and Advisors provide public service support to the Prime Minister and Cabinet in the operation of the central policy decision-making process and provide public service advice and information to the Prime Minister in the discharge of his responsibilities as Head of Government and Chair of Cabinet. This also includes providing the necessary public service advice and support to Ministers in the Prime Minister's portfolio. Fulfilling this objective involves working with federal departments and agencies to provide the best non-partisan advice and information. It also involves being attuned to the priorities of Canadians to offer strategic advice in the best interests of the country. The Privy Council Office works with provincial and territorial governments to understand regional issues, and must be knowledgeable about international developments and their implications for Canada. Another aspect of the responsibility of the Privy Council Office activity is to ensure that the Public Service as an institution has the capacity to serve Canadians and their elected representatives in the years ahead. As the responsibilities of government are redefined, the role of this activity is to advise the Prime Minister and other Ministers on priorities for change to enable the Public Service to adapt effectively. As the Secretariat to the Cabinet, the role of the Secretariats and Advisors activity is to provide public service policy information and advice to the Prime Minister, the Cabinet, and Cabinet committees, as well as to Advisory and ad hoc Committees. The Treasury Board, a statutory committee of Cabinet, is supported by another Department – the Treasury Board Secretariat.

Privy Council Department

Strategic Outcome

Subjects that need exposure, investigation or further studies are handled independently from the Government.

Program Activity Descriptions

Commissions of Inquiry, Task Forces and Others

Commissions of Inquiry, Task Forces and Others gather information and report under specific terms of reference or undertake independent projects or studies.

Privy Council Chief Electoral Officer

Strategic Outcome

An electoral process that contributes to fairness, transparency and accessibility for all participants in accordance with the legislative framework.

Program Activity Descriptions

Elections

As an independent agency of Parliament, the Office of the Chief Electoral Officer of Canada administers the federal electoral system within the following legislative framework:

- *Canada Elections Act* – Exercise of general direction and supervision over the administrative conduct of elections, including: the training of federal returning officers; the revision of the boundaries of polling divisions; the acquisition of election material and supplies for transmission to returning officers when required; the issuing of directives; and provision of guidelines to political entities; enforcement of all provisions of the Act; and the making of statutory payments to election officers, auditors, political parties and candidates where specified by the Act. Management of Headquarters operations and of the statutory functions assigned to the Chief Electoral Officer outside of the electoral period. These include the review and study of electoral procedures and election expenses provisions of the Act, the compilation and preparation of statutory and statistical reports and books of instructions for election officers and political entities and the payments of all administrative and statutory accounts.
- *Electoral Boundaries Readjustment Act* – Provision to the ten electoral boundaries commissions of the number of members of the House of Commons to be assigned to each province. Provision of the necessary statistics, maps and other documentation to the ten commissions. Provision of financial support and taxing of all accounts related to salaries and other expenses submitted by the ten commissions.
- *Canada Elections Act as Adapted for the Purposes of a Referendum* – Exercise of general direction and supervision over the administrative conduct of a referendum, including the training of federal returning officers, the revision of the boundaries of polling divisions, and the acquisition of referendum material and supplies for transmission to returning officers. When required, issue of directives and provision of guidelines to referendum committees, enforcement of all provisions of the Act and the making of statutory payments to referendum officers where specified by the Act.

Privy Council
 Commissioner of Official Languages

Strategic Outcome

Compliance and respect of the Official Languages Act by federal institutions subject to it.

Program Activity Descriptions

Investigations

Bring to the attention of federal institutions and other organizations subject to the Act, the need for sustainable solutions to problems relating to the implementation of the *Official Languages Act*, through investigations into complaints and audits and by maintaining a working relationship with these institutions, and to foster voluntary compliance with the Act.

Policy and Communications

Serves as a liaison with the various levels of government agencies and organizations active in the area of official languages. Informs Parliamentarians, government and members of the public of provisions and scope of the Act, and on the role of the Commissioner.

Public Works and Government Services

Strategic Outcome

Quality Services: Departments and Agencies benefit from a range of efficient government-wide central services.

Program Activity Descriptions

Acquisition Services

Acquire goods and services on behalf of the federal government. Manage the supply process by assisting clients with the requirements definition, bid solicitation and evaluation, contract negotiation and administration. Manage all procurement-related aspects of major projects (over \$100 Million). Regional offices carry out Public Works and Government Services (PWGSC) acquisition activities across Canada. PWGSC also maintains offices in the U.S. and Europe principally to service the needs of the military.

Optional Services Revolving Fund

A financial fund that provides specialized services to client departments, such as marine inspection and technical services, management of seized property, travel management, consensus standards and conformity assessment services. Provides disposal services for client departments. Procure vaccines and drugs on behalf of provinces and territories.

Parliament has authorized a total drawdown of \$35,000,000 for the Optional Services Revolving Fund effective March 31, 2002. The projected use of this authority as related to these Estimates is as follows:

	(thousands of dollars)
Anticipated unused authority as of April 1, 2005	35,327
Plus: 2005–2006 Main Estimates – net cash provided
Anticipated unused authority as of March 31, 2006	35,327

Defence Production Revolving Fund

Legacy fund presently unused. Maintained to provide for acquisition services of military supplies in the event of emergency.

Parliament has previously authorized a total drawdown of \$100,000,000 for the Defence Production Revolving Fund. The projected use of this authority as related to these Estimates is as follows:

	(thousands of dollars)
Anticipated unused authority as of April 1, 2005	100,000
Plus: 2005–2006 Main Estimates – net cash provided
Anticipated unused authority as of March 31, 2006	100,000

Federal Accommodation and Holdings

Effective management of real property investment, under the custodianship of PWGSC, in support of the delivery of government programs.

Real Property Services Revolving Fund

The provision, on a fee-for-service basis, of optional real property services to other custodial departments, and to other departments and agencies requesting services over and above those provided under the Federal Accommodation and Holdings Service Line program.

Public Works and Government Services

Parliament has authorized a total drawdown of \$150,000,000 for the Real Property Services Revolving Fund effective March 31, 2002. The projected use of this authority as related to these Estimates is as follows:

	(thousands of dollars)
Anticipated unused authority as of April 1, 2005	150,000
Plus: 2005–2006 Main Estimates – net cash provided
Anticipated unused authority as of March 31, 2006	150,000

Real Property Disposition Revolving Fund

The provision, on a cost recovery basis, of routine disposals of real property assets no longer required in order to generate revenue for the Crown.

Parliament has previously authorized a total drawdown of \$5,000,000 for the Real Property Disposition Revolving Fund. The projected use of this authority as related to these Estimates is as follows:

	(thousands of dollars)
Anticipated unused authority as of April 1, 2005	7,487
Plus: 2005–2006 Main Estimates – net cash provided	9,000
Less: Payment to the Consolidated Revenue Fund	9,000
Anticipated unused authority as of March 31, 2006	7,487

Information Management (IM) / Information Technology Service (IT)

IM/IT Services provides information management and information technology based solutions to the Government of Canada. It also provides infrastructure, design, and leadership to major government-wide service projects.

Telecommunications Services Revolving Fund

Telecommunications services provides network and infrastructure services; voice telecommunications services; satellite services; and managed services. This activity is the only one currently managed through a fully compensatory client paid Revolving Fund.

Parliament has authorized a total drawdown of \$20,000,000 for the Telecommunications and Informatics Common Services Revolving Fund effective March 31, 2002. The projected use of this authority as related to these Estimates is as follows:

	(thousands of dollars)
Anticipated unused authority as of April 1, 2005	41,844
Plus: 2005–2006 Main Estimates – net cash provided
Anticipated unused authority as of March 31, 2006	41,844

Business Integration Services

The Service Integration Branch (SIB) of PWGSC builds and manages, at a high level, the customer relationship between PWGSC and other government organizations in order to support them more effectively to serve Canadians. SIB, in addition to the management of the regions, plays a central role in communicating, building mutual understanding and improving coordination between PWGSC and its customer organizations. SIB provides leadership in acting as a client window to PWGSC, managing customer relations, inter-branch communication, integration of the PWGSC service offerings in response to complex, national client requirements, business opportunity development, and resolution of issues including customer satisfaction. The Service Integration Branch also manages the shared services agenda with respect to Travel Modernization and other services and oversees regional responsibilities for customer organizations.

Public Works and Government Services

Translation and Interpretation to Parliament, Conference Interpretation, Terminology
Translation and Interpretation to Parliament, Conference Interpretation, Terminology.

Translation Bureau Revolving Fund

Provision of translation, technolinguistic and other linguistic services to the judiciary and federal departments and agencies on a cost-recovery basis. Upon request, provision of translation, technolinguistic and other linguistic services to other governments in Canada and international organizations on a cost recovery basis.

Parliament has authorized a total drawdown of \$10,000,000 for the Translation Bureau Revolving Fund effective March 31, 2002. The projected use of this authority as related to these Estimates is as follows:

	(thousands of dollars)
Anticipated unused authority as of April 1, 2005	28,164
Less: 2005–2006 Main Estimates – net cash required
Anticipated unused authority as of March 31, 2006	<u>28,164</u>

Consulting and Audit Canada Revolving Fund

Provide on an optional and fee-for-service basis, consulting and audit services to federal departments and agencies, and upon request, to provincial, territorial, municipal and Aboriginal governments in Canada and to foreign governments and international organizations.

Parliament has authorized a total drawdown of \$20,000,000 for the Consulting and Audit Canada Revolving Fund effective March 31, 2002. The projected use of this authority as related to these Estimates is as follows:

	(thousands of dollars)
Anticipated unused authority as of April 1, 2005	26,630
Plus: 2005-2006 Main Estimates – net cash provided	358
Anticipated unused authority as of March 31, 2006	<u>26,988</u>

Government Information Services

Management of the Government of Canada's communication platform by providing multi-channel access to information on Government programs and services (via 1 800 O-Canada toll free line, Canada.gc.ca web site, Canada Gazette), by promoting government programs and services (via Government Services Marketing and Advertising and Exhibitions Program) and by coordinating the Government of Canada's communications (in the areas of advertising, public opinion research and Crown copyright).

Receiver General Services

Maintain operations for Departmental Financial Management System. Provide optional document-imaging services for departments. Provide optional payment-related printing such as tax information statements and pay statements. Optional services are provided on a cost recovery basis.

Public Service Compensation

Administration of payroll, pension and health/disability insurance processes for public service employees and pensioners. Provision of pension services to the Department of National Defence.

Public Works and Government Services

Strategic Outcome

Sound Stewardship: Canadians benefit from the application of sound stewardship and oversight in the provision of government-wide central services.

Program Activity Descriptions

Supply Operations Stewardship

Acquisition policy; contract quality assurance; professional development; vendor performance and review; and other management and administrative activities to support program delivery.

Real Property Stewardship

Provision of strategic leadership and proactive management of resources and real property assets to support the delivery of government programs.

Information Management (IM) / Information Technology (IT) Stewardship

IT Stewardship provides IT standards, architecture, engineering, security, client interface/relationship, branch program management, strategy and governance.

Business Integration – Performance Management

Establish customer expectations and monitor overall service performance of PWGSC. This will include ensuring that customer satisfaction is effectively measured and that Service Integration Branch (SIB) contributes to service improvement initiatives by bringing a customer perspective to the design of improvements. SIB also coordinates strategies with the regions for integrated service delivery.

Translation Stewardship

Program management, strategy, governance, monitoring and support activities. Also encompasses activities that are necessary to:

- ensure the security of supply of linguistic services to Parliament, the judiciary and the federal government
- foster the development and growth of the Canadian language industry
- ensure the development and dissemination of translation, terminology and technolinguistic standards in Canada
- exercise the role of functional specialist in the translation, terminology, interpretation, linguistic and technolinguistic domains for the other departments and agencies.

Government Information Stewardship

Government Information Stewardship activities provide government-wide strategic management, coordination and monitoring in the areas of advertising, public opinion research, exhibitions, public access to on-line information, publishing, administration of Crown copyright and electronic media monitoring. These activities are detailed in the Government of Canada's communications policy and its associated procedures.

Receiver General Stewardship

Maintain high-quality support for the Consolidated Revenue Fund and the Accounts of Canada (revenue collection, cash management operations, payment services, Public Accounts, Monthly Statement of Financial Operations, Central Accounts).

Public Service Pay Stewardship

Administration of the government's payroll processes. Development and maintenance of computer systems and national service office infrastructure. Training and advice to departmental compensation advisors. Liaison with compensation advisors, Treasury Board Secretariat and insurance companies regarding dental insurance plan.

Public Works and Government Services

Public Service Pension Stewardship

Administration of the government's pension processes. Development and maintenance of computer systems. Provision of advice and training. Provision of insurance services including liaison with pensioners, insurance companies and on occasion, employees. Development of insurance procedural directives and training courses for delivery to the compensation community.

Solicitor General (Public Safety and Emergency Preparedness) Department

Strategic Outcome

Enhance the public safety, security and emergency preparedness of Canadians in an open society.

Program Activity Descriptions

Emergency Management and National Security

This activity includes the following functions: emergency planning, warning and response, including the Government Operations Centre and the Canadian Cyber Incident Response Centre; emergency management policy; national security policy; preparedness and recovery; and Inspector General of Canadian Security Intelligence Service.

Policing and Law Enforcement

This activity includes the following functions: policing policy; law enforcement and border strategies; and development of a comprehensive vision and strategic design to address the integration of public safety information and inter-operability among departments and agencies in Canada.

Community Safety and Partnerships

This activity includes the following functions: national crime prevention strategy; First Nations Policing Policy; and corrections and conditional release policy.

Solicitor General (Public Safety and Emergency Preparedness) Canada Border Services Agency

Strategic Outcome

Canadian society is safe and secure, and its economy is prosperous. Canada's national security will be maintained through our rapid reaction, interception and interdiction of major and immediate threats. Canada receives full social and economic benefits from the free flow of people and goods through secure, open borders. Canadian society is protected through voluntary compliance.

Program Activity Descriptions

Admissibility

Canada Border Services Agency (CBSA)'s Admissibility Program ensures the lawful flow of people and goods, promotes compliance with border legislation and ensures a level playing field for legitimate trade and travel. Program activities include: harmonization of rules and standards with our global partners; providing outreach and client services to inform travellers and business of their rights and obligations under border laws; conducting inspections and supporting the administration of other government department acts and regulations; assessing tariff classifications; administering trade incentives; refusing entry of prohibited importations; collecting duties and taxes; taking anti-dumping and countervailing actions; and carrying out recourse functions.

Enforcement

CBSA's Enforcement Program focuses on preserving the integrity of Canada's borders, and protecting the health and security of Canadians from the movement of inadmissible goods and people. Program activities include: the effective and timely collection, analysis, and distribution of intelligence regarding threats to national security; screening, targeting, interdicting, and deterring inadmissible people and goods; investigating and recommending the prosecution of individuals deemed to have committed offences against legislation; and the detention and removal of people who have no legal right to remain in Canada. It also includes equipping CBSA's workforce with state-of-the-art technology to identify and interdict high-risk people and goods.

Innovation and Technology

CBSA's Innovation and Technology Program focuses on harnessing CBSA's science and technology capacity to improve the delivery of core programs in a timely manner and/or lessen the compliance burden. Program activities include: the design, implementation and maintenance of Smart Border technology and science solutions for improving CBSA's capacity to deliver integrated, innovative, efficient and effective quality services including self-service options, and enabling CBSA's systems capacity to collaborate and share information with program partners.

Solicitor General (Public Safety and Emergency Preparedness) Canadian Firearms Centre

Strategic Outcome

The risks to public safety from firearms in Canada and international communities are minimized.

Program Activity Descriptions

Maximize Public Safety Benefits of the Firearms Act

- Licensing: licensing of individuals to possess and acquire firearms, continuous eligibility screening, analysis and advice in support of Canadian Firearms Centre (CAFC), Chief Firearms Officers and federal agency operations, liaison with the RCMP National Police Service (NPS); licensing of businesses, support to Chief Firearms Officers and Central Processing Site, providing nation-wide client service and response, and providing safety training courses and material.
- Registration: processing of all firearms registration and transfer applications, including registration on import; liaison and support to public agencies, support to law enforcement, liaison with RCMP NPS; nation-wide client service and respons.
- Justice system support: delivery of Canadian Firearms Registry On-line (CFRO) to support policing and crime prevention efforts; production of affidavits on licensing, and registration information to support court proceedings, drafters of legislation and regulations.
- International Initiatives: leading or participation in bilateral (e.g., Canada-U.S.), and international (e.g., United Nations, Organisation of American States) initiatives and reviews related to illegal trafficking in firearms.
- Public outreach: production and dissemination of materials to support program compliance, consultations with stakeholders, demonstration projects via contributions to assess potential new approaches to program delivery, including with Aboriginal Communities and Organizations and other voluntary community or professional groups.
- Border control: monitoring of firearms imported into and exported from Canada through partnership arrangements with the Canada Border Services Agency, the Department of International Trade and others.

Solicitor General (Public Safety and Emergency Preparedness) Correctional Service

Strategic Outcome

Care and Custody.

Program Activity Descriptions

Security

To provide effective management of correctional operations that ensures the safety and security of staff, offenders and the public.

Health Care Services

To provide offenders with essential health care including access to medical, dental and mental health care services that contribute to offender rehabilitation and reintegration into the community.

Institutional Services to Inmates

To provide food, clothing, clean working and living environments and canteen services to offenders that contribute to safe, secure and humane management.

Accommodation Services

To provide suitable accommodation through technical, engineering and maintenance services related to facilities management including the planning, design and implementation of cost-effective construction.

Strategic Outcome

Rehabilitation and Case Management.

Program Activity Descriptions

Case Management

To provide for the assessment, classification, counselling and supervision of offenders both in institutions and in the community.

Program Development and Delivery

To develop and deliver structured correctional interventions that address identified offender needs and contribute to successful reintegration into the community.

Inmate Pay

To provide inmates with approved remuneration in accordance with the level of participation in their correctional plan and to accumulate savings for their release into the community.

Solicitor General (Public Safety and Emergency Preparedness) Correctional Service

CORCAN (SOA)

CORCAN, a Special Operating Agency operating on a cost-recovery basis, provides work opportunities and employability skills to offenders to assist them in finding employment when released to the community.

Parliament has authorized a total drawdown of \$5,000,000 for the CORCAN Revolving Fund effective March 31, 2002. The projected use of this authority as related to these Estimates is as follows:

	(thousands of dollars)
Anticipated unused authority as of April 1, 2005	4,606
Less:	
2005–2006 Main Estimates – net cash required
Anticipated unused authority as of April 1, 2006	4,606

*This program activity is funded through the use of a revolving fund. The Estimates shown in this table refer to the cash requirements for the Fund over the fiscal year and do not directly reflect the operating profit or loss that the Fund will realize, since the latter is calculated on an accrual accounting basis. Therefore, some cash amounts included in the Estimates do not impact upon the operating balance, and certain other items that must be taken into consideration in calculating the profit or loss do not require a direct cash expenditure. The two can be reconciled as follows:

	(thousands of dollars)
Expected operating loss (profit)
Plus:	
Non-cash items included in the calculation of the operating loss	4,300
Less:	
Cash expenditures not included in the calculation of the operating loss:	
Change in working capital	4,300
Total Estimates – net cash required

For further information on the CORCAN Revolving Fund, refer to the departmental Report on Plans and Priorities.

Solicitor General (Public Safety and Emergency Preparedness) National Parole Board

Strategic Outcome

Conditional release decisions that contribute to public protection through safe reintegration of offenders into the community.

Program Activity Descriptions

Conditional Release Decisions

Case review and quality decision-making; provision of support for decision-making; provision of appropriate training to ensure professionalism in all aspects of decision-making; and policy development to guide decision-making and operations.

Strategic Outcome

An open and accountable conditional release process that ensures active involvement and engagement of victims of crime and the public before and after conditional release decisions are made.

Program Activity Descriptions

Conditional Release Openness and Accountability

Provision of information for victims and assistance for observers at National Parole Board (NPB) hearings and those who seek access to NPB's decision registry; public information strategies; and investigation of tragic incidents in the community.

Strategic Outcome

Pardon decisions and clemency recommendations that contribute to public protection and support the process of rehabilitation.

Program Activity Descriptions

Pardon Decisions/Clemency Recommendations

The review of pardon applications and the making of quality decisions to grant or deny pardons; provision of support for pardon decision-making; development of pardon and clemency policy; the collection of pardons revenue; and development of recommendations for clemency.

Office of the Correctional Investigator

Strategic Outcome

The problems of offenders in the federal correctional system are identified and resolved in a timely and reasonable fashion.

Program Activity Descriptions

Oversight of correctional operations

The role of the Office of the Correctional Investigator is to conduct investigations of individual offender complaints regarding acts, omissions, decisions and recommendations of the Correctional Service of Canada. It has, as well, a responsibility to review and make recommendations on the Service's policies and procedures associated with the areas of individual complaints to ensure that systemic areas of complaint are identified and appropriately addressed. Section 19 of the *Corrections and Conditional Release Act* requires that it review all investigations performed by the Service following the death of or serious injury to an inmate. The Office is also engaged in similar monitoring of Use of Force incidents, in keeping with the recommendations of the Arbour Commission.

Solicitor General (Public Safety and Emergency Preparedness) Royal Canadian Mounted Police

Strategic Outcome

Quality federal policing.

Program Activity Descriptions

Federal and International Operations

Provides policing, law enforcement, investigative and protective services to the federal government, its departments and agencies and to Canadians.

Protective Policing Services

Directs the planning, implementation, administration and monitoring of the RCMP National Protective Security Program including the protection of dignitaries, the security of major events and of Special Initiatives including Prime Minister-led summits of an international nature.

Strategic Outcome

Quality contract policing.

Program Activity Descriptions

Community, Contract and Aboriginal Policing

Contributes to safe homes and safe communities by providing police services to diverse communities in eight provinces (with the exception of Ontario and Quebec) and three territories through cost-shared policing service agreements with federal, provincial, territorial, municipal and aboriginal governments.

Strategic Outcome

Quality policing support services.

Program Activity Descriptions

Criminal Intelligence Operations

A national program for the management of criminal information and intelligence in the detection and prevention of crime of an organized, serious or national security nature in Canada, or internationally as it affects Canada.

Technical Policing Operations

Provides policy, advice and management to predict, research, develop and ensure the availability of technical tools and expertise to enable front line members and partners to prevent and investigate crime and enforce the law, protect against terrorism, and operate in a safe and secure environment.

Policing Support Services

Support services provided in support of the RCMP's role as a police organization.

National Police Services

Contributes to safe homes and safe communities for Canadians through the acquisition, analysis, dissemination and warehousing of law enforcement-specific applications of science and technology to all accredited Canadian law enforcement agencies.

Solicitor General (Public Safety and Emergency Preparedness) Royal Canadian Mounted Police External Review Committee

Strategic Outcome

The External Review Committee (ERC) ensures an impartial and independent review of RCMP grievances as well as RCMP appeals in disciplinary, discharge and demotion matters.

Program Activity Descriptions

Timely case review and provision of quality findings and recommendations

The Committee Chair can dispose of matters referred to the Committee either on the basis of the material in the record or following a hearing. In conducting its review of matters referred to it, the Committee attempts to achieve a balance amongst the many complex and different interests involved while ensuring that the principles of administrative and labour law are respected and the remedial approach indicated by the RCMP Act is followed. In each case, the Committee must consider the public interest, and ensure that members of the RCMP are treated in a fair and equitable manner.

Strategic Outcome

The ERC aims to positively influence the manner in which labour relations issues are addressed within the RCMP.

Program Activity Descriptions

Dissemination of information on relevant legal principles

The ERC ensures that its findings and recommendations in each case are clearly explained to the parties and the RCMP Commissioner. Summaries of the findings and recommendations in each case, as well as articles of interest and information on related issues, are distributed widely through a quarterly publication (*Communiqué*), as well as through timely inclusion on the ERC Web site and preparation of the annual report and other documents of government accountability.

Solicitor General (Public Safety and Emergency Preparedness) Royal Canadian Mounted Police Public Complaints Commission

Strategic Outcome

Upholding safe communities through the promotion of Canadian values of respect for human and civil rights, multiculturalism and diversity, equality and fairness, and respect for the rule of law.

Program Activity Descriptions

Civilian oversight of RCMP members' conduct in the performance of their duties

The Royal Canadian Mounted Police Public Complaints Commission is an independent federal agency established in 1988 to review public complaints about the conduct of RCMP members in a fair and impartial manner.

The work of this Commission has to be relevant, on a number of levels. The complaints received, the investigations conducted and the reports written, must all be of the highest quality. The work is only relevant if what is produced can withstand the highest scrutiny, and be understood by both the complainants and the RCMP members involved, while generating meaningful debate about the issues addressed.

With this sustained relevance, the Commission is in a unique position to make an important contribution to the policy responsibility of the Solicitor General (Public Safety and Emergency Preparedness).

The Commission pays close attention to cases involving police conduct related to the treatment of persons in custody, cell deaths, the use of force, the treatment of mentally ill persons, relations between Aboriginal communities and police, and, high-speed police pursuits. Recent developments in anti-terrorism and organized crime legislation and the use of these extraordinary new powers given to the police, are also of tremendous interest to the Commission.

Currently, over 94% of the Commission's adverse findings and recommendations are accepted by the RCMP Commissioner. Commission recommendations are influencing RCMP conduct and national policing policy, one case at a time.

Transport Department

Strategic Outcome

An efficient, integrated, and accessible transportation system.

Program Activity Descriptions

Policies, Programs and Infrastructure in support of a market-based framework

This program activity encompasses the development of transportation policies, legislation, programs and infrastructure support in such a manner that competition and market forces guide the growth and development of the national transportation system, and that a strong and healthy marketplace encourages existing competitors and new entrants to innovate and provide new services to meet the transportation needs of Canadians. Contributing activities under the policy element of this program activity include monitoring and analysis of the Canadian transportation system, annual reporting on the health of the system, economic studies and the development of new policies. Transport Canada also administers airport, port, highway and bridge subsidy programs and performs landlord and monitoring functions for the department for ports, airports and air navigation system sites. Under the infrastructure element of this program activity, Transport Canada negotiates the divestiture of ports, airports and Seaway lands to local interests, and operates airports and ports until their transfer, as well as federally owned remote airports and remote ports.

Jacques Cartier and Champlain Bridges Inc.

Jacques Cartier and Champlain Bridges Incorporated (JCCBI) is a subsidiary of the Federal Bridge Corporation Limited (FCBL), a Crown Corporation that does not receive any appropriations. Surface Programs and Divestiture is responsible to make payments to JCCBI, which is mandated to operate and maintain the Jacques Cartier and Champlain bridges, the federally-owned section of the Honoré-Mercier Bridge, a section of the Bonaventure Expressway, the Melocheville Tunnel, and the Champlain Bridge Ice Control Structure, by carrying out regular and major maintenance work, as required, while providing users of the structures with safe and efficient transits on these infrastructures.

Marine Atlantic Inc.

The objective of Marine Atlantic Inc. is to operate safe, reliable and efficient marine transportation and related services in Atlantic Canada that contribute to the achievement of government objectives. Financial assistance is provided to Marine Atlantic Inc. on the basis of budgeted costs less user revenues for certain ferry services for which Canada has accepted responsibility, particularly those under the Terms of Union and Confederation.

The Crown corporation provides the following services: (a) to meet constitutional obligations (North Sydney - Port aux Basques services); and (b) to provide an alternative to the constitutional services (North Sydney - Argentina).

VIA Rail Canada Inc.

The objective of VIA Rail Canada Inc. is to manage and provide rail passenger services in Canada in such a manner as to improve their safety, efficiency, effectiveness and economy. VIA Rail is responsible, under the Railway Passenger Services Contract with the Minister of Transport, for managing and providing most of the rail passenger services in Canada. VIA Rail must provide the services identified by the Minister in agreements on the basis of budgeted costs less revenues. VIA Rail, in turn, manages, provides and markets services, maintains equipment and contracts with CN and CP Rail for running rights, operation of passenger trains on their rail systems, and other support services. Funds are also provided to VIA Rail for the acquisition and renovation of plant and equipment and other capital investments.

Transport Department

Strategic Outcome

A safe and secure transportation system.

Program Activity Descriptions

Policies, Rule-making, Monitoring and Outreach in support of a safe and secure transportation system

The Safety and Security program activity is responsible for policies, rule-making, monitoring and enforcement, and outreach in support of a safe and secure transportation system. The program activity develops national legislation, regulation and standards, and carries out monitoring, testing, inspection, enforcement, education and developmental activities to promote safety and security in all transportation modes. It also develops emergency preparedness plans and delivers aircraft services to government and other transportation bodies.

Canadian Air Transport Security Authority

This program activity consists of the making of payments to the Canadian Air Transport Security Authority mandated to provide effective and efficient screening of persons who access aircraft or restricted areas through screening points, the property in their possession or control, and the belongings or baggage that they give to an air carrier for transport.

Strategic Outcome

An environmentally responsible transportation system.

Program Activity Descriptions

Policies and Programs in support of sustainable development

Develops and implements programs and policies to protect the natural environment and to achieve a more sustainable transportation system in Canada.

Transport Canadian Transportation Agency

Strategic Outcome

A fair and transparent economic regulatory regime that helps achieve a viable and accessible national transportation system.

Program Activity Descriptions

Economic regulation of the federal transportation system

Economic regulation of air, rail, and marine transportation through the administration of laws, regulations, voluntary codes of practice, educational and outreach programs and through the resolution of disputes. As an independent quasi-judicial administrative tribunal reporting to the Parliament of Canada through the Minister of Transport, the Canadian Transportation Agency makes its decisions independently, on a wide range of matters affecting Canadian transportation.

Program by Activities

Transport Transportation Appeal Tribunal of Canada

Strategic Outcome

To provide the Canadian transportation community with the opportunity to have enforcement and licensing decisions of the Minister of Transport reviewed by an independent body.

Program Activity Descriptions

Review and Appeal Hearings

Provides for the operation of an independent Tribunal to respond to requests from the transportation community for review of enforcement and licensing decisions taken by the Minister of Transport under the *Aeronautics Act*; and to conduct hearings into such appeals. At the conclusion of a hearing, the Tribunal may confirm the Minister's decision, substitute its own decision, or refer the matter back to the Minister for reconsideration.

Strategic Outcome

Rigorous Stewardship of Public Resources to Achieve Results for Canadians.

Program Activity Descriptions

Management and Expenditure Performance: Clear standards for public management and resources aligned to achieve government priorities

This program activity seeks to promote sound public management by defining clear and achievable management expectations for the use of resources, supporting collaborative labour relations, monitoring expenditure performance, aligning resources with government priorities and reporting results to Parliament.

Comptrollership: Financial controls ensuring reliable and transparent reporting of public expenditures

This program activity aims to put in place effective audits, financial and management controls, and oversight and reporting mechanisms. This program activity also aims to provide assurance that value for money is being achieved through investments made with public funds.

Centrally Managed Funds

This program activity provides sound management and administration of central funds related to:

- government contingencies;
- government-wide initiatives; and
- public service pensions, benefits and insurance.

Canada School of Public Service

Strategic Outcome

Public servants have the common learning required to effectively serve Canada and Canadians.

Program Activity Descriptions

Develop, Manage and Disseminate Knowledge Products

To deliver its mandate, the School, through its knowledge and research centres, develops, manages and disseminates leading edge knowledge relevant to its mandate, in order to position itself as an internationally recognized centre of expertise in public administration, public sector management and adult learning.

Manage the Provision of Learning Services

To deliver its mandate, the School, through its learning centres, manages the provision of a wide range of evidence based learning services to meet the common learning needs of public servants, and provides expert advice to departments and agencies on the development of learning strategies and means of creating conditions that allow learning to thrive.

Public Service Human Resources Management Agency of Canada

Strategic Outcome

A modern, professional Public Service.

Program Activity Descriptions

Human Resources Modernization and Accountability

This program is composed of three key result areas:

- 1) Human Resources Planning and Accountability;
- 2) *Public Service Modernization Act* (PSMA) implementation; and
- 3) Organization, Classification and Employment policy.

Representative and Accessible Public Service

This program is composed of two key result areas:

- 1) Employment Equity and Diversity; and
- 2) Official Languages.

Effective, Ethical Leadership and a Quality Work Environment

This program is composed of two key result areas:

- 1) Leadership Development; and
- 2) Public Service Values and Ethics.

Veterans Affairs

Strategic Outcome

Canada's war Veterans, eligible Canadian Forces Veterans and still-serving members, RCMP clients, qualified civilians and their families receive benefits and services in a fair and timely manner.

Program Activity Descriptions

Pensions and Allowances for Disability and Death, and Economic Support

Provide pensions for disability or death and economic support in the form of allowances to: members of the Canadian Forces and Merchant Navy veterans who served in the First World War, the Second World War or the Korean War; certain civilians who are entitled to benefits because of their wartime service; still serving and former members of the Canadian Forces (including those who served in Special Duty Areas) and survivors and dependents of military and civilian personnel.

Health Care Benefits

Veterans Affairs Canada provides treatment and other health-related benefits, Veterans Independence Program benefits and services, and long-term care in its one remaining departmental facility, as well as community or contract facilities, to veterans and other eligible persons.

Program Delivery for Pension and Health Care

Provides the salary and other operating resources for the delivery of the various programs under the above two activities, at head office, regional and district organizational levels. The Program Delivery resources are split approximately equally between the two activities.

Strategic Outcome

Canadians remember and demonstrate their recognition of all those who served in Canada's efforts during war, military conflict and peace.

Program Activity Descriptions

Canada Remembers

The Canada Remembers program activity endeavours to keep alive the achievements and sacrifices made by those who have served Canada in times of war and peace; to engage communities in remembrance of these achievements and sacrifices; and to promote an understanding of their significance in Canadian life as we know it today.

Strategic Outcome

Fair and effective resolution of disability pension and War Veterans Allowance appeals from Canada's war Veterans, eligible Canadian Forces Veterans and still-serving members, RCMP clients, qualified civilians and their families.

Program Activity Descriptions

Veterans Review and Appeal Board

Provides Canada's war veterans, eligible Canadian Forces Veterans and still-serving members, RCMP clients, qualified civilians and their families with full opportunity to request review and appeal hearings to ensure a fair adjudicative process for disability pension and War Veterans Allowance claims.

Total Department		392,692	390,806	1,886

Western Economic Diversification of Canada

Strategic Outcome

Policy, Advocacy and Coordination – Policies and programs that support the development of western Canada.

Program Activity Descriptions

Collaboration and Coordination

Organizing and coordinating meetings, conferences or other events with other levels of government, other federal departments, industry, academia, or the not for profit sector, in order to plan or precipitate actions that result in a greater degree of development and/or diversification of the western economy. This can involve the process of developing policies and programs with other governments or partners, but is distinct from the advocacy activities (below) in that it is more broadly based and less focused on specific issues and near term outcomes. The Assistant Deputy Minister Ottawa office and the Director of Policy play key roles representing the department in Ottawa and coordinating pan-western activities.

Research and Analysis

Preparing and disseminating information that results in an increased understanding of western Canadian challenges, opportunities and priorities, and which provides the factual intelligence necessary to undertake internal or external policy and program development. This can include externally generated research sponsored by Western Economic Diversification (WED) through agencies such as the Canada West Foundation and the Conference Board of Canada; or in-house research and analysis involving economic overviews, environmental scans, analysis of federal or other government documents (such as Budgets and Throne Speeches), and sectoral or issue analysis that support departmental policy, planning or program development.

Advocacy

Organizing and attending meetings (including meetings involving the Treasury Board and Cabinet submission processes), writing correspondence, or taking part in any other communication or engagement activities that promote the interests of western Canada and western Canadians. The activity should facilitate an improved understanding and awareness of regional issues and opportunities that leads to action by the federal government, partners or stakeholders to help achieve a more balanced, regionally sensitive approach to western Canadian priorities, or that results in a greater share of federal program activity or procurement in western Canada. The activity can also involve advocating on behalf of federal government priorities within western Canada.

Strategic Outcome

Sustainable Communities – Economically viable communities in western Canada with a high quality of life.

Program Activity Descriptions

Community Economic Planning, Development and Adjustment

Projects that help communities assess community strengths, weaknesses, opportunities and potential for new economic activity, and to implement community plans. These would not be primarily innovation related. The process involves community-based consultations/facilitation. It also includes: projects that strive to integrate federal programs, services and horizontal initiatives directed towards western Canadian communities, such as community economic development processes and projects, and the Northern Saskatchewan Agreement, etc; projects that support the viability of the local economy, enhance available facilities and/or increase the participation of community members; and projects that assist communities facing severe adjustment impacts due to changing economic circumstances to identify options and responses that will create new economic opportunities, and to help the communities put the plans into effect.

Western Economic Diversification of Canada

Infrastructure

WED delivers the Infrastructure Canada Program (ICP) in Western Canada. The program was developed to meet the government's commitment to Canada's growth and the quality of life of all Canadians. Introduced in 2000, the program provides funding for physical infrastructure and will expire in March 2006. In partnership with provincial, territorial and local governments, First Nations and the private sector, the Infrastructure Canada Program is helping to renew and build infrastructure in rural and urban municipalities across Canada. The ICP is a national initiative, intended to complement and augment the existing capacity of provincial, territorial, and municipal governments to invest in physical infrastructure. It is expected that WED will continue contributing to the renewal of Canada's infrastructure through delivery of the new Municipal Rural Infrastructure Fund and key Canada Strategic Infrastructure Fund projects in the west on behalf of Infrastructure Canada.

Strategic Outcome

Entrepreneurship and Innovation – A competitive and expanded business sector in western Canada and a strengthened western Canadian innovation system.

Program Activity Descriptions

Business Development and Entrepreneurship

WED addresses the needs of small and medium-sized enterprises and entrepreneurs through a variety of service delivery mechanisms and partnerships. These include more than 100 offices of the Western Canada Business Service Network consisting of Community Futures Development Corporations, Women's Enterprise Organizations, Francophone Economic Development Organizations and Canada Business Service Centres. WED has created new and alternative sources of capital for small and medium-sized businesses by working closely with financial institutions to create a specialized series of loan programs under the Loan/Investment Fund Program. These loan programs target industry sectors important to Western Canada, micro lending and targeted groups and provide patient and flexible debt capital on terms especially suited to the unique needs and cash flow requirements of these small businesses. These programs are provided on commercial terms by financial institutions such as chartered banks, credit unions, trust companies, the Farm Credit Corporation and the Business Development Bank of Canada. Each lending institution funds its own program and makes the decision on all loan approvals. WED's strategy in support of trade and investment involves activity in four key areas: research, trade policy, trade promotion and investment attraction. Activities vary from strategic participation in Team Canada missions to taking action when western companies are impacted in trade actions such as the softwood lumber dispute. WED has partnered with other federal departments, the provinces and local organizations to enhance overall support for trade and investment in the west through participation in such organizations as Trade Team Canada Inc., Regional Trade Networks, Provincial Trade Teams and Western Trade Officials. WED funding supports projects that result in industry collaboration, joint venturing and strategic alliances that support entrepreneurial development.

Innovation

WED's innovation focus is on economic development and diversification leading to wealth creation. Innovation is the process through which new economic and social benefits are extracted from knowledge. Through innovation, knowledge is applied to the development of new products and services or to new ways of designing, producing or marketing an existing product or service for the public and private markets. WED's approach to innovation recognizes that innovation occurs at the firm level, through a highly complex interdependent system that includes elements such as knowledge infrastructure, basic and applied research and development, highly skilled people, access to adequate patient financing, technology commercialization facilities, and support systems and mechanisms to link these elements to each other. The process of innovation is not linear or isolated but occurs within a broader context known as an "innovation system". WED's goal is to strengthen the western innovation system in order to facilitate the development of clusters and to enhance the potential of innovation to create value and wealth.
